Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Enterprise Employees' Pension and 401(k) Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 11, which was certified by Principal Financial Group, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Information

The supplemental schedule of delinquent participant contributions and schedule of assets (held at end of year) is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules referred to above.

Other Matter - 2012 Financial Statements

The financial statements of the Enterprise Employees' Pension and 401(k) Plan as of December 31, 2012, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Principal Financial Group, the trustee of the Plan. Their report, dated October 7, 2013, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2013

Note 1 - Description of Plan

The following description of the Enterprise Employees' Pension and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution profit sharing plan covering all eligible full-time employees of Enterprise Community Partners, Inc. (the "Company") and its affiliates who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Retirement Committee of the Company is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Effective January 1, 2013, the Plan was amended and merged with the Bellwether Real Estate Capital LLC 401(k) Plan (the "Bellwether Plan"). Upon the merger of the Bellwether Plan, all of its participants were immediately fully vested in the benefits provided pursuant to the Bellwether Plan, and the trustee of the Bellwether Plan was directed to distribute the assets of the Bellwether Plan to the eligible participants.

Pursuant to the terms of the Plan, as amended, participants in the Bellwether Plan who continued in the employ of the Company following the merger with the Bellwether Plan were provided the opportunity to transfer the distributions (including loans) from the Bellwether Plan to the Plan. Distributions of \$1,001,258 were transferred from the Bellwether Plan to the Plan, and is included in Transfer from Bellwether Plan on the statement of changes in net assets available for benefits.

Contributions

Annual compensation used in determining a participant's contribution to the Plan is limited pursuant to the provisions of Section 401 of the Internal Revenue Code (the "IRC"). The annual compensation limit for 2013 and 2012 was \$255,000 and \$250,000, respectively, and is in compliance with all applicable Section 401 regulations of the IRC. Subject to the maximum salary deferral allowed for 401(k) purposes, participants may elect participants may elect to voluntarily contribute up to 100% of their annual compensation to the Plan each year. Pursuant to the Salary Deferral Agreement between the participant and the Company, the participant's compensation will be deferred for the purpose of making contributions to the Plan. Participants satisfying the eligibility requirements will receive an employer matching contribution (subject to the vesting provisions detailed below) equal to \$.50 for each \$1.00 by which a participant defers their compensation pursuant to a salary-deferral agreement up to a maximum of 6% of their compensation (i.e., the maximum employer matching contribution is 3% of compensation).

Each year, the Company may also fund the Plan with a non-elective discretionary contribution on behalf of each eligible participant. The contribution in 2013 and 2012 was equal to 3% of each participant's compensation in excess of 100% of the social security taxable wage base (\$113,700 and \$110,100 for 2013 and 2012, respectively).

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2013

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service as follows:

Profit Sharing and Fixed Accounts		Matching Accounts	
Years of Service	Vested Percentage	Years of Service	Vested Percentage
Less than 2	0%	Less than 1	0%
2	20%	1	33%
3	40%	2	66%
4	60%	3 or more	100%
5	80%		
6 or more	100%		

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan is set at 1% above the prime rate. Principal and interest is paid ratably through monthly payroll deductions.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a fixed payment installment option paid annually, semi-annually, quarterly, or monthly installments as elected by the participant. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$0 and \$63,399, respectively. These accounts will be used to reduce future employer contributions. Also in 2013, employer contributions were reduced by \$66,839 from forfeited nonvested accounts.

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2013

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Effective July 2013, the Plan changed its position on the fair value measurement of its guaranteed investment contract with Principal Life Insurance Company. Participant transactions are executed using contract value without adjustment unless there is a termination of the contract. The Plan has no intent to terminate the contract and therefore, the fair value is equal to the contract value at December 31, 2013.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2013

participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through October 15, 2014, the date the financial statements were available to be issued.

Note 3 - Investments

The following presents investments that represent 5% or more of the Plan's net assets:

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2013

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 5). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2013

factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Assets measured at fair value at December 31, 2013:	Level 1	Level 2	Level 3	Total

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2013

Note 5 - Guaranteed investment contract with Principal Life Insurance Company

The Plan has a fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company, who maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. As of the year ended December 31, 2013, the guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value which approximates fair value. As of the year ended December 31, 2012, the guaranteed investment contract is presented on the face of the statements fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was \$6,781,356 and \$6,201,123, respectively. The contract value of the investment contract at December 31, 2013 and 2012 was \$6,781,356 and \$5,891,067, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed semi-annually by the issuer for resetting. The crediting interest rate was 2.10% for the period January 1, 2013 through May 31, 2013 and 2.00% for the period June 1, 2013 through December 31, 2013.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events which would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6 - Related party transactions and party-in-interest transactions

Certain Plan investments are shares of mutual funds managed by Principal Financial Group. Principal Financial Group is the trustee as defined by the Plan and, therefore, these

Enterprise Employees' Pension and 401(k) Plan

Notes to Financial Statements December 31, 2013

transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator totaling \$10,000 which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Note 7 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8 - Tax status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions. During 2013, the Plan underwent an examination from the IRS and no issues were identified as a result of the examination. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2013, and investment income and interest income on notes receivable from participants for the year ended December 31, 2013, that is disclosed in the accompanying financial statements and supplemental schedules, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee of the Plan.

Net assets available for benefits per Form 5500	<u>\$ 68,839,824</u>	<u>\$ 52,454,746</u>

Note 12 - Nonexempt transactions

As reported on the supplemental schedule of delinquent participant contributions ("schedule H, Line 4a"), \$635 of Plan contributions were not remitted to the trust within the timeframe specified by the Department of Labor's Regulation 29 ("CFR 2510.3-102"), thus constituting nonexempt transactions between the Plan and the Company for the year ended December 31, 2013.
