ComAv, LLC 401(k) Profit Sharing Plan
Notes to the Financial Statements
For the Years Ended December 31, 2013 and 2012

1. Description of the Plan

The following description of the ComAv, LLC 401(k) Profit Sharing Plan, formerly known as Southern California Aviation, LLC 401(k) Profit Sharing Plan, (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 2008, for the benefit of the employees of Southern California Aviation, LLC (the Company). Beginning October 1, 2013, eligible employees from Pacific Aviation Group LLC and ComAv LLC began participation to the Plan; and the Plan was amended to change its name to ComAv, LLC 401(k) Profit Sharing Plan. The Plan, and related trust, are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined contribution plan covering all employees of the abovementioned three Companies who have reached age twenty-one and have one year of credited service, as defined by the Plan. The Plan provides for quarterly dates of entry.

Contributions

Participant contributions:

Each year, participants may contribute up to 100% of their annual compensation, not to exceed the government-imposed limit, which is \$17,500 and \$17,000 during the years ended December 31, 2013 and 2012, respectively. The government-imposed limit is increased to \$23,000 and \$22,500 for participants who reach age 50 by each respective year-end. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer safe harbor matching contributions:

The Company provides a safe harbor matching contribution for Plan participants each year equal to 100% of the first 3% of compensation plus 50% of the next 2% of compensation. During the years ended December 31, 2013 and 2012, the employer safe harbor matching contributions to the Plan were \$141,076 and \$130,146, respectively.

Employer profit-sharing contributions:

Each plan year, the Company may make an additional discretionary profit sharing contribution on behalf of all participants who have completed 1,000 credited service hours and who are employed by the Company on the last day of the plan year. During the years ended December 31, 2013 and 2012, there employer profit-sharing contributions made to the Plan.

Investment options

Participants must direct their salary deferral contributions and their share of the Company's contributions into various investments as made available and determined by the Plan Administrator, which are more fully illustrated in the Plan's literature.

Notes to the Financial Statements

1. Description of the Plan (continued)

Participant accounts

Each participant account is credited with the participant's contribution and allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at a prime rate of interest plus 2%. The interest rate for all loans is 5.25% at December 31, 2012. Principal and interest are paid ratably through bi-weekly payroll deductions.

Vesting

Participants are immediately vested (100%) in their voluntary contributions and Company matching and profit sharing contributions plus actual earnings thereon. A participant is also fully vested upon death, total disability, or normal retirement.

Payment of benefits

Upon termination of service due to death, disability, termination, or retirement, a participant or the participant's beneficiary will receive a value of the vested account balance in the form of a lump-sum amount. There is an automatic cash-out provision for participants with balances not exceeding \$5,000.

Forfeited accounts

Since participants are immediately vested (100%) in their voluntary, and Company matching and profit-sharing contributions, plus actual earnings thereon, there were no forfeited balances included in Plan net assets available for benefits at December 31, 2013 and 2012.

2. Summary of accounting policies

A summary of the significant accounting policies followed by the Plan in the preparation of the accompanying financial statements is as follows:

Basis of accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

ComAv, LLC 401(k) Profit Sharing Plan
Notes to the Financial Statements
For the Years Ended December 31, 2013 and 2012

2. Summary of accounting policies (continued)

Investment valuation and income recognition

The Plan's investments are stated at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Use of Estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Administrative costs

The significant costs of the plan for accounting and administrative expenses are absorbed by the Plan sponsor.

Payment of benefits

Benefits are recorded when paid.

Risks and uncertainties

The Plan invests in a variety of investment funds. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through October 13, 2014, the date which the financial statements were available to be issued. There were no subsequent events noted that would require adjustment to or disclosure in these financial statements.

4. Fair value measurements

FASB Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level II – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair value measurements (continued)

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common stocks, corporate bonds, unit investment trusts, money market funds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the report date. The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012:

December 31, 2013	Level 1	Level 2	Level 3	Total

5. Plan termination

Although it has not expressed any intent to do so, the Company has the right under provisions of the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

6. Related party transactions

Plan investments consist of participant-directed investments in pooled separate accounts and investment contracts managed by John Hancock Life Insurance Company (USA), the asset custodian of the Plan. John Hancock Life Insurance Company (USA) also provides recordkeeping services to the Plan, and Intersecurities Insurance Agency Inc. provides brokerage services to the Plan. These transactions qualify as exempt party-in-interest transactions.

7. Tax status

The Plan document received a volume advisory letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan document was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the advisory letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and/or Department of Labor. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Reconciliation of financial statements to Schedule H of Form 5500

Classification of pooled separate accounts

The pooled separate accounts of John Hancock Life Insurance Company (USA) do not separately file Form 5500's with the Department of Labor. As such, in accordance with Department of Labor regulations, these investment assets are reported on line c(13) instead of line c(10) of Schedule H of the Form 5500.
