Senox Corporation 401(k) Profit Sharing Plan and Trust

Summary of Significant Accounting Policies

Description of Plan

The following brief description of the Senox Corporation 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established and effective on January 1, 1998. All employees of Senox Corporation (the "Company") are eligible to participate in the Plan. The Plan provides for a qualified cash or deferred arrangement described in Section 401(k) of the Internal Revenue Code (the "Code"). Principal Financial Group is the administrator and custodian of the Plan. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Investments and Investment Options

The Company selects and makes available as investment options various pooled separate accounts and guaranteed investment contracts. The contributions related to these accounts are invested in accordance with directives from the individual participants in shares in these investment options available through the administrator as approved by the trustee.

The Plan provides for investments in numerous investment securities, which in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Contributions

Participants may contribute a percentage of their annual compensation, up to 100%, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants may also rollover amounts representing distributions from other qualified plans.

The Company may make a matching contribution to all employees as a percentage of the employee's deferral compensation, as defined, subject to the limits provided by the Code. The Company may also elect to make a profit sharing contribution with allocation based on the participant's compensation, as defined.

Senox Corporation 401(k) Profit Sharing Plan and Trust

Summary of Significant Accounting Policies

For the years ended December 31, 2013 and 2012, the Company elected to contribute a matching contribution to all employees at an amount equal to 50% of the participant's elective deferral not to exceed 4% of the participant's compensation. The Plan will determine the Employer Profit Sharing Contribution, if any, according to a discretionary formula in an amount determined each year by the managing body of the Employer and will be allocated to each Qualifying Participant's Individual Account. The Company did not declare any profit-sharing contributions during the years ended December 31, 2013 and 2012.

Participant Accounts
Each participant's account is credited with the participant's deferral contribution, the Company's matching and profit sharing contributions, and earnings of the participant's individual account. The benefit to which each participant is entitled is the benefit that can be provided from the participant's account.

Employees become eligible to participate in the contribution portion of the Plan, receive matching contributions, and profit sharing contributions after attainment of age 21 and on the first day of the month following the completion of three months of service. One thousand hours of service shall be required to constitute a year of eligibility service. Employees may stop their plan contributions at any time.

Vesting
Participants are immediately 100% vested in their deferral contributions. The Company's matching and profit sharing contribution becomes vested based on the participant's number of years of service with the Company according to the following schedule: 2 years – 20% vested; 3 years – 40% vested; 4 years – 60% vested; 5 years – 80% vested, and 6 years or more – 100% vested. One thousand hours of service must be completed to be credited with a year of vesting.

Forfeitures
Forfeitures are used to offset the next employer contribution made and are not held for discretionary contributions or plan expenses.

Senox Corporation 401(k) Profit Sharing Plan and Trust

Summary of Significant Accounting Policies

Notes Receivable from Participants
Participants may borrow from their deferral contributions fund account from a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loans must be repaid within five years unless used for the purchase of a primary residence. Loans are secured by the vested balance of the participant's account and bear interest at U.S. Government Prime Rate plus 1% that is in effect on the date of the loan application and set for the life of the loan. Interest rates were 5.25% as of December 31, 2013. Principal and interest are paid rateably through bi-weekly payroll deductions.

Benefit Payments
The Plan provides for distributions to participants upon termination of employment before the normal retirement age, disability, or upon reaching the normal retirement age but continue to work. Participants can request a distribution from the Plan of their vested interest in the Plan upon attainment of age 59 ½, even if they continue to work. Participant's will receive their benefits as either a lump-sum amount, installment payments, or annuity contracts under various options equal to the value of the participant's vested interest.

Administrative Expenses
Administrative costs and expenses, including trustee, legal, loan administration, and accounting fees are paid out of the Plan unless paid directly by the Company.

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in those net assets.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

4. Fair Value Measurements

The Plan follows the provisions of FASB ASC 820, *Fair Value Measurements*, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed Investment contract: Contract value adjusted for current market rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value:

December 31, 2013	**Level 1**	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	**$ -**	**$ 2,141,833**	**$ -**	**$ 2,141,833**

	$ -	**$ 2,141,833**	**$ 33,210**	**$ 2,175,043**

December 31, 2012	Level 1	Level 2	Level 3	Total

	$ -	$ 1,604,155	$ 32,617	$ 1,636,772

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets:

5. Tax Status

The underlying standardized prototype profit sharing plan has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008 stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2005-6, the Company has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

6. Benefit Payments

As of December 31, 2013, there were no benefit payment requests that were not processed at the end of the period and were distributed in the subsequent period.

7. Forfeitures

There were $3,618 and $6,983 in employer matching forfeitures during 2013 and 2012, respectively. These forfeitures were used to reduce employer contributions.

8. Related Party Transactions

Certain plan investments are shares of pooled separate accounts managed by Principal Financial Group. Principal Financial Group is the custodian and financial advisor of the plan and therefore these transactions qualify as party-in-interest.

9. Risks and Uncertainties

The Plan provides for investments in numerous investment securities, which in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

There were no differences noted between the financial statements and the Form 5500 at December 31, 2013.

11. Subsequent Events

The Plan has evaluated subsequent events occurring after December 31, 2013, the date of the most recent statement of net assets available for benefits date, through October 8, 2014, the date the financial statements were issued. The Plan does not believe any subsequent events have occurred that would require further disclosure or adjustment to the financial statements.
