Independent Auditor's Report

To the Trustees and Plan Administrator of the American Surgical Assistants I 401(k) Profit Sharing Plan and Trust and Participants:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the American Surgical Assistants I 401(k) Profit Sharing Plan which comprise the statement of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these 2013 financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2013 financial statements.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Massachusetts Mutual Life Insurance Company ("MassMutual"), the Custodian of the Plan, except for comparing such information with the related information included in the 2013 financial statements and supplemental schedules. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Custodian as of and for the year ended December 31, 2013, that the information provided to the plan administrator by the Custodian is complete and accurate.

Disclaimer of Opinion on the 2013 Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph on the 2013 Financial Statements paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2013 financial statements. Accordingly, we do not express an opinion on the 2013 financial statements.

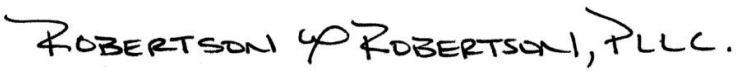

Other Matters—Report on Supplementary Information and Report on 2012 Financial Statements

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2013 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph on the 2013 Financial Statement paragraph, we do not express an opinion on this supplemental schedule.

We have audited the accompanying financial statements of American Surgical Assistants I 401(k) Profit Sharing Plan, which comprise the statement of net assets available for benefits as of December 31, 2012, and in our report dated February 28, 2014, we expressed our opinion that such financial statement presents fairly, in all material respects, net assets available for benefits of the Plan as of December 31, 2012, and the changes in net assets available for benefits for the year ended December 31, 2012, in accordance with accounting principles generally accepted in the United States of America.

Report on Form and Content in Compliance with DOL Rules and Regulations for 2013 Financial Statements

The form and content of the information included in the 2013 financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to the Financial Statements
American Surgical Assistants I 401(k) Profit Sharing Plan and Trust
December 31, 2013 and 2012

Note A – Description of the plan

The following brief description of the American Surgical Assistants I 401(k) Profit Sharing Plan and Trust ("the Plan") is provided for general information purposes only. The Plan is sponsored by American Surgical Assistants I (the "Plan Sponsor" or "Company"). Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan that provides retirement savings benefits to eligible employees of the Company through tax deferred voluntary contributions by employees and discretionary profit sharing contributions by the Company. Employees are eligible to participate in the Plan after the attainment of the age of twenty-one (21) and the completion of six (6) months of service. An employee's entry date is immediate upon satisfying eligibility requirements. The Plan, which commenced effective August 1, 2006 and was amended and restated effective April 12, 2013, is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC").

Effective June 27, 2013, Massachusetts Mutual Life Insurance Company ("MassMutual") was selected to be the Custodian of the Plan replacing Paychex, Inc. The majority of the investment funds held previously was reinvested into corresponding investment funds with the Custodian that had similar investment objectives.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) employer discretionary profit sharing contributions and (b) Plan earnings (losses) and is charged with an allocation of administrative expenses. Allocations are based on the percentage which the participant's contributions, account balance, and compensation, as defined, bear to the total of all participants' contributions, account balances, and compensation, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Employee contributions

Participants may elect to contribute, on a pre-tax basis, up to 96% of their eligible annual compensation, as defined by the Plan, not to exceed the maximum amount allowed under the IRC. The amount deferred is not subject to federal taxation to the participants until distributions are made from the Plan.

Participants who have attained age fifty (50) or older before the end of the tax year are eligible to make catch-up contributions up to the maximum amount allowed for deferral under the IRC. Participants may also designate all or a portion of their elective deferrals as Roth elective deferrals. Participants may also contribute eligible rollovers from other qualified defined benefit or defined contribution plans and individual retirement accounts. Additional after-tax voluntary contributions are not permitted.

Employer contributions

The Company may, at its discretion, make profit sharing contributions to the Plan in amounts determined by the Company each year. Discretionary profit sharing contributions are allocated to eligible participants based upon the percentage of the participant's compensation to the total compensation of all eligible participants. Eligible participants who are employed on the last day of the Plan year share in any discretionary profit sharing contributions. No discretionary profit sharing contributions were made during the years ended December 31, 2013 and 2012.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. Investment options primarily consist of shares in registered investment companies (mutual funds) and a group annuity contract. Participants may change their investment options during the year subject to certain restrictions on such changes imposed by the Plan's investment funds.

Vesting

Participants are immediately and fully vested in their voluntary contributions plus actual earnings (losses) thereon. Vesting in the Company's discretionary profit sharing contributions and earnings thereon is based on years of continuous service. A year of service is defined as 1,000 hours of service during any plan year. Additionally, a participant will become fully vested in the Company contribution portion of their account upon reaching normal or early retirement age or in the event of death or total and permanent disability.

The vesting schedule for Company discretionary profit sharing contributions and earnings is determined as follows:

Years of Service:	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeited accounts

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts are retained in the Plan and will first be used to pay administrative expenses of the Plan. Any remaining amounts will be used to reduce future employer discretionary profit sharing contributions for the Plan year. As of December 31, 2013 and 2012, the unallocated forfeiture balance was $0.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to $50,000 or the lesser of 95% of one-half the vested account balance or 95% of the total vested account balance excluding the Roth elective deferral balance. No more than one (1) loan can be outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at 4.25% which was commensurate with local prevailing rates at the time the loans were initiated. Principal and interest payments are paid ratably through payroll deductions over a period not to exceed four years, six months, unless a loan is obtained to acquire a principal residence, for which loan terms may range up to ten (10) years. A participant's loan balance becomes immediately due and payable upon termination of employment.

Payment of Benefits

On termination of employment, disability, death, or normal retirement, a participant or designated beneficiary may elect to receive a lump-sum cash distribution, installment payments or annuity contracts equal to the value of the participant's vested account balance. If withdrawing participants are not entitled to their entire account balance, the amounts not received are forfeited. Participants may defer receipt of distribution until a later date unless their account balance is $5,000 or less. If the vested account balance is $5,000 or less, the Company will direct the Custodian that any amount exceeding $1,000 be distributed to the participant, without consent, into an IRA for their benefit. If the vested account balance is $1,000 or less, the account will be distributed to the participant without consent as a lump sum distribution in cash.

If an active participant has attained age fifty-nine and one-half (59½), they may elect to withdraw all or a portion of their account while still employed by the Company.

Administrative Expenses

The Plan permits the payment of expenses incurred in connection with the recordkeeping and administration of the Plan to be made from the Plan's assets. Expenses will generally be allocated among the accounts of all participants in the plan proportionately based on the value of the participant's account balances. Specific fees such as loan processing fees may also be charged directly to a participant's account in response to transactions requested under the Plan. Administrative expenses totaled $872 and $130 for the years ended December 31, 2013 and 2012.

Reclassifications

Certain amounts in the prior period presented have been reclassified to conform to the current period financial statement presentation. These reclassifications have no effect on previously reported net assets available for benefits.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting and include all adjustments necessary to present fairly the financial statements of the Plan in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying disclosures. Accordingly, actual results may differ from those estimates.

Recent Accounting Pronouncements

In April 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2013-07, "*Presentation of Financial Statements (Topic 205): Liquidation Basis of Accounting*" ("ASU 2013-07"). ASU 2013-07 will require an entity to use the liquidation basis of accounting if liquidation is imminent.

Liquidation will be considered "imminent" when (1) a liquidation plan has been approved by those with the authority to do so and the chance of the plan being blocked by other parties is remote or (2) a liquidation plan is imposed by other forces (e.g., involuntary bankruptcy). ASU 2013-07 is effective prospectively for interim or annual periods beginning on or after December 15, 2013. Plan management does not expect this guidance to have an impact on the Plan's financial statements.

In October 2012, the Financial Accounting Standards Board ("FASB") issued ASU No. 2012-04, *"Technical Corrections and Improvements*" ("ASU 2012"), which contains amendments that affect a number of topics, including technical corrections and improvements to the Accounting Standards Codification ("ASC") and conforming amendments related to fair value measurements, which include clarifying the treatment of selling costs for plan investments in determining fair value of plan assets subject to ASC Topic 962, "*Plan Accounting - Defined Contribution Pension Plans*." These amendments are effective for periods beginning after December 15, 2013. Plan management does not expect this guidance to have an impact on the Plan's financial statements.

Contributions

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the plan administrator and in the period in which they are deducted, in accordance with salary deferral agreements.

Investment valuation and income recognition

Investments are reported at fair value and are measured in accordance with ASC 820, *"Fair Value Measurements and Disclosures"*. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. See Note D for discussion of fair value measurements.

As described in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic No. 962, *Plan Accounting – Defined Contribution Pension Plans* (ASC 962), fully benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan accounts for its fully-benefit responsive investment in The Hartford Group Annuity Contract (the "group annuity contract") in accordance with FASB ASC Topic No. 962. As required under ASC 962, the accompanying statement of net assets available for benefits presents the fair value of the group annuity contract, as well as the adjustment from fair value to contract value. The accompanying statement of changes in net assets available for benefits is prepared on a contract-value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in value of investments includes realized gains and losses on investments bought and sold during the year and unrealized appreciation (depreciation) of investments held at year-end. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits paid to participants are recorded when paid. As of December 31, 2013, there were no amounts allocated to participants who elected to withdraw from the Plan, but have not been paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions and are recorded as a reduction to net assets available for benefits.

Risks and uncertainties

The Plan provides for various investment options in shares in registered investment companies (mutual funds) and a group annuity contract. Investments, in general, are exposed to various risks, such as interest rate, credit and overall volatility risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Note C - Information Certified by the Custodian (Unaudited) or Investments

At December 31, 2013, the Plan's investments were held by Massachusetts Mutual Life Insurance Company ("MassMutual") ("the Custodian"). The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2013 and 2012 that represent 5% or more of the Plan's net assets, as reported by the Custodian is summarized as follows:

		12/31/2013		12/31/2012

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

		12/31/2013
Balanced/asset allocation	$	76,952

Note D – Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures,* defines fair value, establishes a consistent framework for measuring fair value and expands disclosure requirements for fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date. Valuation of these instruments does not require a significant degree of judgment since valuations are based on quoted prices that are readily available in an active market.

Level 2: Significant observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instrument.

Level 3: Significant unobservable inputs that reflect modifications to observable related market data or our assumptions about pricing by market participants.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies (mutual funds): Valued at quoted market prices that represent the net asset value ("NAV") of shares held by the Plan at year end.

Group annuity contract: The fund is fully benefit-responsive; therefore, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a

portion of their investment at contract value. There are no reserves against the fund value for credit risk of the fund issuer or otherwise.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Total**

Note E - Investment Contracts with Insurance Company

The Plan entered into a fully benefit-responsive group annuity contract with The Hartford Life Insurance Company that invests contributions in a general account product, the Fixed Income Account, which is primarily invested in investment grade fixed income securities. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The statement of net assets available for benefits presents the fair value of the group annuity contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value as reported to the Plan by MassMutual. The statement of changes in net assets available for benefits is prepared on a contract value basis. The fair value of the group annuity contract at December 31, 2013 was $41,884.

Interest is credited to the account at a rate declared each calendar quarter by the issuer and, as described in the Group Variable Funding Agreement, will never be less than the minimum guaranteed interest rate. The minimum guaranteed interest rate under the contract is 3.0%. Such interest rates are reviewed on an annual basis for resetting. The initial Minimum Guaranteed Interest Rate under this Agreement is an annual effective rate equal to 1.00% and will remain in effect until December 31, 2013. The average yields earned by the Plan and credited to participants were 1.50% during the year ended December 31, 2013.

Certain events limit the Plan's ability to transact at contract value with the insurance company as described in the Group Variable Funding Agreement. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable.

Note F – Related party transactions

Certain Plan investments in shares in registered investment companies (mutual funds) and a group annuity contract are managed by MassMutual. MassMutual has been designated as the custodian and, therefore, these transactions qualify as party-in-interest transactions. In addition, the Plan has notes receivable from certain of its participants which are secured by the balances in the participants' accounts. Therefore, related transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Any purchases and sales of these investments are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. All other transactions which may be considered party-in-interest transactions relate to normal plan management and administrative services, and the related payment of fees.

Note G - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the employer contributions allocated to their accounts.

Note H - Excess Contributions Payable

Excess contributions due to participants represents amounts owed to participants who made excess contributions in excess of the IRC Section 401(k) limit and all earnings attributable to such contributions. The excess contributions payable balance as of December 31, 2013 was $33,124. This amount is reflected as a reduction of contributions in the accompanying statement of changes in net assets available for benefits and as excess contributions payable in the accompanying statement of net assets available for benefits.

Note I - Reconciliation of Plan financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits as reported in the financial statements to the assets reported on Schedule H of the Form 5500 as of December 31, 2013 and 2012:

	12/31/2013	12/31/2012
Net assets available for benefits per the financial statements	$ 1,958,284	$ 1,603,253
Participant contributions receivable	(30,880)	-
Excess contributions due to participants	33,124	-
Net assets available for benefits per Schedule H of Form 5500	**$ 1,960,528**	**$ 1,603,253**

The following is a reconciliation of the net change in net assets available for benefits as reported in the financial statements to the net change as reported on Schedule H of the Form 5500 as of December 31, 2013 and 2012:

	12/31/2013	12/31/2012
Net increase in net assets available per the financial statements	$ 355,031	$ 390,506
Less: Participant contributions receivable at December 31, 2013	(30,880)	-
Add: Excess contributions due to participants at December 31, 2013	33,124	-
Net increase in net assets available per Schedule H of Form 5500	**$ 357,275**	**$ 390,506**

Note J - Tax status

The underlying volume submitter profit sharing plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the form of the Plan is qualified under Section 401(a) of the Code, and therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2012-6 and 2011-49, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS volume submitter plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject

to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note K – Subsequent Events

For the year-ended December 31, 2013, the Company has evaluated subsequent events and transactions for potential recognition and disclosure through November 5, 2014, the date the financial statements were available to be issued.

As part of this evaluation, it was noted that the Plan was restated and amended effective January 1, 2014. The amendments to the plan included a change in eligibility requirements from six (6) months of service to three (3) months of service, the inclusion of an auto enrollment feature whereby employees will be auto-enrolled on the date of hire with a 5% deferral contribution, a change in the vesting schedule whereby employees are 100% vested after five (5) years of service as opposed to six (6) years of service, the inclusion of hardship withdrawals and a change in the deferral limit from 96% of eligible annual compensation to the maximum amount allowed by law.
