Independent Auditor's Report

To the Participants and Administrator of the
Hill, Holliday Retirement Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Hill, Holliday Retirement Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012 and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions.

The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the Hill, Holliday Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description and Plan document for a more complete description of the Plan's provisions.

Hill, Holliday, Connors, Cosmopulos, Inc. changed its name to Independent Advertising, Inc. (the "Company") effective January 1, 2011. The Company established the Plan as a way for eligible employees to accumulate capital for their retirement.

General

The Plan is a defined contribution plan covering all employees regularly employed by the Company that have completed three months of continuous service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan provides a Section 401(k) salary reduction feature whereby participants may contribute up to 60% of their compensation each year. The Company contributes 50% of the participant's contribution, up to 6% of compensation. The Company calculates a discretionary match annually and makes its matching contribution in the first quarter of every year. At the discretion of the Board of Directors, the Company may make additional contributions. No additional contributions were made for the year ended December 31, 2013.

Any employee who is eligible to participate in the Plan but does not elect to defer or fails to decline to defer any amount of their compensation within 30 days after his/her entry date, will be deemed to have elected to defer 3% of their compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and plan earnings, and is charged with an allocation of administrative expenses. Allocations of plan earnings are based on a participant's individual fund balance as a percentage of the total plan balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participation and Vesting

Employees become eligible on the first day of the quarter following their third consecutive month of service. Participants are immediately vested in their contributions plus actual earnings thereon, as well as in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon.

Payment of Benefits

Benefits are paid in lump-sum amounts, installments, or annuities upon a participant's retirement, termination of employment, death, or disability retirement. If their balance is under $5,000, the participants will have their balances distributed to them. Otherwise, the participants may elect to maintain their account balances under the provisions of the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum of the lesser of $50,000, or 50% of their vested account balance, whichever is less. Loan terms range from six months to five years. Participants may have a loan period in excess of five years and not to exceed a reasonable period for the purchase of a principal residence. The loans are secured by

the balance in the participant's account and bear interest at the prime rate. Principal and interest is paid ratably through semimonthly payroll deductions. The rate remains fixed for the duration of the loan. Interest rates on outstanding loans ranged between 3.25% and 10.00% as of December 31, 2013 and 2012.

Forfeited Accounts
Included in plan assets as of December 31, 2013 and 2012 were $88,823 and $59,613, respectively, of forfeited balances. The forfeited account balances relate primarily to an old plan, which was merged into the Plan in 2003, and will be used to reduce future employer contributions. During 2013, no forfeited amounts were used to fund employer contributions.

2. Significant Accounting Policies

Basis of Accounting
The financial statements have been prepared on the accrual basis of accounting and are in conformity with accounting principles generally accepted in the United States of America ("US GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates
The preparation of the Plan's financial statements in accordance with US GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and the changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition
Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of dividends received, which are reinvested in the corresponding trust funds, the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Substantially all administrative expenses of the Plan are paid by the Company and not reflected within these financial statements. Investment management fees are paid by the Plan and are included within net appreciation in fair value of investments on the statement of changes in net assets available for benefits.

3. Investments

During 2013, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $8,645,199 and the common collective trusts depreciated in value by $387,174.

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

	2013	2012
BlackRock S&P 500 Stock Fund I	$ 5,279,860	*

* This investment did not meet the 5% threshold for the period.

4. Fair Value Measurement

Accounting Standards Codification (''ASC") 820, *Fair Value Measurements* defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. ASC 820 does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. ASC 820 requires that assets carried at fair value be classified and disclosed in one of the following three categories.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and are significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in the methodologies used at December 31, 2013 and 2012.

Cash
Cash is stated at cost which approximates fair value.

Mutual Funds
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trusts
See Note 8 for discussion of the valuation methodology.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents information about the Plan's investments measured at fair value on a recurring basis as of December 31, 2013 and 2012:

	Investments at Fair Value as of December 31, 2013

There were no significant transfers between Level 1 and Level 2 fair value measurements during the years ended December 31, 2013 and 2012.

5. Information Certified by the Trustee

The following is a summary of a portion of the Plan's financial information certified by Bank of America, N.A., the trustee of the Plan, as of December 31, 2013 and 2012 and for the year ended December 31, 2013, as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

This information has been relied on by the plan administrator in the preparation of the Plan's financial statements and related supplemental schedule in accordance with ERISA:

a. Investments, individually and in the aggregate, held by the Plan at cost and fair value;

b. Net appreciation (depreciation) in fair value of investments by fund and in the aggregate;

c. Interest earned on notes receivable from participants;

d. Investment income, including interest and dividends received or accrued, individually and in the aggregate;

e. Accrued income earned by the Plan;

f. All investment purchase and sales activity; and identity of issuer, borrower, lessor or similar party, description of investment, investment cost and investment current value;

g. Notes receivable from participants, individually and in the aggregate, held by the Plan.

6. Income Tax Status

The plan sponsor is currently relying on a prototype letter. A determination letter has not been received for the nonstandardized prototype plan. The plan sponsor and the Plan's general counsel believe the Plan and the related trust is designed in accordance with the applicable requirements of the Internal Revenue Code ("IRC") and, therefore, believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and the 2011 plan year is currently under examination by the Internal Revenue Service. The Plan administrator does not expect the results of this examination will have a material effect on the Plan's financial condition or operations and they do not believe the results will have an impact on the Plan's income tax status or result in the Plan being disqualified. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. Related Party Transactions

Notes receivable from participants qualify as party-in-interest transactions. The balance of party-in-interest investments at December 31, 2013 and 2012 was $475,882 and $372,018, respectively.

8. Common Collective Trusts

Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment adviser reserves the right to temporarily delay withdrawal from the trusts in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Plan holds benefit-responsive contracts with the trustee. The trustee maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts' issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contracts. The contracts are presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits, if applicable. Contract value, as reported to the Plan by the trustee, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There is no reserve against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. There are no penalties or restrictions for withdrawing from the common collective trusts at anytime.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields	**2013**	**2012**
Based on actual earnings	1.21 %	1.59 %
Based on interest rate credited to participants	1.46 %	1.95 %

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject the provisions of ERISA. In the event of plan termination, participants will have a fully vested and nonforfeitable interest in their share of the net assets available for benefits.

10. Subsequent Events

The Plan has evaluated subsequent events through October 15, 2014, the date the financial statements were available to be issued. There were no events identified that require disclosure in the financial statements.
