Independent Auditor's Report

To the Participants and Administrator of Zurich American Insurance Company Retirement Account Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Zurich American Insurance Company Retirement Account Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2012 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by The Northern Trust Company, the trustee of the Plan, and Aetna, the insurance company of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee and insurance company hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustee and insurance company as of December 31, 2013 and 2012 and for the years then ended, that the information provided to the plan administrator by the trustee and insurance company is complete and accurate.

Disclaimer of Opinion

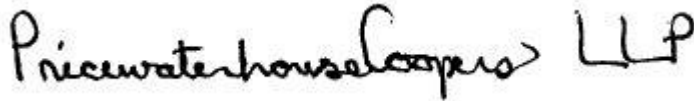

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental schedules of Schedule H, Line 4i of Form 5500: Schedule of Assets (Held at End of Year) at December 31, 2013 and Schedule H, Line 4j of Form 5500: Schedule of Reportable Transactions for the Year Ended December 31, 2013 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and insurance company, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Retirement Account Plan

Notes to Financial Statements

December 31, 2013 and 2012

1. Description of the Plan

The following is a brief description of the Zurich American Insurance Company Retirement Account Plan ("the Plan") which exists for the benefit of the employees of Zurich American Insurance Company ("Zurich") and any related employer (collectively, "the Company"). The Plan document should be referred to for a more complete description.

Effective January 1, 2001 and October 1, 2001, the Fidelity and Deposit Company of Maryland Retirement Plan ("the F&D Plan") and the Retirement Plan for Employees of Empire Fire and Marine Insurance Company ("the Empire Plan"), respectively, merged into the Plan and ceased to exist. As a result of the mergers, all benefits accrued by participants under the F&D Plan and the Empire Plan as of December 31, 2000 and September 30, 2001, respectively, transferred to the Plan. Effective January 1, 2000, the Maryland Casualty Company Retirement Plan ("the MCC Plan") merged into the Plan. As a result of the merger, all benefits accrued by participants under the MCC Plan as of December 31, 1999 transferred to the Plan. Effective January 1, 2007, the Universal Underwriters Group Cash Balance Plan ("the UUG Plan") merged into the Plan and ceased to exist. As a result of the merger, all benefits accrued by participants under the UUG Plan as of December 31, 2006 transferred to the Plan. All participant benefit accruals on and after the merger dates are subject to the terms and conditions of the Plan. Former participants in the merged plans continue to be covered by certain provisions in those plans, referred to as the "grandfathered" provisions in the Plan document. Also effective as of the merger dates, all benefits previously accrued to participants under the merged plans are funded through the trust maintained for the Plan.

The Plan is a non-contributory defined benefit cash balance pension plan. Prior to 2000, all employees of the Company who had attained age twenty-one and completed one year of service, with at least 1,000 hours of service completed during that year, or had attained age forty, were eligible to participate. Effective January 1, 2008, participants become 100% vested upon three (3) years of service or attainment of age sixty-five (65). Participants who terminated employment prior to January 1, 2008, fall under the vesting rules in place at the time their employment ended. If participants terminate before vesting, they forfeit the right to receive their portions of accumulated plan benefits. For plan years beginning on or after January 1, 2000, employees of the Company who were not already participants became participants in the Plan on the latter of January 1, 2000, plan merger date (in the event of a plan merger) or the date of hire.

The Plan was formerly known as the Retirement Income Plan "RIP", which at the time was a defined benefit final average pay plan. RIP converted to a cash balance plan on January 1, 1996 and any benefits accrued were frozen as of December 31, 1995. In addition, the RET-A was originally part of the RIP, upon transfer to the Zurich Insurance Company Thrift Plan, it was converted to a defined contribution plan on January 1, 1982. On January 1, 1985, the RET-A was transferred back to the RIP and converted back to a defined benefit plan. As the RET-A was a defined contribution plan during that time, it includes employee contributions.

Benefit Formula under Zurich American Insurance Company Retirement Account Plan

The employee's account is credited every year with an amount equal to a percent of their pay in the plan year. The amount of the pay credit depends on age and service at January 1, as well as annual earnings in relation to the Social Security Taxable Wage Base, which changes annually, and was \$113,700 for 2013. Every year, the employee's account is credited with a percent of earnings based on the following table:

Age plus Continuous Service At January 1	Annual Earnings To Social Security Wage Base	Plus	Annual Earnings Over Social Security Wage Base
0-39	2.50%	+	3.50%
40-49	3.25%	+	4.50%
50-59	4.00%	+	5.50%
60-69	5.00%	+	7.00%
70-79	6.00%	+	8.50%
80+	7.50%	+	10.0%

As described in the Plan document, for former participants of the merged plans that are eligible for the "grandfathered" provisions in the Plan, the pay credit calculation differs from the table above.

Each year, employee accounts will also be credited with annual investment credits at 1% over the 1-year Constant Maturity rate as published by the Federal Reserve. The Plan was amended starting the 2003 Plan year such that the annual investment credit will not be less than 5%. While the account accumulates investment credits, this Plan is still a "defined benefit" plan. As such, the Plan assures the participant's level of benefits, and the Pension Benefit Guaranty Corporation assures the security of the accrued benefit as well.

Benefit Formula Under the Retirement Income Plan

Prior to January 1, 1996, participants who had vested were entitled to pension benefits beginning at the normal retirement age of 65 equal to .87% of the final average annual earnings less than covered compensation, plus 1.37% of the final average annual earnings in excess of covered compensation, all multiplied by the number of years of credited service earned by the participant as of his/her normal retirement date. The final average annual earnings is the sum of the participant's annual earnings during the 60 consecutive months divided by five. Covered compensation is the 35-year average of the Social Security wage basis ending in the year of the participant's Social Security normal retirement age. The number of years of credited service shall not exceed 35 years. The RIP benefit amount shall not be less than the amount accrued as of December 31, 1988 plus future accruals calculated as defined above for all years of service after 1988 where total service does not exceed 35 years.

Benefits Under the Retirement A Plan

Benefits are reduced by the annual benefit payable at normal retirement, derived from participant and Company account balances in the participant's RET-A, and by benefits available under other affiliates' plans. For purposes of this disclosure, the values of RET-A are included in the assets presented in the statement of net assets available for benefits. The plan formula provides for a life annuity for unmarried participants, and an actuarial equivalent joint and survivor annuity for married participants; although various optional forms of payment are available, as described in the Plan document. Participants become 100% vested upon three (3) years of service or attainment of age sixty-five (65). If participants terminate before vesting, they forfeit the right to receive their portions of accumulated plan benefits.

Early Retirement and Death Benefits

The Plan permits early retirement after five years of continuous service at age 55-64 in a reduced amount to reflect the longer period over which benefits will be paid. Former participants of the F&D Plan are permitted early retirement at a reduced amount after ten years of continuous service at age 55-64, or, if employed prior to January 1, 1986, after attaining age 50 and completing fifteen years of continuous service. If an active participant dies at age fifty-five or older or after satisfying vesting requirements of the Plan, a death benefit, calculated similar to the early retirement benefit is paid to the employee's spouse or beneficiary in the form of a life annuity, or in some cases in the form of a lump sum payment, beginning on the latter of the participant's date of death or the date he/she would have attained age 55.

Plan Termination

While the Company has not expressed any intent to discontinue its contributions, it is free to do so at any time, subject to penalties set forth in the Employee Retirement Income Security Act of 1974 (ERISA). In the event such discontinuance results in the termination of the Plan:

- (a) The Plan provides that the accrued benefit of each affected participant shall become fully vested to the extent funded and entitled to distribution. The amount of the Plan assets shall be allocated to participants and beneficiaries subject to provisions for expenses of administration and liquidation. The allocation of assets shall be in accordance with Section 4044 of ERISA.
- (b) In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide benefits in the following order: participants who have been receiving benefits for at least three years (or that participants eligible to retire for that three-year period would have been receiving), vested benefits of other participants and non-vested benefits. Under provisions of ERISA, if the Plan is terminated, the Sponsor and participating employers may be obligated to make payments to the Pension Benefit Guaranty Corporation ("PBGC") and participants may be eligible for benefits under insurance provided by the PBGC. Certain vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. The amount of benefit protection guaranteed by the PBGC is subject to certain limitations.

Zurich American Insurance Company

Retirement Account Plan

Notes to Financial Statements

December 31, 2013 and 2012

- (c) Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Funding Policy

Contributions are designed to fund the Plan's Normal Cost, defined as that portion of the actuarial present value of the pension plan benefits allocated to a year using the Actuarial Cost Method, and to amortize the past service liability over a period of not more than thirty years. The yield (interest, dividends, and net realized and unrealized gains and losses) on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The minimum contribution requirement for the 2013 and 2012 plan years have been met. During 2013, the Company contributed \$47.1 million attributable to the 2013 plan year. During 2012, there were no contributions attributable to the 2012 plan year.

Actuarial Assumptions

The Plan's independent consulting actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits was calculated by consulting actuaries as of December 31, 2012 and 2011. The more significant actuarial assumptions are as follows:

Interest rate	- 3.7% for 2012 and 4.3% for 2011
Mortality basis	- For 2012 and 2011 RP 2000 Generational Mortality Table for Healthy White Collar males and females
Employee turnover	- Consistent with Zurich American Insurance Company's expected experience, which varies by age and service.
Retirement	- Age 55 – 70 for 2012 and 2011
Thrift Plan Account balances	- Account balances from Part I - Retirement A Accounts of the Zurich American Insurance Company Thrift Plan are assumed to accumulate with interest at 4% per year.
Interest credits on cash balances	- 5.25% for 2012 and 2011
Lump sum interest rate	- 5.00% for 2012 and 2011

Zurich American Insurance Company
Retirement Account Plan
Notes to Financial Statements
December 31, 2013 and 2012

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from management's estimates.

Investments

Investments are stated at fair value. Investments traded on a national security exchange are valued at the last reported sales price on the last business day of the year; investments traded in the over-the-counter market and listed securities for which no sale was reported on the last day of the year, are valued at the average of the last reported bid and ask prices.

The Plan may enter into equity futures contracts as a means to replicate the performance of the broad stock market or to maintain allocations to equity securities at the appropriate target levels. Equity futures contracts are marked to market daily determined by prices quoted on the futures exchanges; realized gains and losses are recognized daily in net appreciation/depreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits. Equity futures are exposed to investment risk that could result in a loss in the value of the futures contract. The futures contracts are executed on the futures exchange, which has strict margin requirements with daily cash collateral posting based on mark-to-market values of the futures contract, thereby mitigating credit risk associated with these contracts. The amount of gross realized gain and loss on equity futures contracts recognized in the net appreciation/depreciation in fair value of investments is \$2,305,545 and (\$5,017,453), respectively, for the year ended December 31, 2013 and \$2,403,864 and (\$999,825), respectively, for the year ended December 31, 2012. As of December 31, 2013 and December 31, 2012, the Plan held equity futures contracts with a fair value of \$0 for both years and a notional value of \$65,635,490 and \$90,977,252, respectively.

The Plan may also enter into interest rate swaps to effectively manage interest rate exposures. The interest rate swap structure consists of one counterparty agreeing to pay a sequence of floating rate payments while receiving a series of fixed rate payments (or vice versa) based off the notional amount of an underlying asset. As of December 31, 2013 and December 31, 2012, the Plan held interest rate swaps with a fair value of (\$27,751) and \$337,376, respectively, with an underlying notional value of \$12.2 million and \$26.2 million, respectively. The amount of gross realized gain and loss on interest rate swap contracts recognized in the net appreciation/depreciation in fair

Retirement Account Plan

value of investments is \$952,644 and (\$45,776), respectively, for the year ended December 31, 2013 and \$424,845 and (\$782,933), respectively, for the year ended December 31, 2012.

Currency hedging, including cross hedging, is entered into primarily as part of a defensive strategy to protect the portfolio's underlying assets. The Plan enters into forward currency contracts, which represent agreements to exchange currencies of different countries at specific future dates at specified rates. The forward currency contracts are used to reduce the exposure of investments denominated in non-U.S. currencies to fluctuations in foreign exchange rates. Forward currency contracts involve market risk in excess of the amount recognized in the Statement of Net Assets Available for Benefits.

Forward currency contracts are recorded in the Statement of Net Assets Available for Benefits at their fair value of \$17,655 and \$72,024, as of December 31, 2013, and 2012, respectively. The contracts are not designated as hedging instruments; realized and unrealized gains and losses are recognized currently in net appreciation/depreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits. The amount of realized loss on foreign currency contracts recognized in the net appreciation/depreciation in fair value of investments during 2013 and 2012 is (\$82,559) and (\$19,613), respectively. The amount of realized gain on foreign currency contracts recognized in the net appreciation/depreciation in fair value of investments in 2013 and 2012 is \$10,536 and \$125,752, respectively. The net realized loss is (\$72,023) and net realized gain is \$106,139 for the years ended December 31, 2013 and December 31, 2012, respectively.

The Plan records realized gains or losses at the time the forward contracts are closed or offset by matching contracts. The face or contract amount in U.S. dollars reflects the total exposure the Plan has in that particular contract. Risks may arise upon entering these contracts from the potential inability of counterparties to meet the terms of their contracts and from possible movements in non-U.S. exchange rates and securities values underlying these instruments. Forward currency contracts are valued using quoted foreign exchange rates.

Forward currency contracts open at December 31, 2013 were as follows:

Corporate debt instruments and government securities are valued at fair value. Fair value of these bonds is determined by the Trustee of the Plan, using information available from pricing sources. The pricing sources use proprietary models to arrive at an evaluated price for each security. These pricing models use matrix pricing to gather market information and derive a price based on similar securities. Standard inputs include, but are not limited to; spread benchmark curves (Treasury curves, LIBOR curves and swap curves), prepayment speeds, inputs to build interest rate curves/spreads to determine discount rates, and financial statements of the issuer. The inputs for the models are derived from the market, brokers, dealers, mutual funds, and other similar market participants. The evaluated price represents the bid side market value of an institutional size block of a security. Certain corporate bonds are evaluated on a nominal spread of risk free curves (swaps or government bonds). Issues with embedded options are priced using an option adjusted spread (OAS) model. Issues are generally benchmarked off of U.S. treasuries or LIBOR.

Investments in unaffiliated common stocks are stated at fair value.

Investments in registered investment companies are valued at net asset value based on either quoted market prices or on the basis of the last reported sales prices, or if no sales are reported, based on quotes obtained from pricing services. Some registered investment companies are privately held investment funds which are valued based on the net asset value obtained from the fund's financial statements at year end.

The assets in the RET-A include contributions and any earnings thereon from both employees and the Company which were made under the RIP and Zurich Insurance Company Thrift Plan. As noted in the statement of accumulated plan benefits, benefits attributable to RET-A are excluded

from accumulated plan benefits as of January 1, 2013 and 2012. As the RET A includes employee contributions, as noted above, benefits attributable to RET-A are equal to the assets, subject to specifically identifiable reconciling items. The Plan assets, which are comprised of U.S. government and common collective trusts, are valued by the Trustee, The Northern Trust Company, at fair value.

The immediate participation guarantee contract with Aetna Life Insurance Company ("Aetna") is valued at withdrawal value which represents contributions made under the contract, plus interest based on the actual performance of the underlying investments in Aetna's general account, less funds used to purchase annuities and pay administrative expenses charged by Aetna. Funds under the contract that have been applied to purchase annuities which the Plan is no longer obligated to pay the related benefits are excluded from the Plan's assets. The withdrawal value approximates the fair value of the immediate participation guarantee contract. The withdrawal value is calculated to be an amount equal to the present value of a hypothetical bond having the following characteristics: maturity value equal to the book value amount being withdrawn; a period to maturity of 7.5 years; a nominal coupon rate, payable semiannually, equal to the contract's current Instantaneous Rate of Return (IRR); a yield to maturity equal to the Yield to Worst on the U.S. Corporate Investment Grade Index as obtained from Barclay's Capital on the last business day of the week preceding the withdrawal date. As of December 31, 2013, the IRR and yield to maturity was 4.19% and 3.28%, respectively. As of December 31, 2012, the IRR and yield to maturity was 5.3% and 2.68%, respectively.

Common collective trusts are valued based on the net asset value from the information reported by the investment trustee using financial statements of the collective trust at year-end.

As of December 31, 2013 and 2012, the Plan, RET A, and the Master Retirement Trust all invest in the Northern Trust Company Collective Short-Term Investment Fund (the "STIF Fund"), a common collective trust, which is composed of high-grade money market instruments with short maturities. The STIF Fund's objective is to provide an investment vehicle for cash reserves while offering a competitive rate of return. Liquidity is emphasized to provide for redemption of units on any business day. Principal preservation is also a prime objective. High-grade securities are used in this fund. Within quality, maturity and sector diversification guidelines, investments are made in those securities with the most attractive yields. Admissions and withdrawals are daily in accordance with the terms of the Trust. Interest is accrued daily and distributed monthly. There are no unfunded commitments with respect to this investment, however, it may be subject to redemption restrictions, at the trustee's discretion, and to the extent that it is determined such actions would disrupt management of the fund.

As of December 31, 2013 and 2012, the Master Retirement Trust invested in an equity common collective trust fund named the Northern Trust Collective U.S. Market Cap Equity Index Fund (the "NT Equity Fund"). The NT Equity Fund seeks to provide investment results that approximate the risk and return characteristics of the Dow Jones U.S. Total Stock Market Index. The NT Equity Fund generally seeks to hold each index constituent in its proportional index weight. Dividends, if any, are declared and paid quarterly, capital gains, if any, are distributed at least annually, and

there are no redemption restrictions. There are no unfunded commitments with respect to this investment, however, it may be subject to redemption restrictions, at the trustee's discretion, and to the extent that it is determined such actions would disrupt management of the fund.

The Plan presents in the Statements of Changes in Net Assets Available for Benefits, the net appreciation/depreciation in fair value of its investments which consists of the realized gains or losses and the unrealized appreciation/depreciation of those investments. The net realized gain or loss on investments is the difference between the proceeds received and the cost of the investments sold, determined on an average cost basis. Unrealized appreciation/depreciation in fair value of investments is the difference between fair value and the cost of investments.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Actuarial Method

The permissible employer contributions to the Plan were calculated under the Projected Unit Credit Method.

Accumulated Plan Benefits

Accumulated plan benefits (Note 3) are those estimated future payments, including lump-sum distributions, attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on plan provisions at the time of retirement.

Benefit Payments

Benefit payments to participants are recorded upon distribution. Participants are paid in a lump sum or by payment of a series of periodic payments upon retirement or termination of employment.

Administrative Expenses

Investment manager fees to unaffiliated managers, trustee fees, administrative expenses and the Plan's actuarial fees are paid by the Plan and are recorded in administrative expenses within the Statements of Changes in Net Assets Available for Benefits.

Plan Amendments

During 2012, the Sponsor amended the Plan provisions to provide a temporary window for terminated vested participants to cash out of the Plan by receiving a one-time lump sum payment equal to the present value of their benefits under the Plan. Once the terminated vested participants receive their lump sum payments under the limited time plan amendment, the Plan would legally not be required to accrue any future benefits to the terminated vested employees nor would be required to pay additional benefits. As such, the Sponsor offered 6,324 terminated vested employees an opportunity to elect a lump sum payment option that was previously not available to

them. Of those offered, 2415 participants, or 38.2% chose to exercise the option and withdrew approximately \$73.2 million in lump sum payments from the plans during October through December of 2012.

There were no material Plan amendments during 2013.

Accounting Pronouncement Issued and Adopted

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. generally accepted accounting principles ("GAAP") and International Financial Reporting Standards ("IFRS"), to converge U.S. GAAP and IFRS on fair value measurements and disclosures. The amended guidance changes several aspects of the fair value measurement guidance in FASB Accounting Standards Codification ("ASC") 820, Fair Value Measurement, including information about valuation techniques and unobservable inputs used in level 3 fair value measurements and a narrative description of the sensitivity of level 3 measurements to changes in unobservable inputs. The amended guidance must be applied prospectively and is effective beginning after December 15, 2011. The Plan adopted ASU 2011-04 as of December 31, 2012. There were no material changes to the Plan's financial statements as a result of the adoption.

There were no material accounting pronouncements issued and adopted during 2013.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Reclassification

Certain 2012 balances have been reclassified to conform to the 2013 presentation.

3. Actuarial Present Value of Accumulated Plan Benefits

The independent consulting actuary of the Plan estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest), and the probability of payment (by means of decrements such as

Retirement Account Plan
Notes to Financial Statements

for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. See actuarial assumptions in Note 1.

4. Federal Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated October 26, 2010, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, Zurich American Insurance Company ("Plan administrator") and the Plan's internal tax advisor are unaware of any reason that the Plan is not as currently designed and operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that on a more likely than not basis would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS, and in December 2013 the IRS began an examination of the Plan's taxable year ending December 31, 2011, which is scheduled to be completed by the end of January 2015. No material issues have been identified as of the date these financial statements were available to be issued. The Plan administrator believes the Plan is no longer subject to any IRS tax examinations for years prior to 2010.

5. Immediate Participation Guarantee Fund of The Equitable Life Assurance Society of the United States

The Plan has an Immediate Participation Guarantee ("IPG") contract with The Equitable Life Assurance Society of the United States ("The Equitable") which has been set aside to provide benefits for participants who retired prior to January 1, 1978. The Equitable has assumed the Plan's obligation to pay these benefits.

In accordance with reporting regulations of the Department of Labor regarding allocated insurance contracts in which the obligation to pay benefits is the responsibility of the insurance company, the value of the IPG contract has been excluded from plan assets and the associated benefits have been removed from accumulated plan benefits. The contract provides for periodic dividends to the Plan at The Equitable's discretion on the basis of its experience under the contract. Such dividends totaled \$0 and \$17,127 in 2013 and 2012, respectively.

6. Interest in Zurich American Insurance Company Master Retirement Trust

In addition to the Plan, the Company sponsors The Home Insurance Company Retirement Plan (the "Home Plan"). During 2008, the Company established a master retirement trust (the "Master Trust") with two sub-accounts for its retirement plans. The two retirement plans sponsored by the Company have an undivided interest in each of the two sub-accounts, one sub-account comprised of equity securities and the other comprised of cash and short-term investments. The value of the Plan's interest in the each of the two sub-accounts is based on the value of the assets of the trust at the beginning of the year, plus actual contributions to the Plan and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2013, the Plan's interest in the net assets of the equity securities sub-account was approximately 84%, while that in the net assets of the non-equity sub-account was approximately 48.7%. At December 31, 2012, the Plan's interest in the net assets of the equity securities sub-account was approximately 84.9%, while that in the net assets of the non-equity sub-account was approximately 16.7%.

The following table presents the net assets of the Master Trust:

9. Fair Value Measurements

The FASB ASC 820, Fair Value Measurement, defines fair value as the price that would be received upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. The Plan's financial assets carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by FASB ASC 820, which prioritizes the inputs to valuation techniques used to measure fair value. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy are summarized below:

- Level 1 – Quoted market prices in active markets that the Plan or Trust has the ability to access for identical assets
- Level 2 – Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuations in which all significant inputs are observable in the market; and
- Level 3 – Valuations using significant inputs that are unobservable in the market and include the use of judgment by the Plan or Trust about the assumptions market participants would use in pricing the assets.

There have been no changes in the methodologies used at December 31, 2013 and 2012. The methods described in Note 2 and above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

During 2013 and 2012, there were no material transfers between level 1 and level 2 of the fair value hierarchy. The Plan's policy to recognize transfers between levels of the fair value hierarchy is as of the actual date of change of circumstances that caused the transfer, there were no material transfers between levels of the fair value hierarchy during 2013 and 2012. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Schedule SB, Line 7– Explanation of Discrepancy in Prior Year Funding Standard Carryover Balance or Prefunding Balance

Pursuant to IDR EP-022 and subsequent direction from the IRS, a change is being made to the January 1, 2012 Carryover Balance (COB) and Prefunding Balance (PFB).

Additional COB as of January 1, 2011 was applied to cover the 2011 minimum required contribution (MRC). The net result is that the COB as of January 1, 2012 is \$9,242 lower.

By using additional COB to cover the 2011 MRC, additional excess contributions were available to add to the PFB. Zurich's PFB election letter was for \$67,141,704, but not in excess of the total available. Thus the PFB created would have been \$9,241 higher.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods***Actuarial Methods for Funding******Asset Methods – Effective January 1, 2009***

We used financial data submitted by the plan sponsor as of January 1, 2013 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency, and we have no reason to doubt its substantial accuracy.

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods – Effective January 1, 2008

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does have insurance contracts. Annuity contracts with Aetna are included in the valuation data and the assets. Annuity contracts with American General and American General Life and Accident are not included in the plan assets and are excluded from the liabilities.
- **Transferred participants:** The liabilities for employees who have transferred into another business unit of the plan sponsor have been included with the liabilities for terminated vested participants; liabilities for employees who have transferred from another business unit of the plan sponsor have been included with the liabilities for active participants, with Vesting Service from date of transfer.
- **Disabled participants:** The liabilities for participants on long-term disability and eligible to accrue benefits have been included with the liabilities for active participants. Participants on long-term disability who are not eligible to accrue benefits are included with the liabilities for terminated vested participants.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods***Minimum Funding Methods – Effective January 1, 2008***

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 24 — Change in Actuarial Assumptions

Interest discount, segment rates with a four month look back, was updated from 2012 to 2013 in accordance with PPA.

In addition, the following assumptions were updated to better reflect expected future plan experience:

- Salary scale assumption was increased from 4.70% to 5.00% per year.
- Social security wage base assumption was increased from 2.95% to 3.25% per year.
- Inflation was increased from 2.20% to 2.50% per year.
- The mortality and interest rate used to convert from cash balance to annuity and from annuity to lump sum were updated to the 2013 unisex table for distributions subject to 417(e) as published in IRS 2008-85 and 2013 segment rates with a four month look back.
- Expected investment returns used in the actuarial value of assets calculation changed from 4.30% in 2012 to 4.40% in 2013.
- Expenses assumption was decreased from \$2,500,000 to \$2,200,000.

In each cell, the top number is the count of active participants for each age/service combination. The middle number is the average compensation of the active participants in that group. The bottom number is the average cash balance of the active participants with a cash balance benefit.

Average limited compensation and cash balance is shown for each cell with over 20 participants. Compensation as of January 1, 2013 is estimated 2013 valuation pay and is limited \$255,000

Schedule SB, Part V — Summary of Plan Provisions**Plan provisions****Benefits included or excluded:**

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #3, are included in this valuation.

- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include increases for current participants over age 70½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

Summary of major plan provisions

Name of Plan	Zurich American Insurance Company Retirement Account Plan
Sponsoring Employer	Zurich American Insurance Company
Effective Date and Plan Year	Originally effective January 1, 1950. The Plan was amended and restated effective January 1, 2009.
Most Recent Amendment	Amendment #3 dated June 29, 2012. Amendment added Special Option Window during forth quarter 2012 and amended the Benefit Restriction provisions.
Status of the Plan	The plan has ongoing benefit accruals and new employees are eligible to participate.
Eligibility Provisions for Participation	Effective January 1, 2000, an employee becomes a participant on their first day of employment.
Annual earnings	<p>Earnings (including pre-tax contributions made under Section 401(k) or Section 125 of the Internal Revenue Code, any pre-tax qualified transportation fringe benefits you receive under Section 132(f) of the Internal Revenue Code, and amounts you contribute to the Executive Savings Plan) paid by the Company plus overtime, commissions and production bonuses, if any, in a Plan Year.</p> <p>Includes pay for paid time off, vacation pay, sick pay and short-term disability pay. Severance pay and discretionary bonuses are not included. Annual Earnings that can be taken into account cannot exceed an amount established in accordance with the Internal Revenue Code.</p>
Continuous service	<p>Period of employment begins with date of employment, or an adjusted date of employment. One month of service is earned for each month in which at least one hour is worked. All months of service that are not counted in completed years will be added together, and each 12 months of service will equal one year of continuous service. If these aggregate months of service equal less than 12, then that service will be disregarded.</p> <p>Includes service with a related employer in the United States provided that such organization was considered a related employer at the time your employment there ended. Also includes periods temporarily transferred by the Company to a related employer outside of the United States, as long as there is the understanding that you will be transferred back to the United States in the future.</p> <p>Includes any service in the military services, which qualifies under the Uniformed Services Employment and Reemployment Rights Act of 1994, provided that the participant returned to the company after the military leave ended.</p>

Schedule SB, Part V — Summary of Plan Provisions

Vesting	<p>A participant shall have a vesting percentage of 100% upon the earlier of:</p> <ul style="list-style-type: none"> a. Completion of three years of Continuous Service if work one hour on or after January 1, 2008 (five years prior to January 1, 2008), or b. Attainment of normal retirement age.
Retirement Dates	
Normal	The first of the month coincident with or next following a participant's 65th birthday.
Early	<p>The first of any month coincident with or next following a participant's date of termination prior to his normal retirement date, provided the participant has attained age 55 and completed five (5) years of Vesting Service.</p> <p>For F&D participants hired prior to January 1, 1986 and Special Group 2 participants, the first of any month coincident with or next following a participant's date of termination prior to his normal retirement date, provided the participant has attained age 50 and completed fifteen (15) years of Vesting Service.</p>
Postponed	A participant may continue employment after the normal retirement date. In such event, the postponed retirement date is the first of the month coincident with or next following the date on which the participant actually retires.
ZA Grandfather definitions

Credited Service	Continuous service as a participant in the plan. Certain participants employed by Atlas General Agency, Inc. and Cosmopolitan Mutual Insurance Company on May 8, 1980 receive service credit from the earliest of their date of employment with Zurich American Insurance Company, Atlas General Agency, Inc., or Cosmopolitan Mutual Insurance Company.
Final Average Annual Earnings	The sum of a participant's annual earnings during the 5 highest consecutive years divided by five.
Covered Compensation	For each participant, the 35-year average of the Social Security wage bases ending in the year of the participant's Social Security normal retirement age.

Schedule SB, Part V — Summary of Plan Provisions

MCC Grandfather definitions

Benefit Eligibility	Active Participants, who have attained age 55 with ten or more years of Vesting Service or age 65 with five or more years of Vesting Service as of January 1, 1996.
Benefit Service ¹	One year for each year of participation in which the employee is credited with twelve months of service. Pro rata credit is granted for years in which at least six months of service are completed. Pro rata credit given in the year of retirement even if less than six months.
Average Earnings	The average of the highest five of the last ten completed calendar years of employment. If to the participant's advantage, the fifth highest year in the above average will be replaced by the sum of (1) the partial year earnings during the year of termination and (2) a pro rata fraction of the fifth highest years earnings.
Social Security Benefit	<p>The estimated monthly primary insurance amount payable to a participant under the Social Security Act, as amended, in effect on the earlier of his retirement or termination date, assuming the employee received annual pay increases of 6% per year prior to termination, and:</p> <p>(a) For vested terminated participants, the benefit payable at age 65 assuming annualized compensation continues through the year of the employee's 64th birthday.</p> <p>(b) For retirement from active employment or in-service death benefits, the benefit payable at age 65 reduced for early commencement to the later of age 62 or current age and assuming zero earnings in the year of retirement (or death) and all future years.</p> <p>Benefit will not be decreased due to post-termination Social Security wage base or benefit level increase.</p>

Schedule SB, Part V — Summary of Plan Provisions**Actuarial Equivalence**

GATT interest rate in effect in November prior to January 1 of the plan year of distribution, using the mortality table as set forth in Revenue Ruling 2001-62.

Factors used to convert the frozen December 31, 1995 ZA minimum benefit and the ZA grandfather benefit to other annuity forms are based on the actuarial equivalence in effect on December 31, 1995 using an interest rate of 5% and the UP84 mortality with ages set back two years.

Factors used to convert the frozen December 31, 1995 MCC minimum benefit and the MCC grandfather benefit to other annuity forms are based on the actuarial equivalence in effect on December 31, 1995 using the interest rate of 7.5% and the UP84 mortality with ages set back two years.

Factors used to convert the frozen December 31, 1996 F&D minimum benefit, the F&D grandfather benefit, and Special Group 1 benefits to other annuity forms are based on the actuarial equivalence in effect on December 31, 1996 using Schedule A of the Fidelity and Deposit Co. of Maryland Retirement Plan document effective January 1, 1997.

Factors used to convert the frozen December 31, 1998 Empire minimum benefit and the Empire grandfather benefit to other annuity forms are based on the actuarial equivalence in effect on December 31, 1998 using the 1951 GAM, six year set back for participant, one year set back for beneficiary, and a 2.5% interest rate.

Factors used to convert the frozen December 31, 2000 Direct Underwriters minimum benefit to other annuity forms are based on the actuarial equivalence in effect on December 31, 1998 using the UP84 with a three year setback and a 8.0% interest rate.

The frozen December 31, 1995 ZA minimum, December 31, 1995 MCC minimum, December 31, 1996 F&D minimum, December 31, 1998 Empire minimum, December 31, 2000 Direct Underwriters minimum, and the grandfather benefits (for all subplans) are converted based 417(e) interest (lookback month is November) and mortality. The larger of this benefit and benefit based on actuarial equivalence in effect at December 31, 1995 (December 31, 1996 for F&D, December 31, 1998 for Empire, December 31, 2000 for Direct Underwriters) is paid.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 7– Explanation of Discrepancy in Prior Year Funding Standard Carryover Balance or Prefunding Balance

Pursuant to IDR EP-022 and subsequent direction from the IRS, a change is being made to the January 1, 2012 Carryover Balance (COB) and Prefunding Balance (PFB).

Additional COB as of January 1, 2011 was applied to cover the 2011 minimum required contribution (MRC). The net result is that the COB as of January 1, 2012 is \$9,242 lower.

By using additional COB to cover the 2011 MRC, additional excess contributions were available to add to the PFB. Zurich's PFB election letter was for \$67,141,704, but not in excess of the total available. Thus the PFB created would have been \$9,241 higher.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods***Actuarial Methods for Funding******Asset Methods – Effective January 1, 2009***

We used financial data submitted by the plan sponsor as of January 1, 2013 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency, and we have no reason to doubt its substantial accuracy.

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods – Effective January 1, 2008

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does have insurance contracts. Annuity contracts with Aetna are included in the valuation data and the assets. Annuity contracts with American General and American General Life and Accident are not included in the plan assets and are excluded from the liabilities.
- **Transferred participants:** The liabilities for employees who have transferred into another business unit of the plan sponsor have been included with the liabilities for terminated vested participants; liabilities for employees who have transferred from another business unit of the plan sponsor have been included with the liabilities for active participants, with Vesting Service from date of transfer.
- **Disabled participants:** The liabilities for participants on long-term disability and eligible to accrue benefits have been included with the liabilities for active participants. Participants on long-term disability who are not eligible to accrue benefits are included with the liabilities for terminated vested participants.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods***Minimum Funding Methods – Effective January 1, 2008***

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Plan provisions****Benefits included or excluded:**

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #3, are included in this valuation.

- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include increases for current participants over age 70½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

Summary of major plan provisions

Name of Plan	Zurich American Insurance Company Retirement Account Plan
Sponsoring Employer	Zurich American Insurance Company
Effective Date and Plan Year	Originally effective January 1, 1950. The Plan was amended and restated effective January 1, 2009.
Most Recent Amendment	Amendment #3 dated June 29, 2012. Amendment added Special Option Window during forth quarter 2012 and amended the Benefit Restriction provisions.
Status of the Plan	The plan has ongoing benefit accruals and new employees are eligible to participate.
Eligibility Provisions for Participation	Effective January 1, 2000, an employee becomes a participant on their first day of employment.
Annual earnings	<p>Earnings (including pre-tax contributions made under Section 401(k) or Section 125 of the Internal Revenue Code, any pre-tax qualified transportation fringe benefits you receive under Section 132(f) of the Internal Revenue Code, and amounts you contribute to the Executive Savings Plan) paid by the Company plus overtime, commissions and production bonuses, if any, in a Plan Year.</p> <p>Includes pay for paid time off, vacation pay, sick pay and short-term disability pay. Severance pay and discretionary bonuses are not included. Annual Earnings that can be taken into account cannot exceed an amount established in accordance with the Internal Revenue Code.</p>
Continuous service	<p>Period of employment begins with date of employment, or an adjusted date of employment. One month of service is earned for each month in which at least one hour is worked. All months of service that are not counted in completed years will be added together, and each 12 months of service will equal one year of continuous service. If these aggregate months of service equal less than 12, then that service will be disregarded.</p> <p>Includes service with a related employer in the United States provided that such organization was considered a related employer at the time your employment there ended. Also includes periods temporarily transferred by the Company to a related employer outside of the United States, as long as there is the understanding that you will be transferred back to the United States in the future.</p> <p>Includes any service in the military services, which qualifies under the Uniformed Services Employment and Reemployment Rights Act of 1994, provided that the participant returned to the company after the military leave ended.</p>

Schedule SB, Part V — Summary of Plan Provisions

Schedule SB, Part V — Summary of Plan Provisions

Investment credits for each plan year beginning on or after January 1, 2009 means the product of the Participant's Cash Account Balance as of beginning of the calendar quarter and the Investment Credit Percentage for that calendar quarter. The investment credit percentage is the average of effective yield of the one-year constant maturity issued during the 12-month period ending in October of the preceding plan year, plus one percent on an annual basis, but cannot be below the 5.0% floor, compounded quarterly and expressed as a quarterly percentage. The investment credit percentage shall remain in effect for entire plan year.

Investment credits for each plan year prior to December 31, 2008 means the product of the Participant's Cash Account Balance as of January 1 of that Plan Year and the Investment Credit Percentage for that Plan Year. The investment credit percentage is the average of effective yield of the one-year constant maturity issued during the 12-month period ending in October of the preceding plan year, plus one percent, but cannot be below the 5.0% floor.

Effective December 31, 1999, the MCC Participant's Cash Account Balance will grow with Zurich American Insurance Company interest and pay credits mentioned above.

In addition, former MCC Participants have a minimum cash balance. The December 31, 1999 MCC Participant's Cash Account Balance will be credited with MCC Plan investment credit percentages each Plan Year. The MCC Plan investment credit percentage in future years will follow the average of effective yield of the one-year constant maturity issued during the 12-month period ending in October of the preceding plan year, plus one percent. The December 31, 1999 MCC Participant's Cash Account Balance will not be credited with any additional pay credits. This is a minimum to the December 31, 1999 MCC Participant's Cash Account Balance that grows with Zurich American Insurance Company interest and pay credits mentioned above.

Participant's Attained Age at January 1 Plus Years of Vesting Service At January 1	For Annual Earnings Up to the Social Security Taxable Wage Base	Percent of Annual Earnings In Excess of the Social Security Taxable Wage Base
0 – 39	3.45%	4.60%
40 – 49	4.60%	6.32%
50 – 59	5.75%	8.05%
60 – 69	7.48%	10.35%
70 – 79	9.20%	12.65%
80+	11.50%	14.95%

Investment credits for each plan year after December 31, 1996 and before January 1, 2007 mean the product of the Participant's Cash Account Balance as of January 1 of that Plan Year and the Investment Credit Percentage for that Plan Year. The investment credit percentage is the average of effective yield of the one-year constant maturity issued during the 12-month period ending in October of the preceding plan year, plus one percent, but cannot be below the 5.0% floor.

Effective January 1, 2007, the F&D Participant's Cash Account Balance will grow with Zurich American Insurance Company (ZA) interest and pay credit schedule mentioned above.

In addition, former F&D Participants have a minimum cash balance. The F&D Plan investment credit percentage in future years will follow the average of effective yield of the one-year constant maturity issued during the 12-month period ending in October of the preceding plan year, plus one percent. The December 31, 2000 F&D Participant's Cash Account Balance will not be credited with any additional pay credits. This is a minimum to the December 31, 2000 F&D Participant's Cash Account Balance that grows with Zurich American Insurance Company interest and applicable pay credits schedules mentioned above.

Schedule SB, Part V — Summary of Plan Provisions**Direct Underwriters**

At ages 55 and above, the Account Balance can be converted to a life annuity using immediate annuity factors based on 7.0% interest and the Blended (50/50) 1994 GAR table projected to 2002 mortality table. However, the immediate life annuity cannot exceed the accrued benefit as defined in Cash Balance Accrued Benefit Definition.

Cash Balance Accrued Benefit Definition: The cash balance account as of the determination date projected to age 65 with interest at the current interest crediting rate, divided by the age 65 annuity factor using the specified 417(e) mortality table and interest rate. In no event will the projection rate be less than 5.0% or more than 10.0%.

As of January 1, 2007, cash account balance annuity conversion is the same as the ZA method.

Schedule SB, Part V — Summary of Plan Provisions**Actuarial Equivalence**

GATT interest rate in effect in November prior to January 1 of the plan year of distribution, using the mortality table as set forth in Revenue Ruling 2001-62.

Factors used to convert the frozen December 31, 1995 ZA minimum benefit and the ZA grandfather benefit to other annuity forms are based on the actuarial equivalence in effect on December 31, 1995 using an interest rate of 5% and the UP84 mortality with ages set back two years.

Factors used to convert the frozen December 31, 1995 MCC minimum benefit and the MCC grandfather benefit to other annuity forms are based on the actuarial equivalence in effect on December 31, 1995 using the interest rate of 7.5% and the UP84 mortality with ages set back two years.

Factors used to convert the frozen December 31, 1996 F&D minimum benefit, the F&D grandfather benefit, and Special Group 1 benefits to other annuity forms are based on the actuarial equivalence in effect on December 31, 1996 using Schedule A of the Fidelity and Deposit Co. of Maryland Retirement Plan document effective January 1, 1997.

Factors used to convert the frozen December 31, 1998 Empire minimum benefit and the Empire grandfather benefit to other annuity forms are based on the actuarial equivalence in effect on December 31, 1998 using the 1951 GAM, six year set back for participant, one year set back for beneficiary, and a 2.5% interest rate.

Factors used to convert the frozen December 31, 2000 Direct Underwriters minimum benefit to other annuity forms are based on the actuarial equivalence in effect on December 31, 1998 using the UP84 with a three year setback and a 8.0% interest rate.

The frozen December 31, 1995 ZA minimum, December 31, 1995 MCC minimum, December 31, 1996 F&D minimum, December 31, 1998 Empire minimum, December 31, 2000 Direct Underwriters minimum, and the grandfather benefits (for all subplans) are converted based 417(e) interest (lookback month is November) and mortality. The larger of this benefit and benefit based on actuarial equivalence in effect at December 31, 1995 (December 31, 1996 for F&D, December 31, 1998 for Empire, December 31, 2000 for Direct Underwriters) is paid.

Plan Provision Changes Since Prior Valuation

- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2012 to 2013.
- Plan was amended on June 29, 2012 to provide for a Special Optional Window for qualifying deferred vested participants during the fourth quarter of 2012.

Schedule SB, line 24 — Change in Actuarial Assumptions

Interest discount, segment rates with a four month look back, was updated from 2012 to 2013 in accordance with PPA.
