Note 1—Description of the Plan

The following description of the Burdette Beckmann, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution safe harbor plan covering all employees excluding collectively bargained and non-resident alien employees of Burdette Beckmann, Inc. (the "Company" or the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration of Plan Assets – The Plan is administered by the Company. The Plan's assets are maintained and administered by John Hancock Life Insurance Company (the "Trustee"). The Plan's recordkeeping services and maintenance of participant account records are managed by Bates & Company (the "Recordkeeper").

Eligibility – Employees of the Company who have attained the age of 21 and completed one year of service are eligible to participate in the Plan.

Contributions – Subject to certain limitations, under Internal Revenue Code ("IRC") Section 401(k), participants may contribute up to 100% of their compensation, subject to 2013 annual limits of $17,500 and an additional $5,500 for catch-up contribution for participants that are age 50 or older. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may designate certain contributions into the Plan as Roth elective contributions. Designated Roth contributions will be currently included in the gross taxable income of the participant, while distributions of designated Roth elective contributions and earnings thereon are generally excludable from the participant's taxable income. The Plan is designed to qualify as a Qualified Automatic Contributions Arrangement. Unless specifically elected by the participant, an automatic deferral rate of 6% will be contributed to the Plan on behalf of the participant.

The Company makes discretionary matching contributions equal to 100% of the participant's contribution, up to 1% of eligible compensation plus 50% of the participant's contribution above the 1% up to a maximum of 6% contribution. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. There were no profit sharing contributions for 2013.

Vesting – Participants are fully vested in their elective contributions and any rollover contributions plus or minus any earnings or losses thereon. Participants are 100% vested in safe harbor contributions after two years of service. Participants vest ratably in any discretionary contributions made by the Employer, and the earnings or losses thereon, based on years of continuous service subsequent to entry into the Plan. Participants are 100% vested when they become disabled or deceased while still employed by the Company.

Vesting on the discretionary employer contributions is determined according to the following schedule:

Years of Service	Percent Vested
1 year, but less than 2 years	25%
2 years, but less than 3 years	50%
3 years, but less than 4 years	75%
4 years, but less than 5 years	100%

Note 1—Description of the Plan (continued)

Participant Accounts – Each participant's account is credited and/or reduced with the participant's elective deferral contributions and distributions, the Company's contributions, and an allocation of the Plan's investment earnings/losses and investment fees and any administrative expenses paid out of the Plan. Allocations are based on participant earnings or account balances, as defined by the Plan.

Investment Options – The Plan's assets are held and managed by the Trustee. The participants direct the investment of their account balance and may select from various investment options maintained by the Trustee. Participants may change their investment option selections on any business day as defined by the Plan.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account, or other collateral, and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator and currently ranges from 4.25% to 7.00%. The maximum note repayment period is five years unless the note is for the purchase of a primary residence in which case the repayment schedule may be for a term in excess of five years. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest, which approximates fair value. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Hardship Distributions – Hardship distributions are permitted if the distribution is due to expenses incurred or necessary for medical care described in the IRC Section 213(d), purchase of a principal residence, payment of tuition, to prevent eviction from or foreclosure of the principal residence, or any other condition which the Commissioner of the Internal Revenue Service determines is a deemed immediate and financial need of the participant. Any distributions will be taken first from the participant's pre-tax deferral account and then from the participant's Roth Deferral account.

Payment of Benefits – Upon separation of service due to termination, death, disability, or when the participant attains normal retirement age, a participant or beneficiary may elect to receive a cash distribution equal to their vested account balance, as defined, as a 1) lump-sum payment, 2) a single sum payment of a portion of the account balance, or 3) periodic installments over a period of time to satisfy required minimum distribution rules under the Plan not to exceed the life expectancy of the participant or beneficiary. If a participant's vested account balance does not exceed $5,000, the value of the vested interest in the account will be distributed in a lump-sum. Participants should refer to the Plan document for a full description of the distribution methods offered by the Plan.

Forfeitures – Forfeitures occur when a participant terminates employment and has not fully vested in a portion of the Company contribution amount. Forfeitures of matching contributions are used to reduce the amount that the Company must contribute as a matching contribution. Forfeitures of profit sharing contributions that are not used to pay Plan expenses are reallocated as an additional profit sharing contribution. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $1,720 and $964, respectively. During the year ended December 31, 2013 there were no forfeitures used to reduce employer contributions.

Plan Termination – Although it has not expressed any intent to do so, the Company reserves the right at any time to amend, modify, or terminate the Plan without the consent of any participant or beneficiary subject to the provisions of ERISA. In the event of such termination, the Plan provides that the participants shall become 100% vested in their accounts.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Fair Value of Investments – Investments held by the Plan are recorded at fair value. Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures,* defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction. ASC 820 also establishes fair value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for Plan instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts – These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Money Market Fund – These investments are public investment vehicles valued using $1 for the NAV. The money market funds are classified within Level 2 of the valuation hierarchy.

Note 2—Summary of significant accounting policies (continued)

Guaranteed Interest Accounts – These investments are made by the Plan in an Unallocated Group Fixed Annuity Contract which are invested in the general assets of John Hancock Life Insurance Company who guarantees a fixed interest rate. The NAV for the investment contract is $1. The investment contracts are classified within Level 3 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recognized when earned. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants – Benefits are recorded when they have been processed and paid by the Plan.

Administrative Expenses – Fees and expenses of the Plan for legal, accounting and other administrative services may be paid directly by the Company, or at the Company's discretion, may be paid in whole or in part, out of Plan assets.

Use of Estimates – The preparation of financial statements in conformity with GAAP in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of changes in net assets during the reporting period. Such estimates include those regarding fair value of estimates. Actual results could differ from those estimates.

Note 4—Fair value of investments (continued)

The table below sets forth a summary of changes in fair value of the Plan's Level 3 investment assets for the years ended December 31, 2013:

Beginning fair value	$	109,512
Unrealized/realized gains		208
Purchases		24,648
Ending fair value	$	134,368

The table below represents the Plan's Level 3 investment, the valuation technique used to measure the fair value of the investment, and the significant unobservable inputs and the ranges of values for those inputs.

Investment	Fair Value	Valuation Technique	Unobservable Inputs	Weighted Average
Guaranteed interest accounts	$ 134,368	Discounted cash flow	Risk-adjusted discount rate applied	1.49%

Note 5—Investment contracts with insurance company

The Plan offers non-benefit responsive guaranteed interest accounts of varying terms (3, 5 and 10 years), which are similar in concept to bank certificates of deposit, with a guaranteed interest rate which is credited to contributions for the term of the certificates, provided that contributions are held until the certificate maturity date. A minimum guaranteed interest rate is set by the trustee for each guaranteed interest account, with the yearly minimum guaranteed interest rate never to be less than 0%. The Trustee maintains the contributions in a general account. Principal contributions made are guaranteed and not subject to invasion for any charges or fees under the contract. The account is credited with interest on the underlying investments on a daily basis and charged for participant withdrawals and administrative expenses. The funds are included in the financial statements at market value (contributions plus interest credited, less all applicable charges and fees, market value adjustments, if any, and distributions from the funds) as reported to the Plan by the Trustee. The average yields based on actual earnings for the contract for the years ended December 31, 2013 and 2012, were 1.49% and 1.54%, respectively. The crediting interest rates to participants as of December 31, 2013 and 2012, were 0.54% and 0.26%, respectively.

Note 6—Party-in-interest transactions

Certain Plan investments and the related transactions as of December 31, 2013 and 2012, and for the year ended December 31, 2013, were in investment funds managed by the Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants.

Note 7—Income tax status

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the written form of the underlying prototype document is qualified under Section 401(a) of the IRC, and that any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The underlying standardized prototype plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8—Risk and uncertainties

The Plan provides for various investment options which are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Note 9—Subsequent events

The Plan's management evaluated subsequent events through October 15, 2014, in connection with the preparation of these financial statements, which is the date that the financial statements were available to be issued.
