To the Plan Administrator and Participants of
Radiation Therapy Services, Inc.
Profit Sharing 401(k) Retirement Plan
Fort Myers, Florida

Independent Auditor's Report

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Radiation Therapy Services, Inc. Profit Sharing 401(k) Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Principal Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the custodian is complete and accurate.

Additionally, as discussed in Note K, we were unable to assure the completeness of contributions receivable due to continued investigation regarding the amount, if any, of the monetary correction that will be made to the Plan. We were unable to perform auditing procedures at the plan sponsor to satisfy ourselves by other means with respect to the calculation of the receivable.

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements referred to in the first paragraph.

Other Matter

The supplemental schedule of assets held for investment purposes at end of year is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF PLAN

The following description of Radiation Therapy Services, Inc. Profit Sharing 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:
Radiation Therapy Services, Inc. (the plan sponsor) established the Plan to provide employees with a systematic means of saving and investing for the future. The Plan is a defined contribution 401(k) plan covering all eligible employees of the plan sponsor, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All permissible employees of the plan sponsor are eligible to enroll after completing six months of service and reaching the age of twenty-one. An employee shall not be eligible to participate if the employee is part of a collective bargaining agreement, is a non-resident alien, is a leased employee or is a resident of Puerto Rico.

Subsequent to January 1, 2014, the plan sponsor shall be 21st Century Oncology, Inc. and the Plan name shall be changed to 21st Century Oncology, Inc. Profit Sharing 401(k) Retirement Plan.

Plan Contributions:
Each year, participants may contribute a portion of their salary or wages through payroll deduction contributions, subject to certain dollar limits established by the current applicable section of the IRS Code. Each participant is permitted to defer up to 60% of his or her compensation. The total annual participant deferral contribution is limited to $17,500 in 2013 and $17,000 in 2012 ($23,000 in 2013 and $22,500 in 2012 for employees of the age of fifty or older).

The Plan provides for an automatic election to have employee elective deferral contributions made. The automatic elective deferral contribution shall be pre-tax elective deferral contributions and shall be 3% of compensation. Effective January 1, 2014, the automatic deferral rate was increased to 4%. The participant may affirmatively elect a different percentage or elect not to make elective deferral contributions. The automatic election shall apply when a participant first becomes eligible to make elective deferral contributions or again becomes eligible after a period during which the participant was not an active participant.

Employer contributions are discretionary; the plan sponsor may, at its discretion, contribute on behalf of each participant a matching contribution equal to a discretionary percentage of a participant's compensation contributed as an elective deferral contribution with respect to each plan year. For the years ended December 31, 2013 and 2012, the discretionary employer match was $600,875 and $467,170, respectively.

The Plan allows new employees to rollover amounts into the Plan from other qualified plans. The rollover contribution is permitted, provided the trust from which the funds are to be transferred permits the transfer to be made and, in the opinion of the Company's legal counsel, such transfer will not jeopardize the tax exempt status of the Plan or create adverse tax consequences for the Company.

Allocations:
Participants' contributions to the Plan are submitted to the custodian who invests the contributions and investment earnings as directed by the participants. Brokerage fees incurred pursuant to participant-directed investments are paid solely with the funds from the individual account of the participant.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Benefits and Vesting:
Participants or their beneficiaries are eligible to receive benefits under the Plan upon normal retirement, termination of employment, death or permanent disability or attainment, while in service, at age 59 ½. Subject to vesting requirements, participants or their beneficiaries will receive a lump sum payment or annuity form of payment as defined. Furthermore, participants may withdraw funds from their accounts for financial hardship.

Participants are immediately vested in their elective contributions plus actual earnings thereon as well as any qualified non-elective contributions made by the plan sponsor. Matching and discretionary contributions vest based on years of service as detailed in the vesting schedule below:

Years of Service	Percent of Nonforfeitable Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Forfeited Accounts:
Forfeitures of the nonvested portion of terminated participants' account balances related to the plan sponsor's contributions may first be used to pay the administrative expenses of the Plan. Forfeitures of matching contributions that relate to excess amounts that have not been used to pay administrative expenses, are applied to reduce matching contributions and discretionary contributions made after the forfeitures are determined. Any other forfeitures that have not been used to pay administrative expenses shall be applied to reduce the earliest employer contributions made after the forfeitures are determined. During the years ended December 31, 2013 and 2012, forfeitures totaling $103,109 and $-0- were used to reduce employer contributions, respectively. At December 31, 2013 and 2012, forfeited nonvested accounts totaled $28,018 and $93,111, respectively.

Notes Receivable:
Participants may borrow from their fund accounts at the discretion of the custodian. Notes receivable are limited to the lesser of $50,000 less the highest outstanding note receivable balance during the one-year prior to the new note receivable, or the greater of 50% of their vested account balance, reduced by any outstanding note receivable balance, and $10,000. Notes receivable must be a minimum of $1,000. The notes receivable are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions. Prior to January 1, 2014, participants could have two notes receivable outstanding at any time. Subsequent to January 1, 2014, participants can have only one note receivable outstanding at a time. Additionally, no more than one loan shall be approved for any participant in any twelve month period.

Basis of Accounting:
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates:
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of certain assets, liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Notes Receivable from Participants:
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investment Valuation and Income Recognition:
At December 31, 2013 and 2012, the Plan's investments were held in various mutual funds, registered investment companies, common stock and a guaranteed investment contract and are stated at fair value. The net appreciation in net value of investments includes realized and unrealized gains and losses on the fair value of investments held by the Plan. Purchases and sales of investments are recorded on a settlement date basis. Interest income is accrued as it is earned and dividends are recorded as of the ex-dividend date.

Per FASB ASC 926, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits for a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in an investment contract. As required by FASB ASC 926, the statements of net assets available for benefits presents the fair value of the investment as well as the adjustment of the investment from fair value to contract value relating to the investment contract. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments.

The change in net unrealized appreciation/depreciation of investments held from the beginning of the Plan year to the end of the Plan year is included with realized gains/losses as net investment income reported in the accompanying statement of changes in net assets available for benefits.

Contributions:
Contributions from employees are recorded in the period in which the plan sponsor makes the payroll deductions from participant earnings. Contributions from the plan sponsor are allocated as of the last day of the plan year and shall be credited to the participant's account.

Distributions:
Distributions are recorded when paid. At December 31, 2013, there were no benefits processed and approved for payment, but not paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Expenses:
Expenses of the Plan, to the extent that the Employer does not pay such expenses, may be paid out of the assets of the Plan provided that such payment is consistent with ERISA. Such expenses include, but are not limited to, expenses for bonding required by ERISA; expenses for recordkeeping and other administrative services; fees and expenses of the Trustee or Annuity Contract; expenses for investment education service; and direct costs that the Employer incurs with respect to the Plan.

Risks and Uncertainties:
The Plan provides for investment options in various investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in statements of net assets available for benefits.

Subsequent Events:
Management evaluated all activity of the Plan through October 10, 2014, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition or disclosure in the financial statements or notes except those disclosed in Note A.

NOTE C - CERTIFICATION FROM THE CUSTODIAN

The plan administrator has elected the method of compliance permitted pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations and Disclosure under the Employment Retirement Income Security Act of 1974. Accordingly, Principal Trust Company, the plan custodian, has certified that all of the investments and investment-related activity presented in the statements of net assets available for benefits, statement of changes in net assets available for benefits and supplemental schedule of assets held for investment purposes as of and for the years ended December 31, 2013 and 2012 are complete and accurate. Such information has not been audited by independent auditors except for comparing such information with the related information included in the financial statements and supplemental schedule as of December 31, 2013 and 2012 and for the year ended December 31, 2013.

NOTE D - INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets at:

	December 31,	
	2013	2012
Principal Fixed Income Guaranteed Option Fund	**$ 11,688,608**	$ 11,803,230
T. Rowe Price Retirement 2020 R Fund	**6,893,767**	4,836,597
T. Rowe Price Retirement 2025 R Fund	**6,032,984**	4,363,448
T. Rowe Price Retirement 2030 R Fund	**5,993,810**	4,318,497
Pimco Total Return Adm Fund	**6,099,869**	7,000,973
Oppenheimer International Div Y Fund	**5,349,644**	*
T. Rowe Price Retirement 2015 R Fund	*	3,674,709

*Investment was less then 5% of the Plan's net assets.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated as follows:

	2013
Guaranteed investment contract	**$ 225,846**
Registered investment companies	**12,995,665**
Net appreciation in investments	**$ 13,221,511**

NOTE E - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is created with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $11,688,608 and $11,803,230, respectively. The crediting interest is based on a formula agreed upon with the issuer, but may not be less than 1%. Such interest rates are reviewed on a semiannual basis for resetting.

NOTE E - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	December 31,	
	2013	2012
Average yields:		
Based on actual earnings	**2.04%**	2.48%
Based on interest rate credited to participants	**2.04%**	2.48%

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the custodian. These transactions qualify as party-in-interest transactions. Recordkeeping, custodial, and other expenses paid by the Plan were incurred with parties-in-interest as defined in Section 3(14) of ERISA.

NOTE G - INCOME TAX STATUS

As of December 31, 2013, the Plan has not applied for a determination letter with the Internal Revenue Service (IRS). Per Revenue Procedure 2012-6, the IRS will no longer accept Form 5307 Determination Letter applications for pre-approved prototype plans. However, plan management believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE H - PLAN TERMINATION

Although it has not expressed any intention to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

NOTE I - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include

    - quoted prices for similar assets or liabilities in active markets;
    - quoted prices for identical or similar assets or liabilities in inactive markets;
    - inputs other than quoted prices that are observable for the asset or liability;
    - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

    If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies and common stock: Valued at the quoted market price available on an active market at the Plan year end.

Guaranteed investment contract: Valued at fair value that the plan sponsor would receive at the Plan year end if they were to withdraw or transfer funds with the Plan prior to maturity. This fair value represents discontinuation value or contract value times 95 percent (1 minus 5 percent withdrawal charge).

NOTE I - FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Assets at Fair Value as of December 31, 2013

Per Form 5500, Schedule H	$ **19,691,282**

NOTE K - DISCLAIMER DUE TO BONUSES

In 2013, it was discovered that the definition of eligible wages being utilized by the plan sponsor did not agree to the definition per the Plan agreement. Management's intent was to not automatically include bonuses as eligible wages in the deferral calculation, but the Plan agreement was not written as such. The plan sponsor is currently working with an ERISA attorney to determine the amount, if any, of the monetary correction that will be made to the Plan.
