NOTE A – DESCRIPTION OF PLAN

The following description of the New Wave Entertainment 401 (k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all full-time employees of the New Wave Entertainment and subsidiaries (the "Company", "Employer") who have two months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Employer shall contribute and allocate to each participant's matching contribution account a discretionary matching contribution equal to a percentage to be determined each year by the Employer of each participant's elective deferrals. The Employee shall not match elective deferrals in excess of 6% of a participant's annual compensation. For 2013 the Employer made no matching contributions.

3. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Investment Options

Participants could direct employee and Employer contributions, as desired, in any of a variety of investment options held by the Principal Trust Company. Participants can change their investment options daily.

NOTE A – DESCRIPTION OF PLAN - (CONT.)

5. Vesting

Participant contributions, rollovers, Employer qualified non-elective contributions and actual earnings on all such contributions are fully vested at all times. Vesting of Employer matching contributions, Employer non-elective contributions and actual earnings on such contributions was based upon the participant's years of service with the Employer as follows:

Years of Service	Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5	100%

6. Benefit Payments

Upon termination of service or retirement, participants are entitled to receive a lump-sum amount equal to the value of his or her vested account balances. In the event of death or disability, a participant's beneficiary or the participant is entitled to the total value of the participant's vested account.

7. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of equal to the lesser of $50,000 or 50% of their vested account balance. All notes receivable are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

8. Forfeitures

Forfeitures of terminated participants' nonvested accounts are applied against future Employer matching contributions or reallocated to participants. As of December 31, 2013 and 2012, outstanding forfeitures available totaled $47 and $15,065, respectively, and are included in net assets available for benefits.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements have been prepared based on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States and present the net assets available for benefits and changes in net assets available for benefits.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-response investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contact value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

2. Plan Administration

The Employer is the Plan sponsor and the Plan administrator. The Plan administrator is responsible for carrying out the duties imposed under ERISA.

3. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

4. Investment Valuation

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants and the measurement date. See Note D for discussion of fair value measurements.

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Purchases and sales of securities are recorded on trade-date basis. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

5. Risks and Uncertainties

The Plan provides for various investment options in mutual funds. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

The Plan invests through mutual funds in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

6. Payment of Benefits

Benefits are recorded when paid.

7. Administrative Expenses

Substantially all administrative expenses of the Plan are paid by the Employer.

NOTE C – INVESTMENTS AND CERTIFICATION BY TRUSTEE

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Principal Trust Company and Transamerica Retirement Solutions, the Trustees of the Plan, as complete and accurate, except for comparing such information certified by the Trustees to information included in the Plan's financial statements and supplemental schedules.

Total investments and notes receivable from Participants held and certified by Principal Trust Company and Transamerica Retirement Solutions in the accompanying statements of net assets available for plan benefits were $7,881,741 and $6,643,611 as of December 31, 2013 and 2012, respectively. Net investment income of $1,403,699 and interest income from notes receivable from participants of $6,013 were certified by the trustees in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013.

NOTE C – INVESTMENTS AND CERTIFICATION BY TRUSTEE – (CONT.)

NOTE D – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

NOTE D – FAIR VALUE MEASUREMENTS -– (CONT.)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at quoted the net asset value (NAV) of shares held by the Plan at year end.

Group annuity contract: The Principal Fixed Income Option (PFIO) is a single group annuity contract with a fixed rate of interest. Average Yield earned by the Plan, for all fully benefit-responsive investment contracts with an adjustment to reflect the actual interest rate credited to participants calculated by dividing the annualized earnings credited to participants for all fully benefit-responsive investment contracts by the fair value of all fully benefit-responsive investment contracts.

The PFIO is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets as would be found in a Stable Value Fund. As a result, the average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract. The interest rate history for the contract is as follows:

Time Period	Rate
January 1, 2012 – June 30, 2012	2.75%
July 1, 2012 – December 31, 2013	2.70%

NOTE D – FAIR VALUE MEASUREMENTS – (CONT.)

Average yield earned by the Plan for all fully benefit-responsive investment contracts with adjustment to reflect the actual interest rate credited to participants is calculated by dividing the annualized earnings credited to participants for all fully benefit-responsive investment contracts by the fair value of all fully benefit-responsive investment contract.

Certain events may limit the ability of the Plan to transact at contract value with the issuer including a statement as to the probability of the occurrence of these events limiting the Plan's ability to transact at contract value with the participants.

By definition, the PFIO group annuity contract is an insurance contract. As a result the Plan may transact according to the terms defined in the contract at any time. The terms and methods under which the contract may transact are defined in Article II (Deposits and Funds), Article III (Fees), Article IV (Benefits and Other Payments), and Article V (Termination) in the contract. The Plan Sponsor should assess the probability of the occurrence of these events limited the Plan's ability to transact at contract value with participants.

The contract defines certain circumstances and amounts for which the contract may be terminated by the Plan. The issuer, Principal Life Insurance Company and Transamerica Retirement Solutions, have the right to no longer receive deposits; however the circumstances for termination of the contract are still subject to the contract. These events would allow the issuer to terminate fully benefit-responsive investment contracts with the Plan and settle at an amount different from the contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

NOTE E – PARTY-IN-INTEREST TRANSACTIONS

The Trustee is a party-in-interest with respect to the Plan. All investments were held with the Trustee. Loans receivable from Plan participants and the related interest income are also considered party-in-interest transactions.

NOTE E – INCOME TAX STATUS

The Employer adopted a volume submitter document, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. Administration errors, if any, that are insignificant or operational in nature, are handled by the administrator in accordance with applicable IRS correction policies.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2010.
