1. Description of the Plan

The following description of the Leviton Manufacturing Co., Inc. Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Leviton Manufacturing Co., Inc. (the "Company"). The Plan provides deferred compensation benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Bank of America N.A. ("BOA") is the trustee and custodian of the Plan. Merrill Lynch, Pierce, Fenner, & Smith, Inc. ("Merrill Lynch"), an affiliate of BOA, is the record-keeper of the Plan. The Plan's trustee, custodian, record-keeper and administrator are appointed by the Company. In anticipation of the January 1, 2014 merger, the assets of Home Automation, Inc. and Obvius Holdings, LLC were transferred into the plan on December 31, 2013. On December 31, 2013, the merged assets of $3,340,080 were treated as an unsettled trade or the Plan's Statement of Net Assets Available for Benefits.

Eligibility

The Plan covers all non-collectively bargained employees as of the first day of the month following the date of hire. Eligibility for all purposes of the Plan has no age limit requirement. The Plan excludes those employees who: (1) are leased employees, as defined, (2) nonresident aliens, (3) employees covered by a collective bargaining agreement, and (4) any individual employed in the capacity or designated as an intern or temporary employee. Participants are eligible to participate in the Company's matching contribution after completing one year of service (see below).

Participant Contributions

The employees may make rollover contributions and voluntary contributions, on a before-tax basis, to be placed into a trust fund for their benefit. Currently, employees are not allowed to make after-tax contributions to the Plan. Each participant may elect to defer up to 30% of his or her eligible compensation, as defined by the Plan.

Participants who do not affirmatively elect to have a specified amount contributed automatically have 3% of their compensation deferred unless they opt-out of the Plan. If a participant does not make an election as to how the Plan should invest their directed account will have a Merrill Lynch fiduciary apply generally accepted investment theories to allocate the assets of that participant's individual account.

1. Description of the Plan (Continued)

Eligible compensation in relation to participant contributions means wages, tips and other compensation on Form W-2, adjusted to include: (a) compensation which is not currently included in the participant's gross income by reason of the application of Internal Revenue Code ("IRC") Section 125 (cafeteria plan), (b) IRC Section 132(f)(4) (qualified transportation fringe), (c) IRC Section 402(e)(3)(401(k) plan), (d) IRC Section 402(h)(1)(B)(simplified employee pension plan), (e) IRC Section 414(h)(employer pickup contributions under a governmental plan), (f) IRC Section 403(b) (tax sheltered annuity) or (g) IRC Section 457(b) (eligible deferred compensation plan). Compensation is also adjusted to exclude reimbursements or other expense allowances, fringe benefits (cash or non-cash), moving expenses, deferred compensation (other than deferrals specified as being included in compensation), and welfare benefits.

Total participant contributions are limited to a maximum of $17,500 for 2013. Additionally, individuals who are at least 50 years of age can make a "catch-up" contribution not to exceed $5,500 for 2013.

Employer Matching Contributions
The Company provides for matching contributions of elective deferrals, after the participant has completed one year of service, of 100% of the first 3% of compensation and 50% of the next 2% of compensation for a maximum of 5% of total compensation, limited to the maximum covered compensation level for the year ended December 31, 2013.

The maximum annual addition for 2013 that may be contributed or allocated to a participant's account under the Plan shall not exceed the lesser of 100% of a participant's compensation or $51,000.

Employer Profit Sharing Contributions
On March 9, 2012, the Company signed a restated and amended adoption agreement so that at its sole discretion it can contribute to the Plan an amount from year to year as a profit sharing contribution.

The profit sharing contribution, if any, will be allocated based on a point system, in which points are allocated based on an eligible employee's years of service with the Company and level of compensation. To share in the profit sharing contribution, an eligible employee must have been employed for the entire year, still be actively employed

1. Description of the Plan (Continued)

Employer Profit Sharing Contributions

on December 31st and was not eligible to receive a distribution from the Company's Long-Term Incentive Plan. The profit sharing contribution, if any, is 100% vested immediately.

The Company elected to make a profit sharing contribution for the 2013 Plan year of $3,000,000 which was invested into the Plan's accounts, in accordance with each Plan participant's instructions, in March 2014.

Rollover Contributions

Rollover contributions are accepted by the Plan from any eligible employee, even if they are not a participant.

Investments

All investment options are participant directed and consist of interest bearing cash, mutual funds and a stable asset fund offered under a common collective trust. Participants may change their investment allocation at any time. Rollover contributions are invested at the election of the participant.

Vesting

Participants are immediately vested in their voluntary and rollover contributions, Company matching and profit sharing contributions and Plan earnings thereon.

Participant Accounts

The Plan administrator establishes and maintains a separate account for each participant, who is credited for rollover and voluntary contributions the participants make, Company matching and profit sharing contributions and Plan earnings. Income earned and net appreciation or depreciation on Plan investments, for a given investment, are allocated in proportion to the participant's account balances in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Each participant may borrow up to the lesser of: (1) 50% of the present value of the participant's vested interest in the account or (2) $50,000. No note shall be less than $1,000 and only one note at a time is allowed.

1. Description of the Plan (Continued)

Notes Receivable from Participants

An outstanding note is repayable, with interest, in full at any time or in monthly installments by means of a payroll deduction from the participant's salary over a term not to exceed five years. However, if the note is for the purchase of a principal residence, the Plan administrator may permit a longer repayment term. The notes are secured by the vested balance in the participant's account, not to exceed 50% of such vested balance. The notes shall bear a reasonable rate of interest as determined by the Plan administrator. The interest rate on notes outstanding at December 31, 2013, ranged from 4.25% to 9.25%. Notes receivable from participants are measured at their unpaid principal balance plus any accrued and unpaid interest. Delinquent notes are treated as distributions based upon the terms of the Plan document.

Retirement

The normal retirement age is defined as when the participant reaches the age of 65. At the normal retirement date, the participant is entitled to 100% of their account balance. The participant can elect late retirement after the age of 65. A participant, who becomes disabled, as defined in the Plan document, is eligible for a disability retirement. There are no early retirement provisions.

Distribution of Benefits

A participant, or a designated beneficiary, is entitled to withdraw the entire vested amount (or in some cases, a portion thereof) within 60 days of the close of the Plan year in the event of normal retirement, death, disability, termination of employment, termination of the Plan, attainment of age 65, or under hardship circumstances, as defined in the Plan document. Distributions are made only in the form of a lump sum distribution.

Terminated employees whose vested balance exceeds $5,000 at termination may elect to leave their account balances in the Plan. Participants must begin receiving Required Minimum Distributions, under Internal Revenue Service ("IRS") guidelines, upon reaching the age of 70 ½. Terminated employees whose vested balances are under $5,000 will be subject to an involuntary distribution.

Administrative Expenses

Administrative expenses may be paid out of the Plan or by the Company. Administrative expenses that are to be paid from the Plan are paid from the Plan's trust funds and allocated to all participants on a pro rata basis. The Company incurred certain administrative expenses relating to the Plan without charge to the Plan during 2013.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on a modified cash basis of accounting, a comprehensive basis of accounting other than generally accepted accounting principles in the United States of America. Under the modified cash basis of accounting transactions are recorded on the basis of cash receipts and disbursements, except that:

- Investments are reported at fair value in the Statements of Net Assets Available for Benefits and changes in fair value of investments are shown as appreciation or depreciation in the Statement of Changes in Net Assets Available for Benefits,
- Purchases and sales of securities are recorded on a trade date basis, and
- Fully benefit-responsive investment contract are valued at contract value as described below.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Putnam Stable Value is an investment contract that is fully benefit-responsive so that in the Statements of Net Assets Available for Benefits it is presented both at fair value and adjusted to its contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for a stable value fund held in a common collective trust that invests in fully benefit-responsive investment contracts, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition
Purchases and sales of securities are reflected on a trade date basis. Interest and dividend income are reflected when received. The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) of the fair value of its investments, which includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefit payments to participants or beneficiaries are recorded upon distribution or when deemed distributed.

Risks and Uncertainties
The Plan provides for various investment options. Investment securities are exposed to various risks including but not limited to, interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Income Tax Status
The Plan is an adoption of a standardized prototype plan that received an IRS opinion letter on March 31, 2008, stating that the prototype plan, as then designed, was then in compliance with the applicable requirements of the IRC. The Company amended the Plan during 2013 to include a profit sharing contribution and a new determination letter is pending. The Plan administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. No provision for income taxes has been included in the financial statements since the Plan has no unrelated business income tax.

3. Plan Termination

Income Tax Status

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and had concluded that as of December 31, 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the IRS, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior through 2009.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

4. Investments

The following table presents the individual investment securities that exceeded 5 percent of the Plan's net assets available for benefits as of December 31, 2013 and 2012:

4. Investments (Continued)

For the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	$	21,678,455
Common collective trusts		859,888
	$	22,538,343

5. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Quoted prices for similar assets and liabilities; quoted prices for identically similar assets or liabilities in markets that are not active and models for which all significant inputs are observable either directly or indirectly.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

5. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Interest-bearing cash and mutual funds: Valued at the daily closing price as reported by the fund. Interest-bearing cash and mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust: Valued at the NAV of units of a trust company's, collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

6. Party-in-Interest Transactions

Certain of the Plan's investments are managed by BOA or its affiliates. Also administrative expenses are paid to BOA or Merrill Lynch. BOA is the Plan's trustee and custodian and Merrill Lynch is the Plan's record-keeper and, therefore, these transactions qualify as parties-in-interest transactions. Also notes receivable from Plan participants qualify as party-in-interest transactions. The above transactions are not, however, considered prohibited transactions under CFR 408 (b) of the ERISA regulations.

7. Unaudited Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by BOA, the Plan's trustee and custodian, as complete and accurate, except for comparing such information certified by BOA to information included in the Plan's financial statements and supplemental schedule:

As of December 31,	**2013**	**2012**
Investments, at fair value	$ 197,907,895	$ 167,211,312
Notes receivable from participants	$ 4,654,809	$ 4,870,063

For the Year Ended December 31, 2013	
Investment income:	
Net depreciation of the fair value on the investments	$ 22,538,343
Dividend income from mutual funds	7,408,556

Interest income on notes receivable from participants	$ 195,514

In addition, the information in the supplemental Schedule of Assets (Held at End of Year) as of December 31, 2013, has been certified by BOA to be complete and accurate.

8. Reconciliation to Form 5500

Net assets available for benefits in the accompanying financial are presented on a contract value basis, however, they are recorded at fair value in the Plan's Form 5500. The following reconciles net assets available for benefits per the financial statements as of December 31, 2013 and 2012, to the Plan's Form 5500, as filed by the Company:

	2013	2012
Net assets available for benefits per financial statements (Modified Cash Basis)	$ 205,309,928	$ 170,619,739

Amounts reported per Form 5500	$ 205,902,784	$ 172,081,375

The following reconciles the net increase in net assets available for benefits per the financial statements for the year ended December 31, 2013, to the Form 5500, as filed by the Company:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through July 31, 2014, which is the date the financial statements were available to be issued.
