NOTE 1. DESCRIPTION OF PLAN

The following description of the Big Creek Lumber Company Profit Sharing and Employee Savings Plan (the "Plan") provides only general information. A Plan description is available from the Plan's sponsor, which outlines all of the significant Plan provisions. Interested parties should refer to the Plan agreement for more complete information.

General – The Plan is a defined contribution 401(k) profit sharing plan covering all full-time employees of the Big Creek Lumber Company (the "Company") who are not covered by a union pension plan, and have completed six months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

State Street Bank and Trust Company has been designated as trustee of the Plan. Transamerica Retirement Services is the third party Plan Administrator.

Contributions – Employees are automatically enrolled in the plan upon attaining eligibility status, at an initial deferral rate of 4% of compensation with an annual automatic escalation of 2%, unless they elect otherwise. A participant's total contributions or deferrals in any taxable year may not exceed the dollar limitation specified by Internal Revenue Regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer profit sharing contributions and matching contributions are discretionary and are determined each year by the Company's Board of Directors. To be eligible for these employer contributions, the participant must be employed on the last day of the plan year and have worked a minimum of 1,000 hours. For the years ended March 31, 2014 and 2013, the Company made a matching contribution of 10% of employee deferrals, in the amounts of $50,453 and $41,590, respectively. The Company also made discretionary profit sharing contributions of $224,547 and $108,410, respectively, for total employer contributions of $275,000 and $150,000 for the years ending March 31, 2014 and 2013.

NOTE 1. **DESCRIPTION OF PLAN (Continued)**

Participant Accounts – Each participant's account is credited or debited with (1) the participant's contribution by payroll deduction, (2) a discretionary employer matching contribution equal to a percentage of the participant's contributions, (3) an allocation of the Company's discretionary profit sharing contributions based on earnings (as defined), (4) a portion of the net increase or decrease in the net value of the Plan investments which bears the ratio of the total amount of each participant's account in a fund to the aggregate of the balances of all participants' accounts immediately before the quarterly adjustment, and (5) any loans made to or repaid by the participant. The allocation of Plan earnings is determined by using the valuation of trust assets on a daily basis.

Vesting – Participants' accounts are immediately vested in their voluntary contributions plus accrual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant vests at a rate of 20% per year beginning in year two. Participants are fully vested after six years of credited service.

Payment of Benefits – Upon termination, retirement, death, or disability, a participant or participant's beneficiary may receive a lump-sum distribution equal to the value of his or her vested account balance.

Participants Loans – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2%. Principal and interest is paid ratably through payroll deductions. For the years ended March 31, 2014 and 2013 interest rates ranged from 5.25% to 6.75% and 5.25% to 7.25%, respectively.

Forfeitures – If a participant terminates employment before they are 100% vested, the non-vested portion of the participant's account is forfeited. The forfeited amounts may be used to pay Plan expenses or reallocated to participant's accounts. For the year ended March 31, 2014 and 2013, forfeited non-vested accounts totaled $8,383 and $11,160, respectively. Amounts used to pay Plan expenses for the years ended March 31, 2014 and 2013 were $5,410 and $7,019, respectively. Amounts reallocated to participant accounts for the years ended March 31, 2014 and 2013 were $9,189 and $ –0– , respectively.

NOTE 2. **SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting – The accompanying financial statements of the Plan are prepared under the accrual method of accounting which is in conformity with accounting principles generally accepted in the United States of America.

NOTE 2. **SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition – Investments are stated at fair value as reported by the Plan Trustee. The fair values of the Plan's investments in mutual funds are based on the quoted market value of the underlying assets on the last business day of the Plan year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Participant Loans – Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits – Benefits payments to participants are recorded when paid.

Administrative Expenses – Expenses to administer the Plan are paid by the Plan, and are netted from Plan earnings and allocated to participants in proportion to their account balance. Certain expenses, such as loan fees, are allocated to the specific participants.

Subsequent Events – The Plan Administrator has evaluated subsequent events through October 16, 2014, the date the financial statements were available to be issued.

NOTE 3. **CERTIFIED INFORMATION**

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and participant loans at March 31, 2014 and 2013 and interest, dividends, and net appreciation of fair value of investments for the years then ended were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by State Street Bank and Trust Company, the Plan Trustee, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2014 and 2013.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at the year end.

Collective trust funds: Valued at the net asset value ("NAV") as provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, divided by the number of shares outstanding. The NAV's unit price is quoted on a private market and the underlying assets owned by the fund are traded on active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2014 and 2013:

	Assets at Fair Value as of March 31, 2014

NOTE 5. INVESTMENT CONTRACT WITH WELLS FARGO BANK TRUST COMPANY

The Plan has collective trust funds with Diversified Investment Advisors which invests in Wells Fargo Bank Trust Company ("Wells") that holds a benefit-responsive investment contract. Wells maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment is included in the Statements of Net Assets Available for Plan Benefits at fair value as determined using the market approach based on market prices of similar investments. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by Wells. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contracts at March 31, 2014 and 2013 was $3,408,134 and $2,410,926, respectively. The average yield and crediting interest rates were approximately 1.60% and 1.52% for 2014 and 1.11% and 1.92% for 2013.

NOTE 6. RELATED PARTY TRANACTIONS

During the years ended March 31, 2014 and 2013, Plan investments were invested in funds held by the recordkeeper Diversified Investment Advisors, Inc., and therefore transactions with Diversified qualify as party-in-interest transactions. Fees paid by the Plan to related parties amount to $8,160 and $3,846 for the years ended March 31, 2014 and 2013, respectively.

NOTE 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan document to terminate this plan subject to the provisions of ERISA. In the event of termination, each participant, retired participant, former participant and beneficiary shall be entitled to receive any amount credited to that person's account.

NOTE 8. TAX STATUS

The Internal Revenue Service has determined and informed the Administrator that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since adoption, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believers it is no longer subject to income tax examination for years prior to 2011.

NOTE 9. ADMINISTRATION OF PLAN ASSETS

Certain administrative functions are performed by officers or employees of the Employer. No such officer or employee receives compensation from the Plan. Custodial fees and certain other administrative expenses charged by third-party administrators are paid by the Plan.

NOTE 10. RISK AND UNCERTAINTIES

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of the investment securities will occur in the near term and such changes could materially affect the amounts reported on the statements of net assets available for plan benefits.
