INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Madison County Community Hospital dba Madison County Hospital, Inc.
Employees' 401(k) Pension Plan
London, Ohio:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Madison County Community Hospital dba Madison County Hospital, Inc. Employees' 401(k) Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis of Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information in Notes 4 and 8, which was certified by TD Ameritrade Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year, which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - PLAN DESCRIPTION

The following description of the Madison County Community Hospital dba Madison County Hospital, Inc. Employees' 401(k) Pension Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Prior to 2013, this plan was a 403(b) plan and held only assets contributed by the Plan sponsor. A separate plan held employee contributions. Beginning in 2013, the plans were merged and both employee and Plan sponsor contributions are held in this plan.

General

The Plan is a defined contribution plan covering all full-time employees (except physicians) of the Madison County Community Hospital (the Hospital) who have one year of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100% of their pre-tax compensation allowable, not to exceed the limits imposed by the Internal Revenue Code (IRC). Participants who reach age 50 may elect to make catch-up contributions. Participants may make voluntary contributions to the Plan on an after tax basis. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan allows for automatic enrollment at a deferral rate of 4% of eligible compensation. Participants direct the investment of all contributions into various investment options offered by the Plan. Beginning in 2013, the Plan provides for safe harbor matching contributions equal to 100% of the first 4% and 50% of the next 2% of eligible compensation contributed to the plan.

An additional discretionary contribution may be made by the Employer each year in addition to the safe harbor matching contribution. To receive the additional discretionary contribution participants must have completed at least 1,000 hours of service during the Plan year and be employed on the last day of the Plan year in order to receive the allocation. There was no additional discretionary contribution made in 2013 or 2012.

Prior to 2013, the Hospital contributed 2% of employee's eligible compensation. In addition, for participants who contributed to the Hospital-sponsored tax-deferred annuity plan (403b), the Hospital made matching contributions to the Plan of 50% of each employee's salary deferral up to 6% of compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution, related Employer discretionary safe harbor matching contributions and an allocation of (a) the Hospital's additional discretionary contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - PLAN DESCRIPTION - CONTINUED

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Hospital's safe harbor match and discretionary contribution, plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of continuous service (0% until then).

Notes Receivable from Participants

Beginning in 2013, participants may borrow from their accounts in amounts equal to a maximum of the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at the prime rate effective when the loan is initiated. Repayment of the notes is under terms ranging from one to five years, or a reasonable period of time up to 15 years for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions. Prior to 2013, participants could not borrow from their accounts in the Plan.

Payment of Benefits

In accordance with the Plan, a participant may receive the full value of their accounts upon normal retirement (at age 65). Upon death of a participant, the participant's beneficiary shall be entitled to the full value of the participant's accounts. A participant may also elect to withdraw any or all of their vested account balance in the event of financial hardship or attainment of age 59 ½, subject to applicable IRC requirements. Distributions are made in lump-sum payments or substantially equal annual or more frequent installments over a period not to exceed the joint life expectancy of the Participant and his Beneficiary.

Forfeited Accounts

Forfeitures of terminated participants' non-vested accounts may be used to reduce subsequent Hospital contributions to the Plan or payment of Plan expenses. Forfeited non-vest accounts totaled \$4,893 and \$0 at December 31, 2013 and 2012, respectively.

Administrative Expenses

Administrative expenses may be paid by the Hospital or the Plan, at the Hospital's discretion.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

As described in Accounting Standards Codification ("ASC") Topic 962, "Defined Contribution Pension Plans", investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the ASC, the Statement of Net Assets Available for Benefits presents the fair value of the Plan's investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013. If a participant ceases to make loan repayments and the plan administration deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Subsequent Events

Subsequent events were evaluated through October 14, 2014, which is the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- ♦ Quoted prices for similar assets or liabilities in active markets;
- ♦ Quoted prices for identical or similar assets or liabilities in inactive markets;
- ♦ Inputs other than quoted prices that are observable for the asset or liability;
- ♦ Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 3 - FAIR VALUE MEASUREMENTS - CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Stable value fund: Valued based on the underlying investments which consist of collective trust funds and short-term investments whose value is derived by their respective net asset values (NAV).

Guaranteed investment contract: Valued at the fluctuating value of the separate account assets backing the contract and the wrap contract is valued based on the wrap contract feeds provided by the insurance company.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012:

NOTE 5 - INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

Prior to 2013, The Plan participated in a benefit-responsive investment contract (guaranteed investment contract) with Variable Life Insurance Company (VALIC). VALIC maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer was contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by VALIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 was \$1,881,190. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Beginning in 2013, The Plan participates in a benefit-responsive investment contract (stable value fund) managed by MetLife. Metlife maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Metlife is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable return fund. Contract value, as reported to the Plan by fund issuer, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the stable return fund at December 31, 2013 was \$1,821,350. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

NOTE 5 - INVESTMENT CONTRACTS WITH INSURANCE COMPANIES - CONTINUED

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The investment contracts do not permit the issuers to terminate the agreements prior to the scheduled maturity date.

Average yields:	<u>2013</u>	<u>2012</u>
Based on actual earnings	(1.36)%	2.44%
Based on interest rate credited to participants	2.45%	2.50%

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 - TAX STATUS

The Plan operates under a non-standardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by Schneider Downs & Co., Inc. The Internal Revenue Service has determined that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan administrator has received a certification from TD Ameritrade Trust Company, the trustee of the Plan's assets, as to the completeness and accuracy of the investments and related investment income. Such information includes the composition and current value of the investments reported in the statement of net assets available for benefits and the related investment income reported in the statement of changes in net assets available for benefits.

NOTE 9 - PARTY IN INTEREST TRANSACTIONS

Certain plan investments are shares of a money market fund managed by TD Ameritrade. TD Ameritrade is the trustee of the Plan assets and, therefore, these transactions qualify as party-in-interest transactions.

Notes receivable from plan participants and the related interest income are considered party-in-interest transactions

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
