NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Exacta Aerospace Retirement Plan (Plan) provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions. As of December 31, 2013, assets of the Plan were transferred to the Precision Castparts Corp. (PCC) 401(k) Retirement Savings Plan. All benefit rights, options and features were preserved or enhanced.

General/Eligibility - The Plan, initially adopted January 1, 1997, is a defined contribution plan covering all employees of Exacta Aerospace, Inc. (Company) who have completed six months of service, as defined by the Plan, and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides that active participants may make salary deferral contributions in any percentage from 1% to 75% of eligible compensation up to the maximum amount allowed by Internal Revenue Code ($17,500 for year 2013) as adjusted for applicable percentages of compensation. Compensation includes overtime pay and certain bonuses as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions ($5,500 for 2013). Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company's matching contributions are based on a discretionary percentage. The Company matching contribution is 50% of the employee's deferral rate up to a maximum match of 2%. The Company may also contribute to the Plan out of its current or accumulated net profit such amount as determined by the Company; however, no amounts were contributed for the year ended December 31, 2013.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of participants' accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Normal Retirement - Normal retirement age is 65.

Notes Receivable From Participants - Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates. Principal and interest are paid ratably through regular payroll deductions.

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits - Payment to participants with vested balances of less than $5,000 at retirement, death, disability, or termination is in the form of a lump-sum payment. Participants with vested balances in excess of $5,000 may elect to receive a lump-sum payment, installments, or a combination thereof.

Forfeitures - At December 31, 2013 and 2012, forfeited non-vested accounts totaled $0 and $2,357, respectively. Forfeitures may first be used to pay administrative expenses and any remaining amounts will be used to reduce any non-elective contribution or matching contribution. During 2013, $11,670 of forfeitures was used to pay administrative expenses, and $1,007 was used to reduce employer contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates - The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect: (1) the reported amounts of assets and liabilities, (2) disclosures such as contingencies, and (3) the reported amounts of revenues and expenses included in such financial statements. Actual results could differ from those estimates.

As described in guidance regarding fully benefit-responsive investments, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2012, the Plan invested in the Key Guaranteed Portfolio Fund, which is guaranteed under assets of Great-West.

As required by the guidance, the Statements of Net Assets Available for Benefits present an adjustment from fair value to contract value for fully benefit-responsive investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. As of December 31, 2012, fair value approximated contract value for this investment contract and, therefore, no adjustment was required.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value and certified by Great-West. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Payment of Benefits - Benefits are recorded when paid.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses - The Company provides certain administrative services and pays administrative expenses on behalf of the Plan. As the Plan does not reimburse the Company for the costs of such services, they are not included in these financial statements.

Refundable Excess Contributions - Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction in contributions.

Subsequent Events - These financial statements considered subsequent events through October 9, 2014, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

The following is a summary of the information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements that was prepared by or derived from information provided by the Custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodian that information provided to the Plan Administrator by the Custodian related to the following is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information below and the fair values in Note 4.

4. INVESTMENTS AND FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The guidance describes three levels of inputs that may be used to measure fair value:

Level 1 - Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 - Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds

These investments are valued using a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Guaranteed Annuity Contract

This investment is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Due to the valuation being based on observable inputs, but not a quoted market price, this investment is classified within level 2 of the valuation hierarchy.

4. INVESTMENTS AND FAIR VALUE MEASUREMENTS (CONTINUED)

The fair value at December 31, 2013 and 2012, of the Plan's financial instruments that are valued on a recurring basis in accordance with the above fair value hierarchy, as provided by the Custodian, is as follows:

5. TAX STATUS

The Plan has adopted a non-standard form of a prototype Plan designed to qualify under Section 401(k) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the prototype plan has received an opinion letter dated March 31, 2008, that this Plan is relying on. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable requirement of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. Tax years that remain subject to examination in the Plan's major tax jurisdictions are 2010, 2011, 2012, and 2013.

6. GUARANTEED ANNUITY CONTRACT

As of December 31, 2012, the Plan invested in the Great-West Key Guaranteed Portfolio Fund. The Great-West Key Guaranteed Portfolio Fund is a benefit-responsive investment contract with Great-West. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. New money interest crediting rate is reset quarterly and shall never be less than 0%.

The Key Guaranteed Portfolio Fund has been determined to be fully benefit-responsive, and therefore contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Custodian has determined that contract value approximates fair value at December 31, 2012, and no adjustments are reflected on the Statement of Net Assets Available for Benefits.

The Key Guaranteed Portfolio Fund does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	For the Years Ended:	
Average yields:	2013	2012
Based on actual earnings	1.26%	1.45%
Based on interest rate credited to participants	1.26%	1.45%

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan assets are managed by the Custodian. Great-West is the asset Custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.
