(1) **Description Of The Plan**

The following brief description of Production Control Services, Inc. 401(k) and Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement and summary plan document for more complete information.

General

The Plan is a defined contribution plan in which all full-time employees of Production Control Services, Inc. (the "Company") who have completed 60 days of service and are age 18 or older are eligible to participate. Employees were able to enter the Plan on the first day of the month after meeting the eligibility requirements. The Plan was established to offer the employees of the company a means of saving funds, on a pretax basis, for retirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Plan benefits are not guaranteed by the Pension Benefit Guaranty Corporation. Participation is voluntary; however, participants were automatically enrolled in the Plan on the first day of the month after meeting eligibility requirements.

Automatic Enrollment

Employees were automatically enrolled in the Plan on the first day of the month after meeting eligibility requirements. A 2% elective deferral contribution is deducted from the employee's eligible compensation, as defined by the plan documents. Employee's may discontinue or change the elective deferral contribution at any time by notifying the plan sponsor.

Contributions

Each participant was able to elect to contribute up to 100% of the participant's compensation, not to exceed IRS limits, and have such amount contributed to the Plan as before-tax contributions. Such contributions were excluded from a participant's taxable compensation in accordance with the provisions of Section 401(k) of the Internal Revenue Code (IRC).

The Internal Revenue Service (IRS) imposes certain restrictions on the amount of annual additions to an individual participant's accounts, as well as an aggregate limit on contributions, and requires compliance with certain nondiscrimination tests. For

the years 2013 and 2012, the annual limit on a participant's pre-tax or Roth contributions was 17,500 and $17,000 ($23,000 and $22,500 for employees ages 50 and older, respectively).

The Plan provided for the following types of contributions:

Employee Contributions: Participants could make pre-tax or Roth contributions based upon a percentage of their eligible compensation, as defined by the Plan document.

Employer Matching Contributions: Effective June 2009, the Company temporarily suspended matching contributions. Effective January 2011, the Company reinstated the matching contribution. Upon reinstatement, the matching contribution was equal to 100% of participants' contributions up to a maximum contribution of 5% of eligible compensation, as defined by the Plan document.

Employer Profit Sharing Contributions: The Company may contribute a discretionary profit sharing contribution each year. For the years ended December 31, 2013 and 2012, no discretionary profit sharing contributions were made.

Rollover Contributions: Participants were also able to contribute rollover amounts from other qualified plans.

Participant Accounts

Separate accounts are maintained for each participant and are credited with the participant's contributions, employer matching and discretionary contributions, and rollover contributions, if any, including the allocations of earnings and losses to these accounts. Allocations are based on participant earnings or account balances, as defined. Participants direct the investment of their accounts by electing the percentages they wish to allocate between investment alternatives. Participants can change their investment allocations at their discretion by communicating directly with the Plan custodian via the telephone or internet.

Notes Receivable From Participants

The Plan provided that participants may borrow up to a maximum of $50,000 or 50%

of their total vested balance held in the Plan, with a minimum loan of $1,000 by pledging their total vested account balance as security for the loan. A participant may have two outstanding loans at any time. Loans will be repaid by employee payroll deductions with a repayment term generally not in excess of five years.

Vesting

Participants are immediately vested in their elective contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts occurs according to the following schedule:

Years of service	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Forfeited Accounts

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account represents a forfeiture. Forfeitures can be used to pay the administration expenses of the Plan or used to reduce the Company's contributions to the Plan.

Payment Of Benefits

If a participant's account balance at the time of the participant's retirement or termination of employment is less than $5,000, the participant is entitled to either a lump sum distribution, net of applicable taxes, or a rollover distribution for the full amount to another qualified plan. If participant's account balance at the time of retirement or termination of employment is greater than $5,000, the participant is entitled to a lump sum distribution, net of applicable taxes, annuity payment option, rollover distribution or may leave the participant's balance in the Plan.

Hardship withdrawals are permitted by the Plan for certain allowable expenses only if all other means of withdrawals or loans have been utilized. Participant may not contribute to the Plan for six months following the hardship withdrawal.

Death Benefits

If a participant dies and his or her account balance exceeds $5,000, the participant's account balances is paid in a method determined by the beneficiary, unless the payment method is previously determined by the participant prior to death.

If the participant's account balance is less than $5,000 or has been married to his or her spouse for less than a year, the participant's account balance will be paid as a lump sum distribution.

Administration And Expenses

The Plan paid $7,013 and $2,390 for the years ended December 31, 2013 and 2012, respectively, in administrative fees. All other costs of the Plan are paid by the Company.

(2) **Summary Of Significant Accounting Policies**

Basis Of Accounting

The Plan has changed its basis of accounting used to value plan assets from the ongoing plan basis to the liquidation basis as of November 1, 2013.

Use Of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Contributions Receivable

Employee contributions receivable arise from employee contributions that are withheld from employee's salary, but have yet to be remitted to the Plan by the Company. Employer contributions receivables arise from matching or discretionary contributions that are to be remitted to the Plan by the Company for wages that have been previously paid to employees.

The Plan's policy fo charging off uncollectible contributions is when future receipts is

deemed improbable. As of December 31, 2012, all contributions receivable are considered fully collectible, therefore, there is no provision for uncollectible amounts.

Investment Valuation And Income Recognition

The Plan's investments are stated at fair value on the face of the financial statements and are based on quoted market prices and other information as certified by the Plan custodian. The net appreciation or depreciation in the fair value of investments includes both unrealized and realized gains and losses during the Plan year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

The guaranteed interest account is included in the financial statements at fair market value because it is not fully benefit-responsive.

Fair Value Measurements

The Plan follows *Fair Value Measurements* which among other things requires enhanced disclosures about investments that are measured and reported at fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Fair value determined based upon the value of the underlying assets and securities, the majority of which have observable Level 1 pricing inputs, including publicly quoted prices and quoted prices for similar assets in active or non-active markets.

Guaranteed interest contract: Fair value determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Registered investment companies: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants

is recorded when earned. No allowance for credit losses has been recorded as of December 31, 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment Of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

The Plan's management has performed an evaluation of subsequent events through October 22, 2014, which is the date the financial statements were available to be issued and considered any relevant matters in the preparation of the financial statements and footnotes.

(3) **Investments**

The following table presents investment contracts that represents 5% more of Plan assets as of December 31, 2012:

Purchases	110,272
Sales	(179,777)
Interest income	9,725
Losses, net	(2,780)
Balance, December 31	$ 355,285

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant observable inputs and the ranges of values for those inputs as of December 31, 2012:

Plan Asset Type	Fair Value	Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed interest contract	$ 355,285	Discontinuance value	Withdrawal Charge	3.00%

(4) **Forfeited Non-vested Amounts**

During 2013 and 2012, $40,685 and $25,790, respectively, of forfeited amounts were used to pay employer contributions and administrative expenses of the Plan. For the years ended December 31, 2013 and 2012, the unutilized forfeited nonvested accounts amounted to $0.

(5) **Plan Termination**

The Company reserves the right to terminate the Plan at any time, and its continuance is not guaranteed. The Company also has reserved the right to amend or otherwise modify the Plan, or to discontinue any further contributions or payments under the Plan, by a resolution of its Board. In the event of a termination of the Plan or discontinuance of contributions, the account of each affected participant shall become non-forfeitable, and affected participants will become 100% vested in their accounts.

On October 31, 2013, a board resolution was adopted to terminate the Plan. In accordance with generally accepted accounting principles, the Plan has changed its basis of accounting used to value plan assets from the ongoing plan basis to the liquidation basis for periods after October 31, 2013. Dover Corporation merged the Plan with Dover Corporation's defined contribution plan on December 31, 2013.

(6) **Income Tax Status**

The Plan adopted a Principal Life Insurance Company prototype plan which received a determination letter from the Internal Revenue Service as to the qualified status of the Plan dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the

Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter; however, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code; therefore, the plan administrator believes that the Plan is qualified under section 401(a) of the IRC and the related trust is tax exempt as of December 31, 2013 and 2012.

The Plan follows *Accounting for Uncertainty in Income Taxes*, which requires the Plan to determine whether a tax position (and the related tax benefit) is more likely than not to be sustained upon examination by the applicable taxing authority, based solely on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon settlement, presuming that the tax position is examined by the appropriate taxing authority that has full knowledge of all relevant information. During the years ended December 31, 2013 and 2012, the plan sponsor evaluated its tax positions to determine the existence of uncertainties, and did not note any matters that would require recognition or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan is no longer subject to U.S. federal tax audits on its Form 5500 by taxing authorities for fiscal years ending prior to December 31, 2010. The years subsequent to this year contain matters that could be subject to differing interpretations of applicable tax laws and regulations. Although the outcome of tax audits is uncertain, the Plan believes no issues would arise.

(7) Financial Data Certified By The Investment Company Administered Trust Fund

The plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA for the years ended December 31, 2013 and 2012. Accordingly, as permitted under such election, Principal Life Insurance Company has certified all financial data relative to the investment assets, transactions, and income.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed

to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
