Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The Hillshire Brands Company
Salaried Pension Plan

Report on the financial statements

We were engaged to audit the accompanying financial statements of The Hillshire Brands Company Salaried Pension Plan (the Plan), which comprise the statements of net assets available for benefits - modified cash basis as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in note B; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in note H, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The

Plan administrator obtained certifications from this entity as of and for the years ended December 31, 2013 and 2012, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of accounting

We draw attention to note B of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in note H, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Schedule SB, Line 22 – Description of Weighted Average Retirement Age

For each active participant, an expected retirement age was calculated, weighted in proportion to the probability that the individual would remain an active participant to each age and then retire at that age. (The retirement rates table in the attachment to Schedule SB, Part V – Statement of Actuarial Assumptions/Methods summarizes these probabilities.) The plan's weighted average retirement age of 60 is the arithmetic average of the expected retirement ages of all participants on January 1, 2013.

The weighted average retirement age may change each year depending on the demographics of the active participants, even if the underlying assumption does not change.

Salaried Pension Plan

Report on the financial statements

We were engaged to audit the accompanying financial statements of The Hillshire Brands Company Salaried Pension Plan (the Plan), which comprise the statements of net assets available for benefits - modified cash basis as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in note B; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in note H, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The

Plan administrator obtained certifications from this entity as of and for the years ended December 31, 2013 and 2012, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of accounting

We draw attention to note B of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in note H, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE A - DESCRIPTION OF PLAN

The following brief description of The Hillshire Brands Company Salaried Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the applicable summary plan description for the Plan for a more complete description of the Plan's provisions. Participants in former plans sponsored by certain divisions or subsidiaries of The Hillshire Brands Company (the Company) that merged into the Plan should refer to the Supplements section of the Plan for additional information.

General

The Plan is a defined benefit pension plan covering eligible employees of the Company who are members of a group or class of employees to which the Plan has been and continues to be extended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective April 30, 2010, the Plan was frozen with respect to all employees such that no additional benefits shall accrue under the Plan on or after May 1, 2010, and no employee shall be eligible to become a participant in the Plan on or after such date. Notwithstanding the foregoing sentence, a Supplement AC Participant was eligible to accrue benefits under the Plan through June 30, 2010. Effective July 1, 2010, Supplement AC Participants were reclassified as hourly paid employees and became eligible to accrue benefits under the Sara Lee Corporation Consolidated Hourly Pension Plan. No additional benefits shall accrue under the Plan on or after July 1, 2010.

The Plan has two separate benefit components - one for selected groups of employees in the branded apparel businesses of the Company (the SLBA Benefits Part) and one for selected groups of employees in various businesses of the Company (the SLC Benefits Part).

Contributions

The funding policy for the Plan is to make the necessary contributions to meet minimum funding requirements, as determined by the Plan's independent actuary. No voluntary employee contributions are permitted. The Plan was in compliance with applicable ERISA minimum funding requirements for the years ended December 31, 2013 and 2012.

Eligibility

Eligible employees begin participation as follows:

SLC Benefits Part - Either attainment of age 30 or attainment of age 21 and completion of one year of service. Effective July 1, 2005, newly hired or rehired employees are not eligible to participate in the Plan.

Retirement Benefits

Benefits provided under the SLC Benefits Part are as follows:

Normal Retirement Benefits - Normal retirement is at age 65. Monthly benefits are determined based on the following formula: 1.75% of final average monthly compensation per year of credited service, up to 35 years, minus Social Security allowance, times credited service up to 35 years. A participant's benefits shall include the amount of any benefits accrued under a plan that merged into the Plan.

The Hillshire Brands Company
Salaried Pension Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2013 and 2012

Early Retirement Benefits - An eligible participant who is at least age 55 and has completed 10 years of service may receive a pension calculated in the same way as the pension at the normal retirement date, but based on service and compensation as of the early retirement date. However, if benefits commence before age 62, this amount is reduced to take into account the participant's younger age and earlier commencement of the participant's pension.

Disability Retirement Benefits - An employee who is eligible for Social Security disability benefits may receive a pension equal to a monthly pension determined by assuming continued compensation at the disability pension and assuming continued compensation at the same rate as in effect immediately preceding the date active employment ceased on account of disability. A disabled participant may select the commencement date, but not earlier than age 55 and not later than age 70.

Deferred Retirement Benefits - An eligible participant who retires after the normal retirement date may receive a pension calculated in the same manner as for normal retirement, with an actuarial increase for benefits not paid upon normal retirement age. If a participant continues to work, benefit payments will commence on April 1 of the calendar year immediately following the calendar year in which the participant attains age 70-1/2.

Termination Benefits - A vested participant who terminates employment prior to normal retirement age may receive a deferred monthly benefit payment calculated in the same way as the pension at normal retirement, but based on final average monthly compensation, covered compensation and credited service as of the date employment terminates.

Preretirement Death Benefits - A participant who has completed five years of credited service or attained age 65 is eligible to have his or her spouse receive 50% of the amount of the monthly benefit calculated at the time of his or her death. Employees who die in active employment are immediately vested for this purpose, and the surviving spouse receives an unreduced survivor benefit immediately of 50% of the participant's accrued benefit.

Benefits provided under the SLBA Benefits Part are as follows:

Normal Retirement Benefits - Normal retirement age is 65. The benefit earned for credited service before July 1, 1995, is calculated using the formula in effect at the time the credited service was earned. Beginning July 1, 1995, the formula for the credit earned for each year of credited service is determined as follows: (1) 1.25% of career average pay times (2) the number of months of credited service for the current year, divided by 12.

Early Retirement Benefits - An eligible participant who is at least age 55 and has completed 10 years of service may receive a pension calculated in the same way as the pension at the normal retirement date, but based on service and compensation as of the early retirement date. However, if benefits commence before age 65, this amount is reduced to take into account the participant's younger age and earlier commencement of the participant's pension.

Deferred Retirement Benefits - Benefits provided are the same as the deferred retirement benefits under the SLC Benefits Part.

Termination Benefits - A vested participant who terminates employment with the Company prior to normal retirement age may receive a deferred benefit equal to the sum of the participant's retirement credits as of the date employment terminates.

The Hillshire Brands Company
Salaried Pension Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2013 and 2012

Preretirement Death Benefits - A participant who has completed five to ten years of service or who has attained age 65 is eligible to have his or her spouse receive 50% of the amount of the monthly benefit calculated at the time of his or her death.

Benefits under the Plan are subject to certain minimum and maximum amounts. In addition, benefit reductions may apply depending on the form of payment chosen.

Vesting

Participants are fully vested upon completion of five years of service or, if earlier, at age 65, provided he or she is still working for the Company.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (U.S. GAAP). Under the modified cash basis of accounting, investments are recorded at fair value, income is recorded as earned, and payments and contributions are recorded as the cash is paid or received.

If the Plan's financial statements had been prepared using the accrual basis of accounting in accordance with U.S. GAAP, an administrative expense payable of \$670,575 and \$858,967 would have been recorded in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, respectively.

Use of Estimates

The preparation of financial statements on the modified cash basis of accounting conformity requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from these estimates.

Valuation of Investments

The Plan's interest in The Hillshire Brands Company Master Investment Trust for Defined Benefit Plans (the Master Investment Trust) is based on the Plan's relative aggregate contributions, benefit payments and other relevant factors. See note D for discussion of fair value measurements.

The Plan may use various financial instruments, particularly options, futures, interest rate swaps and credit default swaps, commonly referred to as derivatives, to manage risk. No investments are engaged in market making or other speculative activities. Established practices require that derivative financial instruments relate to specific asset, liability or equity transactions, or to currency exposure.

Derivative investments are valued according to an established pricing hierarchy using current prices obtained from independent external pricing sources or determined according to approved pricing policies and procedures for fair values in circumstances where independent sources are not available. For exchange-traded

The Hillshire Brands Company
Salaried Pension Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2013 and 2012

futures, a one-sided profit and loss entry is entered each day based on futures prices from Bloomberg that are reconciled against the statements of the clearing broker. All over-the-counter (OTC) derivative transactions are priced on one of the following four bases:

- Prices supplied by a recognized third-party price vendor.
- Prices determined through a mark-to-model methodology.
- Prices supplied by the OTC trade counterparty (or broker).
- Prices reviewed and confirmed by the client.

In order to ensure integrity and robustness in the pricing process, OTC derivative prices are compared with prices determined through at least one of the remaining three bases. Any inconsistencies between the pricing bases are investigated and, where these are in excess of agreed tolerance triggers, will be escalated to appropriate resolution.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan invests in various investment securities through its interest in the Master Investment Trust. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Plan Expenses

Plan expenses are paid by the Plan unless paid by the Company at its discretion. Plan expenses include fees related to actuary, audit, investing and administration costs, and are included in Plan expenses on the accompanying statements of changes in net assets available for benefits.

Payment of Benefits

Benefit payments to participants are recorded when paid.

NOTE C - PLAN INTEREST IN MASTER INVESTMENT TRUST

The Plan's investments are in the Master Investment Trust, which was established for the investment of assets of the Plan and several other defined benefit plans sponsored by the Company. Each participating plan has an undivided interest in the Master Investment Trust. The assets of the Master Investment Trust are held by The Northern Trust Company (the Trustee). At December 31, 2013 and 2012, the Plan's interest in the net assets of the Master Investment Trust was approximately 78.4% and 78.2%, respectively. Investment income relating to the Master Investment Trust is allocated to the individual plans based on average balances invested by each plan.

The Plan's interest in the net assets of the Master Investment Trust is included in the accompanying statements of net assets available for benefits. A summary of the net assets of the Master Investment Trust as of December 31, 2013 and 2012, is as follows:

NOTE D - VALUATION OF INVESTMENTS IN THE MASTER INVESTMENT TRUST

Accounting guidance defines fair value as the price that would be received by the Master Investment Trust for an asset or paid by the Master Investment Trust to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Master Investment Trust's principal or most advantageous market for the asset or liability. The guidance establishes a fair value hierarchy that requires the Master Investment Trust to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Master Investment Trust has the ability to access as of the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the assets or liabilities (including volatilities).

The Hillshire Brands Company
Salaried Pension Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2013 and 2012

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Significant unobservable inputs for the asset or liability (including the Master Investment Trust's own assumptions about the assumptions that market participants would use in pricing an asset or liability) and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair value of investments apply to investments held as underlying investments of the Master Investment Trust:

Cash and cash equivalents - Valued at cost, which approximates fair value.

U.S. government securities - Valued at the closing price reported in the active market in which the security is traded.

Corporate debt instruments - Valued at the closing price reported for identical or similar assets in inactive markets.

Collective trusts - Based on the net asset value (NAV) provided by the administrator of the fund. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Investments in units of collective trust funds and short-term investment funds are valued at their respective NAVs as reported by the funds daily.

Registered investment companies - Valued at the published market price per unit multiplied by the number of units held.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Certain prior-year amounts have been reclassified to conform with the current-year presentation.

- (a) The BlackRock Long Duration Corp. Credit Screened Fund is an enhanced index fixed income fund that seeks to outperform the Barclays US Long Corporate Index by 25 to 50 basis points. Its objective is to avoid exposure to corporate issuers that have potential for experiencing credit deterioration. There is a two-day notice period for redemption. There are no unfunded obligations.
- (b) The BlackRock Dow Jones UBS Commodity Fund seeks to capture the risk/return profile of the Dow Jones UBS Commodity Index. Its objective is to invest in physical commodity futures and is weighted by both liquidity and dollar-adjusted historical production. There are no redemption limitations or unfunded obligations. Redemptions are permitted daily.
- (c) The primary objective of the Northern Trust MSCI ACWI IMI Fund is to approximate the risk and return characteristics of the MSCI ACWI ex U.S. and the U.S. Investable Market Indices. It may make limited use of futures and/or options for the purpose of maintaining equity exposure and may participate in securities lending. There are no limitations or unfunded obligations. Redemptions are permitted daily. The Company determined that this fund is analogous to a mutual fund or other Level 1-type asset based on the following criteria: the fund is valued on at least a daily basis, there are no trading restrictions, and the underlying equity securities can be priced in active markets.
- (d) The fair value of the short-term collective funds is measured using the NAV per unit based on the quoted market price of the respective fund's underlying investments. There are no redemption limitations or unfunded obligations. Redemptions are permitted daily.

- (e) The Northern Trust Collective Global Real Estate Index fund has an objective to approximate the overall performance of the FTSE/EPRA NAREIT Index. The fund may use futures and/or options to manage market risk. Securities lending is permitted. There are no redemption limitations or unfunded obligations. Redemptions are permitted daily.

NOTE E - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

In accordance with the investment strategy of the managed accounts, the Plan's investment managers execute transactions in various financial instruments that may give rise to varying degrees of off-balance sheet market and credit risk. These instruments can be executed on an exchange or negotiated in the OTC market. These financial instruments include futures, forward settlement contracts, swaps and option contracts.

Market risk arises from the potential for changes in value of financial instrument resulting from fluctuations in interest and foreign exchange rates, and in prices of debt and equity securities. The gross notional (or contractual) amounts used to express the volume of these transactions do not necessarily represent the amounts potentially subject to market risk. In many cases, these financial instruments serve to reduce, rather than increase, the Plan's exposure to losses from market or other risks. In addition, the measurement of market risk is meaningful only when all related and offsetting transactions are identified. The investment managers generally limit the Plan's market risk by holding or purchasing offsetting positions. These assets and liabilities are included in the derivatives and other debt instruments line item within note D.

NOTE F - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to services rendered by employees through the valuation date. Accumulated Plan benefits include benefits expected to be paid to the following: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died and (3) present employees or their beneficiaries. Benefits payable under all circumstances are included to the extent that they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary, Towers Watson, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the valuation date and the expected date of payment. Significant actuarial assumptions used in the valuations as of December 31, 2012 and 2011, are as follows:

	2012	2011
Interest rate	6.45%	6.21%
Mortality	Applicable 2013 Mortality Table	Applicable 2012 Mortality Table
Normal retirement age	65	65

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE G - PLAN TERMINATION AND PENSION BENEFIT GUARANTY CORPORATION MATTERS

Although the Company has not expressed any intention of terminating the Plan, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, distribution of the Plan assets shall be made to the participants according to the provisions for such distribution in the Plan. In addition, the Company reserves the right to amend or modify the Plan from time to time to the extent permitted by applicable law.

If the Plan terminates, a portion of the benefits under the Plan is insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE H - INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investment, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Plan interest in The Hillshire Brands Company Master Investment Trust for Defined Benefit Plans net investment (loss) income, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012.
- Master Investment Trust investment information, as shown in note C.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

NOTE I - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 12, 2011, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions. In late 2013, the IRS informed the Company that it would be conducting an examination of the Plan, as well as two other qualified retirement plans sponsored by the Company, The Hillshire Brands Company 401(k) Plan and The Hillshire Brands Company Consolidated Hourly Pension Plan, to determine whether the plans were operated in accordance with the qualification provisions of the IRC during the 2011 and 2012 plan years. As of June 17, 2014, the Company has received and responded to six (6) "Information Document Requests" and the Company is awaiting further correspondence from the IRS. There are currently no other audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

NOTE J - RELATED-PARTY TRANSACTIONS

Certain assets of the Master Investment Trust are invested in investments managed by the Trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan during 2013 and 2012 for legal, accounting and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

NOTE K - PLAN SPIN-OFF

On November 5, 2011, the Sara Lee Bakery Group, Inc. was sold to BBU, Inc. and Grupo Bimbo, S.A.B. DE C.V. (BBU). Plan assets transferred from the Plan in 2013 and 2012 related to the spin-off were approximately \$-0- and \$20,629,000, respectively. The actuarial present value of accumulated Plan benefits transferred to BBU was approximately \$119,308,000. On November 5, 2011, the bakery participants ceased active participation in the Plan and automatically became participants of the BBU Pension Plan. No bakery participant shall continue to participate in the Plan on or after November 5, 2011, and benefits accrued by bakery participants shall be paid from the BBU Pension Plan. Participants who were not transferred to the BBU Pension Plan will continue in the Plan with no change in their benefits.

NOTE L - INTERNAL FUND TRANSFERS

The Master Investment Trust has a unitized account structure whereby each plan owns units of a fund. Transfers between plans were necessary in the cash account to adjust negative units that resulted from varying monthly expenses and rebalancing needs.

NOTE M - SUBSEQUENT EVENTS

Subsequent events have been evaluated through September 18, 2014, the date these financial statements were available for issuance. On August 28, 2014, The Hillshire Brands Company was acquired by Tyson Foods, Inc. and became a wholly owned subsidiary.

Definitions

Covered group	A group or class of employees to whom the plan has been extended by their employer. Employees who are members of a class of employees of an employer represented by a collective bargaining representative with respect to their terms of employment are not considered as belonging to a Covered Group unless they are covered by an agreement that provides for the extension of the Plan to them.
Years of service	A employee receives one year of service for each full 12-month period worked. In a partial year, a participant receives one-twelfth of a year of service for each full calendar month of employment, and the full month of termination.
Credited service	A participant receives one year of credited service for each full 12-month period worked. In a partial year, a participant receives one-twelfth of a year of credited service for each full calendar month of employment.
Compensation	Total compensation, including salary, wages, hourly pay, overtime, bonuses and commissions. Amounts paid as reimbursement of expenses are excluded. All forms of deferred compensation for highly compensated employees are also excluded.

Final monthly compensation	The average annual compensation received in the five highest paid consecutive years in the last 10 years prior to retirement or termination. A partial year of compensation in the year of retirement is included if it results in a greater five-year average.
Final three-year monthly compensation	The monthly average of compensation during the three consecutive calendar years immediately preceding retirement or termination of employment, with compensation for each year not to exceed the maximum taxable wage base for that year.
Social Security Retirement Age	Age 65 if the participant's year of birth is 1937 or earlier; age 66 if the year of birth is between 1938 and 1954, inclusive; age 67 if the year of birth is 1955 or later.
Applicable percentage	0.60% if Social Security Retirement Age is 65; 0.55% if Social Security Retirement Age is 66; 0.50% if Social Security Retirement Age is 67. For former Kiwi employees, 0.40%.
Covered compensation	The 35-year average of the Social Security Taxable Wage Bases ending in the year of an individual's Social Security Retirement Age. For individuals younger than their Social Security Retirement Age, no increases in future Social Security Wage Bases are assumed.
SERP threshold participant	A participant whose base pay exceeds \$150,000 for any calendar year on or after January 1, 2005. Base pay is the annual rate of salary or wages determined as of September 1 of each year, excluding bonuses. After reaching the SERP Threshold all pay is covered by the SERP rather than the Qualified Plan.

Eligibility for Benefits

Normal retirement	A participant is eligible for normal retirement on or after the attainment of age 65.
Early retirement	A participant is eligible for early retirement on or after the attainment of age 55 and 10 years of service.
Disability retirement	<p>A participant who becomes totally disabled while employed is eligible to receive a pension under the plan. A participant is considered totally disabled if he is:</p> <ul style="list-style-type: none"> ■ receiving benefits under Sara Lee Corporation's disability income plan; or ■ receiving Social Security disability benefits.
Vested pension	A participant is eligible for a vested pension after completion of five years of service or attainment of age 65.
Preretirement spouse's pension	A participant's spouse is eligible for pension benefits if the participant had attained the right to a vested pension and died before any payments commenced.
Postretirement death benefit	A participant is eligible for a postretirement death benefit if he has attained eligibility for early or normal retirement.

(A) minus (B) below:

(A) 1.75% of Final Monthly Compensation per year of credited service up to 35 years

(B) The Applicable Percentage of Final Three-year Monthly Compensation, not greater than Covered Compensation, per year of credited service up to 35 years. For former Kiwi employees, the Applicable Percentage of Final Three-year Monthly Compensation, not greater than \$10,000, per year of credited service up to 35 years.

For those participants who were not Choice-eligible or who chose not to continue participating in the plan effective January 1, 2006, their accrued benefit as of December 31, 2005 was determined based on Credited Service, Compensation, Final Monthly Compensation, Final Three-year Monthly Compensation, and Covered Compensation as of December 31, 2005.

Effective June 30, 2010, there will be no future benefit accruals. For all participants other than certain Salaried Nonexempt employees listed in Supplement AC of Amendment #4, benefit accruals were frozen effective April 30, 2010.

Additionally, past service benefits earned by certain classes of participants from other plans maintained by an employer prior to the date of their designation as a Covered Group are preserved under this Plan. The terms of their preservation are defined in supplements to the Plan. Supplemental benefits are valued using accrued benefits provided by the plan administrator.

Early retirement

The benefit as calculated for normal retirement, using final monthly compensation, Covered Compensation and credited service as of the early retirement date, where amount (A) is reduced by 5/12 of 1% for each month that date of commencement precedes age 62, and amount (B) (for non-Kiwi employees) is adjusted according to the following table of “applicable percentages”:

Forms of Payment

Normal form	<u>Unmarried</u> : Single life annuity <u>Married</u> : 50% contingent annuity
Optional forms	Optional forms of payment may be taken on an actuarially equivalent basis if the participant elects out of the normal form. This includes a 100% contingent annuity, a 75% contingent annuity, a 66 2/3% contingent annuity, a 50% contingent annuity, a five-year certain and life annuity, a 10-year certain and life annuity, a 15-year certain and life annuity, a Social Security level income annuity, and a single life annuity (for married participants). Alternate payment forms are available for the portion of an employee's benefit attributable to certain prior plans.

Preservation of Benefits Derived From Prior Plans

Past service benefits earned by certain classes of participants from other plans maintained by an employer prior to the date of their designation as a Covered Group are preserved under this Plan. The terms of their preservation are defined in supplements to the Plan. Supplemental benefits are valued using accrued benefits provided by the plan administrator.

As of the valuation date, supplements had been adopted covering the preservation of prior plan benefits of the following Covered Groups:

Actuarial Assumptions and Methods

Salaried	
Actuarial Methods	
■ PPA	
▶ Normal cost and funding target	Present Value of Accrued Benefits
▶ Actuarial value of assets	The actuarial value of assets is the average of market values (adjusted for contributions, benefit/expense payments, and expected investment returns) as of the valuation date and one month prior. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value. The method of computing the actuarial value of assets as selected by The Hillshire Brands Company complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets, but are expected to fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term, considering PPA's smoothing rules and The Hillshire Brands Company's strategic asset investment allocation, a characteristic of this method is that it is more likely to produce an actuarial value of assets that is less than the market value of assets.
Benefits Not Valued	All benefits summarized in the plan provisions section have been valued.
Changes in Methods and Assumptions Since Last Year	The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements. The segment rates used to determine minimum funding requirements and benefit restrictions were revised by applying the corridors of MAP-21.
Data Sources	Towers Watson used asset data supplied by the trustee. The Company and its third party administrator furnished participant data. The Company furnished the dates and amounts of the prior year contributions as well as the accrued pension cost at year-end. Data was reviewed for reasonableness and consistency, but no audit was performed. Towers Watson is not aware of any errors or omissions in the data that would significantly affect the valuation results.
