The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may change these investment options at any time.

[6] Vesting:

Participants are vested immediately in their contributions, rollovers and earnings thereon.

Participants become fully vested in the employer nonelective contributions and the earnings or losses thereon once they have completed five years of service with the Company. Termination of employment with the Company prior to five years of service results in no benefits available to the participant from the employer nonelective contributions and earnings or losses thereon. Participants affected by the reduction in force described in Note A[3] became 100% vested in all contributions at the time of termination.

Participants are vested in the Company matching contributions and the earnings or losses thereon in accordance with the following table:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	None
2 but fewer than 3	20%
3 but fewer than 4	40%
4 but fewer than 5	60%
5 or more	100%

[7] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. A participant may borrow from his or her fund account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested account balance. Loan terms range from 1 to 5 years (10 years if the loan is used to acquire a principal residence). Each loan is secured by the balance in the participant's account. Interest is charged at a rate ranging from 3.25% to 7.25%, which is established by the Company, on a nondiscriminatory basis, taking into consideration the interest rates being charged on similar loans by independent parties. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

[8] Benefit payments:

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive the value of the vested interest in his or her account, except for those benefits attributable to a participant's Pension Transfer Account, as a lump-sum distribution.

A participant may receive the value of the vested interest in his or her Pension Transfer Account as a joint and survivor annuity, a single life annuity or a lump-sum distribution.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[8] Benefit payments (continued):

The normal retirement age is a participant's 65th birthday; 60th birthday, if he or she has at least 10 years of service; or 55th birthday, if he or she has at least 15 years of service.

[9] Forfeitures:

If a participant permanently terminates his or her employment for reasons other than death, disability, or retirement, and the participant is not fully vested, the nonvested balance in his or her account is forfeited as of the earlier of (1) the last day of the Plan year in which the fifth consecutive break in service occurs, or (2) the distribution of the entire vested portion of the participant's account. Forfeitures of terminated participants' nonvested employer contributions are used to reduce future employer contributions to the Plan.

As of December 31, 2013 and 2012, forfeited nonvested accounts available to reduce employer contributions were approximately \$125,000 and \$89,000, respectively. For the Plan year ended December 31, 2013, approximately \$14,000 of forfeited nonvested accounts was used to reduce employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The accompanying financial statements are prepared under the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a common/collective trust. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

[2] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

[3] Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains or losses on investments bought and sold as well as held during the year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[4] Payment of benefits:

Benefits are recorded when paid.

[5] Plan expenses:

Certain expenses incurred in connection with the administration of the Plan, with the exception of fees related to notes receivable from participants and investment advisory fees, are paid by the Company.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Vanguard Fiduciary Trust Company, one of the trustees of the Plan, has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, the statement of changes in net assets available for benefits for the year ended December 31, 2013 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2013.

NOTE D - INVESTMENTS

The Plan currently provides for participant-directed investment programs among a selection of investment options.

The following investments represent 5% or more of the Plan's net assets as of December 31:

	<u>2013</u>	<u>2012</u>
Registered investment companies:		
Vanguard Target Retirement 2025	\$ 3,037,308	\$ 3,336,214

Vanguard STAR Fund	688,081	**

* This amount represents contract value for this investment. Fair value was \$1,511,019 in 2013 and \$1,767,545 in 2012.

** Single investment did not represent 5% or more of the Plan's net assets.

During 2013, the Plan's investments in registered investment companies (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,768,681.

Notes to Financial Statements December 31, 2013 and 2012

NOTE E - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Registered investment companies – Shares of registered investment companies (mutual funds) are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust – The Plan invests in the Vanguard Retirement Savings Trust ("VRST"), which is a common/collective trust. The VRST seeks stability of principal and a high level of current income consistent with a 2-3 year average maturity. The trust is a tax-exempt collective trust invested primarily in investment contracts issued by insurance companies and commercial banks, and similar types of fixed-principal investments. The VRST invests solely in the Vanguard Retirement Master Trust (the "Trust"). The VRST's value in the Trust is valued at the NAV of the units in the trust. The NAV, as provided by Vanguard, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the Trust, less its liabilities. As of December 31, 2013 and 2012, the Trust investments are comprised of alternative investment contracts, traditional insurance contracts as well as cash equivalents of approximately 93%, 2% and 5%, and 91%, 3% and 6%, respectively. There are no unfunded commitments related to the VRST. If the Plan were to make a full accumulated book value withdrawal from the VRST, a written request must be made twelve months prior to the designated valuation date.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value levels:

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

For the year ended December 31, 2013, there were no transfers into or out of Levels 1, 2 or 3.

NOTE F - TAX STATUS

On March 14, 2010, the Plan obtained its latest determination letter, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

KEYSTONE FOODS LLC HOURLY 401(k) PROFIT SHARING PLAN

Notes to Financial Statements December 31, 2013 and 2012

NOTE F - TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE G - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain of the Plan's investments are shares of registered investment companies (mutual funds) and units of a common/collective trust managed by Vanguard. Vanguard is a trustee as defined by the Plan; therefore, transactions related to these investments qualify as party-in-interest transactions. Fees paid by the Plan were approximately \$11,000 for the year ended December 31, 2013.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments as of December 31, 2013 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE I - REGISTERED INVESTMENT COMPANIES' FEES

Investments in registered investment companies (mutual funds) are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These annual fees are used to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE J - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[2] Employee contributions:

The Plan provides for participant elective deferral contributions which are equal to a portion of compensation, up to 75%, as specified in the written elective deferral agreement. The elective deferral agreement may be effective at any date following a participant's entry date. Elective deferral contributions shall be limited as needed to meet nondiscrimination tests.

[3] Employer contributions:

The Plan provides for a nonelective contribution that is payable at the discretion of the participating employer. Each participating employer shall designate the amount of any nonelective contribution to be allocated to each employee classification. The allocation among members of any such classification designated to receive a contribution is defined by the Plan document.

Only participants who have completed a year of service during the Plan year and are employed on the last day of the Plan year are eligible to share in the discretionary contribution with the exception of those participants affected by the reductions in force on October 24, November 9 and December 9, 2012.

Eligible participants who are not union employees of the following participating employers are eligible to receive a matching contribution:

Group A

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[5] Participant accounts:

Participants are provided with a selection of mutual funds and a common/collective trust held by Vanguard Fiduciary Trust Company ("Vanguard") in which to invest contributions. Earnings are credited to each participant's account based upon the performance of the respective funds selected by the participant. Each investment account is revalued daily on the basis of fair market value and accounts are adjusted accordingly.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may change these investment options at any time.

[6] Vesting:

Participants are vested immediately in their contributions, rollovers and earnings thereon.

Participants become fully vested in the employer nonelective contributions and the earnings or losses thereon once they have completed five years of service with the Company. Termination of employment with the Company prior to five years of service results in no benefits available to the participant from the employer nonelective contributions and earnings or losses thereon. Participants affected by the reduction in force described in Note A[3] became 100% vested in all contributions at the time of termination.

Participants are vested in the Company matching contributions and the earnings or losses thereon in accordance with the following table:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	None
2 but fewer than 3	20%
3 but fewer than 4	40%
4 but fewer than 5	60%
5 or more	100%

[7] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. A participant may borrow from his or her fund account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested account balance. Loan terms range from 1 to 5 years (10 years if the loan is used to acquire a principal residence). Each loan is secured by the balance in the participant's account. Interest is charged at a rate ranging from 3.25% to 7.25%, which is established by the Company, on a nondiscriminatory basis, taking into consideration the interest rates being charged on similar loans by independent parties. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

[8] Benefit payments:

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive the value of the vested interest in his or her account, except for those benefits attributable to a participant's Pension Transfer Account, as a lump-sum distribution.

A participant may receive the value of the vested interest in his or her Pension Transfer Account as a joint and survivor annuity, a single life annuity or a lump-sum distribution.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[8] Benefit payments (continued):

The normal retirement age is a participant's 65th birthday; 60th birthday, if he or she has at least 10 years of service; or 55th birthday, if he or she has at least 15 years of service.

[9] Forfeitures:

If a participant permanently terminates his or her employment for reasons other than death, disability, or retirement, and the participant is not fully vested, the nonvested balance in his or her account is forfeited as of the earlier of (1) the last day of the Plan year in which the fifth consecutive break in service occurs, or (2) the distribution of the entire vested portion of the participant's account. Forfeitures of terminated participants' nonvested employer contributions are used to reduce future employer contributions to the Plan.

As of December 31, 2013 and 2012, forfeited nonvested accounts available to reduce employer contributions were approximately \$125,000 and \$89,000, respectively. For the Plan year ended December 31, 2013, approximately \$14,000 of forfeited nonvested accounts was used to reduce employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The accompanying financial statements are prepared under the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a common/collective trust. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

[2] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

[3] Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains or losses on investments bought and sold as well as held during the year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[4] Payment of benefits:

Benefits are recorded when paid.

[5] Plan expenses:

Certain expenses incurred in connection with the administration of the Plan, with the exception of fees related to notes receivable from participants and investment advisory fees, are paid by the Company.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Vanguard Fiduciary Trust Company, one of the trustees of the Plan, has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, the statement of changes in net assets available for benefits for the year ended December 31, 2013 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2013.

NOTE D - INVESTMENTS

The Plan currently provides for participant-directed investment programs among a selection of investment options.

The following investments represent 5% or more of the Plan's net assets as of December 31:

	<u>2013</u>	<u>2012</u>

Notes to Financial Statements December 31, 2013 and 2012

NOTE E - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Registered investment companies – Shares of registered investment companies (mutual funds) are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust – The Plan invests in the Vanguard Retirement Savings Trust ("VRST"), which is a common/collective trust. The VRST seeks stability of principal and a high level of current income consistent with a 2-3 year average maturity. The trust is a tax-exempt collective trust invested primarily in investment contracts issued by insurance companies and commercial banks, and similar types of fixed-principal investments. The VRST invests solely in the Vanguard Retirement Master Trust (the "Trust"). The VRST's value in the Trust is valued at the NAV of the units in the trust. The NAV, as provided by Vanguard, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the Trust, less its liabilities. As of December 31, 2013 and 2012, the Trust investments are comprised of alternative investment contracts, traditional insurance contracts as well as cash equivalents of approximately 93%, 2% and 5%, and 91%, 3% and 6%, respectively. There are no unfunded commitments related to the VRST. If the Plan were to make a full accumulated book value withdrawal from the VRST, a written request must be made twelve months prior to the designated valuation date.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value levels:

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

For the year ended December 31, 2013, there were no transfers into or out of Levels 1, 2 or 3.

NOTE F - TAX STATUS

On March 14, 2010, the Plan obtained its latest determination letter, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

KEYSTONE FOODS LLC HOURLY 401(k) PROFIT SHARING PLAN

Notes to Financial Statements December 31, 2013 and 2012

NOTE F - TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE G - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain of the Plan's investments are shares of registered investment companies (mutual funds) and units of a common/collective trust managed by Vanguard. Vanguard is a trustee as defined by the Plan; therefore, transactions related to these investments qualify as party-in-interest transactions. Fees paid by the Plan were approximately \$11,000 for the year ended December 31, 2013.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments as of December 31, 2013 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE I - REGISTERED INVESTMENT COMPANIES' FEES

Investments in registered investment companies (mutual funds) are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These annual fees are used to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE J - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

Management is responsible for the preparation and fair presentation of these financial statements, in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note C, which was certified by Vanguard Fiduciary Trust Company ("Vanguard"), one of the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that this trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from Vanguard as of December 31, 2013 and 2012 and for the year ended December 31, 2012, that the information provided to the Plan administrator by Vanguard is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013, which is the responsibility of Plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, it is inappropriate to, and we do not, express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by Vanguard Fiduciary Trust Company, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[2] Employee contributions:

The Plan provides for participant elective deferral contributions which are equal to a portion of compensation, up to 75%, as specified in the written elective deferral agreement. The elective deferral agreement may be effective at any date following a participant's entry date. Elective deferral contributions shall be limited as needed to meet nondiscrimination tests.

[3] Employer contributions:

The Plan provides for a nonelective contribution that is payable at the discretion of the participating employer. Each participating employer shall designate the amount of any nonelective contribution to be allocated to each employee classification. The allocation among members of any such classification designated to receive a contribution is defined by the Plan document.

Only participants who have completed a year of service during the Plan year and are employed on the last day of the Plan year are eligible to share in the discretionary contribution with the exception of those participants affected by the reductions in force on October 24, November 9 and December 9, 2012.

Eligible participants who are not union employees of the following participating employers are eligible to receive a matching contribution:

Group A

[4] Plan transfers:

Plan transfers represent transfers to or from the Keystone Foods LLC Salaried 401(k) Profit Sharing Plan.

KEYSTONE FOODS LLC HOURLY 401(k) PROFIT SHARING PLAN

Notes to Financial Statements December 31, 2013 and 2012

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[5] Participant accounts:

Participants are provided with a selection of mutual funds and a common/collective trust held by Vanguard Fiduciary Trust Company ("Vanguard") in which to invest contributions. Earnings are credited to each participant's account based upon the performance of the respective funds selected by the participant. Each investment account is revalued daily on the basis of fair market value and accounts are adjusted accordingly.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may change these investment options at any time.

[6] Vesting:

Participants are vested immediately in their contributions, rollovers and earnings thereon.

Participants become fully vested in the employer nonelective contributions and the earnings or losses thereon once they have completed five years of service with the Company. Termination of employment with the Company prior to five years of service results in no benefits available to the participant from the employer nonelective contributions and earnings or losses thereon. Participants affected by the reduction in force described in Note A[3] became 100% vested in all contributions at the time of termination.

Participants are vested in the Company matching contributions and the earnings or losses thereon in accordance with the following table:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	None
2 but fewer than 3	20%
3 but fewer than 4	40%
4 but fewer than 5	60%
5 or more	100%

[7] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. A participant may borrow from his or her fund account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested account balance. Loan terms range from 1 to 5 years (10 years if the loan is used to acquire a principal residence). Each loan is secured by the balance in the participant's account. Interest is charged at a rate ranging from 3.25% to 7.25%, which is established by the Company, on a nondiscriminatory basis, taking into consideration the interest rates being charged on similar loans by independent parties. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

[8] Benefit payments:

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive the value of the vested interest in his or her account, except for those benefits attributable to a participant's Pension Transfer Account, as a lump-sum distribution.

A participant may receive the value of the vested interest in his or her Pension Transfer Account as a joint and survivor annuity, a single life annuity or a lump-sum distribution.

Notes to Financial Statements December 31, 2013 and 2012

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[8] Benefit payments (continued):

The normal retirement age is a participant's 65th birthday; 60th birthday, if he or she has at least 10 years of service; or 55th birthday, if he or she has at least 15 years of service.

[9] Forfeitures:

If a participant permanently terminates his or her employment for reasons other than death, disability, or retirement, and the participant is not fully vested, the nonvested balance in his or her account is forfeited as of the earlier of (1) the last day of the Plan year in which the fifth consecutive break in service occurs, or (2) the distribution of the entire vested portion of the participant's account. Forfeitures of terminated participants' nonvested employer contributions are used to reduce future employer contributions to the Plan.

As of December 31, 2013 and 2012, forfeited nonvested accounts available to reduce employer contributions were approximately \$125,000 and \$89,000, respectively. For the Plan year ended December 31, 2013, approximately \$14,000 of forfeited nonvested accounts was used to reduce employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The accompanying financial statements are prepared under the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a common/collective trust. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

[2] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

[3] Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains or losses on investments bought and sold as well as held during the year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[4] Payment of benefits:

Benefits are recorded when paid.

[5] Plan expenses:

Certain expenses incurred in connection with the administration of the Plan, with the exception of fees related to notes receivable from participants and investment advisory fees, are paid by the Company.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Vanguard Fiduciary Trust Company, one of the trustees of the Plan, has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, the statement of changes in net assets available for benefits for the year ended December 31, 2013 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2013.

NOTE D - INVESTMENTS

The Plan currently provides for participant-directed investment programs among a selection of investment options.

The following investments represent 5% or more of the Plan's net assets as of December 31:

	<u>2013</u>	<u>2012</u>

Notes to Financial Statements December 31, 2013 and 2012

NOTE E - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Registered investment companies – Shares of registered investment companies (mutual funds) are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust – The Plan invests in the Vanguard Retirement Savings Trust ("VRST"), which is a common/collective trust. The VRST seeks stability of principal and a high level of current income consistent with a 2-3 year average maturity. The trust is a tax-exempt collective trust invested primarily in investment contracts issued by insurance companies and commercial banks, and similar types of fixed-principal investments. The VRST invests solely in the Vanguard Retirement Master Trust (the "Trust"). The VRST's value in the Trust is valued at the NAV of the units in the trust. The NAV, as provided by Vanguard, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the Trust, less its liabilities. As of December 31, 2013 and 2012, the Trust investments are comprised of alternative investment contracts, traditional insurance contracts as well as cash equivalents of approximately 93%, 2% and 5%, and 91%, 3% and 6%, respectively. There are no unfunded commitments related to the VRST. If the Plan were to make a full accumulated book value withdrawal from the VRST, a written request must be made twelve months prior to the designated valuation date.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value levels:

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

For the year ended December 31, 2013, there were no transfers into or out of Levels 1, 2 or 3.

NOTE F - TAX STATUS

On March 14, 2010, the Plan obtained its latest determination letter, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

KEYSTONE FOODS LLC HOURLY 401(k) PROFIT SHARING PLAN

Notes to Financial Statements December 31, 2013 and 2012

NOTE F - TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE G - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain of the Plan's investments are shares of registered investment companies (mutual funds) and units of a common/collective trust managed by Vanguard. Vanguard is a trustee as defined by the Plan; therefore, transactions related to these investments qualify as party-in-interest transactions. Fees paid by the Plan were approximately \$11,000 for the year ended December 31, 2013.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments as of December 31, 2013 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE I - REGISTERED INVESTMENT COMPANIES' FEES

Investments in registered investment companies (mutual funds) are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These annual fees are used to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE J - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.
