Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan sponsor instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Lincoln National Life Insurance Company and John Hancock Life Insurance Company, the insurance companies of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan sponsor that John Hancock Life Insurance Company held the Plan's investment assets and executed investment transactions from January 1, 2013 to December 15, 2013, and that Lincoln National Life Insurance Company held the Plan's investment assets and executed investment transactions as of December 31, 2013, and for the period December 16, 2013 to December 31, 2013. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by John Hancock Life Insurance Company, the insurance company of the Plan. Their report, dated October 10, 2013, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the insurance company, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF THE PLAN

The following description of Medical Specialists of the Palm Beaches, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to their respective employer's adoption agreement for a complete description of the Plan's provisions as it applies to them.

General

The Plan is a defined contribution plan that was established January 1, 1996, to provide benefits to eligible employees of Medical Specialists of the Palm Beaches, Inc. (the Company). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Administration

The Plan is administered by 401k Safe, LLC. The Plan's investment assets were maintained and administered by John Hancock Life Insurance Company from January 1, 2013 to December 15, 2013. Lincoln National Life Insurance Company maintained and administered the Plan's investment assets from December 16, 2013 to December 31, 2013. The Plan's recordkeeping services and maintenance of participant account records were managed by Bates & Company from January 1, 2013 to December 15, 2013. United Retirement Plan Consultants managed the Plan's recordkeeping services and maintenance of participant account records from December 16, 2013 to December 31, 2013.

Eligibility

The Plan covers all employees of the Company who have attained the age of 20 and completed one year of service. The Plan provides for entry dates semi-annually following the satisfaction of the eligibility requirements.

Contributions

Each year, participants may contribute up to 100% of pretax compensation (up to the Internal Revenue Service (IRS) maximum allowable amount), as defined by the Plan. Participants may also contribute, on an after-tax basis, Roth elective deferrals, subject to certain limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. On December 31, 2013, the Plan offered 38 mutual funds, three common collective trust funds, and one guaranteed investment account as investment options to which participants directed their investments. The Company makes a Safe Harbor contribution of 3% of an eligible employee's compensation during each Plan year. In addition, the Company may make a discretionary matching contribution and a qualified nonelective contribution, with total Company matching contributions not to exceed 4% of an eligible employee's Plan compensation. The Company may also make a discretionary profit sharing contribution to each participant. The Company made profit sharing contributions of $856,524 and Safe Harbor contributions of $820,665, for the year ended December 31, 2013. Contributions are subject to certain IRS limitations.

1. DESCRIPTION OF THE PLAN – CONTINUED

Participant Accounts

The Plan maintains separate accounts for each participant. Participant accounts are credited with each participant's elective deferral contributions, Company contributions, and reduced by benefit distributions, investment fees, and any administrative expenses paid by the Plan. Participant accounts are further credited or charged with their pro rata share of the earnings or losses of the total investments in each investment fund.

Vesting

Participants are vested immediately in their elective contributions, any rollover contributions, and Safe Harbor contributions, plus actual earnings thereon. Company discretionary matching and profit sharing contributions vest based on years of continuous service. A participant is 100% vested after six years of credited service. Participants are 100% vested when they become disabled or deceased while still employed by the Company.

Notes Receivable from Participants

Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The interest rate is equal to the current prime rate plus 1% (4.25% at December 31, 2013 and 2012). Loan terms range from one to five years or longer for the purchase of a primary residence. The maximum number of loans a participant may have is two loans outstanding at any particular point in time. The loans are secured by the balance in the participant's account. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a fixed reasonable period of time, not to exceed the life expectancy of the participant. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Hardship Distributions

The Plan permits distributions in the event of a hardship, as defined in the plan agreement. These distributions are taxable and subject to a tax penalty equal to 10% of the hardship distribution amount if the participant is under age 59 ½. Hardship withdrawals are limited to the participant's vested account balance. Participants are not eligible to make contributions to the Plan for six months following a hardship withdrawal.

1. DESCRIPTION OF THE PLAN – CONTINUED

Forfeited Accounts

Forfeited nonvested accounts shall be used to offset Company contributions. In 2013, Company contributions were reduced by $3,465 from forfeited nonvested accounts. As of December 31, 2013 and 2012, there were forfeited nonvested accounts totaling $-0- and $8,314, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts of Lincoln National Life Insurance Company (the insurance company). The statements of net assets available for benefits present the fair value of the investment in the insurance company's contracts, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

The fair value of the Plan's investment in the guaranteed investment contract is primarily based on market values obtained from independent pricing services, quotes by dealers who are market makers in those securities, a pricing service based upon market transactions for normal, institutional-sized trading units of the same or similar securities, or the net asset value per share/unit on the valuation date. Accrued interest, if any, on the underlying investments of the synthetic investment contracts is added to the fair value of the investments for presentation purposes.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the insurance company. See Note 4 for discussion of fair value measurements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants represent loans to participants and are measured at the unpaid principal balance plus any accrued and unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain administrative expenses of the Plan, including custodial fees, investment company fees, and record keeping fees, have been paid by the Plan. Other administrative expenses, including accounting fees, have been paid by the Company. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events and their potential effects on these financial statements through the October 14, 2014, which is the date the financial statements were available to be issued.

3. INVESTMENT INFORMATION

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, and net appreciation in fair value of investments and dividends for the year ended December 31, 2013, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Lincoln National Life Insurance Company and John Hancock Life Insurance Company (the insurance companies).

4. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

4. FAIR VALUE MEASUREMENTS – CONTINUED

- Level 2 – Inputs to the valuation methodology include quoted prices (other than Level 1) for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Pooled separate accounts: The underlying investments consist of mutual funds; domestic and international stocks; fixed securities, such as asset-backed securities, residential mortgage-backed securities, commercial mortgage-backed securities, and corporate bonds; and commercial real estate, including mortgage loans, which are backed by the associated properties. Mutual funds are valued at the net asset value of shares held by the Plan at year end. Common stock and fixed securities are valued at the closing price reported on the active market on which the individual securities are traded. Real estate is valued based on certified appraisals updated daily for changes in factors, such as occupancy levels, lease rates, overall market conditions, and capital improvements. Mortgage loans are valued based on estimated market interest rates for loans of comparable quality and maturity giving consideration to the value of the underlying collateral. The net asset value (NAV) of the separate accounts is not publicly quoted.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

4. FAIR VALUE MEASUREMENTS – CONTINUED

Guaranteed investment account: Valued at the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination, or retirement. Fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceeds crediting rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuations methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

A small portion of the Plan's financial instruments, including Company and participant contributions receivable and notes receivable from participants, are not measured at fair value on a recurring basis. However, these instruments are carried at amounts that approximate fair value due to their liquid, or short-term, nature.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

5. INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Plan has fully benefit-responsive investment contracts with Lincoln National Life Insurance Company (LNL). LNL maintains the contributions in a general account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses charged by LNL. The adjustment included in the statements of net assets available for benefits from fair value to contract value for the investment contracts is based on the contract value as reported by LNL (which represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses). The contract value and the fair value of the investment contracts at December 31, 2013, were $2,780,388 and $2,911,066, respectively.

Because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Plan by the insurance company, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest yield were approximately 2.60% in 2013. The crediting interest rate is based on a formula agreed upon with the issuer. There is no minimum credited rate in the contract. Such interest rates are reviewed on a monthly basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or termination of the Plan, would limit the Plan's ability to transact at contract value with Lincoln National Life Insurance Company. These events would also permit LNL to terminate the contracts and settle at amounts that differ from contract value. The plan administrator does not believe that the occurrence of such events, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

6. PARTY-IN-INTEREST TRANSACTIONS

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Certain Plan investments are shares of common collective trusts and an unallocated insurance company contract managed by Lincoln National Life Insurance Company, and certain administrative fees related to the administration of the Plan were paid by the Plan; these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services and administrative expenses amounted to $70,567 for the year ended December 31, 2013.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. TAX STATUS

The prototype plan sponsor has obtained an opinion letter on March 31, 2014, in which the IRS stated that the prototype plan document was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan administrator timely adopted the prototype plan. The plan administrator believes the Plan is currently being operated in accordance with the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012, to Form 5500:

	2013	2012
