NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE A - DESCRIPTION OF PLAN

The following description of the Retirement Savings Plan of Winston-Salem Transit Authority, (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Winston-Salem Transit Authority (the "Company") who have 75 days of service (hourly employees), or six months of service (salaried employees). Wells Fargo Bank, N.A. ("Wells Fargo") is the trustee of the Plan (the "trustee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may elect to contribute from 2% to 75% of eligible compensation, as defined in the Plan document, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts distributed from other qualified plans. The Company contributes 50% of the first 10% of the base compensation that a participant contributes to the Plan. The Company also contributes an additional contribution ("Basic") of 2% of the participant's compensation as a profit-sharing contribution. Contributions are subject to certain limitations.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common collective trust funds, a money market fund and an AdviceTrack option as investment options for participants.

AdviceTrack is an investment program offered by the trustee. It offers professionally managed investments designed on an individual basis. This program invests in mutual fund and common collective trust fund options, not otherwise offered by the Plan. Asset-based program fees for program expenses are charged to participant accounts managed under AdviceTrack. Fees are accrued on a daily basis. Unit values are shown net of program fees and expenses.

Participant Accounts

Each participant's account is credited with the participant's contribution, and allocations of the Company's contributions and Plan earnings (losses), and charged with benefit payments and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE A - DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. At December 31, 2013, outstanding loans bore an interest rate of 4.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, or due to other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or annual installments over a term certain not to exceed the life expectancy of the participant and the designated beneficiary as provided by the Plan.

Forfeitures

At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$2,533 and \$1,687, respectively. These accounts will be used to reduce Company contributions. During 2013, forfeitures of \$3,632 were used to offset Company contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Those relating to specific elections of participants are paid from the individual's account. Certain administrative functions are performed by the employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2014, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS

The following investments at fair value represent 5% or more of the Plan's net assets at December 31:

	<u>2013</u>	<u>2012</u>
Van Kampen Equity and Income Fund	\$ 3,386,613	\$ 2,795,731
Wells Fargo Advantage Money Market Fund	1,306,836	1,011,696

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE C - INVESTMENTS (Continued)

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	\$ 725,689
Common collective trust funds	<u>5</u>
	<u>\$ 725,694</u>

NOTE D - FAIR VALUE MEASUREMENTS

Fair value as defined under GAAP is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities, and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include mutual funds and a money market fund.

Level 2 investment securities include AdviceTrack mutual fund investments and common collective trust funds for which quoted prices are not available in active markets for identical instruments. The Plan utilizes the net asset value per share provided by the trustee at the fair value of each of these investment securities. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics.

^(a) The objective of these investments is capital appreciation, with secondary emphasis on current income. While investments will be primarily in domestic stocks, modest allocation to foreign securities is permitted. Investment in fixed-income and cash-equivalent securities is also permissible, though the portfolios should be at least 75% invested in stocks. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

^(b) The objective of these investments is long-term growth of capital. The funds normally invest at least 80% of net assets in securities of issuers from countries outside of the United States. They normally invest in securities of issuers from several different countries, excluding the United States. The funds may have significant exposure to emerging markets. They may also invest in U.S. and foreign debt securities. The funds may invest their assets in derivatives, which are instruments that have a value derived from or directly linked to an underlying asset. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

^(c) The objective of these investments is to provide fixed-income returns representative of the intermediate-term bond market, and a relatively high level of credit risk protection. Capital appreciation is a secondary objective. Moderate volatility may be experienced, though the duration/average maturity structure of intermediate-term options will generally be three to six years. The duration/average maturity structure of short-term options will generally be less than three years. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

^(d) The objective of this investment is to maintain safety of principal while obtaining a consistent, low-volatility return superior to other high quality alternatives over a full interest rate cycle.

The Plan recognizes transfers between the levels as of the beginning of the reporting period. There were no significant transfers for the years ended December 31, 2013 and 2012.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE E - UNAUDITED INVESTMENT INFORMATION CERTIFIED BY TRUSTEE

The accompanying financial statements include the following unaudited information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	<u>2013</u>	<u>2012</u>
Investments, at fair value	<u>\$ 5,107,468</u>	<u>\$ 4,161,260</u>
Notes receivable from participants	<u>\$ 701,646</u>	<u>\$ 811,104</u>
Interest and dividends	<u>\$ 86,054</u>	
Net appreciation in fair value of investments	<u>\$ 725,694</u>	
Interest income from notes receivable from participants	<u>\$ 31,774</u>	

The certification mentioned above includes all investment information discussed in Notes C and D.

NOTE F - EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and trustee services amounted to \$36,385 for the year ended December 31, 2013.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE H - TAX STATUS

The Internal Revenue Service (the "IRS") has determined and informed the Company by a letter dated December 26, 2012, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has not been amended since receiving the determination letter. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

RETIREMENT SAVINGS PLAN OF WINSTON-SALEM TRANSIT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE H - TAX STATUS (Continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE J - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	<u>2013</u>	<u>2012</u>
Net assets available for benefits per the financial statements	\$ 5,932,559	\$ 5,113,598
Participant loans in default for active employees	<u>(75,985)</u>	<u>(38,360)</u>
Net assets available for benefits per Schedule H of Form 5500	<u>\$ 5,856,574</u>	<u>\$ 5,075,238</u>

The following is a reconciliation of net increase per the financial statements to net income per the Form 5500 at December 31, 2013:

Net increase per the financial statements	\$ 818,961
Increase in participant loans in default for active employees	<u>(37,625)</u>
Net income per the Form 5500	<u>\$ 781,336</u>

The items above are due to differences in the requirements for handling defaulted loans for the Form 5500 and the financial statements.

NOTE K - NONEXEMPT PARTY-IN-INTEREST TRANSACTIONS

During the 2012 Plan year, there were unintentional delays by the Company in submitting participant contributions and loan repayments in the amount of \$22,425 to the trustee. These delinquent participant contributions were credited to participant accounts during 2012, and constitute prohibited transactions. Lost earnings were credited to participant accounts in November 2013.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE A - DESCRIPTION OF PLAN

The following description of the Retirement Savings Plan of Winston-Salem Transit Authority, (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Winston-Salem Transit Authority (the "Company") who have 75 days of service (hourly employees), or six months of service (salaried employees). Wells Fargo Bank, N.A. ("Wells Fargo") is the trustee of the Plan (the "trustee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may elect to contribute from 2% to 75% of eligible compensation, as defined in the Plan document, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts distributed from other qualified plans. The Company contributes 50% of the first 10% of the base compensation that a participant contributes to the Plan. The Company also contributes an additional contribution ("Basic") of 2% of the participant's compensation as a profit-sharing contribution. Contributions are subject to certain limitations.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common collective trust funds, a money market fund and an AdviceTrack option as investment options for participants.

AdviceTrack is an investment program offered by the trustee. It offers professionally managed investments designed on an individual basis. This program invests in mutual fund and common collective trust fund options, not otherwise offered by the Plan. Asset-based program fees for program expenses are charged to participant accounts managed under AdviceTrack. Fees are accrued on a daily basis. Unit values are shown net of program fees and expenses.

Participant Accounts

Each participant's account is credited with the participant's contribution, and allocations of the Company's contributions and Plan earnings (losses), and charged with benefit payments and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE A - DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. At December 31, 2013, outstanding loans bore an interest rate of 4.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, or due to other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or annual installments over a term certain not to exceed the life expectancy of the participant and the designated beneficiary as provided by the Plan.

Forfeitures

At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$2,533 and \$1,687, respectively. These accounts will be used to reduce Company contributions. During 2013, forfeitures of \$3,632 were used to offset Company contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

RETIREMENT SAVINGS PLAN OF WINSTON-SALEM TRANSIT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Those relating to specific elections of participants are paid from the individual's account. Certain administrative functions are performed by the employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2014, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS

The following investments at fair value represent 5% or more of the Plan's net assets at December 31:

	<u>2013</u>	<u>2012</u>
Van Kampen Equity and Income Fund	\$ 3,386,613	\$ 2,795,731
Wells Fargo Advantage Money Market Fund	1,306,836	1,011,696

RETIREMENT SAVINGS PLAN OF WINSTON-SALEM TRANSIT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE C - INVESTMENTS (Continued)

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	\$ 725,689
Common collective trust funds	<u>5</u>
	<u>\$ 725,694</u>

NOTE D - FAIR VALUE MEASUREMENTS

Fair value as defined under GAAP is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities, and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include mutual funds and a money market fund.

Level 2 investment securities include AdviceTrack mutual fund investments and common collective trust funds for which quoted prices are not available in active markets for identical instruments. The Plan utilizes the net asset value per share provided by the trustee at the fair value of each of these investment securities. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics.

^(a) The objective of these investments is capital appreciation, with secondary emphasis on current income. While investments will be primarily in domestic stocks, modest allocation to foreign securities is permitted. Investment in fixed-income and cash-equivalent securities is also permissible, though the portfolios should be at least 75% invested in stocks. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

^(b) The objective of these investments is long-term growth of capital. The funds normally invest at least 80% of net assets in securities of issuers from countries outside of the United States. They normally invest in securities of issuers from several different countries, excluding the United States. The funds may have significant exposure to emerging markets. They may also invest in U.S. and foreign debt securities. The funds may invest their assets in derivatives, which are instruments that have a value derived from or directly linked to an underlying asset. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

^(c) The objective of these investments is to provide fixed-income returns representative of the intermediate-term bond market, and a relatively high level of credit risk protection. Capital appreciation is a secondary objective. Moderate volatility may be experienced, though the duration/average maturity structure of intermediate-term options will generally be three to six years. The duration/average maturity structure of short-term options will generally be less than three years. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

^(d) The objective of this investment is to maintain safety of principal while obtaining a consistent, low-volatility return superior to other high quality alternatives over a full interest rate cycle.

The Plan recognizes transfers between the levels as of the beginning of the reporting period. There were no significant transfers for the years ended December 31, 2013 and 2012.

NOTE E - UNAUDITED INVESTMENT INFORMATION CERTIFIED BY TRUSTEE

The accompanying financial statements include the following unaudited information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	<u>2013</u>	<u>2012</u>
Investments, at fair value	<u>\$ 5,107,468</u>	<u>\$ 4,161,260</u>

Net appreciation in fair value of investments	<u>\$ 725,694</u>	
Interest income from notes receivable from participants	<u>\$ 31,774</u>	

The certification mentioned above includes all investment information discussed in Notes C and D.

NOTE F - EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and trustee services amounted to \$36,385 for the year ended December 31, 2013.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE H - TAX STATUS

The Internal Revenue Service (the "IRS") has determined and informed the Company by a letter dated December 26, 2012, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has not been amended since receiving the determination letter. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

RETIREMENT SAVINGS PLAN OF WINSTON-SALEM TRANSIT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE H - TAX STATUS (Continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE J - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	<u>2013</u>	<u>2012</u>
Net assets available for benefits per the financial statements	\$ 5,932,559	\$ 5,113,598
Participant loans in default for active employees	<u>(75,985)</u>	<u>(38,360)</u>
Net assets available for benefits per Schedule H of Form 5500	<u>\$ 5,856,574</u>	<u>\$ 5,075,238</u>

The following is a reconciliation of net increase per the financial statements to net income per the Form 5500 at December 31, 2013:

Net increase per the financial statements	\$ 818,961
Increase in participant loans in default for active employees	<u>(37,625)</u>
Net income per the Form 5500	<u>\$ 781,336</u>

The items above are due to differences in the requirements for handling defaulted loans for the Form 5500 and the financial statements.

NOTE K - NONEXEMPT PARTY-IN-INTEREST TRANSACTIONS

During the 2012 Plan year, there were unintentional delays by the Company in submitting participant contributions and loan repayments in the amount of \$22,425 to the trustee. These delinquent participant contributions were credited to participant accounts during 2012, and constitute prohibited transactions. Lost earnings were credited to participant accounts in November 2013.
