INTERSTATE ENERGY 401(K) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2013 AND 2012

NOTE 1 PLAN DESCRIPTION

The following description of the Interstate Energy 401(k) Retirement Savings Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of Interstate Energy, LLC dba Como Oil Propane who have attained the age of 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute any percentage of their income, but are restricted by the annual IRS limits. The Plan also allows for a nonelective employer contribution. Employer safe harbor matching contributions are equal to 100 percent of the participant's elective deferral that is not in excess of 4% of the participant's compensation, plus 50% of the amount of the participant's elective deferral that exceeds 4% of the participant's compensation but that do not exceed 6% of the participant's compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's contributions and an allocation of the plan earnings. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. The Plan allows for participant-directed investment programs for which separate funds are maintained.

Vesting

Participants are immediately 100% vested in their deferral contributions, rollover contributions, nonelective contributions, safe harbor contributions plus actual earnings thereon.

Notes Receivable From Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50 percent of their account balance or \$50,000 reduced by the highest outstanding balance of plan loans during the prior one year. Loans are repaid over maximum term of 5 years and bear interest at 4.25 percent. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

A participant is eligible to request a distribution of their vested account balance based on any of the following events: death, disability, financial hardship, retirement, minimum required distributions, and termination of employment.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Basis of Presentation

The accompanying financial statements are presented in accordance with accounting principles generally accepted in the United States of America, ("GAAP"), as codified by the Financial Accounting Standards Board.

Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent asset and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the provider for the Plan. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade date basis. Income is recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year and is reflected in the statement of changes in net assets available for plan benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded at December 31, 2013 and 2012.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Operating Expenses

Several of the investment fund options are subject to investment fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and thus are not separately disclosed in the accompanying financial statements. All other administrative expenses were paid from the Plan's assets.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
AS OF DECEMBER 31, 2013 AND 2012

Income Taxes

The Plan's policy is to evaluate the likelihood that its uncertain tax positions will prevail upon examination based on the extent to which those positions have substantial support within the Internal Revenue Code and Regulations, Revenue Rulings, court decisions, and other evidence.

NOTE 5 FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, Fair Value Measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 Quoted prices for similar assets or liabilities in active markets;
 Quoted prices for identical or similar assets or liabilities in inactive markets;
 Inputs other than quoted prices that are observable for the asset or liability;
 Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
 If the asset or liability has a specified (contractual) term the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

INTERSTATE ENERGY 401(K) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
AS OF DECEMBER 31, 2013 AND 2012

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV, as provided by the insurance company, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the account will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the accounts, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total

Small cap blend pooled separate accounts seek long-term capital appreciation by trying to capture the return premiums of the U.S. small company asset class by investing in a well-diversified portfolio of securities.

Inflation protected bond pooled separate accounts seek maximum real return, consistent with preservation of real capital and prudent investment management.

World bond pooled separate accounts seek total return with a secondary objective of income when consistent with total return.

Intermediate-term bond pooled separate accounts seek to realize maximum total return, consistent with preservation of capital and prudent investment management.

Money market pooled separate accounts seek maximum current income consistent with preservation of principal and liquidity by investing in high quality, money market instruments with maturities of 397 days or less issued primarily by U.S. entities.

NOTE 6 INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Trustee by an opinion letter dated October 29, 2008, that the prototype plan document adopted by Interstate Energy 401(k) Retirement Savings Plan qualifies under the applicable section of the Internal Revenue Code and is, therefore, not subject to tax under present income tax law. The Plan has been amended since receiving the determination letter. However, the Company and plan administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 RELATED PARTIES

John Hancock Life Insurance Company is the provider for the Plan as defined by the plan document. As such, transactions with the provider qualify as party-in-interest transactions. Total fees paid to John Hancock Life Insurance Company for recordkeeping services totaled \$4,598 and \$4,260 for the years ended December 31, 2013, respectively.
