VALLEY RADIOLOGISTS, LTD.
DEFINED CONTRIBUTION PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
January 31, 2014 and December 31, 2013

1. Description of Plan

The following brief description of the Valley Radiologists, Ltd. Defined Contribution Plan and Trust (the "Plan") is provided for general information purposes only. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

Merger

On November 14, 2013, the shareholders of the Company ratified their decision to merge the Plan. Effective January 1, 2014, the Plan was merged with and into the Southwest Diagnostic Imaging, Ltd. 401K Plan A and the Southwest Diagnostic Imaging, Ltd. 401K Plan B (collectively the "New Plans") sponsored by Southwest Diagnostic Imaging, Ltd., and the New Plans are the surviving plans of the mergers.

General

The Plan was a defined contribution plan covering all eligible employees of Valley Radiologists, Ltd. (the "Company" and "Administrator") who were 21 years of age or older, had completed one year of service and had worked 1,000 hours during the Plan year. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may have contributed a percentage of their pretax compensation, as defined in the Plan, subject to limitations prescribed by the Internal Revenue Service ("IRS"). Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. The Plan also allowed participants to elect to contribute a portion of after-tax annual compensation, as defined in the Plan. Participants may have also contributed amounts representing distributions from other qualified defined benefit or contribution plans.

Each year, at the Company's discretion, the Company may have contributed to the Plan a percentage of the participants' contributions. There were no Company contributions for the period January 1, 2014 through January 31, 2014. All contributions were subject to certain IRS limitations.

Participant Accounts

Each participant's account was credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account balance.

The Plan allowed each participant to direct the investment of his or her contributions and the Company's contributions among various investment alternatives and make changes to this allocation directly with the trustee. Consequently, each participant's account reflected earnings or losses resulting from his or her investment decisions.

Vesting

Participants were immediately vested in their voluntary contributions plus actual earnings thereon. For Company contributions, a participant was vested 20% after two years of credited service, and vested an additional 20% each year until fully vested after six years of credited service.

VALLEY RADIOLOGISTS, LTD.
DEFINED CONTRIBUTION PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
January 31, 2014 and December 31, 2013

Notes Receivable from Participants

Participants may have borrowed from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans were secured by the balance in the participant's account and bore interest at rates that ranged from 4.25% to 6.0%. Principal and interest was paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may have elected to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a defined period of time, or elect to roll his or her investment into another qualified plan or account. Participants with account balances less than \$1,000 were required to take a lump-sum distribution as soon as practicable following termination.

Forfeited accounts

At January 31, 2014 and December 31, 2013, forfeited non-vested accounts totaled approximately \$0 and \$1,000, respectively. These accounts may have been used to reduce future Company contributions or to pay administrative expenses, which would otherwise be paid by the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the liquidation basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets and the reported amounts of additions to and deductions from net assets. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recognized when paid, primarily monthly. Dividends were recorded on the ex-dividend date. Net change in fair value of investments included realized and unrealized gains and losses on investments.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants were recorded as a distribution based upon the terms of the Plan document.

VALLEY RADIOLOGISTS, LTD.
DEFINED CONTRIBUTION PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
January 31, 2014 and December 31, 2013

Payments of Benefits

Benefits were recorded when paid.

Administrative Expenses

The Plan permitted administrative expenses to be paid from the Plan's assets and to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. Expenses relating to specific participant transactions (i.e. loan setup, distribution request, etc.) may have been charged directly against the appropriate participant's account.

Subsequent Events

The Plan has evaluated subsequent events through November 3, 2014, the date the financial statements were available to be issued.

3. Investments

Investments that represented 5% or more of the Plan's net assets at December 31, 2013, were as follows:

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Securities available for sale were recorded at fair value on a recurring basis. Fair value measurement was based upon quoted prices, if available. If quoted prices were not available, fair values were measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions and other factors such as credit loss assumptions.

Shares of mutual funds, money market funds, non-interest bearing cash, unit investment trusts, certain limited partnership interests and stocks were valued at quoted market prices. The market values of participation units in the Common/Collective Trusts, U.S. governmental securities, and corporate bonds were based on the market values of their underlying assets on the last business day of the Plan year.

The preceding methods described may have produced a fair value calculation that may not have been indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

5. Party-in-Interest Transactions

Certain Plan investments were managed by Charles Schwab Bank ("Schwab"), the trustee of the Plan. These investments and transactions in these investments qualified as party-in-interest transactions which were exempt from the prohibited transaction rules of ERISA.

6. Information Provided by the Trustee

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Schwab, the trustee of Plan assets, certified to the completeness and accuracy of all investment information reflected in the accompanying statements of net assets available for benefits as of January 31, 2014 and December 31, 2013, and the related investment activity reflected in the statement of changes in net assets available for benefits for the period from January 1, 2014 through January 31, 2014.

7. Income Tax Status

The Internal Revenue Service determined and informed the Company by a letter dated December 21, 2010, that the Plan and related trust were designed in accordance with the appropriate sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's counsel believe that the Plan continues to be designed and operated in compliance with the applicable provisions of the Internal Revenue Code and has no income subject to unrelated business income tax. Therefore, no provision or reserve for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more

likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of January 31, 2014, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Risks and Uncertainties

The Plan provided for various investment options, including corporate bonds, Common/Collective trust funds, mutual funds, common stocks, U.S. governmental securities, money market funds and unit investment trusts. These investments were exposed to various risks, such as interest rate fluctuation, market fluctuation and credit risks. Due to the level of risk associated with certain investments, it was at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.
