Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

We were engaged to audit the accompanying financial statements of G&K Services Non-Contributory Pension Plan for Collective Bargaining Employees (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 5, which was certified or provided by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As discussed in Note 11 to the financial statements the Plan Administrator determined that a partial plan termination occurred in April of 2013. Our disclaimer of opinion has not been modified with respect to this matter.

Other Matter

The supplemental schedules, Schedule H, line 4i—schedule of assets (held at end of year) and Schedule H, line 4j—schedule of reportable transactions, as of or for the year ended December 31, 2013, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. The supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance With the Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

G&K Services Non-Contributory Pension Plan for Collective Bargaining Employees

Notes to Financial Statements

Note 1. Plan Description

The following brief description of the G&K Services Non-Contributory Pension Plan for Collective Bargaining Employees (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan is a defined benefit plan covering hourly employees of G&K Services, Inc. (the Company) who have been designated to be eligible to participate in the Plan. The Plan is sponsored and administered by the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company has appointed Wells Fargo Bank, N.A. as the trustee (the Trustee) and Mercer Human Resource Consulting as the actuary (the Actuary). The Trustee is responsible for holding and investing the assets of the Plan as instructed by the Company's Retirement Committee. The Trustee is also responsible for disbursing the pension benefits as instructed by the Plan Administrator.

Eligibility and vesting: Certain employees who have been employed for at least six months and are still employed at the Plan's entrance date, as defined by the Plan, are generally eligible to participate in the Plan. Certain other employees are eligible to participate the later of March 21, 2005, or the date of employment with the Company. Participants become fully vested upon completion of five years of vesting service, as defined by the Plan.

Retirement benefits: Normal retirement age is 65. Retirement benefits are determined based upon years of credited service and the benefit level corresponding to the participating plant where the participant worked. Generally, participants receive their distributions, subject to certain plan provisions, in the form of an annuity or, if the present value of their benefit is \$5,000 or less, in a lump-sum payment.

Disability and death benefits: A participant who becomes totally and permanently disabled after completing five years of credited service shall be eligible for a disability retirement pension. Survivor benefits will be payable upon the death of an employee when death occurs in one of the following circumstances: (a) active employment, provided such employee has completed at least five years of credited service at the time of death, (b) during the time an employee is receiving disability benefits, (c) after an employee retired and is receiving a form of benefit that provides payment to a survivor or (d) after termination if the employee is entitled to a deferred retirement benefit that has not yet commenced.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates: The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are presented at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the valuation policies utilizing information provided by its investment advisors and the Plan's Trustee. See Notes 4 and 5 for a discussion of fair value measurements.

G&K Services Non-Contributory Pension Plan for Collective Bargaining Employees

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable, under the Plan's provisions, to the service the employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability and termination of employment—are included to the extent they are deemed attributable to employee service rendered to the valuation date (see Note 6).

Funding policy: Participants are not permitted to make contributions to the Plan. The Company's funding policy is to make annual contributions to the Plan in amounts actuarially determined to be sufficient to fund the benefits provided by the Plan, to satisfy the minimum funding requirements of ERISA, and to comply with current federal income tax laws. The Plan has met the ERISA minimum funding requirements for 2013 and 2012.

Benefit distributions: Benefit payments to participants are recorded upon distribution.

Administrative expenses: Administrative expenses of the Plan may be paid by the Company or from plan assets.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by the Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted by such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified or provided by the Trustee, except for comparing such information certified or provided by the Trustee to the information included in the Plan's financial statements and supplemental schedules. The Trustee certified to the completeness and accuracy of all investment information disclosed in the accompanying financial statements and supplemental schedules, including the fair value of investments held at December 31, 2013 and 2012, and net investment results for the years then ended.

G&K Services Non-Contributory Pension Plan for Collective Bargaining Employees

Note 4. Fair Value Measurements

Accounting standards established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the Financial Accounting Standards Board's *FASB Accounting Standards Codification* Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

Collective trust fund: The collective trust fund is valued at the net asset value (NAV) as reported by the investment manager at year-end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012. The following tables do not include the Plan's interest in the Master Trust because that information is presented in a separate table (see Note 5).

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Collective trust fund	\$ 65,259	\$ -	\$ -	\$ 65,259

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Collective trust fund	\$ 75,162	\$ -	\$ -	\$ 75,162

The Plan follows guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using NAV per share as a practical expedient, when the fair value is not readily determinable, unless it is probable that the investment will be sold at something other than NAV. The following table includes investments where NAV is available as a practical expedient:

Investment	Fair Value at December 31		Redemption Frequency	Redemption Notice Period
	2013	2012		
Wells Fargo Short-Term Investment Fund (a)	\$ 65,259	\$ 75,162	Immediate	None

- (a) This collective trust fund seeks to preserve capital. The investments in this fund consist of high-quality, short-term instruments of domestic and foreign issuers with an overall weighted-average maturity of 90 days or less.

Note 5. G&K Services, Inc. and Associated Companies Master Trust

Substantially all of the Plan's investments are held in the G&K Services, Inc. and Associated Companies Master Trust (the Master Trust), which was established for the purpose of collectively investing the assets of the Plan, along with the G&K Services Pension Plan (a related plan also sponsored by the Company). The assets of the Master Trust are held by the Trustee.

The fair value of the Plan's interest in the Master Trust is based on the beginning-of-year value of the Plan's interest in the trust plus actual contributions and allocated investment results less actual benefit distributions and allocated administrative expenses. The Plan's share of the Master Trust's total investments approximated 0.6 percent December 31, 2013 and 2012. Each plan has an undivided interest in the net assets of the Master Trust. Investment results are allocated to the plans in proportion to their share of the net assets of the Master Trust.

Note 5. G&K Services, Inc. and Associated Companies Master Trust (Continued)

The following is a description of the valuation methodologies used for assets held in the Master Trust measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Collective trust fund: Shares of a collective trust fund held by the Master Trust are valued at the NAV as reported by the investment manager at year-end.

U.S. government and agency bonds: U.S. government and agency bonds are valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate bonds and notes: Corporate bonds and notes are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Common and preferred stock: Shares of common and preferred stock held by the Master Trust are valued at the closing price reported in the active market in which the individual securities are traded.

Mutual funds: The shares of Level 1 mutual funds are valued based on quoted prices of identical shares in active markets for shares held by the Plan at year-end. The shares of Level 2 or Level 3 mutual funds are reported at fair value based on the underlying investments.

Hedge funds: Interest is calculated independently by the funds' administrator and is reviewed by the management team.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013

(a) This collective trust fund seeks to preserve capital. The investments in this fund consist of high-quality, short-term instruments of domestic and foreign issuers with an overall weighted-average maturity of 90 days or less.

(b) The investment seeks stable, predictable returns with low volatility. These funds invest in equity securities that provide broad diversification and capture market inefficiencies by identifying overvalued and undervalued stocks.

G&K Services Non-Contributory Pension Plan for Collective Bargaining Employees

Notes to Financial Statements

Note 5. G&K Services, Inc. and Associated Companies Master Trust (Continued)

- (c) The investment seeks long-term capital growth. These funds normally invest in stocks of similar-sized companies they believe will increase significantly in value over time.
- (d) The fund seeks to approximate the risk and return characterized by the Russell 2000 Index. This index is commonly used to represent the small cap segment of the U.S. equity market. The fund may make limited use of futures and/or options for the purpose of maintaining equity exposure.

There are no unfunded commitments related to the categories of investments where NAV is available as a practical expedient.

As discussed in Note 1, investments are presented at fair value. Level 3 investments are valued at their daily or monthly NAV per share or the equivalent. NAV per share or the equivalent is used for fair value purposes as a practical expedient and represents an unobservable valuation input. NAVs are calculated by the investment manager or sponsor of the fund. Level 3 investments represent investments in hedge funds or funds of hedge funds as well as other commingled equity funds. Investments in hedge funds or funds of hedge funds are not valued using quoted prices in active markets. The classification level of the Level 3 investments is determined by the ability to redeem the investment at NAV in the near term of the measurement date. All investments that are not redeemable at the NAV reported by the investment managers within 90 days of the fiscal year-end because of a lockup period or gate, but that may be redeemed at a future date, are classified as Level 3.

Note 6. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by the Actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death or retirement) between the valuation date and the expected date of payment.

The actuarial valuation was performed as of January 1, 2013. There were no significant differences between December 31, 2012, and January 1, 2013, that would cause the actuarial valuation not to be representative as of December 31, 2012. In addition, the partial plan termination discussed in Note 11 has not been factored into the January 1, 2013 actuarial valuation. The estimated impact of the partial plan termination is estimated to be a reduction of accumulated plan benefits of approximately \$50,000.

Significant assumptions underlying the actuarial computation as of December 31, 2012, the benefit information date, are as follows:

Actuarial cost method	Unit credit method
Rate of return on investments	7.50 percent
Mortality basis	The assumed healthy mortality is the RP-2000 sex-distinct combined healthy mortality table projected to 2017 without an adjustment for collar.
Retirement age	Various rates between ages 62 and 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

G&K Services Non-Contributory Pension Plan for Collective Bargaining Employees

Notes to Financial Statements

Note 6. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits was as follows:

	December 31, 2012
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 107,008
Other participants	312,987
Nonvested benefits	1,856
Total actuarial present value of accumulated plan benefits	<u>\$ 421,851</u>

The changes in actuarial present value of accumulated plan benefits for the year ended December 31, 2012, were as follows:

Actuarial present value of accumulated plan benefits, beginning of year	\$ 393,028
Increase (decrease) during the year attributable to:	
Net benefits accumulated and (gains) losses	25,109
Increase for interest due to decrease in discount period	28,471
Benefits paid	(24,757)
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 421,851</u>

Note 7. Plan Termination

Although it presently has no intention to do so, under the terms of the Plan, the Company has the right, at any time, to terminate the Plan. The Pension Benefit Guaranty Corporation (the PBGC) may also terminate the Plan by action pursuant to the provisions of ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as outlined in the Plan and as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. The amount participants or their beneficiaries who were entitled to receive benefit payments at least three years prior to the plan termination or that amount participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b. All benefits guaranteed by the PBGC, if any.
- c. All vested benefits (determined prior to termination) not guaranteed by the PBGC.
- d. All other accrued benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disabilities and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

G&K Services Non-Contributory Pension Plan for Collective Bargaining Employees

Notes to Financial Statements

Note 7. Plan Termination (Continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Note 9. Party-in-Interest Transactions

The Plan's assets are held by the Trustee. The Trustee manages and invests contributions received and makes distributions to participants. Therefore, these transactions qualify as party-in-interest transactions.

Note 10. Income Tax Status

The Plan obtained its latest determination letter on May 23, 2012, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (the Code). The Plan has been amended subsequent to the version of the Plan that received the determination letter. However, management believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the Plan has maintained its tax-exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities beyond three years.

Note 11. Partial Plan Termination

In April 2013, the Company closed a location in Waterbury, Connecticut, and all employees at this location were terminated. This closure impacted 36 participants. The Plan Administrator determined that the termination of these plan participants resulted in a partial plan termination. The affected plan participants were not required to take distributions upon termination of employment. All participants were 100 percent vested prior to the partial plan termination.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Mortality sponsor elections

- Healthy and disabled participants Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.

417(e) lump sums

Former Contributory Plan participants are eligible for an unlimited lump sum in retirement determined using 417(e) assumptions. Liabilities for these participants are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods*****Asset Methods***

The asset valuation method is the fair market value

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and benefit rates as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's target normal cost is the sum of the individual target normal costs, and the plan's funding target is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions**

The G&K Services Contributory Pension Plan was merged into the G&K Services Non-Contributory Pension Plan on December 31, 1999. Former participants in the G&K Services Contributory Pension Plan never earned additional benefits under the G&K Services Non-Contributory Pension Plan. A description of the benefits available to G&K Services Non-Contributory Pension Plan Participants is provided below. A description of the benefits available to former G&K Services Contributory Pension Plan Participants is provided following the summary provided below.

G&K Services Non-Contributory Pension Plan for Collective Bargaining Employees

Definitions	
• Covered employees	Any hourly employee of a Plan of the Company which has been designated the right to participate in this plan.
• Participation	An hourly paid employee shall be eligible to participate in the plan on the January 1 coinciding with or next following completion of six months of employment with the company. <u>Coyne Participants</u> The later of March 21, 2005 and the date of employment with the Employer.
• Vesting service	Vesting Service shall be equal to Credited Service, except that participants who were members of the Pension Plan Covering Certain Hourly Employees of National Linen Service or the Coyne Pension Plan shall be credited with vesting service under those plans.

Schedule SB, Part V — Summary of Plan Provisions

- Credited service**

For the short plan year beginning July 14, 1997, and ending December 31, 1997, a Participant shall receive credit for .46 of a year of Credited Service if he completes at least 460 Service Hours during this short period.

After December 31, 1997, a year of service is credited for a participant who is credited with at least 1,000 hours of service during a plan year. In the year of hire or termination, a partial year of Credited Service will be given if fewer than 1,000 hours are worked.

Coyne Participants

On or after March 21, 2005, a year of service is credited for a participant who is credited with at least 1,000 hours of service during the 12-consecutive month period beginning with each anniversary of the employee's date of hire. Maximum credited service is 30 years.

- Accrued benefit**

A participant's accrued pension is equal to the benefit level corresponding to the participating plant where the participant works multiplied by his years of credited service. See below for current benefit levels.

Deferred vested	
• Eligibility	In the event of termination of employment for reasons other than death, disability or retirement (normal or early), and the participant has completed at least 5 years of vesting service.
• Benefit	Employee shall be entitled to a deferred accrued benefit (payable for life) commencing at age 65. A participant must have at least 20 years of credited service to be eligible to commence their benefit prior to age 65.

Schedule SB, Part V — Summary of Plan Provisions

Pre-retirement death	
• Eligibility	Benefits will be payable upon the death of an employee when death occurs (i) during active employment, provided such employee has completed at least five years of Credited Service at the time of death; (ii) after an employee retired and is receiving a form of benefit which provides payment to a survivor; or (iii) after termination if the employee is entitled to a deferred retirement benefit which has not yet commenced. Benefits will be calculated in the following manner:
• Benefit	<p>(a) The beneficiary of an employee who dies while receiving retirement benefits will receive payment in accordance with the optional benefit payment method selected.</p> <p>(b) The surviving spouse of an active or terminated participant who dies after becoming entitled to a deferred retirement benefit shall receive a death benefit commencing on the date the employee would have been eligible to receive retirement benefits. The amount of benefit shall be equal to 50% of the monthly pension that would have been payable to the employee had he terminated on his date of death (if not already terminated), survived until he was first eligible to retire and retired, electing to receive a 50% joint and survivor benefit.</p> <p>(c) If, after all benefits have been paid, the sum of those payments is less than the employee contributions with interest, then the difference will be paid to the appropriate beneficiary.</p>
Form of benefits	
• Automatic form for unmarried participants	Life annuity with 120 payments guaranteed.
• Automatic form for married participants	If, on the date pension payments commence, the retiree has an Eligible Spouse and does not elect otherwise, the pension will be automatically payable in the form of a 50% Joint and Survivor benefit which shall be the actuarial equivalent of the 10 Year Certain & Life annuity otherwise payable.
• Optional forms	The following options are potentially available depending upon the Participant's status at commencement: The options include Life Annuity; 5, 10 and 15 Year Certain & Life; 50% and 75% Joint & Survivor Annuities; Social Security Level Income option; or a lump sum.
• Optional form conversion factors	Mortality - Current year 417(e) unisex mortality Interest- Rate defined in Section 417(e)
Small Pensions	In the event the lump sum value of terminated Participant's benefit is less than \$5,000 such pension shall be paid in a single lump sum payment.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2013 the limit is \$205,000.

Schedule SB, Part V — Summary of Plan Provisions***Benefits Included or Excluded***

Unless noted below, all benefits provided by the plan, as restated and amended effective January 1, 2011, are included in this valuation.

- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* Current active participants over normal retirement age are valued including the late retirement actuarial increase.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy since it is our understanding this plan consists solely of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
