PSS WORLD MEDICAL, INC. SAVINGS PLAN

Notes to Financial Statements

1. Description of the Plan:

The following description of the PSS World Medical, Inc. Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan Merger

The Plan was merged effective April 30, 2014 with the McKesson Corporation Profit Sharing Investment Plan. All Plan assets were transferred out of the Plan as of June 6, 2014.

General

The Plan is a defined contribution retirement plan covering substantially all employees of PSS World Medical, Inc. and its subsidiaries (the "Company" or "employer"). The Plan was created under the provisions of Section 401(a) of the Internal Revenue Code (the "IRC") and includes a qualified deferred arrangement, as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan also has the features of an employee stock ownership plan ("ESOP"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, ("ERISA"), as amended.

On February 22, 2013, the McKesson Corporation completed an acquisition of the Company.

For the Plan year ended March 31, 2014, the Plan was amended to no longer accept contributions to the Plan after December 31, 2013, to vest employer contributions and employer matching contributions for active participants on or after February 22, 2013, and provided for participants to make certain representations to the Plan administrator before making a hardship withdrawal.

Eligibility

Any employee of the Company is eligible to participate in the Plan upon completing 30 days of service. Plan entry dates are the first day of each month within the Plan year.

Contributions

The Plan was funded through voluntary employee salary deferrals and employer contributions. Effective December 31, 2013, the Plan was amended to no longer accept contributions. During the period April 1, through June 6, 2014 no employee contributions were made to the Plan. The employer made a discretionary employer contribution to the Plan in the amount of \$396,135, which represented the excess funds in the Plan's ERISA budget account with the trustee.

Vesting

The Plan was amended, effective February 22, 2013, whereby, all active participants on or after February 22, 2013 are fully vested in all employer contributions.

1. Description of the Plan (Continued):

Forfeited Accounts

Nonvested portions of the Company's matching contributions are forfeited as of a participant's termination date and are used to reduce future Company matching contributions. Forfeitures allocated to participants were \$44,345 for the period April 1, 2014 through June 6, 2014. Forfeitures transferred to another plan were \$4,625 for the period April 1, 2014 through June 6, 2014. As of June 6, 2014 and March 31, 2014, forfeited, nonvested accounts of \$0 and \$33,293, respectively, were reflected in the accompanying Statements of Net Assets Available for Benefits.

Benefits Paid to Participants

Upon retirement, death, disability, or other severance of employment, a participant or his/her beneficiary may elect to receive an amount equal to the value of the participant's vested interest in the participant's account. Balances in participant accounts are paid in a single lump sum.

Participant Loans

The Plan does not permit participant loans.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution, and an allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

2. Summary of Significant Accounting Policies:

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Income and Expense Recognition

Interest income is recorded as earned on the accrual basis of accounting. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments is allocated on a daily basis to participant accounts. Purchases and sales of investments are recorded on a trade date basis.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments, allocated to the individual accounts.

2. Summary of Significant Accounting Policies (Continued):

Investment Valuation

Investments in mutual funds and bond funds are stated at fair value, which are based on published market quotations on national exchanges.

Investments in the accompanying *Statements of Net Assets Available for Benefits* include investments in a common collective trust, the Wells Fargo Stable Return Fund which include fully benefit-responsive investment contracts. Investment in the common collective trust is stated at the fair value based on the underlying unit values reported using the financial statements of the collective trust and changes in such amounts through the Plan's year end. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Accordingly, the *Statement of Net Assets Available for Benefits* presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The *Statement of Changes in Net Assets Available for Benefits* is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses reflected in the *Statement of Changes in Net Assets Available for Benefits* of \$3,575 represent distribution fees paid by participants. All other Plan administrative expenses were paid by the Company for the period April 1, through June 6, 2014.

3. Fair Value Measurements:

Assets and liabilities recorded at fair value are measured using a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Inputs using unadjusted quoted prices for identical assets or liabilities in an active market that the Company has the ability to access.

Level 2: Inputs other than quoted prices in markets that are observable for the asset or liability, either directly or indirectly.

Level 3: Inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methods used for assets measured at fair value.

Mutual funds: The fair values of these securities are based on observable market quotations for identical assets and are priced on a daily basis at the close of business.

PSS WORLD MEDICAL, INC. SAVINGS PLAN
Notes to Financial Statements

3. Fair Value Measurements (Continued):

Common collective trust: The fair value of the common collective trust is determined by the fund trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement. As of March 31, 2014, the fair value of the Plan's financial assets were measured using Level 1 or Level 2 inputs. The following table presents the Plan's assets, by major category, measured at fair value on a recurring basis as of March 31, 2014.

<i>March 31, 2014</i>	Level 1	Level 2	Total
Common collective trust	\$ -	\$ 24,956,811	\$ 24,956,811
Mutual funds:

Total	<u>\$ 180,353,735</u>	<u>\$ 24,956,811</u>	<u>\$ 205,310,546</u>

During the Plan period April 1, through June 6, 2014, there were no transfers in or out of Levels 1 or 2.
