Note 1. Plan Description

The following description of the KeHE Distributors, Inc. 401(k) Retirement Savings Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan for all eligible nonunion employees of KeHE Distributors, Inc. ("the Company") who are at least age 18. Employees are immediately eligible to participate in the Plan after 30 days of employment. The Plan provides for automatic enrolment upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administrator and Trustee
KeHE Food Distributors, Inc. is the Plan administrator. The trustee of the Plan is Prudential Bank & Trust. An employee of the Company is the administrator and trustee of the participant loan activity.

Contributions
Each year, participants may contribute up to 50% of a participant's compensation pursuant to a deferred salary agreement. Participants may also contribute amounts representing distributions from other qualified retirement plans and certain IRAs (rollovers). Lastly, participants may make after-tax contributions up to 10% of compensation. Total deferrals during the year may not exceed a dollar limit which is set by law. The Company may make matching contributions each year based on participant salary deferral contributions. Additional amounts may be contributed by the Company at the discretion of the Company's Board of Directors. Contributions are subject to certain limitations. The Company did not make any contributions to the Plan during 2013 or 2012.

Participant accounts
Each participant's account is credited with the participant's contributions, Company matching contributions, and allocations of the Company's discretionary contribution, if any, and Plan earnings and charged with an allocation of administrative expenses and Plan losses. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting
Participants are immediately vested in their contributions plus earnings or minus losses thereon. Vesting in the remainder of their accounts is based on years of continuous service. Participant vesting is based on a schedule which provides 20% vesting after two years of service, increasing 20% annually reaching 100% after six years of credited service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

Investment options
Upon enrollment in the Plan, a participant may direct his or her account balance in various investment options as more fully described in the Plan's literature.

Note 1. Plan Description, continued

Participant notes receivable
Participants may borrow from their accounts amounts ranging from $1,000 up to the lesser of 50% of their vested account balance, or $50,000. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes Receivable fund. Loan terms range from 1 to 5 years. The loans are collateralized by the balance in the participant's account and bear interest at the prime rate plus 2%. Interest rates currently range from 4.25% to 10.00%. Principal and interest are paid through payroll deductions.

Payment of benefits
Participants may elect to receive a lump sum equal to the value of the account, substantially equal installments over a period not to exceed life expectancy, partial withdrawals or a joint and 100% survivor annuity. In addition, hardship distributions are permitted if certain criteria are met.

Forfeited accounts
At December 31, 2013 and 2012, forfeited non-vested accounts totaled $78,805 and $74,887, respectively. Forfeitures may be used to pay Plan expenses or to reduce Company contributions at the discretion of the Company's Board of Directors. No forfeitures were used to reduce plan expenses in 2013 or 2012.

Assets held in trust
All assets of the Plan are held by Prudential Retirement Services, an operating division of Prudential Financial. The operations of Prudential Retirement Services are conducted principally through Prudential Retirement Insurance & Annuity Company ("PRIAC"), a wholly owned subsidiary of Prudential Financial. PRIAC is responsible for the custody and investing of the Plan's assets and the payment of benefits to eligible participants. Prudential Bank & Trust Company, a wholly owned subsidiary of Prudential Financial, serves as the trustee for which PRIAC is the record keeper.

Note 2. Significant Accounting Policies

The summary of significant accounting policies is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's trustee and administrator who are responsible for the integrity and objectivity of the financial statements.

Basis of accounting
The financial statements of the Plan have been prepared in accordance with generally accepted accounting principles.

Accounting estimates
The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Note 2. Significant Accounting Policies, continued

Net appreciation (depreciation) in fair value of investments consists of realized gains and losses and the change in unrealized gains and losses in the Plan's investments. Realized gains and losses from the sale of investments are computed using the participant's cost basis in the investment aggregated at the Plan level. Net changes in unrealized appreciation (depreciation) in investments represents the difference between the fair value of investments held at year-end and the cost of investments purchased in the current fiscal year or the fair value of investments held at the end of the preceding year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividend income is recorded on the accrual basis.

Investment in Insurance Contracts
As described in Accounting Standards Codification ("ASC") *962, Plan Accounting-Defined Contribution Pension Plans*, investment contracts held by a defined contribution plan are required to be reported at fair value. The Guaranteed Income Fund is a group annuity contract issued by PRIAC and is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of PRIAC and not on the value of the securities within the insurer's general account. At December 31, 2013 there are no reserves against contract value for credit risk of the contract issuer. Only an event causing liquidity constraints at PRIAC could limit the ability of the Plan to transact at the contract value to be paid within 90 days, or in rare circumstances, the contract value to be paid over time. There are not any events that allow the issuer to terminate the contract and which require the Plan sponsor to settle at an amount different than contract value to be paid either within 90 days or over time. The Plan considers this contract to be benefit responsive.

The Guaranteed Income Fund does not operate like a mutual fund, variable annuity product, or conventional fixed rate individual annuity product. Under the group annuity contract that supports this product, participants may ordinarily direct a permitted withdrawal or transfer of all or a portion of their account balance at contract value, within reasonable timeframes. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Interest is credited on contract balances using the "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of these contributions. The crediting interest rate was 2.40% and 2.75% at December 31, 2013 and 2012, respectively. The average yield rate was 2.40% and 2.75% for the years ended December 31, 2013 and 2012, respectively.

The Guaranteed Income Fund is included at its carrying value in the statements of net assets available for benefits, which approximated its fair value at each of December 31, 2013 and 2012. The contract value of the investment approximates the fair value, due to the nature of the investment contracts not having a fair value adjustment upon discontinuance.

Payment of benefits
Benefits are recorded when paid.

Loans receivable from participants
Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Note 2. Significant Accounting Policies, continued

Operating expenses
Expenses of maintaining the Plan are generally paid by the Company. Participants are charged for certain transactions, such as the processing of a loan or distributions. Investment and transaction-based fees are charged to the Plan and deducted from investment earnings and income. Consequently, these fees are reflected as a reduction of investment return.

Reclassifications
Certain reclassifications have been made in the financial statements for comparative purposes. These reclassifications have no effect on the results of operations or financial position.

Note 3. Fair Value Measurement

ASC 820, *Fair Value Measurement*, provides a framework for measuring fair value. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

The Plan maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the following fair value measurement.

Level 1: quoted prices in active markets for identical assets or liabilities;

Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There was no change in the Plan's investment valuation methodologies as of December 31, 2013 compared to December 31, 2012.

Note 3. Fair Value Measurement, continued

The following table summarizes the fair values of the Plan's investments by measurement method as of December 31, 2013 and 2012 (Level 1, 2 and 3 inputs are described above):

		Fair Value Measurements Using Input:		
December 31, 2013	Fair Value	Level 1	Level 2	Level 3
Shares of pooled separate accounts	$ 29,358,754	$ -	$ 29,358,754	$ -
Mutual funds	57,736,382	57,736,382	-	-
Participant notes receivable	3,581,948	-	-	3,581,948
Prudential Financial, Inc. Guaranteed Income Fund	34,681,275	-	-	34,681,275
	$ 125,358,359	$ 57,736,382	$ 29,358,754	$ 38,263,223
December 31, 2012				
Shares of pooled separate accounts	$ 25,888,164	$ -	$ 25,888,164	$ -
Mutual funds	48,607,886	48,607,886	-	-
Participant notes receivable	3,783,429	-	-	3,783,429
Prudential Financial, Inc. Guaranteed Income Fund	34,021,952	-	-	34,021,952
	$ 112,301,431	$ 48,607,886	$ 25,888,164	$ 37,805,381

The following provides details of fair value measurements using unobservable inputs (level 3):

	Participant Loan Accounts	Guaranteed Income Fund
December 31, 2013		
Beginning balance	$ 3,783,429	$ 34,021,952
Purchases, sales, issuances, and settlements (net)	(201,481)	659,323
Ending balance	$ 3,581,948	$ 34,681,275
December 31, 2012		
Beginning balance	$ 3,614,276	$ 33,435,301
Purchases, sales, issuances, and settlements (net)	169,153	586,651
Ending balance	$ 3,783,429	$ 34,021,952

The Plan's valuation methodology for mutual funds was derived from quoted market prices as these instruments have an active market which results in a Level 1 asset categorization.

The Plan's valuation methodology for pooled separate accounts is measured by the net unit value as reported by PRIAC, which is based on the fair value of the underlying assets of each separate account.

The Plan's valuation methodology for the Guaranteed Income Fund was derived from corroboration of observable market inputs, specifically interest rates offered and the credit worthiness of the issuer which supports their ability to meet its obligations under the investment contract. Based on this assessment, fair value is presumed to approximate contract value which results in a Level 3 asset categorization.

Note 4. Information Certified by the Custodian

The plan administrator has received from the Custodian, as of and for the years ended December 31, 2013 and 2013, certification as to the accuracy and completeness of certain financial information and data in accordance with Section CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. The data certified includes all investments and related investment activity reflected in the accompanying financial statements, except for participant notes receivable and related loan activity.

Note 5. Investments

The following table presents the value of investments as of December 31, 2013 and 2012. Investments representing more than 5% of the Plan's net assets are separately identified.

	$ 125,358,359	$ 112,301,431

Note 6. Related Party Transactions

The shares of pooled separate accounts and the guaranteed interest fund are held by, and are investments of, Prudential, the trustee and custodian of the Plan. Prudential performs certain administrative services for the Plan and, therefore, these transactions qualify as party-in-interest. Plan administrative expenses paid to Prudential by the Plan amounted to $13,600 and $15,550 for the Plan years ended December 31, 2013 and 2012, respectively.

Certain other Plan administrative expenses are paid by the Company. Other Company employees perform administrative services on behalf of the Plan and do not receive compensation from the Plan for their services.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Income Tax Status

Effective April 24, 2002, the Plan adopted a non-standardized form of a prototype plan. The Plan received opinion letters dated March 31, 2008 and April 23, 2002 from the Internal Revenue Service as to the plan's qualified status. The Plan's opinion letter has been relied upon by this Plan, its administrator, trustee and the Company. The Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2013 and 2012:

Change in refunds payable	96,447	16,651
Net change in assets available for benefits, per Form 5500	$ 13,056,928	$ 5,071,444

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11. Subsequent Events

Management has evaluated subsequent events through October 4, 2014, the date which the financial statements were available to be issued.
