Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Alcan Combined Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by State Street Bank and Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the Plan Administrator by the trustee is correct and complete to the best of their knowledge and belief.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of a Matter

As discussed in Note 1 to the financial statements, the Global Benefits Committee of Rio Tinto America resolved on December 20, 2013 to merge the Plan into the Rio Tinto Alcan Pension Plan (U.S.) as of December 31, 2013. All plan assets and accumulated plan benefits of the Plan were transferred to the legal control of the Rio Tinto Alcan Pension Plan (U.S.) as of December 31, 2013. Our disclaimer of opinion has not been modified with respect to this matter.

Report on Form and Content in Compliance With the DOL's Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Alcan Combined Pension Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established by Pechiney Plastic Packaging, Inc. (the Company or Employer). The Plan was a noncontributory defined benefit plan that included certain groups of salaried employees at participating employers, as defined in the plan document, or who were members of a group of employees who have been specifically included by action of the Benefits Committee, provided they were not covered by a collective bargaining agreement. The Company is a subsidiary of Rio Tinto Alcan Inc., which is an indirect, wholly owned subsidiary of Rio Tinto plc (the Parent). The Plan was intended to be a qualified retirement plan under the Internal Revenue Code (IRC) and was subject to the provisions of ERISA. The Company appointed State Street Bank and Trust Company (State Street) to be the trustee and invest and manage the assets of the Plan. The Plan was administered by the Rio Tinto America Benefit Governance Committee.

The Plan was part of the Rio Tinto America Master Retirement Trust (Master Trust), whose assets were held with State Street, which was created to hold the qualified defined benefit investment assets of the Plan and other plans sponsored by the Company and related companies.

Effective December 31, 2011, participation in the Plan became closed to individuals who were hired or rehired as, or became, an employee of a participating company on or after December 31, 2011. Effective December 31, 2011, benefit accruals under the Plan were frozen. Compensation for determining participants' accrued benefits did not include compensation paid after December 31, 2011, and benefit service ceased to accrue as of December 31, 2011, for benefit accrual purposes but continued to be counted for purposes of determining vesting. No benefit increases or supplements of any sort were made after December 31, 2011.

Effective January 1, 2012, employees of the Company who were participants in the Plan as of December 31, 2011, and whose employment with the Company continued after December 31, 2011, became participants in the Rio Tinto Alcan Pension Plan (U.S.) (RTAPP), formerly known as the AlcanCorp Pension Plan. As noted above, all benefit accruals in the Plan ceased as of December 31, 2011, and were to be paid from the Plan, and benefit accruals began under the RTAPP for these participants based on the provisions in the Plan, as if this Plan continued under the RTAPP.

Plan merger: Effective December 31, 2013, the Plan merged into the RTAPP. The Plan's net assets and accumulated plan benefits were transferred to and assumed by the RTAPP.

Pension benefits: Participants were entitled to annual pension benefits at normal retirement. Benefit provisions were changed effective January 1, 2007. The benefit formula was changed to generally provide an annual normal retirement benefit that was 1.5 percent of the participant's plan compensation for each year the participant earned benefit service (a benefit based on a career average formula). Special grandfathering rules allowed a plan participant who met certain age plus service criteria as of December 31, 2006, to continue to accrue benefits after such date based on the former plan provisions. For participants that retire early, a reduced retirement benefit will be received.

The Plan generally permits early retirement if the participant reaches age 60 with five years of service. The early retirement benefit is the product of the normal retirement benefit multiplied by a factor based on age and early commencement.

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Prior to January 1, 2007, annual pension benefits were determined by the number of years of service at the time of retirement and the average compensation prior to retirement, defined by the participant's employment location.

The Plan also provided for disability benefits.

If the present value of the total benefit was greater than \$5,000, the form of payment depended on the participant's marital status and election at the time of retirement. If the present value of the total benefit was equal to or less than \$5,000, it was distributed as a one-time lump-sum payment. Participants became fully vested on completion of five years of eligible service or attaining age 65 while actively employed by the Company.

The normal form of payment was a straight life annuity for single participants and a 50 percent joint and survivor annuity for married participants. The Plan also had the following optional forms of payment:

- 50 percent, 75 percent and 100 percent joint and survivor annuity
- 10-year certain and life annuity

Information regarding the vesting and benefit provisions of the Plan is contained in the Summary Plan Description. Copies of this booklet are available from the human resources department of the Company.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from the estimates.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Risks and uncertainties: The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the 2013 statement of net assets available for benefits.

The Master Trust invests in securities with contractual cash flows, such as credit default and interest rate swaps. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, delinquencies and/or defaults, and may be adversely affected by a shift in the market's perception of the issuers and changes in interest rates.

Alcan Combined Pension Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Rio Tinto America Inc. Pension Investment Committee determines the Plan's valuation policies, utilizing information provided by the investment advisors and trustee. See Note 7 for a discussion of fair value measurements.

Interest income was recorded on the accrual basis, and dividends were recorded on the ex-dividend date. Purchases and sales of investments were recorded on a trade-date basis. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the year.

Valuation of investment in Master Trust: The Master Trust is a multiple-plan trust, ownership of which is divided among the plans based on allocated units of participation. Each participation unit has a value equal to the total fair value of the Master Trust's net assets divided by the total participation units outstanding. State Street is the trustee of the Master Trust.

The Plan had an undivided interest in the Master Trust's underlying investments. The Plan's interest in the Master Trust was stated at fair value. The Plan's interest in the Master Trust was based on the beginning-of-year value of the Plan's interest in the Master Trust, plus actual contributions and allocated investment income (loss), less actual distributions and actual and allocated administrative expenses. The net investment income (loss) and administrative expenses attributable to the Master Trust that are not plan-specific were allocated by the trustee to the Plan based on the Plan's pro rata share of each of the underlying assets of the Master Trust on a monthly basis. The Plan presents in the statements of changes in net assets available for benefits its interest in the net investment income or loss of the Master Trust, which consisted of the realized gains or losses, unrealized appreciation or depreciation, interest, and dividends of the Master Trust's investments.

Funding policy: The Company contributed to the Plan at such times and in such amounts as considered necessary so that contributions were sufficient to provide benefits as actuarially calculated under the terms of the Plan. The Company's funding policy was to fund the Plan to a level of approximately 91 percent, taking into account the 25-year smoothing of interest rates introduced by the Moving Ahead for Progress in the 21st Century Act (MAP-21). Contributions to the Plan were designed to fund at least the minimum required contributions as specified by ERISA and determined under IRC section 430(a). The minimum contributions were determined as of the beginning of the plan year, and all contributions were discounted at the effective interest rate from the date funded to the beginning of the plan year. The Company could elect to use all or a portion of any funding standard carryover balance or prefunding balance to offset the minimum required contribution for a plan year if the Plan's eligibility ratio for the prior plan year was at least 80 percent. The Plan met all minimum funding requirements as required. Under this method, the required contributions were approximately \$1,190,000 for 2013. No contributions were required or made in 2012.

Payment of benefits: Benefits were recorded when paid.

Administrative expenses: The Company paid a portion of the costs and expenses incurred in administering the Plan, with the Plan paying the remaining costs and expenses. The Company provided accounting and other services for the Plan at no cost to the Plan. Expenses that were paid directly by the Company were excluded from these financial statements, unless reimbursed by the Plan.

Alcan Combined Pension Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Tax status: The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 26, 2012, that the Plan and related trust were designed in accordance with applicable sections of the IRC. The plan document was amended since receiving the determination letter; however, the Plan Administrator believes that the Plan was designed and was being operated in compliance with applicable requirements of the IRC.

The Plan Administrator has evaluated the Plan's tax positions and concluded that the Plan had taken no uncertain tax positions that would require adjustment to the financial statements. Therefore, no provision or liability for income taxes was included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2010.

Pension Protection Act: The Pension Protection Act of 2006 (PPA), as amended by the Worker, Retiree and Employer Recovery Act of 2008 (WRERA), imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk" status is referred to as the Funding Target Attainment Percentage (FTAP). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage (AFTAP). The 2013 AFTAP for the Plan was approximately 95 percent. Because the Plan's AFTAP equals or exceeds 80 percent, the Plan was not subject to any benefit restrictions.

Subsequent events: The Plan Administrator has evaluated subsequent events and transactions through October 14, 2014, the date on which the financial statements were available to be issued.

Note 3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that were attributable under the Plan's provisions to the service employees rendered. Accumulated plan benefits included benefits expected to be paid to (a) retired or terminated employees with vested rights or their beneficiaries, (b) beneficiaries of employees who died, and (c) present employees or their beneficiaries. In calculating the accumulated benefits, only service and salary prior to the valuation date were considered. The accumulated benefit values do not anticipate any future service or future salary increases. Benefits payable under all circumstances—retirement, death, disability and termination of employment—were included to the extent they were deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was calculated by consulting actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected future payment dates.

The actuarial valuation was done by using the beginning-of-the-year method. Therefore, the accumulated plan benefits as of December 31, 2012, are presented from information provided by the actuary as of January 1, 2013. There was no significant change in the Plan's provisions or coverage from December 31, 2012, to January 1, 2013.

Effective December 31, 2011, the Plan was amended to exclude any individuals who are hired or rehired as, or become, an employee of a participating company on or after December 31, 2011, from participating in the Plan. All accrual of benefits ended as of December 31, 2011, except for grandfathered employees, but benefit service continued to count for purposes of determining vesting.

Note 3. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The more significant assumptions underlying the actuarial computations as of December 31, 2012, were as follows:

Investment return	6.90% per annum
Mortality table used	UP94 with generational mortality projected by Scale AA, with specific weighting between males and females for salaried and hourly participants
Retirement rates	100% for participants with known 2013 termination dates; 100% of participants for various groups at ages ranging from 59 to 65; rates increasing from 5% to 100% between ages 55 and 65 for participants accruing in another plan

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2012, is summarized as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefits	\$ 59,954,388
Other participants	62,987,342
	<u>122,941,730</u>

Nonvested benefits

	53,192
Total actuarial present value of accumulated plan benefits, at December 31, 2012	<u><u>\$ 122,994,922</u></u>

Below is a summary of significant changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2012:

Actuarial present value of accumulated plan benefits, at beginning of year	<u>\$ 141,321,755</u>
Increase (decrease) during the year attributable to:	
Benefits paid	(5,316,940)
Interest accumulation	7,767,172
Change in actuarial assumptions*	(21,817,036)
Experience losses	1,039,971
Net increase	<u>(18,326,833)</u>
Actuarial present value of accumulated plan benefits, at end of year	<u><u>\$ 122,994,922</u></u>

*The most significant change in actuarial assumptions was the increase in investment return from 5.60 percent in 2011 to 6.90 percent in 2012, which resulted in a large decrease in the actuarial present value of accumulated plan benefits.

Note 3. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The present value of accrued and vested benefits was calculated on an ongoing plan basis and does not represent the amount required in the event of plan termination.

The estimated present value of accumulated plan benefits assumed by the RTAPP was approximately \$125,653,000 at December 31, 2013. The assumption of the accumulated plan benefits by the RTAPP resulting from the merger was not reflected in the accumulated plan benefits as of December 31, 2012.

Note 4. Information Certified or Provided by State Street

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the years then ended, included throughout the Plan's financial statements, which were prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets was correct and complete to the best of their knowledge and belief. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements related to the following assets:

	2013	2012
Investments:		
Plan's interest in Rio Tinto America Master Retirement Trust	\$ -	\$ 131,250,562

State Street also certified to the best of their knowledge and belief the correctness and completeness of investment results of the Plan's interest in the Master Trust for the years ended December 31, 2013 and 2012, as follows:

	Years Ended December 31	
	2013	2012
Investment results:		
Rio Tinto America Master Retirement Trust	\$ 15,121,127	\$ 18,713,029

The Plan's interest in and the investment results of the Rio Tinto America Master Retirement Trust as presented above do not reflect an increase in the value of the partnerships/joint ventures investment or income attributable to an adjustment made subsequent to the dates of certifications by State Street.

Note 5. Interest in Master Trust

The Plan participates in the Master Trust as permitted by the plan agreement. The Plan had an undivided interest of 7.3 percent in the net assets of the Master Trust as of December 31, 2012.

The Master Trust financial information disclosed below and in Notes 6 and 7 represents 100 percent of the Master Trust net assets and the related changes in net assets in which the Plan has an undivided interest as of and for the years ended December 31, 2013 and 2012.

Note 7. Fair Value Measurements

Accounting guidance provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted market prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets within the Master Trust measured at fair value. There have been no significant changes in the methodologies used at December 31, 2013 and 2012.

Fixed-income securities: Fixed-income securities consist of U.S. and foreign government securities and corporate and other obligations. These securities are valued based on pricing matrices or models from pricing vendors used by the trustee. Commingled funds are valued based on the net asset value (NAV) of units held at year-end as provided by the fund administrator.

Common collective trusts: The common collective trusts are valued based on the NAV of units held at year-end as provided by the fund administrator. Generally, under ordinary market conditions, all common collective trust positions provide daily market liquidity to the Master Trust. Certain Master Trust-directed withdrawals may be subject to market value adjustments calculated in accordance with the provisions of the investment contracts.

Common and preferred stocks: Common and preferred stocks are valued based on the last sales price on the primary exchange.

Partnerships/joint ventures: Partnerships/joint ventures are valued based on the estimated fair value of the participation owned by the Master Trust as determined by the general partner or investment manager of the respective partnership. The NAV of the partnerships/joint ventures is based on the fair value of the underlying investments. The valuation inputs are derived primarily from audited financial statements and other financial data. Partnerships/joint ventures include 13 private equity fund of funds limited partnerships that invest in private equity, both domestically and internationally. These investments are considered illiquid and are meant to be held for the life of the funds but, if necessary, sales can be arranged through the secondary market. Distributions are received through the liquidation of the underlying assets of the funds. It is estimated that the underlying assets will be liquidated over the next eight years. Unfunded commitments of the Master Trust approximate \$93.3 million for these 13 funds.

Alcan Combined Pension Plan

Notes to Financial Statements

Note 7. Fair Value Measurements (Continued)

Partnerships/joint ventures also include six investments in domestic and international real estate fund limited partnerships. The fair value of these investments is estimated using the NAV of the Master Trust's ownership interest in partners' capital. The valuation inputs of these investments are derived from third-party appraisals. These investments are considered illiquid, but sales can be arranged on the secondary market. Distributions from each fund are received as income is generated through the investments and as the underlying assets of the funds are liquidated over the next eight years. Unfunded commitments of the Master Trust approximate \$43.2 million for these six investments.

Interest-bearing cash and cash equivalents: Interest-bearing cash and cash equivalents are valued based on cost, including the effects of foreign currency, which approximates fair value.

Registered investment companies: Registered investment companies are valued based on the last sales price on the primary exchange.

Loans secured by mortgages: Loans secured by mortgages are valued on the basis of their principal and interest payments discounted at prevailing interest rates for similar investments.

Credit default and interest rate swaps: Credit default and interest rate swaps are valued based on pricing matrices or models from pricing vendors used by the trustee. The net position is included with fixed-income securities-corporate bonds for purposes of the fair value measurement disclosures. See Note 9 for additional disclosures.

Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Alcan Combined Pension Plan

Notes to Financial Statements

Note 7. Fair Value Measurements (Continued)

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Master Trust evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets. For the years ended December 31, 2013 and 2012, there were no transfers in or out of Level 3.

The Master Trust follows guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of the guidance can be determined using NAV per share as a practical expedient, when fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. All investments of the Master Trust classified in Level 3 utilize NAV per share as a practical expedient to estimating fair value.

The following tables include categories of investments within the Master Trust where NAV is available as a practical expedient as of December 31, 2013 and 2012:

Note 8. Party-in-Interest Transactions

The Master Trust invests in the following investments managed by the trustee or affiliated companies that qualify as party-in-interest transactions:

	December 31	
	2013	2012
State Street Global Advisors Russell 1000 Index Fund	\$ 145,226,181	\$ 136,050,016

AXA Private Equity Fund II	1,569,630	2,064,374
AXA Early Secondary Fund V	1,007,616	-

These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA regulations.

Fees paid by the Master Trust for administrative expenses to the trustee and affiliated companies amounted to approximately \$568,000 and \$810,000 for the years ended December 31, 2013 and 2012, respectively. Certain administrative functions are performed by officers or employees of the Company, for which no compensation is received from the Plan.

Note 9. Derivative Financial Instruments

As of December 31, 2013, a fixed-income manager of the Master Trust utilizes derivative financial instruments consisting of credit default and interest rate swaps. This manager uses these financial instruments to manage exposure to interest rate and credit risks and to achieve the overall desired duration under the Master Trust's fixed-income mandate.

Credit default swap agreements involve one party (referred to as the buyer of protection) making a stream of payments to another party (the seller of protection) in exchange for the right to receive a specified return in the event of a default or other credit event for the referenced entity, obligation or index. As a seller of protection on credit default swap agreements, the Master Trust will generally receive from the buyer of protection a fixed rate of income throughout the term of the swap, provided that there is no credit event.

Alcan Combined Pension Plan

Notes to Financial Statements

Note 9. Derivative Financial Instruments (Continued)

If a credit event occurs, as defined under the terms of that particular swap agreement, the Master Trust will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation, other deliverable obligation or underlying securities comprising the referenced index or (ii) pay a net settlement in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

The maximum potential amount of future payments (undiscounted) that the Master Trust as a seller of protection could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. Notional amounts of all credit default swap agreements outstanding as of December 31, 2013 and 2012, for which the Master Trust is a seller of protection, are disclosed below. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, up-front payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Master Trust for the same referenced entity or entities.

Interest rate swap agreements involve the exchange by the Master Trust with a counterparty of their respective commitments to pay or receive interest, e.g., an exchange of floating-rate payments for fixed-rate payments, with respect to the notional amount of principal. These swaps are used to adjust interest rate and yield curve exposure and substitute for physical securities. Long swap positions ("received fixed") increase exposure to long-term interest rates; short positions ("pay fixed") decrease exposure. Notional amounts of all interest rate swap agreements outstanding as of December 31, 2013 and 2012, are disclosed below.

The notional values summarized below provide an indication of the extent of the Plan's involvement in such instruments. Notional amounts of derivative financial instruments do not necessarily represent amounts exchanged by parties and, therefore, are not a direct measure of the Plan's exposure from its use of derivatives. The net liability position of approximately \$189,000 and net asset position of approximately \$684,000 as of December 31, 2013 and 2012, respectively, is included in fixed income-corporate bonds for purposes of the fair value measurement disclosures in Note 7.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2013 and 2012:

	2013	2012
Net increase in net assets available for benefits before transfers per the financial statements	\$ 9,751,110	\$ 12,267,667
Investment income	(1,265,474)	(1,530,492)
Administrative expenses	1,265,474	1,530,492
Net increase in net assets available for benefits before transfers per the Form 5500	<u>\$ 9,751,110</u>	<u>\$ 12,267,667</u>

Note 11. Plan Merger

Effective December 31, 2013, the Plan's net assets of approximately \$141,301,000 were transferred into the legal control of the RTAPP. There was no physical transfer of plan assets as both plans were invested in the same master trust. In addition, the Plan's accumulated plan benefits of approximately \$125,653,000 were also assumed by the RTAPP.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption changes:

- A change in retirement and termination rates to reflect known 2013 terminations and to reflect RTA assumptions for Kennecott Salaried employees for frozen PPPI participants accruing in the RTA Plan.
- A change in the funding asset return assumption from 6.50% to 5.60%.

These changes were made to better reflect anticipated plan experience. The non-prescribed assumption changes did not reduce the funding shortfall by more than \$5 million; as such, approval of the Commissioner is not required.

Schedule SB, Part V—Summary of Plan Provisions

History of the Plan

Effective July 28, 1999, American National Can was split into separate companies. Pechiney created an IPO for the Beverage division of ANC, retaining just under 50% ownership. Pechiney retained 100% ownership of the Plastics division of ANC and renamed the company Pechiney Plastic Packaging, Inc. The following information pertains to Pechiney Plastic Packaging, Inc.

As of July 28, 1999, Pechiney Plastic Packaging, Inc. created PPPI Plan #001 — Salaried Plan.

PPPI Plan 001 was created as a mirror-offset plan to grant future accruals to participants moving from American National Can Group to PPPI. For participants who transferred employment from American National Can Group to PPPI, their total benefit will be based on final pay at PPPI and total service with both PPPI and ANCG. PPPI's portion of the benefit will be equal to the total benefit payable minus the portion payable by ANCG.

Effective January 1, 2000, Kenpak Salaried employees became participants in the Salaried Plan. Benefit service begins January 1, 2000, but service for eligibility and vesting was granted from hire date.

Effective July 1, 2001, JPS Salaried employees became participants in the Salaried Plan. Benefit service begins July 1, 2001, but service for eligibility and vesting was granted from date of hire.

Effective February 2, 2002, Phoenix Salaried employees became participants in the Salaried Plan. Benefit service begins February 2, 2002, but service for eligibility and vesting was granted from hire date.

Pechiney Plastics Packaging, Inc. was acquired by Alcan, Inc. in 2003. Purchase accounting was applied as of December 31, 2003. The methodology used to calculate FAS 87 expense was changed for 2004, to be consistent with that used by Alcan, Inc.

During 2005, Alcan, Inc. became the sponsor of the plan, which was renamed the Alcan Salaried Pension Plan (Plan # 001).

During 2006, there were significant headcount reductions for certain locations in PPPI Plan 001. FAS 88 curtailment accounting calculations were performed as of March 31, 2006 and June 30, 2006.

Effective January 1, 2007, the plan was amended, renamed and restated. The amendment created a career average plan for all new hires on or after January 1, 2005, and created several groups of participants with varying levels of pension grandfathering of the former PPPI Salaried Plan.

Effective January 1, 2007, Lawson Mardon Salaried employees became participants under the career average formula. Benefit service begins January 1, 2006, but eligibility and vesting service was granted from hire date.

During 2007, Rio Tinto acquired Alcan, Inc. and the resulting company Rio Tinto Alcan became the sponsor of the plan.

During 2010, certain Rio Tinto Alcan business units were sold. Rio Tinto retained the benefit liabilities for the impacted participants. All impacted participants were fully vested in their accrued benefits. All impacted Blue participants who were at least age 54 were bridged into early retirement eligibility.

Effective December 31, 2010, the Alcan Plastics Hourly Non-Union Pension Plan, the Alcan Plastics Hourly Union Pension Plan, the Alcan Tubes Hourly Non-Union Pension Plan, and the Alcan Retirement Plan for Bargaining Employees of Illinois were merged into the Alcan Career Pension Plan.

Effective January 1, 2011 the merged plan was renamed the Alcan Combined Pension Plan. The January 1, 2011 funding valuation reflects the benefit liabilities and plan assets of the four plans that merged into the Alcan Combined Pension Plan on December 31, 2010.

Effective December 31, 2011, the Alcan Combined Pension Plan was frozen. All active participants in the plan as of January 1, 2012 begin to accrue benefits in the Alcan Corp Pension Plan as of January 1, 2012.

Disability Retirement—All Participants
Eligibility

Entitled to benefits under the Company's Long-Term Disability (LTD) Plan and disability benefits under provisions of the Social Security Act.

Total Benefit

For participants with a date of disability on or after January 1, 2007: Accrued benefit commencing as of normal retirement date or, if later, when LTD benefits stop. The accrued benefit is based on salary on the date of disability and service on the date of disability plus up to two years of additional service if the participant continues to qualify for LTD benefits, assuming no changes occur in the social security law from the date of disability.

ANCG Offset for Participants
Transferring From ANC to PPPI

Date of Disability before January 1, 1989: ANCG pays complete benefit. No PPPI benefit is payable.

Date of Disability between January 1, 1989 and July 28, 1999: ANCG pays the portion of the Total Benefit that corresponds to service before July 28, 1999.

Date of Disability after July 28, 1999: The ANCG portion of the benefit will be based on service with ANCG and the Highest Average Salary upon disability to PPPI. Highest Average Salary for the ANCG portion of the benefit is limited to an average of 5% increases from the ANCG Highest Average Salary at the time of transfer.

Preretirement Spouse's Annuity
Eligibility

Any vested participant (active or terminated).

Total Benefit

For a participant who is eligible for early or normal retirement, the benefit is an immediate annuity to the surviving spouse equal to 50% of the monthly benefit the participant would have been entitled to had he retired the day before his death and elected the 50% J&S option.

For all other vested participants, the benefit is a deferred annuity to the surviving spouse equal to 50% of the monthly benefit the participant would have been entitled to had he terminated employment on the date of his death, survived to early retirement age, elected the 50% J&S option, and then died the following day.

Special Provisions Applicable to Former Nonhighly-Compensated Members of the
American National Can Group Retirement Plan for Salaried Employees—Plan 1 (i.e.,
former ACPI Salaried Plan)

Note: Eligibility for these special provisions is based on service in the ANCG Salaried Plan, but the actual monthly retirement benefit and the annual salary is based on accredited service and salary as of December 31, 1988 (under the terms of the ACPI Salaried Plan then in effect).

PPPI assumes all liabilities under the ANC 25-Year Survivorship and ANCG 10-Year Survivorship Plan in respect to PPPI employees transferring from ANC.

Survivor Income Benefit

Eligibility

The following requirements must be met at death:

- Hired before January 1, 1979
- Ten years of service
- Employee is active, on leave, on long-term or short-term disability, and
- Not covered by the Survivorship Benefit.

Total Benefit

For death before age 55: a monthly benefit of \$100 payable to the employee's age 55. After the employee's age 55, a monthly benefit equal to the greatest of \$100, 15% of the monthly retirement benefit (as if retired on date of death), or the Preretirement Spouse's Benefit.

For death after age 55: a monthly benefit equal to the greatest of \$100, 15% of the monthly retirement benefit (as if retired on date of death), or the Preretirement Spouse's Benefit.

Survivorship Benefit

Eligibility

The following requirements must be met at death:

Employed on or before April 30, 1975
25 years of service before age 65, and
Either active, on long-term or short-term disability, or an early retiree (does not include vested terminations).

Total Benefit

An amount calculated from a benefit base of two times frozen annual salary (base pay plus salary reductions only). If the benefit base is greater than \$5,000, the amount shall be paid in monthly installments to a beneficiary in such amounts as would have been payable had the benefit base been used to purchase a straight life annuity from an insurance company.
