General — Effective January 1, 2012, B/E Aerospace, Inc. (the "Company") adopted the B/E Aerospace, Inc. Savings Plan (formerly the B/E Aerospace Savings and Profit Sharing Plan), as amended and restated. The Plan is a defined-contribution retirement plan designed to qualify under Internal Revenue Code (the "IRC") Sections 401(a) and 501(a), Section 401(k) for the cash or deferred arrangement part of the Plan and Title 1 of Employee Retirement Income Security Act of 1974 ("ERISA"). Wilmington Trust acts as the trustee ("the Trustee") for the Plan. Among other duties, the Trustee disburses the Plan's assets as directed by the Company and participants, receives contributions, and invests and reinvests the assets of the Plan as directed by the participants. Retirement Strategies Incorporated acts as the record keeper for the Plan.

During 2013, 2012 and 2011, the Company acquired several companies. Management of each acquired company resolved to terminate each respective 401(k) sponsored plan effective on or around the date of acquisition. Management of each plan intends to distribute plan assets to participants as soon as administratively feasible, subject to the provisions of ERISA. Employees retained by the Company became eligible to participate in the Plan effective immediately after their respective plans' terminations.

On November 2, 2011, the Company acquired Macrolink, Inc. ("Macrolink"). Macrolink plan assets of \$4,753 were transferred into the Plan on March 1, 2012. On January 30, 2012, the Company acquired UFC Aerospace Corp. ("UFC"). The former UFC employees entered the Plan and became participants effective May 1, 2012. UFC plan assets of \$4,503 were transferred to the Plan on September 5, 2012. On July 26, 2012, the Company acquired Interturbine. The former Interturbine employees entered the Plan and became participants effective August 1, 2013. Interturbine plan assets of \$304 were transferred into the Plan on August 1, 2013. During 2013, the Company acquired Blue Dot Energy Services, LLC ("Blue Dot") and Bulldog Frac Rentals LLC ("Bulldog"). The former Blue Dot and Bulldog employees entered the Plan and became participants effective September 1, 2013 and January 1, 2014, respectively. No assets were transferred to the Plan from the 2013 acquisitions.

Contributions — Under the Plan, contributions are made on behalf of employees (participants) who choose to defer a portion of their total gross pay as defined. The maximum contribution rate for non-highly compensated participants is 100% of their gross pay. Participants could make pretax contributions of up to \$17.5 for the year ended December 31, 2013. The Plan also allows all employees who are projected to attain age 50 before the close of the Plan year to make catch-up contributions each year, which were limited to \$5.5 for the year ended December 31, 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The annual compensation limit under Code § 401(a)(17) is \$255 for 2013.

The Plan provides for employer-matching contributions of the participant's contributions to be determined by the Company's management. Effective January 1, 2006, all Company matching contributions are made in cash. Prior to January 1, 2006, all Company matching contributions were made in the form of the Company's common stock. The matching contribution for the year ended December 31, 2013 equals the sum of 100% of a participant's elective contributions up to 3% of compensation plus 50% of the next 2% of a participant's elective contributions, not to exceed 4% in total.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and allocations of employer contributions and Plan earnings, and charged with benefit payments and allocations of administrative expenses and Plan losses, if any. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may change their investment selections over the voice response system or Internet website.

Investments — Participants direct the investment of their contributions and/or account balances into various investment options offered by the Plan. Upon enrollment in the Plan, a participant may direct employee contributions into any of fifteen common collective trust funds ("CCT"), which are described as follows based on information contained in the respective portfolio disclosure documents: *Guaranteed Investment Contract ("GIC") Portfolio, Short Duration Portfolio, Strategic Bond Portfolio, S&P 500 Index Portfolio, International Growth Portfolio, Intermediate Fixed Income Portfolio, Large Company Domestic Growth Portfolio, Large Company Value Portfolio, Mid-Cap Fundamental Value Portfolio, Mid-Cap Growth Portfolio, Small Company Growth Portfolio, Small Company Value Portfolio, Overseas Equity Portfolio, U.S. Allocation Portfolio and Multi Asset Portfolio*. Employer contributions are made in cash and invested in the same manner as the participant's elections.

Vesting — Participants are immediately vested in their contributions plus actual earnings thereon. Participants are immediately vested in the Company matching contributions plus actual earnings thereon.

Notes Receivable from Participants — Participants may borrow from their accounts a minimum of \$1 up to a maximum of 50% of their vested account balances or \$50, subject to certain requirements as defined in the Plan document. Loans are secured by an assignment of the participant's vested interest in the Plan and bear interest at a rate commensurate with local prevailing rates at the time funds are borrowed. Principal and interest are paid ratably through payroll deductions. Loan terms shall not exceed five years, unless the loan is to be used in conjunction with the purchase of the principal residence of the participant. Participants may not have more than two loans outstanding at any time. As of December 31, 2013, participant loans have maturities through 2023 with interest rates ranging from 4.25% to 9.25%.

Payment of Benefits — Upon termination of service, a participant may generally elect to receive either a lump-sum amount or installments equal to the value of the participant's vested interest in his or her account. If the value of the participant's account is \$1 or less, the Plan will immediately distribute the entire amount of the participant's account.

Participants are also eligible to make hardship withdrawals from their deferred contributions in the event of certain financial hardships. Following a hardship withdrawal, participants are not allowed to contribute to the Plan for a period of six months.

Forfeited Accounts — When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account as defined by the Plan, represents a forfeiture. The Plan document permits the use of forfeitures to reduce future employer contributions, pay Plan administrative expenses,

or be allocated to remaining participants. At December 31, 2013 and 2012, forfeited accounts totaled \$77 and \$0, respectively. During the year ended December 31, 2013, employer contributions were not reduced from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes CCTs and common stock. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the value of the participant’s account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan’s investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company’s common stock is valued at the closing price reported on the New York Stock Exchange on the last business day of the Plan year. The Plan’s investments consist of CCTs in the Wilmington Trust Fiduciary Services Company Collective Investment Trust for Employee Benefit Plans (the “Trust”). Investments in CCTs are valued based upon the redemption price of the units held by the Plan, which is based on the current fair value of the underlying assets held by the CCT. Unit values are determined by the financial institution sponsoring such CCTs by dividing the funds’ net assets at fair value by its units outstanding at the valuation dates. The net asset value as provided by the trustee, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The GIC Portfolio (the “stable value fund”) is one of the portfolios of the Trust. The stable value fund was created in November 2000 with the objective to generate a total return in excess of the benchmark (the one year U.S. Treasury Bill) by investing in a pool of fixed income securities, primarily insurance and bank investment contracts for the purpose of offering stability of principal, while maximizing current income and providing book value liquidity for individual plan participant withdrawals. The stable value fund is stated at fair value and then adjusted to contract value as described below. Fair value of the stable fund is the net asset value of its underlying investments, and contract value is principal plus accrued interest. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus credited earnings, less participant withdrawals.

In accordance with GAAP, the stable value fund is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the CCTs are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Administrative Expenses — Certain administrative expenses of the Plan are paid by the Plan, as provided in the Plan document.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid, were \$96 and \$58 at December 31, 2013 and 2012, respectively.

Excess Contributions Payable — The Plan is required to return contributions received during the Plan year in excess of the IRC limits. No participant exceeded the deferral limit during 2013 and 2012.

Subsequent Events — Subsequent events were evaluated through October 15, 2014, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

ASC 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques — Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Investments in CCTs are valued based upon the redemption price of the units held by the Plan, which is based on the current fair value of the underlying assets held by the CCT. Unit values are determined by the financial institution sponsoring such CCTs by dividing the funds' net assets at fair value by its units outstanding at the valuation dates. The stable value fund is stated at fair value and then adjusted to contract value as described in Note 2. Fair value of the stable fund is the net asset value of its underlying investments, and contract value is principal plus accrued interest. There are no significant redemption restrictions nor unfunded commitments related to any of the CCTs. Investments can be redeemed daily without notice at the current net asset value per share based on the fair value of the underlying assets. The Company's stock is valued at its quoted market price.

The following table sets forth by major category and level, within the fair value hierarchy, the Plan's investments measured at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Level 4

	<u>\$ 23,954</u>	<u>\$ 220,706</u>	<u>\$ -</u>	<u>\$ 244,660</u>

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended, December 31, 2013, there were no transfers between levels.

8. GIC PORTFOLIO (STABLE VALUE FUND)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of CCTs managed by Wilmington Trust. Wilmington Trust is the trustee as defined by the Plan and these transactions qualify as exempt party-in-interest. Fees paid by the Plan for investment management services were included as a reduction of the return on each fund. The Plan issues loans to participants, which are secured by the vested balances in the participants' accounts. Expenses of \$887 were paid by the Plan to the Trustee for the year ended December 31, 2013.

At December 31, 2013 and 2012, the Plan held 408 and 481 shares, respectively, of common stock of the Company, the sponsoring employer, with a cost basis of \$1,964 and \$2,279, respectively.

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

11. FEDERAL INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 26, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Company and Plan administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan and the related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With very few exceptions, none that are readily foreseeable, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2010.

12. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

13. SUBSEQUENT EVENTS

During 2013, the Company acquired Bulldog. The former Bulldog employees entered the Plan and became participants effective January 1, 2014. In April 2014, the Company acquired the Vision Oil Tools, LLC group of companies ("Vision"). The Company also completed two additional acquisitions during the first quarter of 2014 in Energy Services. In June 2014, the Company acquired EMTEQ, Inc., the F+E Fischer + Entwicklungen GmbH & Co.
