We were engaged to audit the accompanying financial statements of Agfinity 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of theses financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by MassMutual Retirement Services, the custodian of the plan, except for comparing such information with the related information included in financial statements. We have been informed by the plan administrator that the custodian holds the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2013, that the information provided to the plan by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Agfinity 401(k) Plan ("Company") ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company who have six months of service and are age 18 and older. The plan is subject to the provisions of the Employee Income Security Act of 1974 ("ERISA"). The Board of Trustee is responsible for oversight of the Plan.

Contributions - Each year, participants may elect to defer up to 100% of annual compensation subject to the maximum limit prescribed by law, which is $17,500 in 2013. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover).

There are two types of salary deferrals, Pre-Tax 401(k) deferrals and Roth 401(k) deferrals. Regular 401(k) deferrals are not subject to federal and state income taxes on the deferral contributions or the earnings until distributed. Roth 401(k) deferrals are subject to federal and state income taxes in the year of deferral. However, the deferrals and, in most cases, the earnings on the deferrals are not subject to federal and state income taxes when distributed.

The Company may make discretionary matching, profit sharing and additional contributions at the option of the Company's board of directors. To date, no such contributions have been made.

Participant Accounts - Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and a guaranteed interest account as investment options for participants.

Each participants account is credited with the participants' contribution and allocations of a) the Company's contributions, when applicable, and b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account. Participants may change their investment options as desired.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant Notes Receivable - Participants may borrow from their fund account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate that is determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - If a participant's employment ends due to termination, death, disability or retirement, a participant may elect to receive a lump-sum payment, an annuity, or rollover distribution equal to the value of the participant's vested interest in their account.

Upon reaching age 59 ½, an active employee can withdraw funds from their account at any time. Before age 59 ½, withdrawals can be made in the event of demonstrated financial hardship, as determined by the Plan Administrator according to the rules of the Internal Revenue Service.

Forfeited Accounts – At December 31, 2013 and 2012, respectively, forfeited nonvested accounts totaled $1,526 and $1,340. These accounts will be used to reduce future employer contributions. In 2013, employer contributions were reduced by $5,000 from forfeited nonvested accounts.

Plan Termination and Amendment - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. The Company may amend the Plan at any time, provided such action does not reduce participants' account balances or benefits under the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly actual results differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent noted receivable from participants are recorded as a distribution based upon the terms of the plan document.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits - Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

DOL Limited-Scope Audit - The Plan's custodian provided a certification of and for the year ended December 31, 2013 certifying the accuracy of the investment assets and investment transactions. The certification applies to all investment assets of the Plan consisting of interests in pooled separate accounts, guaranteed interest contracts, and participant notes. The certification also extends to all investment transactions of the Plan including execution of investment transactions, investment earnings, and investment expenses. The certification does not extend to contributions and to benefit payments and loan requests made by employees.

NOTE 3 - INVESTMENTS

The Plans investments are held in trust by Massachusetts Mutual Retirement Services (MassMutual). The following table presents investments. Investments that represent 5% or more of the Plan's net assets are separately identified.

	2013	Unaudited 2012
Pooled separate accounts:		
Select PIMCO	$ 491,774	923,981

One Choice 2025 Ptf (AmerCnt)	560,480	445,613
One Choice 2035 Ptf (AmerCnt)	377,810	302,179
Sel Sm Cp Gr (W&R/Wllngtn/Tmb)	389,881	53,164
Other pooled separate accounts with balances less than 5% or more of Plan net assets	2,133,509	2,012,814
Total pooled separate accounts	4,292,601	4,158,504
Guaranteed investment account, with a balance more than 5% of Plan net assets	1,120,305	962,609
Total Investments	$ 5,412,906	5,121,113

NOTE 4- GUARANTEED INVESTMENT CONTRACT

The plan maintains a fully benefit-responsive guaranteed investment contract with Massachusetts Mutual Retirement Services (MassMutual). MassMutual maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value, with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013, and 2012 was $1,120,305 and $962,609, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events may limit the ability of the plan to transact at Contract Value. Such events include but may not be limited to the following: (1) temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under the common control with the employer; (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the plan sponsor's business; (5) removal from the plan of one or more groups or classifications of participants; (6) partial or complete plan termination; or (7) plan disqualification. The plan administrator believes that any events that would limit the plan's ability to transact at contract value with participants are not probable of occurring.

The guaranteed investment contract does not permit MassMutual to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows:

	2013	Unaudited 2012
Average yields:		
Based on actual earnings	2.94%	2.56%
Based on interest credited to participants	2.94%	2.56%

NOTE 5 – FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. GAAP establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair values:

Level 1 — Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 — Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 — Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The Company uses the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

Pooled separate accounts: Such accounts are valued at observable level 1 or 2 inputs which include publicly quoted prices as well as quoted prices for similar assets in active or non-active markets. These inputs are then utilized to calculate the NAV of the shares of the pooled separate account, which are not publicly quoted.

Guaranteed interest account: Fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. Valuation represents the contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012:

December 31, 2013	Level 1	Level 2	Level 3	Total

Changes in Fair Value of Level 3 Assets and Related Gains and Losses
The following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the year ended December 31, 2013.

	Guaranteed Interest Account
Balance, beginning of year	$ 962,609
Realized gains (losses)	30,666
Unrealized gains (losses) relating to instruments still held at the reporting date	(13,232)
Purchases	739,859
Sales	(599,597)
Balance at end of year	$ 1,120,305
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ (13,232)

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

Valuation Process - The determination of the fair value of the fixed income and equity securities is the responsibility of MassMutual investment accounting group. This group manages and creates policies and processes used to determine the fair value of those assets. This group employs third-party pricing services and obtains selected support from MassMutual's portfolio manager in order to achieve results for this multi-tiered process.

Valuation Techniques and Inputs - A description of the significant valuation techniques and inputs used in the determination of estimated fair value for assets measured at fair value on a recurring basis within Level 3 of the fair value hierarchy is as follows:

Guaranteed Investment Contracts (GICs) are principally valued using a market value formula approach. The market value of the GIC is determined to be the estimated liquidation value of the contract. The liquidation value is derived considering factors such as:

(i) The observable interest rate being earned by investments underlying the contract

(ii) The unobservable "assumed interest rate" obtainable by MassMutual on new investments where a proxy is the Barclays Capital U.S. Aggregate Index (excluding Treasuries) with an adjustment made to duration; and

(iii) The unobservable comparison between investments supporting the contract and current market rates where historic investments are either at a premium or discount to current market rates, i.e. the "experience rate"

The following table presents certain quantitative information about the significant unobservable inputs used in the Level 3 fair value measurements as of December 31, 2013:

	Fair Value	Principal Valuation technique	Significant unobservable inputs	Interest Rate Range*
GICs	Disclosure Provided	Market Value Formula	Assumed interest rate Experience rate	0.69 - 4.13% 1.15 - 6.76%

Sensitivity to Changes in Unobservable Inputs – A description of the sensitivity of the estimated fair value to changes in significant unobservable inputs for assets measured at fair value on a recurring basis within Level 3 of the fair value hierarchy is as follows:

GICs – Significant increases (decreases) in the assumed interest rate will result in (decreases) increases to valuations

GICs – Significant increases (decreases) in the experience rate will result in increases (decreases) to valuations

**Duration adjusted Barclay's index for Assumed Interest Rate for past 5 years*
Experience Rate ranges are based on the 12/31/13 Fair Value Inventory
The value the plan would receive upon liquidation of the GIC is determined based on the liquidation value formula included in the contract

Fair Value of Investments in Entities That Use NAV
The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013.

December 31, 2013	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Pooled separate accounts	$4,292,601	n/a	Daily	30 days

NOTE 6 – RELATED PARTY TRANSACTIONS
The Plan is administered by the Company. Plan trustees are Company officials. Certain administrative expenses covered by the Plan have been paid by the Company. Management is not bound to pay such expenses in the future.

NOTE 7 - INCOME TAX STATUS
The Internal Revenue Service approved a volume submitter plan by a letter dated March 31, 2008, under which the Plan operates, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan's administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2011.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 9, 2014 the date the financial statements were available to be issued and has determined there were no material events requiring recognition or disclosure.
