Autoliv ASP, Inc.
Employee Savings and Investment Plan

Notes to Financial Statements

December 31, 2013

1. Description of Plan

The following description of the Autoliv ASP, Inc. Employee Savings and Investment Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide eligible employees with an incentive to make systematic savings for retirement from current income through payroll deductions. The Investment and Compensation Committee (the Committee) is responsible for the general administration of the Plan. The Plan is subject to the provisions of the Internal Revenue Code (the Code), section 401(a) and the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Substantially all domestic employees of Autoliv ASP, Inc. (the Company) are eligible to participate in the Plan. Employees become eligible participants upon date of hire, without satisfying any age or service requirements.

Contributions

Participation in the Plan is voluntary. Participants make contributions to the Plan of any whole percentage up to a maximum of 50% of base pay, not to exceed the Code's limit. Participants can elect to treat their contributions on a before and/or after-tax basis. The Company contributes an amount equal to 100% of the first 3% of the participants' compensation contributed to the Plan and 50% of the next 2% of participants' compensation contributed to the Plan.

Employee and employer contributions are allocated among any of the Plan's investment fund options in accordance with participants' elections. Participants may transfer amounts from one investment fund to another.

Effective January 1, 2011, the Plan was amended to allow Roth 401(k) contributions.

1. Description of Plan (continued)

Unless the Plan is otherwise notified, all employees, except non-U.S. citizens who have elected not to participate, are automatically enrolled into an age appropriate target maturity strategy fund, which are composed of varying percentages of common and collective trust funds and mutual funds, at a contribution rate of 5% of base pay. The initial automatic deferral increases annually in 1% increments to a maximum of 10%, absent an alternate election made by the participant.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, and (b) the Plan's earnings, and is charged with an allocation of certain administrative expenses not paid by the Company. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in employee and employer contributions and earnings, if any, thereon.

Participant Loans

Active participants may obtain loans from the Plan. The maximum loan amount is subject to certain restrictions of the Code and the Plan's provisions, and each loan is secured by the participant's account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The interest rate on loans is the prime rate, as defined, plus 1%. Loan interest rates are reviewed monthly and adjusted prospectively. Principal and interest are paid through payroll deductions. If a participant terminates employment with the Company, the entire unpaid balance, including principal and interest, becomes due and payable. If the loan is not repaid, it will automatically be treated as a distribution to the participant after 90 days.

1. Description of Plan (continued)

Benefit Payments

On termination of service, a participant may receive a lump-sum amount equal to the vested value of his or her account, or upon death, disability, or retirement elect to receive annual installments over a ten-year period. Benefits are recorded when paid.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

With the exception of fees paid to an insurance company for certain investment contracts, substantially all administrative and general expenses of the Plan are paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate, amend, modify, or suspend the Plan at any time. In the event the Plan is terminated, the entire value of the investment funds shall be applied for the exclusive benefit of participants, and no part of the funds will revert to the Company. Upon termination of the Plan, the Company will have no obligation to continue making contributions to the Plan.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

2. Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Fully Benefit-Responsive Investment Contracts

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through participation in the New York Life Separate Account, a guaranteed investment contract fund. Investments in the accompanying statements of net assets available for benefits present the fair value of the New York Life Separate Account as well as the adjustment of the portion of the New York Life Separate Account related to fully benefit-responsive investment contracts from fair value to contract value.

Investment Valuation and Income Recognition

All of the Plan's investments are held in trust at the Northern Trust Company. The Northern Trust Company acts as the Plan's trustee and custodian.

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

2. Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan's management to make estimates that affect the amounts reported in the financial statements and accompanying notes and the supplemental schedule. Actual results could differ from those estimates.

3. Investments

During the year ended December 31, 2013, the Plan's investments (including investments purchased, sold, as well as held during the year) appreciated in fair value as follows:

Mutual funds	6,730,443
	$ 61,302,414

Other than the fair value of the New York Life Separate Account Guaranteed Investment Contract and the adjustment from fair value to contract value for fully benefit-responsive investment contracts, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2013, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Northern Trust Company, the trustee of the Plan.

The contract value of the New York Life Separate Account Guaranteed Investment Contract was certified as complete and accurate by the trustee.

3. Investments (continued)

The New York Life Separate Account Guaranteed Investment Contract's fair value and contract value are as follows:

	December 31	
	2013	**2012**
New York Life Separate Account Guaranteed Investment Contract, at fair value	**$ 153,016,728**	$ 150,827,714
New York Life Separate Account Guaranteed Investment Contract, at contract value	**$ 154,348,711**	$ 145,120,848

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)

4. Fair Value Measurements (continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan.

Shares of mutual funds are valued at quoted market prices, which represent the net asset values (NAV) of shares held by the Plan at year-end. The fair values of participation units in common and collective trust funds are based on NAV, as the practical expedient, as determined by the common and collective trust funds issuer. The guaranteed investment contract is valued based on the fair market value of the underlying assets held in the separate account. Short-term investment fund units are purchased daily for any uninvested cash. These units are valued at par, which is equal to the redemption value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that it believes market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

4. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, information about the Plan's investments measured at fair value:

5. Separate Account Guaranteed Investment Contract

The Plan invests in a fully benefit-responsive guaranteed investment contract (GIC). The issuer maintains the contributions in a separate account. The account is credited with participant contributions plus earnings and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 4%.

Fully benefit-responsive investment contracts are required to be reported at fair value in the Plan's statements of net assets available for benefits with a corresponding adjustment to reflect these investments at contract value. Contract value represents the contributions under the contract plus reinvested income at the crediting rate less any withdrawals and expenses. Contract value is the amount the participants would receive if they were to initiate permitted transactions under the terms of the Plan. The crediting interest rate for the investment contract is reset annually by the issuer based on market performance and cannot be less than zero.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The separate account guaranteed investment contract does not permit the issuer to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the Plan for the fully benefit-responsive investment contract for the year ended December 31 are:

	2013	**2012**
Average yields:		
Based on actual earnings	**4.00%**	4.00%
Based on interest rate credited to participants	**4.00**	4.00

6. Income Tax Status

The Plan has received a determination letter from the IRS dated June 27, 2014, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator has indicated that it will take the necessary steps, if any, to maintain the tax qualified status of the Plan.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Subsequent Events

As of August 18, 2014, Autoliv completed the transition to a new 401(k) administrator, JPMorgan Retirement Plan Services.

Management has evaluated subsequent events that have occurred through October 15, 2014, the date the financial statements were available to be issued.

9. Related-Party Transactions

The Plan holds units of common and collective trust funds issued and/or managed by the affiliates of Northern Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.
