1. DESCRIPTION OF PLAN

The following description of the Fabpro Oriented Polymers, LLC 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

Eligibility - The Plan is a defined contribution plan, subject to the provisions of the Employee Retirement Income Security Act (ERISA), covering all employees of Fabpro Oriented Polymers, LLC (Company). Employees become eligible to participate in the Plan when they have completed 90 days of employment. Employees are treated as participants on the first day of the month following the date on which eligibility requirements are met.

Contributions - The Plan provides that active participants may make voluntary contributions to the Plan up to the maximum allowed by the Internal Revenue Code ($17,500 for 2013) as adjusted for applicable percentages of compensation. Compensation includes overtime pay, commissions, and bonuses. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions ($5,500 for 2013). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company's matching contribution is 50% of the participant's eligible contribution not exceeding 6% of total compensation. The Company may contribute additional amounts at its discretion. Participants may direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of participants' accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Normal Retirement - Normal retirement age is 65 years of age.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installments, an annuity, or a joint survivor annuity. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance (reduced by the highest outstanding loan balance during the 12 month period), whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (CONTINUED)

Forfeitures - At December 31, 2013 and 2012, forfeited nonvested accounts totaled $0 and $38,959, respectively. Forfeitures may be used to pay Plan expenses or reduce the Company's matching contribution. In 2013, $60,454 from forfeited nonvested accounts was used to reduce the Company's matching contribution.

Transfers - Transfers to the Plan, as reflected on the statement of changes in net assets available for benefits, are a result of rollovers from the merger with another plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates - The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect: (1) the reported amounts of assets and liabilities, (2) disclosures such as contingencies, and (3) the reported amounts of revenues and expenses included in such financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition - Investments are valued at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - The Company provides certain administrative services on behalf of the Plan. As the Plan does not reimburse the Company for the costs of such services, they are not included in these financial statements.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deemed the participant loan to be in default, the participant loan balance is reduced and a benefit payment recorded.

Excess Contribution Refundable - Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction in contributions.

Reclassifications - Certain amounts in the prior year financial statements have been reclassified to conform to current year presentation.

Subsequent Events - These financial statements considered subsequent events through October 7, 2014, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

The following is a summary of the information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodian that information provided to the Plan Administrator by the Custodian related to the following is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information below, the fair values in Note 4, and the fair values in the supplemental schedule related to the following.

Plan assets representing more than 5% of the Plan's net assets as of December 31, 2013, and 2012, are separately identified:

	2013		2012	
Retirement through 2020 Active Strategy	$ 432,858		$ 543,782	
Retirement through 2025 Active Strategy	809,935		599,066	
Retirement through 2030 Active Strategy	1,150,435		922,689	
Retirement through 2035 Active Strategy	867,191		568,590	
Money Market Fund	537,634		261,152	
Other, each less than 5%	1,340,360		1,689,273

Cash	$ 274	*	$ 32,974	*
Notes receivable from participants	$ 267,154	*	$ 352,099	

* Less than 5% of Plan net assets at December 31

The Custodian also certified to the completeness and accuracy of $778,966 of net change in fair value of investments (including gains and losses on investments bought and sold, as well as held during the year) and dividends, interest and other income of $12,689 related to the aforementioned assets for the year ended December 31, 2013.

4. INVESTMENTS AND FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

4. INVESTMENTS AND FAIR VALUE MEASUREMENTS (CONTINUED)

The following describes three levels of inputs that may be used to measure fair value:

Level 1 - Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 - Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Pooled Separate Accounts

These investments are valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. These investments are classified within level 2 of the valuation hierarchy.

The fair value at December 31, 2013 and 2012, of the Plan's financial instruments that are valued on a recurring basis in accordance with the above fair value hierarchy, as provided by the Custodian, is as follows:

	Fair Value as of December 31, 2013

The category, which is a fund of funds, invests in a mixture of fixed-income securities and equity securities, using an asset allocation strategy designed according to when the investor expects to retire.

(b) This investment category seeks long-term growth of capital and capital appreciation. The fund invests primarily in companies with earning momentum growth and companies with sustainable earnings growth.

(c) This investment category seeks long-term growth of capital, by primarily investing in equity securities that are undervalued based on the expected growth potential.

4. INVESTMENTS AND FAIR VALUE MEASUREMENTS (CONTINUED)

(d) This investment category seeks long-term growth of capital and income, by investing primarily in companies with undervalued equity securities that pay above average dividends.

(e) This investment category seeks to maximize total return by investing for both current income and capital appreciation. The fund invests primarily in equity securities that maximize returns while minimizing volatility.

(f) This investment seeks to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term. The fund is invested primarily in insurance contracts issued by state regulated insurance companies and banks, including but not limited to John Hancock Life & Health Insurance Company.

(g) This investment category seeks to achieve growth of capital, with a greater emphasis on income by investing in a wide range of asset classes and investment styles, including domestic and international stocks.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuations techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Level 3.

5. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by John Hancock Life Insurance Company (U.S.A.) the Custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

6. PLAN TERMINATION

Effective August 23, 2014, the Plan Sponsor chose to terminate the Plan. As of the date of termination, no further contributions, or transfers from other plans may be made to the Plan; all amounts in a participant's account are fully vested; and all amounts in a participant's account may be withdrawn by the participant, in accordance with the Plan document.

7. TAX STATUS

Effective September 1, 2009, the Plan adopted a non-standard form of a prototype Plan designed to qualify under Section 401(k) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the prototype plan has received an opinion letter dated March 31, 2008 that this Plan is relying on. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable requirement of the IRC.

7. TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. Tax years that remain subject to examination in the Plan's major tax jurisdictions are 2010, 2011, 2012, and 2013.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
