INDUSTRIAL DISTRIBUTION GROUP, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. PLAN DESCRIPTION

The following description of the Industrial Distribution Group, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan covers substantially all full-time employees of Industrial Distribution Group, Inc. (the "Company") who meet certain service requirements stipulated by the Plan document.

Contributions - Eligible participants may contribute a portion of their annual compensation on a pre-tax basis up to an Internal Revenue Service ("IRS") maximum of \$17,500 and \$17,000 for 2013 and 2012, respectively, subject to certain discrimination tests prescribed by the Internal Revenue Code ("IRC"). Participants age 50 and over may elect to defer additional "catch-up" contributions to the Plan. These "catch-up" contributions were capped at \$5,500 for both 2013 and 2012. The Company may make discretionary matching contributions of 33⅓% on the first 6% of employee compensation deferred for Plan participants who have been employees for at least thirty days. For both of the years ended December 31, 2013 and 2012, the Company made matching contributions per the plan document.

A discretionary profit sharing contribution may be made at the option of the Company's board of directors. There were no such contributions for the years ended December 31, 2013 and 2012.

Participant Accounts - Each participant's account is credited with the participant's contributions, allocations of the Company's contributions and Plan gains or losses. Allocations of earnings and losses for each fund are based on the ratio of weighted average participant account balances to the total weighted average of all participant account balances. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's accounts.

Investment Options - Upon enrollment in the Plan, a participant directs the investment of his or her contributions and Company contributions into various investment options offered by the Plan.

Vesting - Participants are immediately vested in their voluntary contributions in addition to actual earnings thereon. Vesting in Company matching and discretionary profit sharing contributions is based on years of service. Prior to normal retirement age, a participant's interest in the contributions of the Company vest 40% after two years of service, 60% after three years of service, 80% after four years of service and 100% after five years of service.

Notes Receivable From Participants - The Plan permits participants to borrow a minimum of \$1,000 up to 50% of their vested account balance not to exceed \$50,000. Only one outstanding loan per participant is allowed. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Benefit Payments - Distributions from the Plan may be made upon proper application by a participant for retirement, proven financial hardship, death (in which case the payment is made to the beneficiary), or employment termination, as specified in the Plan agreement.

Forfeitures - Benefit payments to terminated employees partially vested in the Plan include their vested portion of Company contributions. The nonvested portion of terminated participants' account balances is used to reduce future Company contributions or pay Plan expenses, as determined by the Company at its sole discretion. For the years ended December 31, 2013 and 2012, forfeitures of approximately \$39,000 and \$30,000, respectively, were used to reduce Company contributions. As of December 31, 2013 and 2012, approximately \$7,000 and \$3,000, respectively, of forfeitures had not yet been applied to future Company contributions or Plan expenses.

Participant Investment Rollovers - Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Accounting Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The guaranteed interest fund has no stated maturity. Interest crediting rates are declared in advance of each contract's specified guaranteed period and crediting rates are guaranteed for the guarantee period. Interest rates are credited on a daily basis and are applied daily to the total outstanding balance of the fund. Accordingly, the contract value is also the fair market value.

Contributions - Contributions from employees are recorded as they are withheld from the participant's wages. Matching contributions from the Company are recorded in the period in which the related participant contributions are due.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefits Payments - Benefits are recorded when paid.

Subsequent Events - In preparing its financial statements, the Company has evaluated subsequent events through July 17, 2014, which is the date the financial statements were available to be issued.

3. INVESTMENTS (UNAUDITED)

The Plan's investment assets were held in trust and administered by Prudential Retirement Insurance & Annuity Company and Prudential Bank & Trust, F.S.B. (collectively the "Trustee"). All investment information disclosed in the accompanying financial statements and supplemental schedule was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

The fair value of investments that individually represented 5% or more of the Plan's net assets available for benefits as of December 31, 2013 and 2012 were as follows:

	<u>2013</u>	<u>2012</u>
Guaranteed Income Fund	\$ 13,017,683	\$ 12,627,466
Balanced I/Wellington Management	\$ 4,994,449	\$ 4,450,036

Small Cap Growth/Times Square	\$ 2,526,263	\$ *
Large Cap Growth/Sub-Adv By Well	\$ *	\$ 3,141,681

* - Does not represent 5% for respective year

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the period) appreciated as follows as of December 31, 2013 and 2012:

	<u>2013</u>	<u>2012</u>
Pooled separate accounts	\$ 4,306,473	\$ 2,477,152
Stable value	251,539	275,967
Mutual funds	<u>2,591,445</u>	<u>997,853</u>
Total investment income	<u>\$ 7,149,457</u>	<u>\$ 3,750,972</u>

4. FAIR VALUE MEASUREMENTS

Generally accepted accounting principles, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ACS 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <p>Quoted prices for similar assets or liabilities in active markets;</p> <p>Quoted prices for identical or similar assets or liabilities in inactive markets;</p> <p>Inputs other than quoted prices that are observable for the asset or liability;</p> <p>Inputs that are derived principally from or corroborated by observable market data by correlation or other means.</p> <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts and Mutual Fund: Valued at the net asset value (NAV) of units held by the plan at year end as determined by the fund's vendor or pricing agent. There are no unfunded commitments as of December 31, 2013 and 2012.

Stable Value Fund: Valued at fair value of the underlying investments, considering the credit worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

5. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are managed by Prudential Retirement Insurance & Annuity Company and Prudential Bank & Trust, F.S.B. (collectively "Prudential"). Prudential is the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Certain administrative fees related to the administration of the Plan were paid by the Plan. Certain other third party administrator fees were paid by the Company on behalf of the Plan. These transactions qualify as party-in-interest transactions.

6. TAX STATUS

The IRS has determined and informed the Company by a letter dated May 23, 2002, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Generally accepted accounting principles in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for the years prior to 2010.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2013 and 2012:
