Note 1: Description of the Plan

The following description of the EEI Bargaining Unit 401(k) Plan (the "Plan") provides only general information. Participants should refer to the *Plan Document* for a more complete description of the Plan's provisions, which is available from Plan management.

General

The Plan is a defined contribution savings plan. The Plan was adopted effective January 1, 1986. The sponsor of the Plan is Electric Energy, Inc. (the "Company"). The EEI Benefit Plans Committee controls and manages the operations and administration of the Plan. Prudential Retirement and Insurance Annuity Company (Prudential) serves as the trustee (Trustee) of the Plan. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility Requirements

Employees are eligible for membership on the first of the month coinciding with or following the employee's date of employment. Additionally, the employee must be a member of management and complete a written enrollment form and Salary Deferral Agreement.

Plan Contributions

Eligible employees may contribute up to 50% of their annual base wage to the Plan in whole percentage increments on a pretax basis. The Company matches 50% of the first 8% of annual base wages deferred by participants on a pretax basis. A participant is eligible for employer matching contributions immediately upon enrollment in the Plan. In addition, eligible employees may contribute up to 50% of their annual base wage to the Plan on an after-tax basis. Such after-tax contributions can be made via payroll deduction or, once each Plan year, as a lump-sum contribution. Contributions are subject to certain Internal Revenue Code limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, allocations of Plan earnings, and charged with withdrawals and an allocation of Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which participants are entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants direct the investment of their contributions into various investment options offered by the Plan. They may also invest up to 25% of their core account balance into a self-directed brokerage account option. Company matching contributions are allocated based on the investment options selected by the participants for employee contributions. The Company has contracts with Prudential to manage the Plan's assets and make benefit payments. The contract with Prudential establishes different investment options to which contributions are deposited based on employee elections.

Vesting

Participants are immediately fully vested in their contributions and employer matching contributions.

Benefit Payments

Upon retirement, a participant may select either of the following methods of payment:

1. The lump-sum distribution of the account.
2. The purchase of an annuity based on the value of the account as the date of retirement.
3. A combination of 1. and 2. above.

Upon the death of a participant, the beneficiary is entitled to distribution of the total value of the participant's account to be paid in cash, as an annuity or a combination of cash and an annuity. If the participant terminates employment or becomes totally disabled, the participant is entitled to a distribution of the total value of that participant's account.

Under certain circumstances, hardship withdrawals are permitted by a participant who is under age 59 ½. After age 59 ½, once every 12 months, a participant may make a withdrawal without a need to prove serious financial hardship.

Participant Loans

Participants are allowed to borrow against their pretax savings account and their rollover account upon approval by the plan administrator. Participants may borrow from their fund accounts up to a maximum of the lesser of $50,000 or 50% of a participant's account balance. Loans are made available to all participants on a reasonably equivalent basis at fixed interest rates of current prime rate plus 1%. Loan repayment periods can range from 1 month to 120 months. Currently, loans outstanding bear interest at rates ranging between 4.25% - 9.25%. Loans are secured by the balance in the participant's account.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by the Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of the Plan attributable to Guaranteed Investment Contract (GIC) which is a fully benefit-responsive investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the GIC at December 31, 2013 and 2012 approximates fair value and, therefore, no adjustment has been recorded in the Statements of Net Assets Available for Benefits. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and Plan management deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits paid directly to participants are recorded when paid.

Plan Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2013, and through October 14, 2014, which is the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

Note 3: Investments (Certified by Trustee)

The following table presents the Plan's investments. Investments that represent 5% or more of plan net assets in either year are separately identified.

	2013	2012
Investments at fair value as determined by quoted market price:		
Prudential Guaranteed Income Fund	$ 5,770,529	$ 6,654,417
Oakmark International Fund	1,036,280	773,498
Large Cap Growth/JP Morgan	693,415	-
Other investments – less than 5% of net assets	4,318,813	3,979,502
Total investments	$ 11,819,037	$ 11,407,417

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated in value by $1,331,726 as follows:

Mutual funds	$ 218,490
Pooled separate accounts	1,100,118
Other	13,118

Interest and dividends realized on the Plan's investments for the year ended December 31, 2013 were $139,600.

Note 4: Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures,* (FASB ASC 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in an active market for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Value based on quoted market prices of the underlying investments as reported to the Plan by Prudential.

Benefit responsive investment contract: Valued at contract value which represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. This product is not a traditional GIC and therefore there are not any known cashflows that could be discounted. As a result, the fair value amount shown is equal to the contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 investment, the valuation technique used to measure the fair value of investment, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	*Fair Value*	*Principal Valuation Technique*	*Unobservable Inputs*	*Range of Significant Input Values*
Benefit responsive investment contract	$5,770,529	Provided by Prudential	Earnings at Guaranteed Crediting Rate	Gross Guaranteed Crediting Rate must be greater than or equal to the contractual minimum crediting rate

Note 5: NAV per Share

In accordance with FASB ASU No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Plan expanded its disclosure to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share or its equivalent for which the fair value is not readily determinable as of December 31, 2013 and 2012. For the Plan, such assets include investments in pooled separate accounts and guaranteed investment contract.

The following tables for December 31, 2013 and 2012, sets forth a summary of the Plan's investments with a reported NAV.

	Fair Value Estimated Using NAV per Share December 31, 2013				
	Fair Value *	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate accounts [(a)]	$4,957,225	None	Immediate	None	None

	Fair Value Estimated Using NAV per Share December 31, 2012				
	Fair Value *	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate accounts	$3,935,595	None	Immediate	None	None

*The fair values of the investment have been estimated using NAV of the investment.

(a) The investment objective of this fund/category is that it seeks high total return through both current income and capital appreciation. The portfolio seeks to attain its objective by normally investing substantially all its assets in high quality debt securities.

Note 6: Benefit Responsive Investment Contract with National Insurance Company

The Plan has a benefit-responsive investment contract with Prudential. Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses, which approximates fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is established without the use of a specific formula, but it may not be less than 1.50 percent. Such interest rates are reviewed on a semi-annual basis for resetting. Generally there are not any events that could limit the ability of the Plan to transact at contract value paid within 90 days or in rare circumstances, contract value paid over time. There are not any events that allow the

issuer to terminate the contract and which require the plan sponsor to settle at an amount different than contract value paid either within 90 days or over time.

The average yield earned by the trust for the years ended December 31, 2013 and 2012 was 2.00% and 2.35%, respectively. The average yield earned to reflect the actual interest rate credited to participants for the years ended December 31, 2013 and 2012 was 2.00% and 2.35%, respectively.

Note 7: Party-In-Interest Transactions

Certain plan investments are managed by Prudential, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the assets reported in the statement of net assets available for benefits

Note 9: Plan Tax Status

The Internal Revenue Service has determined by a letter dated October 9, 2003 that the Plan, which is a prototype plan written by Fidelity, is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan management believes it is no longer subject to income tax examinations for years prior to 2010.

Note 10: Subsequent Events

Effective January 1, 2014, the Plan was amended to become a frozen plan where contributions after that date are not allowed and any earnings and losses after the freeze date will be held until the participants are entitled to the benefits under the Plan.
