Note 1 - Plan Description

The following description of AmeriCash Loans LLC 401(k) Profit Sharing Plan and Trust (f/k/a AmeriCash Loans, LLC Retirement Plan) (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of AmeriCash Loans, LLC and Subsidiaries (the "Company") who have completed one year of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions of the annual compensation subject to maximum tax deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for discretionary employer matching contributions equal to 50 percent of the participant's contribution not to exceed 6 percent of the employee's deferred compensation.

Nonelective Contributions - The Company may make annual discretionary nonelective contributions. Participants who continue employment through December 31 will be eligible to receive an allocation of the Company discretionary nonelective contribution. There were no discretionary nonelective contributions made to the Plan for the year ended December 31, 2013.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The notes receivable are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined periodically by the plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.

Note 1 - Plan Description (Continued)

Vesting - The Company's discretionary matching and nonelective contributions, if any, vest according too the following schedule:

Years of Service	Vested Percentage
1	25 %
2	50
3	75
4	100

Forfeitures - If a participant is not fully vested on their termination date, the nonvested amount of the account is forfeited. Forfeitures are allocated to participants based on participant compensation, as defined, used to reduce future company contributions, or to pay administrative expenses of the Plan. At December 31, 2013 and 2012, forfeited account balances totaled $0 and $1,358 respectively. During 2013, forfeitures of $1,358 were allocated to participants or used to pay administrative expenses.

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Mid Atlantic Trust Company, Principal Life Insurance Company (Principal Life) and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust) or their affiliates. Mid Atlantic Trust Company is the trustee and Principal Life and Principal Trust were the custodians of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The common collective trust funds and pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets. The fully benefit-responsive insurance contract is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits (see Note 6). The fair value of the unallocated contract is based on contract value adjusted for certain contractual provisions.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Administrative expenses of approximately $20,000 for the year ended December 31, 2013 were paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 10, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

In 2013, the Plan changed custodian, from Principal Life Insurance Company (Principal Life) and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust) to Mid Atlantic Trust Company (Mid Atlantic). Principal Life, Principal Trust and Mid Atlantic held the Plan's investments and executed all investment transactions during the periods under audit. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by Mid Atlantic, Principal Life and Principal Trust.

Investments that exceed 5 percent of end of year net assets are as follows:

	2013	2012
Mutual funds:		
Vanguard Mid-Cap Growth Index Fund	$ 107,807	$ -
Vanguard LifeStrategy Conservative Growth Fund	505,034	-
Money market fund - Vanguard Prime Money Market Fund	90,395	-
Common collective trust funds:		
Principal Trust Target 2030 Fund	-	251,395
Principal Trust Target 2035 Fund	-	59,561
Principal Trust Target 2040 Fund	-	111,645
Principal Trust Target 2045 Fund	-	102,018

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2013

Assets Measured at Fair Value on a Recurring Basis at December 31, 2012

	Level 1	Level 2	Level 3	Balance at December 31, 2012
Mutual funds:				
Fixed-income investments	$ 2,074	$ -	$ -	$ 2,074
Equity investments	25,889	-	-	25,889

Unallocated insurance contract	-	11,836	-	11,836
Total	$ 27,963	$ 641,789	$ -	$ 669,752

(1) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed income investments, which may include corporate bonds, both U.S. and non U.S. municipal securities, interest rate swaps, options, and futures.

(2) The class represents investments in actively managed pooled separate accounts that invest primarily in equity securities of U.S. and non U.S. companies. Such accounts will also have varying degrees of exposure to cash and fixed income securities.

(3) The class represents investments in an actively managed pooled separate account that primarily invests in real estate.

(4) The class represents investments in actively managed common collective trust funds that invest in a variety of equity and fixed income securities with the investment objective of providing an asset allocation and total return consistent with a specified target retirement date.

There were no unfunded commitments or redemption restrictions on the investments described above.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy that took place during 2013.

Note 6 - Investment Contracts

During 2012, the Plan had entered into a benefit-responsive investment contract with Principal Life Insurance Company (Principal Life). Principal Life maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but could not be less than 1 percent or greater than 3 percent. Such interest rates were reviewed on a semiannual basis for resetting.

Certain events limited the ability of the plan to transact at contract value with the insurance company and the financial institution issuer. Such events included the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (iii) bankruptcy of the plan sponsor or other plan sponsor events (i.e., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan, or (iv) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The unallocated insurance contract did not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yield based on interest earned by the Plan	(3.00)%
Average yield based on interest credited to participants	2.21
