Wick's Truck Trailers, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

1. Plan Description

The following brief description of the Wick's Truck Trailers, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established to provide retirement benefits for the employees of Wick's Truck Trailers, Inc. (the Company).

Employees are eligible to make salary reduction and receive Company discretionary matching and profit sharing contributions after attaining age 21 and completing one year of service. Eligible employees become participants on the earlier of the first day of the Plan year or the first day of the next Plan quarter coinciding on the date on which entry requirements were fulfilled. Participants, who terminated during the Plan year, are eligible to receive employer discretionary profit sharing contributions if they completed at least 500 hours of service during the Plan year.

Contributions

Each year, participants may make voluntary salary deferral contributions up to the maximum dollar limits allowable by law. Participants may also contribute amounts representing distributions from other qualified plans. Discretionary employer matching contributions are limited to \$3,000 up to 6% of eligible compensation. During 2013 and 2012, discretionary matching contributions were made in amounts equal to 50% of the participants' elective deferral up to 6% of eligible compensation. All participants who are eligible to make deferral contributions and who are projected to attain age 50 before the close of the calendar year shall be eligible to make catch-up contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of a) the Company's discretionary matching contributions b) the Company's discretionary profit sharing contributions and c) Plan earnings or losses. Company discretionary matching contributions are allocated among participants based upon each eligible participant's elected salary deferral. Company discretionary profit sharing contributions are allocated on the basis of the participants' eligible compensation. Plan earnings or losses are allocated on the basis of actual results of the investments selected by each participant. Investments are maintained in individual member accounts managed by Nationwide Trust Company, FSB (Nationwide).

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Company contributions credited to participants' accounts are vested based on years of continuous service. A participant is 100% vested after three years of credited service.

Wick's Truck Trailers, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

Payment of Benefits

Upon termination, retirement, disability, or death, the participant or beneficiary may receive a lump sum payment equal to the value of the vested funds allocated to the participant's account. In the event the participant does not make an election, distribution payments between \$1,000 and \$5,000 will be directly rolled over to an individual retirement account designated by the plan administrator and distributions under \$1,000 will be paid out to the participant. Benefits are recorded when paid.

Forfeitures

Upon a participant's termination of employment before normal retirement, disability, or death, the portion of their Company contributions not then vested shall be forfeited. The forfeited portion of any participant's account may be used to pay administrative expenses or to reduce the Company's discretionary contributions. As of December 31, 2013 and 2012, there were no forfeited non-vested accounts. During 2013 and 2012, \$1,146 and \$2,819 of forfeited amounts were used to reduce Company discretionary contributions.

2. Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements is set forth below.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis and in conformity with accounting principles generally accepted in the United States of America.

Presentation of Participant-Directed Funds

The Plan's presentation of participant-directed investments is in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962, *Plan Accounting – Defined Contribution Pension Plans*.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Wick's Truck Trailers, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

Purchases and sales of investments are recorded on a trade-date basis.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Other

Investment management and certain administrative expenses are paid by the Plan and included in net appreciation (depreciation) in fair value of investments in the accompanying statements of changes in net assets as certified by Nationwide. Audit fees and certain administrative expense are paid by the Company.

Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. Management has considered such events or transactions through June 2, 2014, noting no items requiring disclosure.

3. Information Certified by Nationwide

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Nationwide, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

Money Market Fund	(1,496)	(1,445)
Net Appreciation in Fair Value of Investments	<u>\$ 769,516</u>	<u>\$ 340,431</u>

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;

Wick's Truck Trailers, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual and Money Market Funds: The Plan uses unit values to perform fair value determinations. The unit value is the Plan's method for valuing accounts and is not the same as the net asset value reported by the funds---although the financial trend should be the same. After the close of the stock market, the Plan receives a daily price from each fund. This figure includes the net asset value and any dividends and capital gains declared. This allows the Plan to calculate a gross investment rate which is used to compute the unit value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Tax Status

The Plan is qualified as a profit sharing plan under Section 401(a) of the Internal Revenue Code and is exempt from federal income taxation under Section 501(a) of the Internal Revenue Code.

The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested. Distribution to participants of the account balances would be made as soon as practicable after the termination date.
