1. Description of the Plan and benefits

The following description of the Western Dental Services, Inc. 401(k) Plan B (the "Plan"), is provided only for general information. Participants should refer to the Plan agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under Section 401(a) of the Internal Revenue Code. The Plan was established on January 1, 2000 for the benefit of Western Dental Services, Inc. (the "Company" or the "Employer"). John Hancock Life Insurance Company (U.S.A.) (John Hancock USA), the Trustee, is responsible for administering and holding participant directed Plan investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

An employee is eligible for participation in the plan unless their compensation and conditions of employment are established under a collective bargaining agreement, they are a non-resident alien who receives no earned income from services rendered within the United States, they are a leased employee, they are an independent contractor, or they are a highly compensated employee, receptionist, dental assistant, sterilizer, or X-ray technician. Eligible employees are immediately eligible to contribute to the Plan. The Employee may enter the Plan on the first day of the month coincident with or next following the day the employee becomes eligible.

Contributions

Under the terms of the Plan, eligible employees may elect to defer up to 50% of their annual compensation, limited to a maximum amount specified by the Internal Revenue Service, ($17,500 and $17,000 for employees under age 50, and $23,000 and $22,500 for employees age 50 and over, for 2013 and 2012, respectively). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may elect to make a discretionary profit sharing contribution. Employees are eligible to receive discretionary profit sharing contributions immediately after joining the Plan. For the year ended December 31, 2013, the Company did not make a profit sharing contribution.

1. Description of the Plan and benefits - continued

Participant accounts

Each participant's account is credited with the participant's voluntary contributions, employer's discretionary matching contributions, and discretionary profit sharing contributions and allocation of the Plan earnings. Allocations are based on participant earnings, or account balances as defined. The benefit to which a participant ultimately is entitled, is the value of the participant's account, upon separation from the Plan or retirement. Participants select the fund(s) in which they invest.

Vesting

Participants are immediately vested in their matching contributions, plus actual earnings thereon and vesting in the Company's profit sharing or discretionary contributions is based on years of continuous service. A participant is fully vested after six years of continuous service. Vesting schedule is as follows:

Years of Service	Vested %
1	5
2	15
3	30
4	50
5	75
6	100

Notes receivable from participants

Participants may borrow a portion of their 401(k) contributions subject to the Internal Revenue Code regulations. Loans to a participant are secured by the participant's account and may not exceed the lesser of fifty percent of the participant's vested account balance, or $50,000, in the aggregate. The minimum loan amount is $1,000. Loans for purposes other than to acquire a principal residence are not to exceed a term of five years. Loans to acquire a principal residence are not to exceed a term of fifteen years. A participant may not have more than one loan outstanding at a particular time, with a maximum loan balance of one-half of the participant's vested account balance or $50,000, whichever is less.

1. Description of the Plan and benefits - continued

Benefit payments and withdrawals

If a participant's employment ceases as a result of death, the entire account becomes fully vested, and the participant or the participant's beneficiaries, are entitled to receive the contents of the account. If a participant terminates for any other reason, the participant is entitled to receive only the vested percentage of the account. Participants, or their beneficiaries, may elect to receive benefits in a single lump sum or in installments. If the value of the participant's account is less than $5,000, but greater than $1,000, the entire amount can be rolled into an IRA on behalf of the participant or the participant's beneficiaries.

In-service distributions may be made from any of the participant's vested accounts at any time for a hardship. Events that qualify for a hardship withdrawal are as follows: to cover necessary medical expenses, for costs directly related to the purchase of the participant's primary residence, for expenses related to post-secondary education, or for payments necessary to prevent the participant's eviction from, or foreclosure of, the primary residence. If a participant takes a hardship withdrawal, generally all contributions to the Plan will be suspended for six months.

Investment options

The Plan provides a variety of investment options with differing risk and growth characteristics. As of December 31, 2013, substantially all of the Plan's net assets available for benefits were invested in investment funds under the management of John Hancock USA. Participants may change their investment allocation and/or transfer their account balances among the various funds.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all amounts contributed to the Plan shall become 100% vested.

Administrative expenses

For the year ended December 31, 2013, the Plan had incurred administrative expenses of $9,654. These expenses were paid by the Plan and are included in administrative expenses in the accompanying Statement of Changes in Net Assets Available for Benefits. Substantially, all the other out-of-pocket costs are paid by the Employer.

1. Description of the Plan and benefits - continued

Forfeitures

Forfeitures of terminated participants' nonvested accounts arising from Company matching and profit sharing contributions can be used to reduce future Company contributions. During the year ended December 31, 2013, there were no forfeitures used to reduce employer contributions. At December 31, 2013 and 2012, there were no balances in the forfeitures account.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Valuation of investments

The Plan's investments are reported at fair value. Fair value is defined as the price that would be received for an asset, or paid to transfer a liability (an exit price), in the principal or most advantageous market for the asset or liability, in an orderly transaction between market participants, on the measurement date. The standard describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

2. Summary of significant accounting policies - continued

Valuation of investments - continued

If available, quoted market prices are used to value investments. Shares of money market funds and units in registered investment companies are valued at the net asset value of shares held by the Plan at year-end. Guaranteed income funds are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Unrealized gains and losses on investments are calculated from fair value as of the previous Plan year-end, or from cost if acquired during the Plan year, and are included in appreciation in fair value of investments.

See Note 7 for details in the Plan's fair value measurements at December 31, 2013 and 2012, respectively.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued interest.

Contributions

Contributions from the Employer are accrued in the period when earned.

Payment of benefits

Benefits are recorded when paid.

Investment management and administration

The assets of each fund within the Plan are invested under an arrangement with John Hancock USA, the Trustee. All expenses incurred in maintaining the Plan are paid by the Plan unless the Company, at its discretion, elects to pay all or part of these expenses. These expenses include fees of the Plan's Trustee and third-party administrators.

2. Summary of significant accounting policies - continued

New accounting pronouncement

In May 2011, the Financial Accounting Standards Board ("FASB") issued a pronouncement that results in common fair value measurements and disclosures between accounting principles generally accepted in the United States of America and International Financial Reporting Standards. The amendments explain how to measure fair value. They do not require additional fair value measurements and are not intended to establish valuation standards or affect valuation practices outside of financial reporting. The amendments change the wording used to describe fair value measurement requirements and disclosures, but often do not result in a change in the application of current guidance. Certain amendments clarify the intent about the application of existing fair value measurement requirements, while certain other amendments change a principle or requirement for fair value measurement or disclosure. The Plan implemented this standard as of January 1, 2012. The implementation of the pronouncement did not have material effect on the Plan's financial statements.

Subsequent events

The Company has evaluated subsequent events through October 9, 2014, the date which the financial statements were available to be issued.

Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. Investments (unaudited)

The Plan's investments are held in trust by John Hancock USA. Plan investments representing five percent (5%) or more of the Plan's assets at December 31, 2013 and 2012 are as follows:

	2013	2012
Lifestyle Balanced	$ 666,197	$ 751,906
Lifestyle Aggressive	404,708	316,040

For the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought or sold, as well as held during the year) appreciated in value by $719,206 as follows:

Registered investment companies	$ 718,126
Interest on guaranteed income fund	1,080
	$ 719,206

All of the above information, including investment income and expenses included in the financial statements and supplementary information, is unaudited and certified to be complete and accurate by John Hancock USA, the Plan's Trustee, within the meaning of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

4. Income tax status

The Plan is designed to constitute a qualified trust under the applicable sections of the Federal Internal Revenue Code and is, therefore, considered to be exempt from federal income taxes. Participating employees are not subject to federal and state income taxes on employer contributions or on income accruing to their accounts, until they receive distributions from the Plan.

4. Income tax status - continued

Under a plan qualified pursuant to Sections 401(a) and (k) of the Code, participants generally will not be taxed on contributions or matching contributions, or earnings thereon, until such amounts are distributed to participants or their beneficiaries under the Plan. The tax-deferred contributions and matching contributions are deductible by the Company for tax purposes when those contributions are made, subject to certain limitations set forth in Section 404 of the Code.

Participants or their beneficiaries will be taxed, at ordinary income tax rates, on the amount they receive as a distribution from the Plan at the time they receive the distribution. However, if the participant or beneficiary receives a lump sum payment of the balance under the Plan in a single taxable year, and the distribution is made by reason of death, disability or termination of employment of the participant, or after the participant has attained age 59-1/2, then certain special tax rules may be applicable.

A favorable determination letter, with respect to the foregoing matter, has been obtained from the Internal Revenue Service on July 7, 2010. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the application provision of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset), or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

5. Guaranteed interest accounts with insurance company (unaudited)

The Plan has guaranteed interest accounts with John Hancock USA. The accounts guarantee the return of principal, plus compound interest earned over a 3, 5, or 10-year term, less any applicable contract or recordkeeping charges. Interest rates are established on the first day of each calendar month and apply to any regular ongoing contributions. The accounts are held in the John Hancock USA's General Account. The monthly interest rates for the guaranteed interest accounts were between .10% and .75%, and .10% and .40%, at December 31, 2013 and 2012, respectively. The average yield for the guaranteed interest accounts was between .10% and .57%, and .14% and .73%, at December 31, 2013 and 2012, respectively.

Because the guaranteed interest accounts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest account. The guaranteed income fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by John Hancock USA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value, which may include a surrender charge.

Participants may ordinarily direct the withdrawal or transfer of all, or a portion of, their interest account at value. Guaranteed interest accounts totaled $115,963 and $99,158 at December 31, 2013 and 2012, respectively.

6. Notes receivable from participants

At December 31, 2013 and 2012, the Plan had outstanding loans to participants totaling $67,791 and $65,169, respectively. The outstanding loans bear interest of 4.25% and mature through 2028. The unpaid balance of any loan is immediately payable upon termination of employment and may be offset against the participant's vested account.

7. Fair value measurements

The Plan uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. For additional information on how the Plan measures fair value refer to Note 2 - Summary of significant accounting policies. The following table summarizes the assets and liabilities of the Plan for which fair values are determined on a recurring basis:

8. Party-in-interest transactions

The Plan invests in registered investment companies managed by John Hancock USA. John Hancock USA is the Trustee as defined by the Plan, and therefore, these transactions qualify as exempt party-in-interest transactions.

9. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Interfund transfers

There is another Company Plan, referred to as "Plan A". During the year ended December 31, 2013, there were employees whose job classifications ceased to be excluded employees in Plan A. Therefore, their account balances were transferred into Plan A. For the year ended December 31, 2013, total funds transferred to Plan A were $460,522 and no funds were transferred from Plan A.

11. Subsequent event

Subsequent to the year ended December 31, 2013, the Plan was formally amended to require participants to wait six months from taking a hardship withdrawal before requesting another hardship withdrawal. The amendment is effective May 1, 2014.
