Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Participants and Plan Administrator of the
BHP USA Retirement Income Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the BHP USA Retirement Income Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the Statements of Accumulated Plan Benefits as of December 31, 2012 and 2011, and the related Statements of Changes in Accumulated Plan Benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 5 and 7, which was certified by Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee, as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

REPORT OF INDEPENDENT ACCOUNTANTS, continued

Other Matter

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

BHP USA RETIREMENT INCOME PLAN
Notes to Financial Statements
December 31, 2013 and 2012

1. Description of the Plan

The following description of the BHP USA Retirement Income Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 1998 through the merger of prior plans, as a multiple-employer defined benefit plan that provides eligible employees of BHP Holdings (International), Inc. (BHP) and adopting subsidiaries and affiliates of the parent company, BHP Billiton Limited, (collectively, the Participating Companies), with retirement benefits to supplement social security benefits. Effective November 1, 1999, the Plan became a single-employer defined benefit plan. The Participating Companies are BHP Base Metals Management Co., BHP Copper Inc., BHP Hawaii Inc., BHP Minerals Service Company, BHP Nevada Mining Company, BHP Nevada Railroad Company, BHP Petroleum (Americas) Inc., BHP Petroleum Americas Refining Inc., BHP Steel Americas Inc., Broken Hill Proprietary (USA) Inc., BSI Commodities Inc. and San Manuel Arizona Railroad Company. An eligible employee is any employee who is employed full-time, other than the following: (i) employees covered by a collective bargaining agreement in which benefits were negotiated; (ii) leased employees; (iii) employees of BHP Nevada Mining Company who are paid on a bi-weekly basis; (iv) any employee whose initial date of employment is after June 30, 2004, or rehired after June 30, 2004, or who is transferred to the payroll of a Participating Company. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective June 30, 2004, the Plan was closed to new participants. As a result, eligible employees who were participating in the Plan on December 31, 2004, were given the option to continue participating in the Plan or to receive a contribution under the Employer Funded Account of the BHP Retirement Savings Plan, an affiliated Plan, for services after January 1, 2005. Prior to June 30, 2004, all eligible employees enter the Plan on the later of the date of employment or the participation date for the Participating Companies with which the employees are employed.

Effective July 1, 2012, the Plan was amended whereby BHP Billiton New Mexico Coal Inc., BHP Navajo Coal Company, San Juan Coal Company, and San Juan Transportation Company all became Participating Companies. Effective July 1, 2013, the Plan was amended to include BHP Billiton Mine Management Company as a Participating Company. Additionally, effective December 27, 2013, BHP Navajo Coal Company was sold to the Navajo Transitional Energy Company, and the Plan was amended to remove BHP Navajo Coal Company as a Participating Company.

The Plan was amended and restated, effective December 31, 2013, to: (i) incorporate all prior amendments; (ii) establish a cash balance benefit; and (iii) freeze all benefit accruals.

Administration

BHP is the Plan's sponsor and administrator. Northern Trust Company (the Trustee) is the Plan's trustee. Mercer serves as the Plan's actuary. Certain duties and responsibilities to assist in the administration of the Plan are carried out on the Participating Companies' behalf by a committee that was appointed by the board of directors, the BHP USA Retirement Advisory Committee (RAC).

1. Description of the Plan, continued

Funding Policy

The Participating Companies contribute such amounts as are necessary, based on actuarial calculations, to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants and their beneficiaries. The contributions to the Plan are subject to the limitations of maximum tax deductible contributions and minimum required contributions determined by the actuary and the accelerated funding policy adopted by the RAC. The Participating Companies were not required to make any contributions to the Plan for the years ended December 31, 2013 and 2012. Accordingly, no contributions were made for the years ended December 31, 2013 and 2012.

The yield (interest, dividends, and net realized and unrealized gains and losses) on Plan investments in excess of amounts established in the actuarial assumptions, plus any gains resulting from forfeiture of nonvested benefits, serve to reduce future contributions that would otherwise be required to provide the defined level of benefits under the Plan.

Investments

As of and for the year ended December 31, 2012 and during the year ended December 31, 2013, the Plan's investments and the investments of two other BHP-sponsored defined benefit retirement plans were held at Northern Trust Company in the BHP USA Master Retirement Trust (the Master Trust).

To manage the cash needs of the Plan in a more effective manner, effective December 31, 2013, the Plan's investments, held in the Master Trust, were segregated into a separate account within the Master Trust, and accordingly, this separate account holds only investments specific to the Plan at December 31, 2013.

Pension Benefits and Vesting Provisions

A participant is eligible for a normal retirement benefit on the first day of the month on or after the date the participant attains age 65. A participant may retire under the early retirement provisions after attainment of age 55 and completion of 10 years of service, or under the Rule of 85 provisions after attaining age 55 and when the sum of the participant's age and service is at least 85.

A participant's benefit is equal to at least 14% of the participant's adjusted average pay for each year of service multiplied by an adjustment factor, as defined in the Plan document. The adjustment factor is based on the participant's age and service at the time of termination. Interest is credited on the lump-sum amount at the rate of 5.5% per year, from the date of termination through the date of payment.

The surviving spouse of a participant entitled to a benefit that has not commenced at the date of death will be entitled to a survivor's benefit. The amount of the survivor benefit is the actuarial equivalent of 47.5% of the amount that would have been payable to the participant if the participant had ceased to be an employee on the earlier of his or her actual employment termination date or the day preceding his or her death. The survivor benefit is payable at the earliest time permitted under the Plan.

Payment of Benefits

A participant's benefits may be paid in one of the following forms, as described in the Plan document: (i) lump sum benefit; (ii) single life annuity (iii) 50% joint and survivor annuity; (iv) 100% joint and survivor annuity; or (v) qualified optional survivor annuity.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Participating Companies and are excluded from these financial statements.

During 2013 and 2012, Pension Benefit Guaranty Corporation (PBGC) premiums, audit fees, actuarial fees, and other similar direct charges were paid by the Plan.

2. Summary of Significant Accounting Policies, continued

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan's investments, held in a separate account within the Master Trust at December 31, 2013, and the Plan's investment in the Master Trust at December 31, 2012, consist of common collective trusts, fixed income securities, and interest-bearing cash. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and, that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Because of uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefit Payments

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. At December 31, 2013, the Plan's investments, held in the separate account within the Master Trust, are stated at fair value. See Note 4 for discussion of fair value of investments held in the separate account within the Master Trust. The Plan's investment in the Master Trust, at December 31, 2012, is carried at fair value, with such value based upon the fair values of underlying investments held by the Master Trust. See Note 7 for discussion of fair value of investments held by the Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Income from investments, realized gains (losses) on the disposition of investments, appreciation (depreciation) of investments resulting from fluctuations in fair value, less certain expenses (collectively, the net investment income) related to the Master Trust is allocated monthly to the individual plans based upon respective balances invested by the plans at the end of each month.

3. Investments

The following individual investments represent 5% or more of the Plan's net assets at December 31, 2013:

	<u>2013</u>
PIMCO Funds Investment Grade Corporate Bond Fund	\$ 46,060,418
PIMCO Funds Long Duration Corporate Bond Fund	34,227,441
U.S. Treasury Bond, 1.625%, due August 15, 2022	20,714,193
U.S. Treasury Bond, 8.00%, due November 15, 2021	13,196,089
PIMCO Funds Emerging Markets Bond Portfolio	10,932,592
Investments less than 5% of net assets	<u>71,191,346</u>
Total investments	<u>\$ 196,322,079</u>

See Note 7 for individual investments that represent 5% or more of the Master Trust's net assets at December 31, 2012.

4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820 (ASC 820), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

BHP USA RETIREMENT INCOME PLAN
Notes to Financial Statements
December 31, 2013 and 2012

4. Fair Value Measurements, continued

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining fair value, the Plan uses three different approaches (the market approach, the income approach and the cost approach) depending on the nature of the assets and liabilities. The market approach uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts such as cash flows or earnings to a single present amount, with the measurement based on the value indicated by current market expectations about those future amounts. The cost approach is the amount that would be currently required to replace an asset and indicates the cost to the Plan to acquire a substitute asset.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2013. See Note 7 for the fair value measurements of the Plan's investments included in the Master Trust at December 31, 2012.

Common collective trusts: Valued at the net asset value (NAV) of units of a collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. (Market approach and income approach)

Fixed income securities: Includes corporate and governmental bonds, which have been valued based upon quoted prices from actively traded markets, and of various asset backed securities which have been valued using discounted cash flow and other similar models using information and assumptions about interest rates, prepayment rates, collateral values and creditworthiness of the issuers. (Market approach and income approach)

Interest-bearing cash: Valued at cost plus accrued interest, which approximates fair value. (Cost approach)

4. Fair Value Measurements, continued

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2013:

5. Information Certified by the Plan's Trustee (Unaudited)

The Plan Administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Certain information related to investments disclosed in the financial statements and supplemental schedule, including investments held at December 31, 2013, was obtained from information supplied to the Plan administrator and certified as complete and accurate by the Trustee. See Note 7 for information related to certification of investment related income and expenses included in the Master Trust for the year ended December 31, 2013 and for certification of investments and investment related income and expenses as of and for the year ended December 31, 2012.

5. Information Certified by the Plan's Trustee (Unaudited), continued

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries, (ii) beneficiaries of employees who have died, and (iii) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their past and current earnings.

Benefits payable, under all circumstances (retirement, death, disability, and termination of employment), are included to the extent that they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated plan benefits was calculated as of January 1, 2013 and 2012 and accordingly, the Plan presents the statements of accumulated plan benefits and the statements of changes in accumulated plan benefits using beginning of year actuarial data. Had the actuarial valuations been performed as of December 31, 2012 and 2011, there would be no material differences. The significant actuarial assumptions underlying the actuarial valuation as of January 1, 2013 and 2012 are as follows:

Assumed rate of return on investments:	2013	3.80% compounded annually
	2012	4.10% compounded annually

Mortality basis:

Healthy participants

The RP-2000 (separate static tables for annuitants and non-annuitants), projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.

Retirement Rates:

Participants are assumed to retire according to the following retirement rates (both 2013 and 2012):

<u>Age</u>	<u>Age + Service Exceeds 85</u>	<u>Age + Service Less Than 85</u>
55	10%	5%
56-59	10%	3%
60	20%	5%
61	20%	7%
62	30%	30%
63-64	20%	20%
65-66	50%	50%
67	100%	100%

6. Actuarial Present Value of Accumulated Plan Benefits, continued

Retirement Rates, continued: No retirements are assumed to occur before age 55. Participants over age 67 at the valuation date are assumed to retire immediately.

Withdrawal Rates: Participants are assumed to withdraw according to the Society of Actuary's 2003 study basic select & ultimate table based on employment.

Sample rates varying by age and service

<u>Years of Service</u>				
<u>Age</u>	<u>0 – 2</u>	<u>2 – 4</u>	<u>5 – 9</u>	<u>10</u>
20	0.1799	0.1419	0.1419	0.1419

60	0.1363	0.0784	0.0212	0.0020

Percentage Married: Male - 80%; Female - 80%

Age Difference: Husbands are assumed to be three years older than their wives.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

7. Plan Interests in BHP Master Trust (Unaudited)

As of December 31, 2012, the Plan held an interest of approximately 37.69% in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Effective December 31, 2013, the Plan's interest in the Master Trust was segregated into a separate account within the Master Trust and accordingly, the Plan's separate account holds only investments specific to the Plan at December 31, 2013. The total investments in the Plan remained approximately 35.76% of the total investments held by all plans which comprise the Master Trust at December 31, 2013.

The Plan's interest in the Master Trust as of and for the years ended December 31, 2013 and 2012 is as follows:

	<u>2013</u>	<u>2012</u>
Plan interest in Master Trust	\$ -	\$ 220,387,528
Plan interest in net investment (loss) income of Master Trust	\$ (7,446,938)	\$ 21,372,578

The table above excludes receivables and payables of \$18,645,874 and \$67,592 respectively, which are part of the Master Trust at December 31, 2012.

8. Income Tax Status

The Plan obtained its latest determination letter on November 21, 2011, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (IRC).

The Plan has been amended since receiving the determination letter; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, accordingly, that the trust maintained in connection with the Plan is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. Plan Termination

Although it has not expressed any intent to do so, the Participating Companies have the right to discontinue contributions at any time and terminate the Plan, subject to the provisions of ERISA and the provisions of the Plan. In the event of Plan termination, any non-vested participants would become 100% vested in their pension benefits and the assets of the Plan will be allocated in the manner and order of priority prescribed by ERISA to provide the benefits accrued under the Plan, as of the date of termination, to retired, terminated vested, and active participants and their beneficiaries and surviving spouses. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all. Any assets remaining after all Plan expenses have been paid and all accrued liabilities have been provided for by the purchase of annuities or otherwise will revert to the Participating Companies.

10. Related-Party Transactions

Certain Master Trust investments are shares of common collective trusts, which are managed by an affiliate of the Trustee. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

The Company provided administrative services and incurred costs on behalf of the Plan, related to 2013 and 2012, but has not received any related compensation or reimbursement from the Plan. The Company also paid certain fees on behalf of the Plan during 2013 and 2012.

11. Form 5500 Reconciliation

For the 2013 and 2012 Plan years, total net assets available for benefits and the net increase in net assets available for benefits per the financial statements agree to the amounts per the Forms 5500. Differences between the individual line items on the Statements of Changes in Net Assets and the Forms 5500 are attributed to classification differences.

12. Subsequent Events

Plan management has evaluated subsequent events through October 15, 2014, which is the date the financial statements were issued, and has concluded that there are no significant events to report.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

417(e) lump sums ¹	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.

Actuarial Methods for Funding***Asset Methods***

The asset valuation method is the fair market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target**

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

normal cost is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Normal retirement	
• Eligibility	Retirement on or after age 65.
• Benefit	The Plan age-65 accrued benefit is calculated by converting the plan-defined lump sum benefit to a single life annuity using 417(e) actuarial equivalence; the maximum interest rate for any of the 3 segment rates is 6%.
Early retirement	
• Eligibility	Retirement before age 65 after both attaining age 55 and completing ten years of service.
• Benefit	<p>Benefits for participants who terminated prior to January 1, 1998 and who elect to commence their benefits prior to normal retirement are reduced as follows:</p> <ol style="list-style-type: none"> 1/180 for each of the first 60 months commencement precedes age 65, 1/360 for each of the next 60 months commencement precedes age 60, and actuarially reduced thereafter using the 1983 Group Annuity Mortality Table for males with a 2 year setback and 8% interest for former BHP USA Pension participants, and 6% per year for the first 5 years by which commencement precedes age 65, 4% per year for the next 5 years commencement precedes age 60, and actuarially reduced thereafter using the 1983 Group Annuity Mortality Table for males with a 2 year setback and 8% interest for former BHP Copper participants.
85 points retirement	Retirement before age 65 after the participant attains age 55 and the sum of age plus years of service equals or exceeds 85.
Late retirement	
• Eligibility	Retirement beyond normal retirement date.
• Benefit	For participants who work beyond normal retirement, the benefit is the greater of the benefit calculated as of age 65, actuarially increased to the date of termination using 417(e) mortality and interest rates, and the benefit calculated as of the date of termination.
Deferred vested	
• Eligibility	Termination for reasons other than death or retirement after becoming fully vested in their Plan benefit. Eligible for commencement on the first of any month following termination and before normal retirement date. Participants employed by BHP on or after April 1, 2001 are immediately vested in their plan benefit.
• Benefit	Accrued benefit as of termination date.
Pre-retirement death	
• Eligibility	Death of any married or single participant. Eligible for commencement on the first of any month following the participant's death and before the participant's normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions

<ul style="list-style-type: none"> Benefit – active and vested deferred deaths 	<p>The benefit is defined as a lump sum payment equal to 47.5% of the amount that would have been payable to the participant if he had terminated on the earlier of his actual date of termination and the day preceding death, validly elected a lump sum benefit, and then died.</p> <p>The benefit for married participants can be taken as a single life annuity or a lump sum, while non-spouse beneficiaries must take the benefit as a lump sum.</p>
Benefit offsets	<p>The plan benefits for certain participants are offset by benefits earned under prior plans.</p>
Post-retirement COLA increases	<p>Former BHP Copper participants who retired on or before July 1, 1981 and who were receiving payments on December 31, 1986 were entitled to an annual cost-of-living adjustment equal to the lesser of 5% and the CPI. The aggregate adjustment cannot exceed the lesser of the original benefit and \$2,000.</p> <p>Effective January 1, 2009, the benefits for all participants eligible to receive COLA increases were increased to the maximum level allowed under the Plan.</p>

Schedule SB, Part V — Summary of Plan Provisions

• Optional form conversion factors	The Plan age-65 accrued benefit is calculated by converting the plan-defined lump sum benefit to a single life annuity using 417(e) actuarial equivalence; the maximum interest rate for any of the 3 segment rates is 6%. The 50% joint and survivor annuity is equal to 95% of the single life annuity.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2013, the limit is \$255,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2013, the limit is \$205,000.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated January 1, 2010 and amended through Amendment #2, are included in this valuation.

- **Most recent plan amendments included:** The plan was amended to allow deferred vested participants to receive lump sums effective May 1, 2011.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan provides actuarial increases to benefits of participants who work beyond normal retirement, and we have reflected these increases in the active liabilities. The Plan distributes benefits to active participants who work beyond age 70 1/2.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding**Additional Benefits Included or Excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
