Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Chase Industries, Inc. 401(k) Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Standard Insurance Company, the current custodian of the Plan and State Street Bank and Trust, the former custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the current custodian as of and for the period from October 1, 2013 to December 31, 2013, and the former custodian from January 1, 2013 to September 30, 2013, and as of December 31, 2012, that the information provided to the Plan Administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Member of the RSM International network of independent accounting, tax and consulting firms.

Emphasis of Matter

As discussed in Note 10 to the financial statements, the Board of Directors of Chase Industries, Inc., the Plan's Sponsor, approved to merge the assets of the Eliason Corporation 401(k) P/S Plan into this plan effective May 21, 2013. All net assets were transferred to the Chase Industries, Inc. 401(k) Plan on May 21, 2013. Our disclaimer of opinion has not been modified with respect to this matter.

Other Matter – Supplemental Schedules

The supplemental schedules of delinquent participant contributions and assets (held at end of year) as of or for the year ended December 31, 2013, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. The supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following brief description of Chase Industries, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Chase Industries, Inc. (the Company) for the benefit of its employees who have at least three months of service and are age 18 or older. Effective March 15, 2013, employees of Eliason Corporation, a company acquired by Chase Industries in November 2012, were eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. The amount of participant's contributions for any Plan year may not exceed certain limits set by the Plan document and the Internal Revenue Code (IRC). Contributions may be pre-tax, after-tax or a combination of both, subject to Internal Revenue Service (IRS) 401(k) limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and a guaranteed investment contract as investment options for participants. The Company may make discretionary matching contributions as determined by the Board of Directors. The Company's matching contribution was 50% of employee's salary deferral amounts up to 6% of employee's eligible compensation. The Company may also make a discretionary profit sharing contribution to the Plan, which was $0 for the year ended December 31, 2013.

Participant accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's matching contribution, (b) the Company's profit sharing contribution, and (c) Plan earnings and losses, including an allocation of administrative expenses. Allocations are based on participant compensation or account balances, in accordance with the method described in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and earnings thereon. Vesting in employer contributions along with the earnings thereon is based on years of continuous service, where a year is defined as one in which an employee works 1,000 or more hours.

Vesting in the employer's contributions along with earnings thereon is as follows:

Years of Service	Vesting Percentage
Less than 1 year	0%
1 year	30%
2 years	60%
3 or more years	100%

Note 1. Description of the Plan (Continued)

Notes receivable from participants: The Plan includes a provision allowing participants to borrow funds from the Plan. Under the terms of this provision, borrowings are subject to certain limitations, including a minimum borrowing of $500 and a maximum borrowing not to exceed the lesser of $50,000 or 50% of the participant's vested account balance. The notes receivable are secured by the balance in the participant's account. The maximum loan term is five years unless the loan is taken for the purchase of a primary residence. The interest rate charged on the outstanding notes receivable balances are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratable through payroll deductions.

Payment of benefits: A participant may receive the value of his or her vested account upon retirement, disability or termination in a lump sum distribution. Upon death of a participant, the beneficiary shall be entitled to the full value of the account. Hardship withdrawals, as defined in the Plan, are also available to participants.

Forfeitures: Forfeited non-vested accounts are used to pay Plan expenses or reduce future employer contributions. Forfeited non-vested accounts totaled approximately $8,200 and $300 at December 31, 2013 and 2012, respectively. Employer contributions were reduced by approximately $7,200, from forfeited non-vested accounts, during the year ended December 31, 2013.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from the fair value to the contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are treated as distributions based upon the terms of the plan document.

Note 2. Summary of Significant Accounting Policies (Continued)

Contributions: Participant contributions and employer matching contributions are recognized when the participant contributions are withheld from the participant's earnings. Discretionary employer contributions are recognized when declared by the employer.
Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses may be paid by the employer or the Plan, at the Company's discretion.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Recent accounting pronouncements: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this Update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this Update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The impact of adopting the amendments of ASU 2012-04 not immediately effective on subsequent periods has not yet been determined.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 15, 2014, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Custodians

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012 and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Standard Insurance Company, the current custodian of the Plan as of December 31, 2013 and the period October 1, 2013 to December 31, 2013 and State Street Bank and Trust, the former custodian of the Plan as of December 31, 2012 and for the period January 1, 2013 to September 30, 2013, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

Note 3. Information Certified and Provided by the Custodians (Continued)

The following table represents the fair value of the Plan's assets as certified and provided by the custodians as of December 31. Assets representing 5% or more of the Plan's net assets are separately identified.

Registered investment companies	$	30,110
Guaranteed investment contract		1,449
	$	31,559

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted process for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies: Valued at the net asset value of the shares held by the Plan at year end.

Pooled separate accounts: Valued at the net asset value per share based on quoted market prices of the underlying investments.

Note 4. Fair Value Measurements (Continued)

Common/collective trusts: Valued based on the net asset value of units held by the Plan at year end. The net asset value is based upon the fair value of the underlying investments comprising the trust.

Guaranteed investment contract: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5). The guaranteed investment contract has used a fair value based on ending net asset value as a practical expedient.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

(a) This category seeks the realization of current income to the extent consistent with maintenance of liquidity, investment quality and stability of capital consistent with prudent investment risk. Investments include publicly-traded debt securities such as bonds, U.S. government and agencies securities, and mortgage-backed and asset-backed securities.

(b) This category seeks capital appreciation by investing in stocks of companies located outside of the United States and is expected to diversify assets across developed and emerging markets.

(c) This category primarily seeks long term growth and capital appreciation by investing in stocks of large-capitalization U.S. companies the fund managers believe will increase in value over time.

(d) This category primarily seeks long term growth and capital appreciation by investing in stocks of mid-capitalization U.S. companies the fund managers believe will increase in value over time.

(e) This category seeks to track the performance of a broad, market-weighted bond index and a benchmark index that measures the investment return of the overall U.S. stock market.

(f) This category seeks to provide a high level of income and moderate long-term capital appreciation by tracking the performance of a benchmark index that measures the performance of publically traded equity real estate investment trusts.

(g) This category primarily seeks long term growth and capital appreciation by investing in stocks of small-capitalization U.S. companies the fund managers believe will increase in value over time.

Note 4. Fair Value Measurements (Continued)

(h) This category seeks current income consistent with the preservation of capital and capital appreciation for the asset allocation associated with a target retirement date.

(i) This category is designed to provide plan participants with a guaranteed return of principal, along with competitive crediting rates and 100% liquidity. Investments in this category can be redeemed on a daily basis at the current net asset value per share based on the fair value of the underlying investments. The fair value of investments in this category has been estimated using the net assets value per share of the investments.

(j) This category invests primarily in common stocks and investment funds which are to approximate, as closely as practicable, the performance of the S&P 500® over the long term. Investments in this category can be redeemed on a daily basis, with a 15 day notice period, at the current net asset value per share based on the fair value of the underlying investments. The fair value of investments in this category has been estimated using the net assets value per share of the investments.

(k) This category seeks to maximize current income, to the extent consistent with the preservation of capital and liquidity and the maintenance of a stable $1 per share net asset value, by investing in U.S. government securities and repurchase agreements collateralized by U.S. government securities. Investments in this category can be redeemed on a daily basis, with a 15 day notice period, at the current net asset value per share based on the fair value of the underlying investments. The fair value of investments in this category has been estimated using the net assets value per share of the investments.

Changes in Fair Value Levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfers relative to total net assets available for benefits. For the year ended December 31, 2013, there were no significant transfers in or out of Level 1, 2 or 3.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

Balance, beginning of year	$	-
Interest		1,449
Purchases		446,314
Sales		(3,287)
Balance, end of year	$	444,476

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Note 5. Investment Contract with Insurance Company

In October 2013, the Plan entered into a fully benefit-responsive investment contract with Standard Insurance Company (Standard). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Standard. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Standard indicates that contract value approximates fair value of the investment contract at December 31, 2013. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: *(a)* amendments to the plan documents (including complete or partial plan termination or merger with another plan), *(b)* changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, *(c)* bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or *(d)* the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields for the period October 1, 2013 to December 31, 2013

Based on actual earnings	0.40%
Based on interest rate credited to participants	0.40%

Note 6. Tax Status

Effective October 1, 2013, the Plan adopted a volume submitter prototype plan sponsored by Standard Retirement Services, Inc. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with applicable provisions of the IRC and is, therefore, not subject to federal income taxes under present income tax laws.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. As of December 31, 2013 and 2012, management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain income tax positions that require adjustment to the financial statements.

Note 6. Tax Status (Continued)

Therefore, no provision or liability for income taxes has been included in the financial statements. Generally, the statute of limitations restricts federal and state examinations by tax authorities to three to five years from the date of filing. When and if applicable, potential interest and penalty costs are accrued as incurred, with expenses recognized in income taxes in the statement of changes in net assets available for benefits.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note 8. Party-In-Interest Transactions

Certain Plan investments held during the year are shares of the guaranteed investment contract managed by Standard Insurance Company and shares of common/collective trusts managed by State Street Bank and Trust. Standard Insurance Company is the current custodian and State Street Bank and Trust is the former custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. During 2013, the Plan paid administrative fees in the amount of $1,130 to Standard Insurance Company and $2,185 to State Street Bank and Trust.

Note 9. Prohibited Transactions

During 2012, the Plan sponsor inadvertently failed to deposit participant contributions of $20,165 and participant loan payments of $2,405 within the required timeframe as stated by the United States Department of Labor regulations. The Plan sponsor will deposit lost earnings to correct these failures. The Plan sponsor will file Form 5330 and pay applicable excise tax. The excise tax payments will be made from the Plan sponsor's assets and not from Plan assets.

Note 10. Plan Merger

Effective May 21, 2013, the Eliason Corporation 401(k) P/S Plan was merged into the Chase Industries, Inc. 401(k) Plan. Net assets of the Eliason Corporation 401(k) P/S Plan transferred legal control to the Chase Industries, Inc. 401(k) Plan effective May 21, 2013.

Note 11. Reconciliation of Financial Statements to Form 5500
