Independent Auditor's Report

To the Plan Administrator and Participants
Eurofins Scientific Inc. Profit Sharing Thrift Plan
Lancaster, Pennsylvania

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Eurofins Scientific Inc. Profit Sharing Thrift Plan (the Plan), which comprise the statements of net assets available for benefits as of January 1, 2014, December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the period ended January 1, 2014 and the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Principal Trust Company and Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the custodians of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the custodians as of January 1, 2014, December 31, 2013 and 2012 and for the period ended January 1, 2014, and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As discussed in Note 6 to the financial statements, the Board of Directors of Eurofins Scientific, Inc., the Plan's sponsor, voted in 2013 to merge the Plan into the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan effective January 1, 2014. All Plan assets were transferred into the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan on January 2, 2014. Our disclaimer of opinion has not been modified with respect to this matter.

Other Matter

The supplemental schedules, Schedule H - Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of January 1, 2014 and December 31, 2013 and Schedule H - Part IV, Line 4a - Schedule of Delinquent Participant Contributions and Loan Repayments for the period ended January 1, 2014 and the year ended December 31, 2013, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. These supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of Eurofins Scientific Inc. Profit Sharing Thrift Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

Plan merger: The Board of Directors of Eurofins Scientific, Inc. (the Company) voted in 2013 to merge the Plan into Eurofins Scientific, Inc. 401(k) Incentive Savings Plan, effective January 1, 2014 (see also Note 6).

General and eligibility: The Plan was a defined contribution plan sponsored by Eurofins Scientific, Inc. and certain affiliates including Eurofins Medinet, LLC, Product Safety Labs, Inc., Eurofins Pharma US Holdings, MWG Biotech, Inc., Eurofins STA Laboratories, Inc., Eurofins Microbiology Laboratories, Inc., Agrosience, ETS, VirAlliance, Eurofins MWG Operon Biotechnologies, Inc., Xenometrics, LLC, Eurofins Analytical Laboratories, Inc., Eurofins Pan Laboratories, Inc. and Eurofins DQCI, LLC (collectively, the "Companies"). The Plan covered substantially all employees except leased employees. Eligible full-time employees could make deferral contributions starting on the first day of the month following the employee's date of hire. Eligible employees were entitled to employer contributions on the first day of the month following the completion of three months of service. Employees who were not expected to work 1,000 or more hours during their first year of employment did not become eligible for employer contributions until they had completed one year of service in which they worked over 1,000 hours and were over 21 years of age. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended and the applicable current Internal Revenue Code provisions.

Contributions and investment options: Each year, participants could elect to defer up to forty percent (40%) of their annual compensation subject to Internal Revenue Service limitations. The Plan provided an automatic election of 3% of compensation for all eligible employees. Employees could elect a different percentage or elect not to make any elective deferral contributions. Participants could also contribute amounts representing distributions from other qualified benefit plans. Participants directed the investment of their contributions and any employer contributions into various investments offered by the Plan. Participants could invest their contributions into a variety of mutual funds, pooled separate accounts and a common trust fund. Participants could change their investment options at any time. For 2013, the Companies matched 100% up to 3% of eligible compensation that a participant contributed to the Plan for participants of all affiliates except for Eurofins MWG Operon Biotechnologies, Inc. For participants who were employees of Eurofins MWG Operon Biotechnologies, the Companies matched 100% up to 6% of eligible compensation that a participant contributed to the Plan. There were no matching contributions paid during the period ended January 1, 2014. The Plan also allowed the Companies to make additional discretionary contributions. There were no discretionary contributions for the period ended January 1, 2014 or the year ended December 31, 2013. Beginning January 1, 2014, employee and employer contributions to the Plan ceased due to the Plan merger discussed in Note 6.

Participant accounts: Each participant's account was credited with the participant's deferral contribution and an allocation of (a) the Companies' discretionary matching contribution and additional discretionary contribution and (b) Plan earnings, and was charged with an allocation of administrative expenses. Allocations were based upon the participant's eligible compensation or account balances, as defined by the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Vesting: Participants were immediately vested in their deferral contributions plus earnings thereon. Participants who were employees of all affiliates except for Eurofins MWG Operon Biotechnologies, Inc. and Eurofins DQCI, LLC, vested in the Companies' discretionary matching and any additional contributions plus earnings thereon based upon years of continuous service with 100% cliff vesting occurring after five years of credited service with 1,000 hours each year. For participants who were employees of Eurofins MWG Operon Biotechnologies, Inc. 100% cliff vesting occurred after three years of credited service. Participants of Eurofins DQCI, Inc. were immediately 100% vested for all contributions. In the event of death, disability, normal retirement age (65), or if the Plan is discontinued, participants became 100% vested in all account balances.

Payment of benefits: Upon termination of service, death, disability, or retirement, participants could receive account distributions in the form of a lump sum payment or distribution in kind as defined by the Plan. Withdrawals by a participant while employed were limited to those requested due to events of financial hardship as defined by the Plan or upon the attainment of age 59 1/2. If the participant's account value is less than \$5,000, the Plan Administrator shall provide for the payment of such to the participant in a lump sum within a reasonable time following termination.

Forfeitures: Forfeited balances of terminated participants' nonvested accounts were used to reduce the Companies' contributions and pay administrative expenses. At December 31, 2012, forfeitures available totaled approximately \$40,000. During the year ended December 31, 2013, approximately \$116,000 and \$54,000, of forfeitures were used to reduce employer contributions and pay administrative expenses, respectively. There were no forfeitures available at January 1, 2014 or December 31, 2013.

Notes receivable from participants: Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance reduced by the highest outstanding note receivable balance during the prior 12-month period. Transactions were treated as a transfer to (from) the investment fund from (to) notes receivable. Terms varied based on the reason for the note. The notes receivable were secured by the vested balance in the participant's account and bore interest based on prevailing interest rates. Principal and interest were paid ratably through payroll deductions. Notes receivable outstanding at January 1, 2014 and December 31, 2013 bore interest at rates ranging from 3.25% to 7.75% and were due from February 2014 through November 2018.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan were prepared under the accrual method of accounting.

Investment valuation and income recognition: The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements.

Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

The Plan invested in investment contracts with Principal Life Insurance Company (Principal) through a bank common trust. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment in the bank common trust as well as the adjustment of the investment in the bank common trust from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest was recorded on the accrual basis. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the period.

Notes receivable from participants: Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes were treated as distributions based upon the terms of the plan document.

Benefit payments: Benefit payments were recorded when paid.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and disclosure through October 14, 2014, which is the date the financial statements were available to be issued. Through this date, no events requiring recognition or disclosure occurred other than those discussed in Note 6 and 12.

Note 3. Administrative Expenses

Certain administrative functions were performed by officers or employees of the Companies. No such officer or employee received compensation from the Plan. Certain other administrative expenses were paid directly by the Plan.

Note 4. Information Certified and Provided by Principal Trust Company and Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company

The following is a summary of the Plan's asset information as of January 1, 2014, December 31, 2013 and 2012, and for the period ended January 1, 2014 and year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedules, that was prepared or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the following assets:

Notes to Financial Statements

Note 5. Fully Benefit-Responsive Contracts

The Principal Stable Value Fund (the "Fund") offers a diversified group of investments with competitive levels of yield consistent with a stable fixed-income methodology and a prudent assumption of investment risk. The Fund provides stability of returns, liquidity to pay plan benefits and a high credit quality by investing in conventional, synthetic and separate account investment contracts (collective contracts) issued by life insurance companies, banks and other financial institutions. These contracts allow for their principal value to remain stable regardless of the volatility of the financial markets.

Investments held by a collective investment trust are required to be reported at fair value. The statements of assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. In anticipation of the Plan merger, the Fund was liquidated on December 31, 2013 and, therefore, the Fund's contract value and fair value was none at January 1, 2014 and December 31, 2013. As of December 31, 2012, the Fund's contract value was \$2,613,672 with a fair value of \$2,675,104. The Plan's interest in the assets of the stable value fund was 0.06% as of December 31, 2012.

The contributions are maintained in a general account which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Due to the plan merger described in Note 6, there was no investment activity in the Fund for the period ended January 1, 2014. Below is a summary of the average contract yield in the aggregate for all contracts as of December 31, 2013 and 2012:

	2013	2012
Average yield based on interest rates credited to participants ⁽¹⁾	1.24%	0.88%
Weighted average crediting rate of all investment contracts ⁽²⁾	1.28%	1.64%

⁽¹⁾ Calculated based on weighted average crediting rate of all investment contracts and short term income at year end.

⁽²⁾ Calculated based on weighted average yield to maturity of all underlying investments at year end.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total Plan termination, retirement incentive programs, and the liberalization of Plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment may apply. The Plan merger did not have a significant effect on the participant's account balances upon liquidation.

The Fund may terminate the investment contract with the Plan by providing 12 months advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by federal law, failure to render performance necessary to comply with the terms of the contract, Plan disqualification and failure to adopt the Plan in a reasonable period of time. Upon termination by the Fund, a market value adjustment may apply.

Notes to Financial Statements

Note 6. Plan Merger

In 2013, the Company voted to merge the Plan effective January 1, 2014 with the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan. No employee shall be eligible to become a participant in the Plan on or after January 1, 2014. No additional contributions shall be made to the Plan after December 31, 2013.

Net assets of approximately \$31,670,000 were liquidated and held by the Plan's custodian at January 1, 2014 and December 31, 2013 and are reported as due from broker on the statements of net assets available for benefits. Transfer of legal control of the Plan's net assets occurred on January 1, 2014. Transfer of legal title of the Plan's net assets plus approximately \$745,000 of notes receivable from participants were transferred to Eurofins Scientific, Inc. 401(k) Incentive Savings Plan on January 2, 2014. As a result, the statement of net assets as of January 1, 2014 reflects a due to Eurofins Scientific, Inc. 401(k) Incentive Savings Plan and the statement of changes in net assets available for benefits for the period ended January 1, 2014 reflects a pending transfer.

Note 7. Tax Status

Effective August 29, 2009, the Plan adopted a non-standardized form of a prototype plan sponsored by Principal Financial Group. The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008 as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan was designed and was being operated in compliance with the applicable provisions of the Internal Revenue Code.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is no longer subject to income tax examination by the U.S. federal, state or local tax authorities for years before 2010.

Note 8. Related-Party Transactions

Certain Plan investments were shares of pooled separate accounts and a bank common trust fund managed by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the custodian as defined by the Plan. These transactions qualify as party-in-interest transactions.

Note 9. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the topic are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 9. Fair Value Measurements (Continued)

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Pooled separate accounts (other than the Principal U.S. Property Separate Account) invested primarily in domestic and international stocks, commercial paper, or single mutual funds. The U.S. Property Separate Account invested primarily in commercial real estate and included mortgage loans which are backed by the associated properties. The net asset value was used as a practical expedient to determine fair value. Each pooled separate account provided for redemptions by the Plan at reported net asset values per share, with little to no advance notice requirement, therefore these funds were classified within Level 2 of the valuation hierarchy.

Bank common trust fund: The bank common trust fund was reported at fair value based on the underlying investments comprising the trust and was classified within Level 2 of the valuation hierarchy. The net asset value was used as a practical expedient to determine fair value.

Mutual funds: Mutual funds were reported at fair value based on the quoted market price of the fund and were classified within Level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 9. Fair Value Measurements (Continued)

Due to the Plan merger described in Note 6, there were no financial assets or liabilities reported at fair value as of January 1, 2014 or December 31, 2013. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	2012			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Mutual funds:				
Large U.S. equity	\$ 2,942,334	\$ 2,942,334	\$ -	\$ -
Small/mid U.S. equity	1,627,898	1,627,898	-	-
Fixed income	874,095	874,095	-	-
Other	383,079	383,079	-	-
Total mutual funds	5,827,406	5,827,406	-	-

Total	\$ 25,869,394	\$ 5,827,406	\$ 20,041,988	\$ -

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

During the year ended December 31, 2013, the Plan did not have any transfers between Level 1, 2 or 3 assets and liabilities.

- (a) This category invests the majority of assets in common stocks of companies that either compose or are within the range of companies that compose the S&P 500 Index or in a fund that may have a greater exposure to large market capitalization companies than small or medium capitalization companies. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.
- (b) The pooled separate accounts in this category primarily invest in equity securities of U.S. companies with small to mid-size market capitalization. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.
- (c) This category seeks long-term growth by investing in common stocks of non-U.S. companies with small to medium market capitalization. Investments are normally diversified across different countries and regions of the world. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.
- (d) The pooled separate accounts in this category seek long-term growth of capital and current income. Selected funds within this category primarily invest in domestic and foreign equity, hybrid, and fixed income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. It allocates the assets more conservatively over time. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.
- (e) This investment seeks a high level of current income consistent with preservation of principle and maintenance of liquidity. It invests in a portfolio of high quality, short-term, money market instruments. The investments are U.S. dollar denominated securities that present minimal credit risks. This investment option does not accept new contributions or transfers.

Note 10. Fair Value Measurements (Continued)

- (f) This category invests the majority of its assets in U.S. companies rated BBB or higher by S&P or Moody's, intermediate-term, fixed income investments such as public and private bonds, commercial and residential mortgages, asset backed securities and U.S. government and agency backed securities. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.
- (g) This category invests the majority of its assets in U.S. commercial real estate holdings including multifamily, office, warehouse, manufacturing, and retail properties. It focuses on properties that return both lease income and appreciation of the buildings' marketable value. Investments in this category can be redeemed two times in a 30 day period at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this period.
- (h) This category consists of a common trust fund which seeks current income by investing primarily in insurance contracts issued by insurance companies and investments from financial institutions which offer stability of principal. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at January 1, 2014 and December 31, 2013 and 2012 to the Form 5500:

	January 1, 2014	December 31, 2013	December 31, 2012
Net assets available for benefits per the financial statements	\$ -	\$ 32,414,702	\$ 26,591,643

Net assets per the Form 5500	\$ -	\$ 32,414,702	\$ 26,653,075

As further described in Note 6, all Plan assets merged into the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan effective January 1, 2014. The financial statements were prepared as of the effective date of the merger. The physical transfer of assets occurred on January 2, 2014. As a result, the financial statements recognized receivables for notes receivable from participants and assets due from broker on January 1, 2014, with an offsetting liability due to the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan. The Form 5500 was prepared as of January 2, 2014, thus reflects zero plan assets and liabilities as the transfer of assets had settled.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Eurofins Scientific Inc. Profit Sharing Thrift Plan (the Plan), which comprise the statements of net assets available for benefits as of January 1, 2014, December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the period ended January 1, 2014 and the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Principal Trust Company and Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the custodians of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the custodians as of January 1, 2014, December 31, 2013 and 2012 and for the period ended January 1, 2014, and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As discussed in Note 6 to the financial statements, the Board of Directors of Eurofins Scientific, Inc., the Plan's sponsor, voted in 2013 to merge the Plan into the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan effective January 1, 2014. All Plan assets were transferred into the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan on January 2, 2014. Our disclaimer of opinion has not been modified with respect to this matter.

Other Matter

The supplemental schedules, Schedule H - Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of January 1, 2014 and December 31, 2013 and Schedule H - Part IV, Line 4a - Schedule of Delinquent Participant Contributions and Loan Repayments for the period ended January 1, 2014 and the year ended December 31, 2013, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. These supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Note 1. Plan Description

The following description of Eurofins Scientific Inc. Profit Sharing Thrift Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

Plan merger: The Board of Directors of Eurofins Scientific, Inc. (the Company) voted in 2013 to merge the Plan into Eurofins Scientific, Inc. 401(k) Incentive Savings Plan, effective January 1, 2014 (see also Note 6).

General and eligibility: The Plan was a defined contribution plan sponsored by Eurofins Scientific, Inc. and certain affiliates including Eurofins Medinet, LLC, Product Safety Labs, Inc., Eurofins Pharma US Holdings, MWG Biotech, Inc., Eurofins STA Laboratories, Inc., Eurofins Microbiology Laboratories, Inc., Agrosience, ETS, VirAlliance, Eurofins MWG Operon Biotechnologies, Inc., Xenometrics, LLC, Eurofins Analytical Laboratories, Inc., Eurofins Pan Laboratories, Inc. and Eurofins DQCI, LLC (collectively, the "Companies"). The Plan covered substantially all employees except leased employees. Eligible full-time employees could make deferral contributions starting on the first day of the month following the employee's date of hire. Eligible employees were entitled to employer contributions on the first day of the month following the completion of three months of service. Employees who were not expected to work 1,000 or more hours during their first year of employment did not become eligible for employer contributions until they had completed one year of service in which they worked over 1,000 hours and were over 21 years of age. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended and the applicable current Internal Revenue Code provisions.

Contributions and investment options: Each year, participants could elect to defer up to forty percent (40%) of their annual compensation subject to Internal Revenue Service limitations. The Plan provided an automatic election of 3% of compensation for all eligible employees. Employees could elect a different percentage or elect not to make any elective deferral contributions. Participants could also contribute amounts representing distributions from other qualified benefit plans. Participants directed the investment of their contributions and any employer contributions into various investments offered by the Plan. Participants could invest their contributions into a variety of mutual funds, pooled separate accounts and a common trust fund. Participants could change their investment options at any time. For 2013, the Companies matched 100% up to 3% of eligible compensation that a participant contributed to the Plan for participants of all affiliates except for Eurofins MWG Operon Biotechnologies, Inc. For participants who were employees of Eurofins MWG Operon Biotechnologies, the Companies matched 100% up to 6% of eligible compensation that a participant contributed to the Plan. There were no matching contributions paid during the period ended January 1, 2014. The Plan also allowed the Companies to make additional discretionary contributions. There were no discretionary contributions for the period ended January 1, 2014 or the year ended December 31, 2013. Beginning January 1, 2014, employee and employer contributions to the Plan ceased due to the Plan merger discussed in Note 6.

Participant accounts: Each participant's account was credited with the participant's deferral contribution and an allocation of (a) the Companies' discretionary matching contribution and additional discretionary contribution and (b) Plan earnings, and was charged with an allocation of administrative expenses. Allocations were based upon the participant's eligible compensation or account balances, as defined by the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Vesting: Participants were immediately vested in their deferral contributions plus earnings thereon. Participants who were employees of all affiliates except for Eurofins MWG Operon Biotechnologies, Inc. and Eurofins DQCI, LLC, vested in the Companies' discretionary matching and any additional contributions plus earnings thereon based upon years of continuous service with 100% cliff vesting occurring after five years of credited service with 1,000 hours each year. For participants who were employees of Eurofins MWG Operon Biotechnologies, Inc. 100% cliff vesting occurred after three years of credited service. Participants of Eurofins DQCI, Inc. were immediately 100% vested for all contributions. In the event of death, disability, normal retirement age (65), or if the Plan is discontinued, participants became 100% vested in all account balances.

Payment of benefits: Upon termination of service, death, disability, or retirement, participants could receive account distributions in the form of a lump sum payment or distribution in kind as defined by the Plan. Withdrawals by a participant while employed were limited to those requested due to events of financial hardship as defined by the Plan or upon the attainment of age 59 1/2. If the participant's account value is less than \$5,000, the Plan Administrator shall provide for the payment of such to the participant in a lump sum within a reasonable time following termination.

Forfeitures: Forfeited balances of terminated participants' nonvested accounts were used to reduce the Companies' contributions and pay administrative expenses. At December 31, 2012, forfeitures available totaled approximately \$40,000. During the year ended December 31, 2013, approximately \$116,000 and \$54,000, of forfeitures were used to reduce employer contributions and pay administrative expenses, respectively. There were no forfeitures available at January 1, 2014 or December 31, 2013.

Notes receivable from participants: Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance reduced by the highest outstanding note receivable balance during the prior 12-month period. Transactions were treated as a transfer to (from) the investment fund from (to) notes receivable. Terms varied based on the reason for the note. The notes receivable were secured by the vested balance in the participant's account and bore interest based on prevailing interest rates. Principal and interest were paid ratably through payroll deductions. Notes receivable outstanding at January 1, 2014 and December 31, 2013 bore interest at rates ranging from 3.25% to 7.75% and were due from February 2014 through November 2018.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan were prepared under the accrual method of accounting.

Investment valuation and income recognition: The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements.

Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

The Plan invested in investment contracts with Principal Life Insurance Company (Principal) through a bank common trust. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment in the bank common trust as well as the adjustment of the investment in the bank common trust from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest was recorded on the accrual basis. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the period.

Notes receivable from participants: Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes were treated as distributions based upon the terms of the plan document.

Benefit payments: Benefit payments were recorded when paid.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and disclosure through October 14, 2014, which is the date the financial statements were available to be issued. Through this date, no events requiring recognition or disclosure occurred other than those discussed in Note 6 and 12.

Note 3. Administrative Expenses

Certain administrative functions were performed by officers or employees of the Companies. No such officer or employee received compensation from the Plan. Certain other administrative expenses were paid directly by the Plan.

Note 4. Information Certified and Provided by Principal Trust Company and Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company

The following is a summary of the Plan's asset information as of January 1, 2014, December 31, 2013 and 2012, and for the period ended January 1, 2014 and year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedules, that was prepared or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the following assets:

Note 5. Fully Benefit-Responsive Contracts

The Principal Stable Value Fund (the "Fund") offers a diversified group of investments with competitive levels of yield consistent with a stable fixed-income methodology and a prudent assumption of investment risk. The Fund provides stability of returns, liquidity to pay plan benefits and a high credit quality by investing in conventional, synthetic and separate account investment contracts (collective contracts) issued by life insurance companies, banks and other financial institutions. These contracts allow for their principal value to remain stable regardless of the volatility of the financial markets.

Investments held by a collective investment trust are required to be reported at fair value. The statements of assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. In anticipation of the Plan merger, the Fund was liquidated on December 31, 2013 and, therefore, the Fund's contract value and fair value was none at January 1, 2014 and December 31, 2013. As of December 31, 2012, the Fund's contract value was \$2,613,672 with a fair value of \$2,675,104. The Plan's interest in the assets of the stable value fund was 0.06% as of December 31, 2012.

The contributions are maintained in a general account which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Due to the plan merger described in Note 6, there was no investment activity in the Fund for the period ended January 1, 2014. Below is a summary of the average contract yield in the aggregate for all contracts as of December 31, 2013 and 2012:

	2013	2012
Average yield based on interest rates credited to participants ⁽¹⁾	1.24%	0.88%
Weighted average crediting rate of all investment contracts ⁽²⁾	1.28%	1.64%

⁽¹⁾ Calculated based on weighted average crediting rate of all investment contracts and short term income at year end.

⁽²⁾ Calculated based on weighted average yield to maturity of all underlying investments at year end.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total Plan termination, retirement incentive programs, and the liberalization of Plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment may apply. The Plan merger did not have a significant effect on the participant's account balances upon liquidation.

The Fund may terminate the investment contract with the Plan by providing 12 months advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by federal law, failure to render performance necessary to comply with the terms of the contract, Plan disqualification and failure to adopt the Plan in a reasonable period of time. Upon termination by the Fund, a market value adjustment may apply.

Note 6. Plan Merger

In 2013, the Company voted to merge the Plan effective January 1, 2014 with the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan. No employee shall be eligible to become a participant in the Plan on or after January 1, 2014. No additional contributions shall be made to the Plan after December 31, 2013.

Net assets of approximately \$31,670,000 were liquidated and held by the Plan's custodian at January 1, 2014 and December 31, 2013 and are reported as due from broker on the statements of net assets available for benefits. Transfer of legal control of the Plan's net assets occurred on January 1, 2014. Transfer of legal title of the Plan's net assets plus approximately \$745,000 of notes receivable from participants were transferred to Eurofins Scientific, Inc. 401(k) Incentive Savings Plan on January 2, 2014. As a result, the statement of net assets as of January 1, 2014 reflects a due to Eurofins Scientific, Inc. 401(k) Incentive Savings Plan and the statement of changes in net assets available for benefits for the period ended January 1, 2014 reflects a pending transfer.

Note 7. Tax Status

Effective August 29, 2009, the Plan adopted a non-standardized form of a prototype plan sponsored by Principal Financial Group. The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008 as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan was designed and was being operated in compliance with the applicable provisions of the Internal Revenue Code.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is no longer subject to income tax examination by the U.S. federal, state or local tax authorities for years before 2010.

Note 8. Related-Party Transactions

Certain Plan investments were shares of pooled separate accounts and a bank common trust fund managed by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the custodian as defined by the Plan. These transactions qualify as party-in-interest transactions.

Note 9. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the topic are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Eurofins Scientific Inc. Profit Sharing Thrift Plan

Notes to Financial Statements

Note 9. Fair Value Measurements (Continued)

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Pooled separate accounts (other than the Principal U.S. Property Separate Account) invested primarily in domestic and international stocks, commercial paper, or single mutual funds. The U.S. Property Separate Account invested primarily in commercial real estate and included mortgage loans which are backed by the associated properties. The net asset value was used as a practical expedient to determine fair value. Each pooled separate account provided for redemptions by the Plan at reported net asset values per share, with little to no advance notice requirement, therefore these funds were classified within Level 2 of the valuation hierarchy.

Bank common trust fund: The bank common trust fund was reported at fair value based on the underlying investments comprising the trust and was classified within Level 2 of the valuation hierarchy. The net asset value was used as a practical expedient to determine fair value.

Mutual funds: Mutual funds were reported at fair value based on the quoted market price of the fund and were classified within Level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 9. Fair Value Measurements (Continued)

Due to the Plan merger described in Note 6, there were no financial assets or liabilities reported at fair value as of January 1, 2014 or December 31, 2013. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	2012			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Mutual funds:				
Large U.S. equity	\$ 2,942,334	\$ 2,942,334	\$ -	\$ -
Small/mid U.S. equity	1,627,898	1,627,898	-	-
Fixed income	874,095	874,095	-	-
Other	383,079	383,079	-	-
Total mutual funds	5,827,406	5,827,406	-	-
Pooled separate accounts:				
Large U.S. equity	1,134,918	-	1,134,918	-

International equity	1,583,328	-	1,583,328	-
Balanced funds	11,143,405	-	11,143,405	-
Short-term fixed income	5,594	-	5,594	-
Fixed income	1,641,659	-	1,641,659	-
Real estate	170,786	-	170,786	-
Total pooled separate accounts	17,366,884	-	17,366,884	-
Bank common trust fund	2,675,104	-	2,675,104	-
Total	\$ 25,869,394	\$ 5,827,406	\$ 20,041,988	\$ -

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

During the year ended December 31, 2013, the Plan did not have any transfers between Level 1, 2 or 3 assets and liabilities.

- (a) This category invests the majority of assets in common stocks of companies that either compose or are within the range of companies that compose the S&P 500 Index or in a fund that may have a greater exposure to large market capitalization companies than small or medium capitalization companies. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.
- (b) The pooled separate accounts in this category primarily invest in equity securities of U.S. companies with small to mid-size market capitalization. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.
- (c) This category seeks long-term growth by investing in common stocks of non-U.S. companies with small to medium market capitalization. Investments are normally diversified across different countries and regions of the world. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.
- (d) The pooled separate accounts in this category seek long-term growth of capital and current income. Selected funds within this category primarily invest in domestic and foreign equity, hybrid, and fixed income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. It allocates the assets more conservatively over time. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.
- (e) This investment seeks a high level of current income consistent with preservation of principle and maintenance of liquidity. It invests in a portfolio of high quality, short-term, money market instruments. The investments are U.S. dollar denominated securities that present minimal credit risks. This investment option does not accept new contributions or transfers.

- (f) This category invests the majority of its assets in U.S. companies rated BBB or higher by S&P or Moody's, intermediate-term, fixed income investments such as public and private bonds, commercial and residential mortgages, asset backed securities and U.S. government and agency backed securities. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.
- (g) This category invests the majority of its assets in U.S. commercial real estate holdings including multifamily, office, warehouse, manufacturing, and retail properties. It focuses on properties that return both lease income and appreciation of the buildings' marketable value. Investments in this category can be redeemed two times in a 30 day period at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this period.
- (h) This category consists of a common trust fund which seeks current income by investing primarily in insurance contracts issued by insurance companies and investments from financial institutions which offer stability of principal. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at January 1, 2014 and December 31, 2013 and 2012 to the Form 5500:

	January 1, 2014	December 31, 2013	December 31, 2012

Net assets per the Form 5500	\$ -	\$ 32,414,702	\$ 26,653,075

As further described in Note 6, all Plan assets merged into the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan effective January 1, 2014. The financial statements were prepared as of the effective date of the merger. The physical transfer of assets occurred on January 2, 2014. As a result, the financial statements recognized receivables for notes receivable from participants and assets due from broker on January 1, 2014, with an offsetting liability due to the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan. The Form 5500 was prepared as of January 2, 2014, thus reflects zero plan assets and liabilities as the transfer of assets had settled.

During the year ended 2009, the Companies inadvertently failed to deposit \$27 of interest income on notes receivable from participants within the required time frame as stated by the United States Department of Labor (DOL). During the year ended 2012, the Companies inadvertently failed to deposit \$855,324 of participant contributions and loan repayments within the DOL's required time frame. The DOL considers late deposits to be prohibited transactions. The plan sponsor remitted the required lost earnings related to the late deposits to the Plan during the year ended December 31, 2013.

During the year ended 2013, the Companies inadvertently failed to deposit \$40,165 of participant contributions and loan repayments within the DOL's required time frame. The plan sponsor remitted the required lost earnings related to the late deposits to the Plan during the year ended December 31, 2014.
