Note 1 Description of the Plan

The following description of The Pay-O-Matic Corp. 401(k) Retirement Plan (the "Plan") provides general information only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of The Pay-O-Matic Corp. ("Company", "Employer", or the "Sponsor") who have completed 1,000 hours of service within the six-month time period following the employee's employment commencement date and are age twenty one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended on October 16, 2013 to add Pay-O-Matic Check Cashing Corp. and Rapid Armored Corporations to the Plan and allow their employees to participate in the Plan. In addition, the amendment excluded bonus pay from eligible compensation for the calculation of participant contributions.

Employee Contributions

The Plan provides that all participants can elect to contribute from 1% to 50% of their eligible compensation, as defined, on a pretax basis. Each employee (also referred to herein as "Participant") of the Company, who has met eligibility requirements, as defined, may contribute to the Plan and elect to defer a percentage of their eligible compensation, as defined, not to exceed the maximum allowable under the Internal Revenue Code ("IRC") for any Plan year ($17,500 for 2013). Employees who reach age 50 during a Plan year may elect to contribute certain additional amounts beyond those defined limits ($5,500 for 2013). Unless an opt-out form is filled out, each employee who has met eligibility requirements, as defined, will be automatically enrolled into the Plan at 3%.

Employer Contributions

The employer, in its sole discretion, may make matching contributions to the Plan on an annual basis. The percentage of the matching contribution will be determined by the Company and allocated to participants at the end of the Plan year. In addition, the Plan allows the employer to make discretionary contributions. Employer discretionary contributions are allocated based on compensation in relation to all eligible participants. There were no matching or discretionary contributions made by the Company for the year ended December 31, 2013.

Investment Options

All investments are fully participant directed. The participants may direct their investments in one or more of the investment options offered based upon the percentage allocation that they elect. Employer contributions, if any, are based on the percentage allocation elected by participants.

Note 1 Description of the Plan (continued)

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) employer contribution, if any, and (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 20 percent vested after two years of credited service, 20 percent for each year thereafter, and 100 percent vested after six years of credited service.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from 1-5 years, and up to 15 years for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Principal and interest is paid ratably through weekly payroll deductions. Interest is recorded as income to the fund to which payments are credited. As of December 31, 2013 and 2012, interest rates ranged from 3.25% to 7.00% and from 3.25% to 8.25%, respectively.

Payment of Benefits
Distributions under the Plan will be made upon a participant's death, disability, retirement or termination of employment. Normal retirement age under the Plan is 65. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan; should a participant withdraw funds, he or she is not permitted to make elective contributions to the Plan for at least six months.

Note 1 Description of the Plan (continued)

Forfeited Accounts

A participant whose participation in the Plan terminates before he/she is fully vested for any reason other than retirement, disability or death, forfeits any portion of his or her interest in the Plan which is not vested. Forfeitures will be first used to reduce the Plan's administrative expenses and then used to reduce the Company's matching contributions. As of December 31, 2013 and 2012, forfeited non-vested accounts amounted to $175 and $10,356, respectively.

Plan Expenses

Expenses incurred in the operation of the Plan are paid from the Plan unless allocated to and paid by the Company. No expense is paid from the Plan unless such payment is permitted by law. Expenses are charged against the investment return on Plan assets or may be paid from cash available from employee forfeitures, to the extent possible. The Company paid audit and other recordkeeping and compliance costs of the Plan in 2013. In 2013, the Company was reimbursed $10,986 from forfeited accounts for auditing fees paid by the Company and is included in administrative expenses in the statement of changes in net assets available for benefits for the year ended December 31, 2013. Results of funds in which the Plan invests are presented net of internal fees charged by the fund managers.

Note 2 Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") and accordingly, are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make significant estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Investments

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2 Summary of Significant Accounting Policies (continued)

Fully Benefit-Responsive Investment Contracts
The Plan invested in fully benefit-responsive investment contracts through guaranteed interest accounts. As of December 31, 2013, there was no difference between fair value and contract value. As of December 31, 2012, the increase between the fair value and contract value amounted to $140,348, and is reflected in the statements of net assets available for benefits.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Notes Receivable
Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distribution based on the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Note 3 Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, provides a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three hierarchy levels are defined as follows:

Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

Level 2 – Valuations based generally on observable inputs for similar assets and liabilities, or identical or similar assets and liabilities in inactive markets.

Level 3 – Valuation based on inputs that are unobservable and significant to the overall fair value measurement. Valuation techniques could include the use of discounted cash flow models and other similar techniques.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds – valued at quoted prices in active markets, which represent the net asset value of shares held by the Plan at year-end.
- Guaranteed interest accounts – valued by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 Fair Value Measurements (continued)

Note 4 Information Prepared and Certified by the Trustee (continued)

During the year ended December 31, 2013, net investment income from the Plan's investments (including gains and losses on investments bought and sold, as well as held at year-end) amounted to $1,268,632 as follows:

Net appreciation in fair value of investments		
Mutual funds	$	922,405
Dividends		
Mutual funds		309,253
Interest		
Guaranteed interest accounts		36,974
Total net increase in fair value of investments and investment income	$	1,268,632

Note 5 Guaranteed Interest Accounts

In 2007, the Plan entered into a benefit-responsive Principal Fixed Income Guaranteed Option with Principal Life Insurance Company ("Principal"). Principal Fixed Income Guaranteed Option is a benefit-responsive group annuity contract issued by Principal Life Insurance Company and is backed by Principal's general account. The Principal Fixed Income Guaranteed Option is a single group annuity contract with a fixed rate of interest. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets as would be found in a Stable Value fund. As a result, the average yield earned by the plan is the yield earned (i.e. interest credited) on the group annuity contract.

Because the Principal Fixed Income Guaranteed Option is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The Principal Fixed Income Guaranteed Option is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 5 Guaranteed Interest Accounts (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012, was $2,317,039 and $2,666,611, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than the Minimum Interest Rate for both the years ended December 31, 2013 and 2012. The Minimum Interest Rate shall be less than 1% or greater than 3%. Under the contract, a crediting interest rate is established for a six-month period of time (a "rate period"), and at the expiration of each rate period, a new crediting rate is declared.

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit Principal to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed interest accounts for the years ended December 31, 2013 and 2012 are as follows:

	2013	2012
Average yields		
Based on actual earnings	**1.60%**	2.18%
Based on interest rate credited to participants	**1.60%**	2.18%

Note 6 Tax Status

The Plan is based on the Prototype Non-Standardized Safe Harbor Profit Sharing Plan with CODA of Principal Life Insurance Co., the record keeper of the Plan, which received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008 stating that the Prototype Plan was designed in accordance with the provisions of the IRC. The Plan has not yet filed for its own determination letter from the IRS. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes due from the Plan has been included in the Plan's financial statements.

Note 6 Tax Status (continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

Note 7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan is subject to the provisions of ERISA. In the event of termination of the Plan, all participants who are current employees or who separated from service with the Company and have not received a distribution and have not experienced a break in service, as defined, will become 100% vested in their employer contributions. The assets of the Plan shall be converted into cash and distributed among the participants or their beneficiaries in proportion to their respective interests in the Plan.

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 Related Party Transactions and Party-In-Interest Transactions

Certain investment funds are shares of mutual funds and guaranteed interest accounts managed by Principal Trust Company ("Principal"), a member of the Principal Financial Group. Principal and an affiliate of Principal are the trustee and the recordkeeper, respectively, as defined by the Plan, and therefore, these transactions qualify as party-in-interest. Participant loan transactions are also party-in-interest transactions.

Note 10 Nonexempt Party-In-Interest Transactions

The Company remitted certain 2013 participant contributions totaling $19,119 and certain repayments of notes receivable from participants totaling $11,179 for the year ended December 31, 2013 to the Trustee later than required by Department of Labor (DOL) Regulation 2510.3-102. On October 8, 2014, the Company remitted the investment earnings totaling $44 on the late deferrals and notes receivable from participant repayments to the Plan. The amount of investment earnings, had the participant contributions been remitted on a timely basis, is not material to these financial statements and has not been recorded as a receivable as of December 31, 2013.

The Company failed to withhold certain employee deferrals totaling $9,698 for the year ended December 31, 2013. On April 7, 2014, the Company remitted 50% of the missed deferral of $4,849 and investment earnings thereon totaling $157 to the Plan as required by the DOL to the Plan (See Note 12). The amount of missed deferrals and investment earnings thereon, had the appropriate participant deferrals been withheld and remitted on a timely basis, is not material to these financial statements and has not been recorded as a receivable as of December 31, 2013.

Note 11 Reconciliation to Form 5500

The following is a reconciliation between the net assets available for benefits per the financial statements as of December 31, 2013 and 2012 to Schedule H of Form 5500:

Note 12 Subsequent Events

The Plan's management has evaluated subsequent events through October 15, 2014, the date the financial statements were available for issuance.

On April 7, 2014, the Company remitted $28,539 to the Plan related to missed deferrals and $2,297 of lost earnings thereon related to the plan years 2010 through 2013 (including $4,849 for the year ended December 31, 2013) (See Note 10).
