Note 1. Description of the Plan

The following description of the Choice Financial, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Choice Financial or any of its affiliated companies, (collectively known as "the Company" or "Employer") except leased employees, residents of Puerto Rico, and individuals performing services for the company with the status of an independent contractor. Eligible employees must have completed one year with 1,000 hours of service to participate. The Plan entry dates are the first day of each month. The Plan includes a deferred compensation arrangement as described in Section 401(k) of the Internal Revenue Code (Code). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Company's eligible participants may contribute from 1% up to 100% of their compensation, subject to the limitations as defined by the IRC, each year on a pre-tax basis by salary reduction. Unless another election is made, eligible participants are automatically enrolled in the Plan with a 4% deferral election.

The Company may make a discretionary contribution without regard to the Company's current or accumulated profits as determined each year by resolution of the Company's Board of Directors. For the year ended December 31, 2013, the Company elected to make a discretionary contribution of 50% of employee contributions up to 4% of total eligible compensation.

Participants direct the investment of their contributions into various investment options offered by the Plan

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's discretionary contributions and Plan earnings less an allocation of investment and operating expenses charged to the Plan. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings thereon. Participants become vested in their Company discretionary contribution account and any earnings on the Company discretionary contributions as follows:

Note 1. Description of the Plan (continued)

Periods of Service For Vesting	Percent Vested
Less than 2 years	0%
2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 or more years	100%

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. The forfeited amounts may be used to reduce Company contributions or to pay certain operating expenses of the Plan. In 2013, administrative expenses of approximately $3,000 were paid by the Plan from forfeitures. At December 31, 2013 and 2012, approximately $16,000 and $17,500, respectively of forfeitures were available to be used.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. Loan terms range from one to five years, except loans for the purchase of a primary residence may be for a longer period of time. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5% to 9.25%, which is commensurate with local prevailing rates as determined periodically by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan. Fees related to the administration of notes receivable from participants, and certain fees relating to distributions are charged directly to participants' accounts and are included in administrative fees. Certain record keeping fees are paid by the Plan and included in administrative fees. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits

Withdrawals due to terminated participants are recorded on the date distributions are made.

Upon termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in his or her account, or substantially equal installments over a certain period, the total of which is equal to the value of his or her account.

Note 1. Description of the Plan (continued)

Upon financial hardship, a participant may receive all or a portion of the vested interest in his or her account, subject to certain restrictions.

The Plan allows automatic rollover to an individual retirement account (IRA), if the terminated participant's account balance exceeds $1,000 but does not exceed $5,000. Unless the terminated participant elects to rollover the account balance or to receive the distribution directly, the Plan administrator can distribute the entire balance to an IRA designated by the Plan administrator.

Automatic distributions will be given to terminated participants with account balances of $1,000 or less.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Subsequent events have been evaluated through October 15, 2014, the date the financial statements were available for issuance.

Note 3. Investments

Schedule H, Line 4i – Schedule of Assets (Held At End of Year)*

** Notes receivable from participants are participant loans allowed under the related regulations. The participant loans are certified by the trustee, and are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

Note 5. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Mutual funds and money market fund: These investments are valued at the closing quoted market price reported on the active market on which the public investment securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Tax Status

The Plan has adopted a volume submitter profit sharing plan which received an advisory letter dated March 31, 2008 from the Internal Revenue Service ("IRS"). The IRS advisory letter provides that an employer adopting the volume submitter plan document may rely on the advisory letter with respect to the qualification of the Plan under Internal Revenue Code Section 401(a). The Plan has been amended and restated since receiving the advisory letter. However, the plan sponsor and Fidelity believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds and a money market fund managed by Fidelity Investments. Fidelity Management Trust Company, the trustee of the Plan, is a wholly owned subsidiary of Fidelity Investments.

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to Fidelity Investments or related entities, other investment custodians and investment advisors. Additionally, as noted in Note 1, certain administrative expenses related to participant initiated transactions are paid directly to Fidelity Management Trust Company.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions qualify as party-in-interest transactions for which there is a statutory exemption.
