The Plan Administrator and Board of Directors
MedeAnalytics, Inc. 401(k) Profit Sharing Plan and Trust

We have audited the accompanying financial statements of MedeAnalytics Inc. 401(k) Profit Sharing Plan and Trust (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of MedeAnalytics Inc. 401(k) Profit Sharing Plan and Trust as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013 in accordance with accounting principles generally accepted in the United States of America.

Supplementary information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2013, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such supplementary information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of MedeAnalytics, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by MedeAnalytics, Inc. (the "Company"), formerly known as MedeFinance, Inc., under the provisions of Section 401(a) of the Internal Revenue Code (the "IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan utilizes Paychex as the third party administrator and recordkeeper. Merrill Lynch is the custodian of the Plan assets.

The Company administers the Plan. The Chief Administrative Officer serves as the trustee of the Plan.

Eligibility

Regular employees aged 21 and over are eligible to participate on the first of the month following their employment date. Upon completion of six consecutive months of service, participants are eligible to receive employer-matching contributions.

Contributions

Each participant may contribute up to 25% of his or her eligible pay each pay period on a pre-tax basis through payroll deductions subject to limitations under the IRC. Participants aged 50 and over, as of the close of the Plan year, are eligible to make catch-up contributions of a maximum of $5,500 for both 2013 and 2012. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Eligible employees are not automatically enrolled in the Plan.

The Company matches participant contributions equal to 25% of each participant's pre-tax contributions as determined by the Company not to exceed 6% of compensation of participants. For the year ended December 31, 2013, the Company's matching contribution amounted to $149,754.

The Company may make discretionary profit sharing contributions, which will be allocated to the individual accounts of qualifying participants in the ratio that each qualifying participant's compensation for the Plan year bears to the total compensation of all qualifying participants for the Plan year. The Company made no profit sharing contribution for the year ended December 31, 2013.

NOTE 1 – DESCRIPTION OF THE PLAN - Continued

Participant Accounts

Participants' accounts are valued on a daily based on quoted market prices. Each participant's account is credited with the participant's contributions and an allocation of (i) the Company's contribution, if any, (ii) net investment earnings (loss) on a daily valuation basis, and (iii) administrative expenses. Allocations of employer's contributions are based on both participant's contributions and participant's compensation as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested in their contributions and earnings thereon. Vesting in the Company contributions, forfeiture allocation and earnings thereon is based on years of continuous service, according to the following schedule:

Years of service	Percentage vested
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeitures

At the Company's discretion, forfeitures can be used to reduce future Company contributions or can be allocated to the individual accounts of qualifying participants in the ratio that each qualifying participant's compensation for the Plan year bears to the total compensation of all qualifying participants for the Plan year. Forfeitures amounting to $34,797 were used to reduce Company contributions for the year ended December 31, 2013. As of December 31, 2013 and 2012, unallocated forfeitures amounted to $51,983 and $34,796, respectively.

Payment of Benefits

Upon termination of service due to the death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's interest in his or her account, or annual installments over any fixed period not exceeding the remaining life expectancy of the participant or beneficiary.

The Plan allows for automatic distribution of a terminated participant's account balance, amounting to less than $1,000. The distribution is to be made in the form of a lump-sum payment, as soon as administratively feasible, following the date of termination or death. A terminated participant with an account balance of between $1,000 and $5,000 will receive a distribution of his or her account balance paid into an individual retirement account.

NOTE 1 – DESCRIPTION OF THE PLAN - Continued

Early Withdrawals

Participants age 59 ½ and above are permitted to withdraw, in a single sum, the employee contribution portion of their account balance while still employed by the Company.

Notes Receivable from Participants

A participant may apply for a loan to be made from his or her vested account balance in the Plan not to exceed, when added to the outstanding balance of all other loans to the participant, the lesser of (i) $50,000 reduced by the excess (if any) of the highest outstanding balance of loans during the one year period ending on the day before the loan is made, over the outstanding balance of loans from the Plan on the date the loan is made or (ii) 50% of the participant's vested account balance in the Plan. Repayments are made by biweekly deductions of fixed amounts from the participant's salary. All loans except those to purchase a primary residence must be repaid within five years. Loans to purchase a primary residence must be repaid within a reasonable time (determine at the time the loan is made). Participants may only have one loan outstanding at a time. Loans carry interest at prevailing rates.

Administrative Expenses

Certain investment management fees are netted with investment income. Participants who take a loan from the Plan incur a one-time fee for establishing the loan. There is also a one-time distribution fee. All other administrative expenses are paid by the Company.

Investment Elections

Each participant may direct their account balance into one or more investment options offered by the Plan. Allocations must be in increments of 1% of each contribution. A participant may change such allocation and may transfer all or a portion of the value of his or her account in increments of 1% among the fund options at any time.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2011-04, or ASU 2011-04, *Fair Value Measurements – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 changes the wording used to describe many requirements for measuring fair value and for disclosing information about fair value measurements. Additionally, the amendments clarify the FASB's intent about the application of existing fair value measurement requirements. The guidance was adopted by the Plan during the year ended December 31, 2012, and did not have a material impact on its financial statements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor's management determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 3 for discussion of fair value measurements.

Net appreciation in fair value of investments is reflected in the statements of changes in net assets available for benefits and includes realized gain and losses on investments bought and sold and the change in appreciation from one period to the next. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Acquisition costs are included in the cost of investments purchased, and sales are recorded net of selling expenses.

Notes Receivable from Participants

Notes receivable from participants are stated at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. If the participant ceases to make loan repayments and the loan is deemed in default, the participant loan is reduced and a benefit payment is recorded. No allowance for credit losses has been recorded as of December 31, 2013 and 2012.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities will occur in the near term and that such changes could materially affect participants' accounting balances and the amounts reported in the statements of net assets available for benefits.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of investments after the date of these financial statements.

NOTE 3 – INVESTMENTS

The fair value of the Plan's investments that represent 5% or more of the Plan's net assets are as follows as of December 31:7341

	2013	2012
Davis New York Venture R	N/A	$ 368,379

During 2013, the Plan's investments in mutual funds (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by $279,963.

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820, *Fair Value Measurements*, are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE 4 – FAIR VALUE MEASUREMENTS - Continued

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The determination of what constitutes an observable input requires judgment by the Plan's management. Plan management considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by multiple independent sources that are actively involved in the relevant market.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are classified as Level 1.

Money market funds: Valued at the NAV of units held by the Plan at year-end. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. Such transactions do not constitute an active market, therefore, the money market funds are classified as Level 2.

The methods described may produce a fair value calculation that may not be indicative of net realizable value of reflective of future fair value. Furthermore, while the Plan believes it valuation methods are appropriate and consistent with other market participants, the use of difference methodologies or assumptions to determine the fair value of certain financial instruments could results in difference fair value measurement at the reporting date.

There were no transfers between levels for the years ended December 31, 2013 and 2012.

NOTE 4 – FAIR VALUE MEASUREMENTS - Continued

In accordance with the fair value measurements and disclosures guidance, the following table presents the category, fair value, redemption frequency and redemption notice period for Plan investments, the fair value of which are estimated using the NAV per shares as of December 31,

	2013 Fair value	2012 Fair value	Frequency (if currently eligible)	Redemption notice period
Money market fund (a)	$ 406,250	$ 361,498	Daily	Daily

(a) This fund invests in high-quality, short-term instruments to achieve high current income and capital preservation. This fund primarily invests in money market instruments, including short-term U.S. government and government agency securities, bank money instruments, corporate debt instruments, including commercial paper and variable-amount master demand notes, and repurchase and reverse-repurchase agreements that are classified as first-tier securities. There are no unfunded commitments from participants who invest in this fund.

NOTE 5 – TAX STATUS

The Company adopted a prototype standardized profit sharing plan with a deferral arrangement, which received an opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008, which states that the prototype plan is designed in accordance with applicable sections of IRC. Although the Plan has been amended since receiving the determination letter, the Company and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust are tax-exempt.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expressed to be taken would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their account balance.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

All Plan investments are managed by Merril Lynch. Merril Lynch is the custodian of the Plan as defined by the Plan, and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments as they are paid through revenue sharing rather than a direct payment. Fees paid by the Plan for participant maintenance services amounted to $2,198 for the year ended December 31, 2013.

NOTE 8 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 15, 2014, the date at which the financial statements were available to be issued, and determined there are no subsequent events that would require recognition or additional disclosure in the Plan's financial statements, except that effective January 21, 2014, the Company transferred the Plan assets from Merrill Lynch to Fidelity Investments. With the transition of the Plan assets, effective January 1, 2014, the Company adopted a new plan with the following key provisions: 1) The Plan eliminated the 6-month service requirement for participants to receive employer matching contributions; 2) The Plan eliminated the age requirement for an employee to become eligible to participate in the Plan; and 3) The Plan matches participant contributions equal to 50% of each participant's pre-tax contributions as determined by the Company not to exceed 6% of compensation of participants.
