Vitalize Consulting Solutions, Inc. 401(k) Plan

Notes to Financial Statements

- 1. Description of the Plan** The following description of **Vitalize Consulting Solutions, Inc. 401(k) Plan** (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.
- General* The Plan is a defined contribution plan covering all eligible employees of **Vitalize Consulting Solutions, Inc.** (the “Company”, “Plan Administrator”). On August 5, 2011 (“acquisition date”) the Company was acquired by Leidos, Inc., formerly known as Science Applications International Corporation (“SAIC”). As a prerequisite of this acquisition, the Plan was terminated on August 4, 2011 (“Termination Date”).
- Plan termination* In connection with the termination of the Plan on August 4, 2011, no new participants were admitted to the Plan and no additional contributions were made to the Plan for service performed by participants after the Termination Date.
- On August 20, 2012 the Company received a favorable determination letter from the Internal Revenue Service (“IRS”) with respect to the Plan’s qualified status as of the Termination Date.
- All participant account balances became 100% vested as of the Termination Date and were not subject to forfeiture. All participant accounts were fully liquidated and distributed by May 13, 2013. As such, the Company has determined that May 13, 2013 is the final reporting date for the Plan, since there were no participant assets remaining in the Plan as of this date.
- Participant accounts* Each participant’s account is credited with an allocation of investment earnings. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.
- Notes receivable from participants* Participants may borrow from their fund account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 less the highest outstanding loan balance in the previous 12 months or 50% of their vested account balance. Loan terms may not exceed five years, unless used for the purchase of a primary residence, in which case the term may be up to 15 years. The loans are collateralized by the balance in the participant’s

Vitalize Consulting Solutions, Inc.

401(k) Plan

Notes to Financial Statements

Notes receivable from participants, cont'd account and bear interest at the prime rate of interest charged by the plan sponsor's primary bank as of the date of the loan. Principal and interest is paid ratably through payroll deductions. No new loans were available following the Plan termination.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Interest on notes receivable from participants is accrued and paid every pay period.

Payment of benefits Benefits from the participant's vested account are normally payable to the Plan participants upon retirement, disability, death, or other termination. All payments are made pursuant to the terms expressed in the Plan Document. The only form of payment under the Plan is a lump sum distribution. Upon final liquidation of the Plan assets, participants could elect to receive a lump sum distribution either paid directly or made as a direct rollover to an IRA or other qualified plan. Benefits are recorded when paid.

Forfeitures Prior to the Termination Date, the Plan provided that forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. All active participants became 100% vested as of the Termination Date and were not subject to forfeiture. There were no forfeited non-vested amounts as of May 13, 2013 and December 31, 2012.

2. Summary of Significant Accounting Policies This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America ("GAAP") and have been consistently applied in the preparation of the financial statements.

Basis of accounting As a result of the Plan's termination, the basis of accounting used to present Plan assets is on a liquidation basis, in conformity with GAAP.

Use of estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported

estimates,
cont'd*

amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of the Plan's changes in net assets in liquidation available for benefits during the reporting period. Actual results could differ from those estimates.

*Cash and cash
equivalents*

The Plan considers all highly liquid debt instruments with an initial maturity date of three months or less to be cash equivalents. Cash and cash equivalents excludes temporary cash held in participant accounts.

*Investments
and related
transactions*

Investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the period.

*Administrative
expenses*

Except for the Custodian fees, the Plan's administrative costs and expenses are generally paid by the Company.

**3. Fair Value
Measurements**

Accounting guidance has been issued that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable to the fair value measurement of assets or liabilities and are used to the extent that observable inputs are not available.

3. Fair Value Measurements, Cont'd

The availability of observable market data is monitored to assess the appropriate classifications of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Pooled separate accounts are valued based on the quoted price for the underlying marketable securities. The Plan has a stable value fund which invests in a trust whose investment strategy is to preserve principal and provide liquidity. The trust invests in mutual funds and bond accounts maintained by the trustee. The trust uses stabilization agreements to offset price fluctuations. The stable fund is valued based on this quoted market price for the underlying securities. The contract value of the stable value fund approximated fair value. The average yield on the stable value fund was 0.43% and 1.89% during the 2013 and 2012 periods, respectively. The trust reserves the right to delay withdrawals for up to thirty days if the withdrawal could have an adverse effect on the trust. There have been no changes in the valuation methodologies used at May 13, 2013 and December 31, 2012.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

At May 13, 2013 and December 31, 2012, the Plan's investments were categorized as follows in the fair value hierarchy as Level 2:

	May 13, 2013	December 31, 2012
Aggressive Stock Funds	\$ -	\$ 1,598,297
Balanced Funds	-	3,884,089
Bond Funds	-	892,619
Growth and Income Stock Funds	-	2,675,095
Growth Stock Funds	-	2,325,010
Stable Value Fund	-	422,090
Total	\$ -	\$ 11,797,200

5. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets in liquidation available for benefits.

6. Parties-In- Interest Transactions

Certain Plan assets are invested in Custodian accounts. These transactions qualify as party-in-interest transactions.
