NOTE A – DESCRIPTION OF PLAN

The following description of the Genesis HealthCare System (Employer) 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan, effective July 1, 1993, is a defined contribution plan with a salary deferral provision subject to Section 401(k) of the Internal Revenue Code. The Plan is sponsored by Genesis HealthCare System and has been adopted by the following related for-profit corporations:

   Professionals PRN, Inc. d.b.a. Northside Home Infusion Services
   CareEquip, Inc. d.b.a. Northside Pharmacies
   Carelife, Inc.

   The Plan agreement allows for other eligible related companies, with the approval of the Plan sponsor, to adopt the Plan.

   The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all eligible employees electing to participate who have completed one year of service with over 800 hours of compensated time in the completed year and are age 18 or older. The Board of Trustees is responsible for oversight of the Plan. The Retirement Committee determines the appropriateness of the Plan's investment offerings, monitors investments performance and reports to the Plan's Board of Trustees.

2. *Contributions.* Each year, participants may contribute up to 50 percent of pretax and/or after-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. During 2012, the Plan was amended to automatically increase the participant's contribution percentage by 1 percent annually until the contribution percentage reaches 10 percent, or unless the participant elects not to increase their percentage. The Employer contributes a certain percentage based on years of service and up to a 5 percent maximum participant contribution to the Plan. For the year ended December 31, 2013, the Employer match percentages are as follows: 1 but less than 5 years of service, 20 percent match; 5 but less than 10 years of service, 40 percent match; 10 or more years of service, 60 percent match. Additional non-elective contribution amounts may be contributed at the option of the Employer's Board of Trustees and are invested in a portfolio of investments as directed by the participant. No Employer non-elective contributions were made to the Plan during the year ended December 31, 2013. Contributions are subject to certain IRS limitations.

3. *Participant accounts.* Each participant's account is credited with the participant's contribution and Employer matching contributions, as well as allocations of the Employer's non-elective contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting.* Participants are vested immediately in voluntary contributions, Employer contributions, and plan earnings thereon.

5. *Notes receivable from participants.* Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. Loan terms shall be no greater than 5 years except in the case of a loan to acquire a personal residence of the participant. The loan interest rate, determined quarterly, is set at 1 percent above the "bank prime rate", as defined. Principal and interest is paid ratably through bi-weekly payroll deductions.

6. *Payment of benefits.* On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or monthly, quarterly, or annual installments if subject to lifetime required minimum distributions. A participant may also withdraw all or part of his or her account once they reach age 65 or older or the early retirement date at age 55 or older. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Upon termination or retirement, if a participant's account balance is $1,000 or less, it will be automatically rolled over to an IRA, if the participant does not elect to withdraw the funds in the form of a lump sum or rollover the funds to an IRA or other qualified plan.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable
Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 and 2012 excess contributions to the applicable participants prior to April 15, 2014 and 2013, respectively.

Payments of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events through October 8, 2014, the date the financial statements were available to be issued.

NOTE C – INVESTMENTS

Mutual funds	$ 795,890
Pooled separate accounts	15,807
	$ 811,697

NOTE D – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued using the actual quoted market prices of similar assets in active or non-active markets, including prices provided by a pricing service, of assets. These assets include domestic and international stock, mutual funds, other pooled separate accounts, short term securities such as commercial paper, and fixed securities.

NOTE D – FAIR VALUE MEASUREMENTS (CONTINUED)

Guaranteed investment contracts: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (See Note E). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value measurements as of December 31, 2013 and 2012:

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Prudential guaranteed investment contracts	$ 2,931,674	Market Value Adjustment Formula in Contract	Interest at Guaranteed Crediting Rate	Interest grows at a rate that is greater than or equal to contractual minimum crediting rate	3.00%
			Rate credited to new deposits for plans with similar features	Greater than or equal to contractual minimum crediting rate	3.00%
United of Omaha guaranteed investment contracts	$ 37,389	Stated interest rate in Contract	Interest at Guaranteed Crediting Rate	Interest grows at a rate that is greater than or equal to contractual minimum crediting rate	3.16%

NOTE E – GUARANTEED INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

During 2008, the Plan entered into a fully benefit-responsive guaranteed investment contract with The Prudential Insurance Company of America (Prudential). Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $2,931,674 and $2,518,198, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events which would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE E – GUARANTEED INVESTMENT CONTRACTS WITH INSURANCE COMPANIES (CONTINUED)

The average yields earned by the guaranteed investment contract are as follows:

Average yields:	*2013*	*2012*
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

NOTE F – RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by The Prudential Insurance Company of America (Prudential) and Nationwide Life Insurance Company (Nationwide). Prudential and Nationwide are custodians as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note B, the Plan made a direct payment to the custodians of $1,888 which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

The Plan administrator is an employee of related affiliate company and does not participate in the Plan.

NOTE G – PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE H – TAX STATUS

The IRS has determined and informed the Employer by a letter dated December 28, 1994, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
