NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012 (See Independent Auditors' Report)

NOTE 1 – DESCRIPTION OF PLAN

The following description of the DRYCO Construction, Inc. Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General **–** The Plan is a defined contribution plan that was established on January 1, 2000 covering all eligible employees of DRYCO Construction, Inc. ("the Company" or "Plan Administrator") who are age 21 or older and who have completed one year of service. Employees who are members of a collective bargaining unit and non-resident aliens are excluded from Plan participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). A Plan Committee ("the Committee") manages the operation and administration of the Plan, including the appropriateness of the Plan's investment offerings and investment performance. Plan assets are invested through John Hancock Life Insurance Company (U.S.A.) ("John Hancock"). Wilmington Trust Company and an officer of the Company act as trustees. The Company has contracted with a third party administrator to act as record-keeper to process and maintain the records of participant data.

Contributions **–** Each year, participants may contribute an amount of eligible pre-tax annual compensation as defined in the Plan agreement, not to exceed the maximum statutory amount. Participants who are age 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum statutory amount. Participants may also contribute amounts representing distributions from other qualified eligible plans.

The Company is allowed to make discretionary matching and/or discretionary non-elective contributions under the Plan subject to certain eligibility requirements. No discretionary matching and non-elective contributions were made for 2013.

For work performed under prevailing wage contracts, the amount contributed to the Plan by the Company on behalf of an eligible employee is based on the wage rate and job classification of the employee subject to the Davis-Bacon Act or any federal, state, and municipal "Prevailing Wage Law". The Company's non-elective prevailing wage contribution was approximately $444,000 for 2013.

Participant Accounts **–** Each participant's account is credited or charged with the participant's contribution, the Company's discretionary matching contribution (if any), an allocation of the Company's discretionary non-elective contribution (if

any), an allocation of the non-elective prevailing wage contribution to eligible employees, plan earnings and losses, and plan expenses as applicable to the Plan. Allocations of the discretionary non-elective and non-elective prevailing wage contributions are based on participant compensation. Allocations of plan earnings and losses are based on participant investment choices. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. All contributions/investments are participant directed.

Certain investment and fund fees are charged by the custodian to the funds and are included in plan investment income and losses and charged to participant accounts. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting – Participants are 100% vested in their accounts at all times.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. Two outstanding notes per participant are permitted at any given time. The notes are secured by the balance in the participant's account and bear interest at rates of prime plus 1%. Outstanding notes as of December 31, 2013 and 2012 carry interest rates which range from 4.25% to 9.00%. Principal and interest is paid ratably through payroll deductions. Notes must be repaid within a five-year period, unless it is used for the purchase of a principal residence in which case the maximum repayment period could be longer. The Plan Administrator establishes the specific terms and conditions of such notes.

Payment of Benefits – Upon the satisfaction of certain distributable events, participants or their beneficiaries may elect to receive their vested account balance and are paid in accordance with plan provisions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by John Hancock. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability. As of December 31, 2013 and 2012, there were no excess contributions payable.

Plan Expenses – Plan contract administration expenses are paid by the Plan and charged to participant accounts; the remaining expenses are paid by the Company. Participant note and distribution fees are paid by participants.

Subsequent Events – The Plan has evaluated subsequent events through October 11, 2014, the date the financial statements were available to be issued.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 – CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by John Hancock regarding the current value of assets held at December 31, 2013 and 2012, and transactions entered into during the year ended December 31, 2013, was used in the preparation of the accompanying financial statements and supplemental schedule. Pooled accounts	$810,532

NOTE 5 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled accounts: Units held in pooled accounts are valued using the net asset value ("NAV") of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a pooled account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase, and redemption activity in the fund. Accordingly, the unit value for a pooled account is classified within level 2 of the valuation hierarchy. The Plan invests in the custodian's pooled accounts, which invest in various types of securities. For the pooled accounts there are no unfunded commitments, the units can be redeemed daily, and there is no redemption notice period.

Guaranteed interest account: Valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2013

NOTE 6 – GUARANTEED INTEREST ACCOUNT

The JH Guaranteed Interest Account – 3 year is reported at contract value, which approximates fair value, as reported by John Hancock. The guaranteed account guarantees the return of principal plus compound interest over the 3 year term less any contract or participant-level recordkeeping charges. Guaranteed interest accounts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. The JH Guaranteed Interest Account - 3 year fund is considered not fully benefit-responsive.

The interest rates are established on the first day of each calendar month and apply to any regular ongoing contributions made to the guaranteed account in that month. At the end of each reporting year, a composite rate of interest is determined for each participant's account depending on the amount contributed and the rate in effect on the day it is allocated under the participant's account. The crediting rates for 2013 ranged from 0.10% to 0.29% and the crediting rates for 2012 ranged from 0.12% to 0.55%. The average yield for the guaranteed interest account and the average yield paid to participants for 2013 and 2012 were approximately 0.2% and 0.3%, respectively.

NOTE 7 – PARTY-IN-INTEREST AND RELATED PARTY TRANSACTIONS

Plan investments are managed by John Hancock and are considered party-in-interest transactions under ERISA regulations. Such transactions, while

considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 8 – PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 9 – TAX STATUS

The Plan has adopted a prototype plan, which has received an opinion letter dated March 31, 2008 from the IRS. The Plan has been amended since, however, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities and government agencies. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.
