Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Flint Energy Services, Inc. 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 3* and notes receivable from participants and related interest income, which was certified by Bank of Oklahoma, N.A. (BOK) the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and notes receivable from participants and executes transactions related to these assets. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2013 and 2012, wherein BOK certifies that the foregoing statement furnished pursuant to 29 CFR 2520.103-5(c) is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As further discussed in *Note 2* to the financial statements, the Plan's sponsor voted on September 8, 2013, to terminate the Plan. In accordance with accounting principles generally accepted in the United States of America, the Plan changed its basis of accounting from the ongoing plan basis used in presenting the 2012 financial statements to the liquidation basis used in presenting the 2013 financial statements. Our report is not modified with respect to this matter.

Other Matter

The supplemental schedule listed in the table of contents is required by the DOL's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974* and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*.

Flint Energy Services, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

Note 1: Description of the Plan

The following description of the Flint Energy Services, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by Flint Energy Services, Inc. (the Company) for the benefit of its employees who have at least three months of service and are age 18 or older. Additionally, the Plan excludes collective bargaining, nonresident alien, leased and reclassified employees. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Bank of Oklahoma, N.A. (BOK) is the trustee and custodian of the Plan. Effective January 1, 2012, the SubOne Technology, Inc. 401(k) Plan was merged into the Plan.

The plan sponsor was acquired by URS Corporation in February 2012. Effective December 31, 2013, the Plan was terminated and merged into two plans of the acquiring company: the URS Corporation 401(k) Retirement Plan and the URS Corporation 401(k) Retirement Plan for Specified Contract Employees. Assets were transferred from the trustee, BOK, in January 2014.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions from 1% up to 75% of eligible compensation. Employee rollover contributions are also permitted. The Company makes safe harbor matching contributions of 100% of employees' salary deferral amounts on the first 3% of employees' compensation plus 50% of each employee's deferral amounts in excess of 3% and up to 5% of the employee's compensation. All safe harbor matching contributions are automatically 100% vested. The Company may also make discretionary profit-sharing contributions as determined by the Company's Board of Directors. No profit-sharing contributions were made in 2013 or 2012. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Flint Energy Services, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

Vesting

Participants are immediately vested in their voluntary contributions and company safe harbor matching contributions plus earnings thereon. Vesting in the Company's pre-safe harbor (prior to January 1, 2009) and discretionary contributions of their account plus earnings thereon is based on years of continuous service. A participant is fully vested after six years of continuous service. The nonvested balance is forfeited upon termination of service.

Payment of Benefits

Upon attaining the age of 59 ½ or upon termination of service, participants may receive a lump-sum amount equal to the value of their account. Upon employee termination, mandatory distributions are required for balances of less than \$5,000. Mandatory distributions above \$1,000 made without the participant's consent are paid in a direct rollover to an individual retirement plan designated by the trustee. For inactive participants who have reached age 70 ½, certain immediate distributions are required.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$445 and \$7,628, respectively. These accounts may be used to reduce company contributions or pay administrative expenses. Also, in 2013 and 2012, company contributions were reduced by \$111,980 and \$107,860, respectively, from forfeited nonvested accounts.

Participant Loans

Participant loans are classified as notes receivable from participants on the accompanying statements of net assets available for benefits. The plan document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loans is the lesser of 50% of the participant's vested account balance or \$50,000 reduced by the highest outstanding loan balance in the prior 12-month period. All loans are secured by the balance in the participant's account and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings. Interest on the loans is based on local prevailing rates as determined by the plan administrator.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

Effective December 31, 2013, the Plan was terminated. The accompanying financial statements were prepared on the liquidation basis of accounting. Prior to this date, the accompanying financial statements were prepared on the accrual basis of accounting. The change had no effect on net assets available for benefits.

Flint Energy Services, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective investment fund. The accompanying statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The accompanying statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds and the money market fund are valued at the net asset value of shares held by the Plan at year-end.

The Plan's investment in units of participation of the collective investment fund is stated at the daily calculated unit value as reported by the funds in which they invest. Investments held by the fund traded in a national investments exchange are valued at the last reported sales price on the last business day of the fund's fiscal year. Investments held by the fund traded in the over-the-counter market and listed investments for which no sales were reported on that date are valued at the last reported bid price. The Plan's investment in the collective investment fund was liquidated in preparation for the transfer as of December 31, 2013.

The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. The Plan's investment in the guaranteed investment contract was liquidated in preparation for the transfer as of December 31, 2013.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at amortized principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Notes to Financial Statements

December 31, 2013 and 2012

Plan Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by BOK. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. With a few exceptions, the Plan is no longer subject to U.S. federal income tax examinations by tax authorities for years before 2010.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan at the Company's discretion.

Note 3: Investments

The Plan's investments are held by a bank administered trust. The Plan's investments (including investments bought, sold and held during the year) appreciated in value as follows:

	Net Appreciation in Fair Value During Year	Value at End of Year
2013		
Mutual funds	\$ 2,955,092	\$ 6,544
Money market fund	-	2,522,487
Collective trust	1,015,470	-
	<u>\$ 3,970,562</u>	<u>\$ 2,529,031</u>
2012		
Mutual funds	\$ 1,485,672	\$ 12,965,979
Collective trust	484,130	5,003,289
Collective investment contract, at contract value	-	2,646,995
Money market fund	-	3,063,653
	<u>\$ 1,969,802</u>	<u>\$ 23,679,916</u>

Flint Energy Services, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

The fair value, except as noted, of individual investments that represented 5% or more of the Plan's net assets available for benefits were as follows:

	2013	2012
Cavalan Hill U.S. Treasury Fund	\$ 2,522,487	\$ 3,063,653
T. Rowe Price Growth Stock	(a)	\$ 2,999,859
Federated Capital Preservation Fund, at contract value	(a)	\$ 2,646,995
Blackrock Equity Dividend R	(a)	\$ 2,182,201
Federated Midcap Index	(a)	\$ 2,134,240
PIMCO Total Return Fund	(a)	\$ 1,801,454
MAP Target 2030	(a)	\$ 1,539,316
Cavalan Hill Balanced Fund	(a)	\$ 1,503,219
MAP Target 2020	(a)	\$ 1,342,561

(a) Fund does not represent 5% or more of the Plan's net assets at year-end.

Interest and dividends realized on the Plan's investments for the years ended 2013 and 2012 were \$174,781 and \$234,948, respectively.

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Company paid approximately \$36,000 and \$34,000 of record keeping fees to BOK during 2013 and 2012, respectively, on behalf of the Plan. The Company does not expect reimbursement from the Plan for payment of these expenses. The Company provides certain administrative services at no cost to the Plan.

Note 5: Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2013 and 2012:

		Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

	<u>\$ 23,726,441</u>	<u>\$ 16,029,632</u>	<u>\$ 7,696,809</u>	<u>\$ -</u>

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2013.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. Level 1 investments include mutual funds and a money market fund. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of investments with similar characteristics or discounted cash flows and are classified within Level 2 of the valuation hierarchy. Level 2 investments include a collective investment contract and a collective trust. The investment in units of participation of the collective investment contract is stated at the daily calculated unit value as reported by the funds in which they invest. Investments held by the contract traded in a national investments exchange are valued at the last reported sales price on the last business day of the contract fiscal year. Investments held by the contract traded in the over-the-counter market and listed investments for which no sales were reported on that date are valued at the last reported bid price. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. The Plan holds no Level 3 investments.

Note 6: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 7: Investment Contract

The Plan has entered into a fully benefit-responsive investment contract with Federated Investors Trust Company (FITC). FITC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

The investment contract consists of three types of guaranteed investment contracts (GIC) which are adjusted to fair value and defined as traditional GICs, separate GICs and synthetic GICs. Traditional GICs represent deposits which guarantee a stated interest rate for the term of the contracts. The fair value of traditional GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like-quality investments.

Flint Energy Services, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

Separate account GICs are portfolios of securities (fixed-income securities or shares of open-end mutual funds) held in a separate account owned and managed by or on behalf of the insurance company issuing the GIC for the exclusive benefit of investors in the separate account. Synthetic GICs are portfolios of securities owned by the Fund. Each of the separate account GICs and synthetic GICs has a wrap contract that provides a minimum guaranteed rate of return for the term of the contracts. The fair value of a separate account GIC and a synthetic GIC is determined based on the fair value of the securities underlying each GIC. The underlying securities can be comprised of primarily over-the-counter market securities and open-end mutual funds. Over-the-counter securities, such as fixed-income instruments, with remaining maturities greater than 90 days are valued using price evaluations provided by a pricing service. In addition, the fair value of the wrap contract is calculated using the contract value of the GIC as of the balance sheet date, giving consideration to any contractually agreed upon replacement fees charged by the wrap contract provider.

As described in the basis of accounting disclosure, because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value, as reported to the Plan by FITC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012, was \$0 and \$2,693,520, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), 2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, 3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan's investment in the contract was liquidated in preparation for the transfer as of December 31, 2013.

The GIC did not permit the insurance company to terminate the agreement prior to the scheduled maturity date, such election was made by the plan administrator.

Note 8: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Change in Ownership of Plan Sponsor

Effective July 2014, URS Corporation was purchased by Aecom Technology Corporation.

Transfer of Assets

The Plan was terminated and merged into the URS Corporation 401(k) Retirement Plan and the URS Corporation Retirement Plan for Specified Contract Employees. The transfer of assets to the new trustee was completed in 2014.
