B. Contributions

Each year, participants may contribute the maximum percentage allowable, not to exceed the limits of the Internal Revenue Code ("IRC"), as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Companies may make a discretionary matching contribution based on a percentage of deferrals for all participants. For 2013, the Companies did not make a discretionary matching contribution.

C. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) each Companies' matching contribution, if any, (b) forfeitures, if any, and (c) self-directed plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Companies' matching contribution portion of their account is based on years of credited service. A participant is 100% vested after six years of credited service.

E. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% - 6.00%, as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Note (1) Description of Plan – Continued

F. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or in installments over a specified period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

G. Forfeited Accounts

Forfeited balances of terminated participants' non-vested accounts are either used to supplement the employer matching contribution or pay administrative expenses. As of December 31, 2013, there was $5,406 of forfeitures available to pay the administrative expenses of the Plan.

Note (2) Summary of Significant Accounting Policies

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

B. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note (4) for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

C. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a deemed distribution is recorded.

D. Payment of Benefits

Benefits are recorded when paid.

Note (2) Summary of Significant Accounting Policies - Continued

E. Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Companies and are excluded from these financial statements. Fees related to the administration of notes receivable from participants, distributions, third-party administrative fees and auditor's fees are charged directly to the participant's account and are included in administrative expenses.

F. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

G. Subsequent Events

The Plan has evaluated subsequent events through November 3, 2014, the date the financial statements were available to be issued.

Note (4) Fair Value of Financial Instruments

The fair value measurements and disclosures topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It describes three approaches to measuring the fair value of assets and liabilities: 1) the market approach, 2) the income approach and 3) the cost approach. Each of these approaches includes multiple valuation techniques. It does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk. Level 1 inputs are given the highest priority in the hierarchy while Level 3 inputs are given the lowest priority. Assets and liabilities carried at fair value are classified in one of the following three categories based upon the nature of the inputs to the valuation technique used:

- Level 1 – Observable inputs that reflect unadjusted quoted prices for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data.

- Level 3 – Unobservable inputs that are not corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts – Based on the value of underlying net assets, as reported by the Plan by the contract issuer. The pooled separate accounts are comprised of a portfolio of underlying securities that can be valued on active markets and are classified as variable annuities. Fair value of the contracts are calculated by applying the Plan's percentage ownership in the pooled separate accounts to the total market value of the accounts' underlying securities.

Note (4) Fair Value of Financial Instruments - Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2013 and 2012. As required by the fair value measurements and disclosures topic, these assets are classified in their entirety based on the lowest level input that is significant to the fair value measurement. The Companies' assessment of the significance of a particular input to the fair value measurement requires judgment and may affect their placement within the fair value hierarchy levels.

Fair Value of Investments that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013 and 2012:

Investment	Fair Value 2013	Fair Value 2012	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts:					
Asset allocation funds (a)	$ 6,422,919	$ -	N/A	Daily	None
Conservative funds (b)	43,738	-	N/A	Daily	None
Income funds (c)	87,562	-	N/A	Daily	None
Growth and income funds (d)	181,908	-	N/A	Daily	None
Growth funds (e)	354,706	-	N/A	Daily	None
Aggressive growth funds (f)	59,552	-	N/A	Daily	None
Total	**$ 7,150,385**	**$ -**			

(a) Asset allocation funds are funds that provide investors with a portfolio of a fixed or variable mix of the three main asset classes - stocks, bonds and cash equivalents - in a variety of securities.

(b) Conservative funds are a low-to-medium risk option. Usually, about 80% of the fund is in lower risk investments, and about 20% in shares and property.

(c) Income funds are funds that seek to generate an income stream for shareholders by investing in securities that offer dividends or interest payments. The funds can hold bonds, preferred stock, common stock or real estate investment trusts (REITs).

(d) Growth and income funds are funds that seek to provide both growth of capital and a stream of income. This is done by investing primarily in the common stock of companies that have had not only increasing share value, but also a solid record of paying dividends.

(e) Growth funds are a diversified portfolio of stocks that have capital appreciation as a primary goal, with little or no dividend payouts. Portfolio companies would mainly consist of companies with above-average growth in earnings that reinvest their earnings into expansion, acquisitions, and/or research and development.

(f) Aggressive growth funds are funds whose investment objective seeks high capital gain potential among growth stocks, which are stocks of companies that are expected to grow at a rate faster in relation to the overall stock market.

Note (5) Related Party Transactions and Party-in-Interest Transactions

Plan investments are shares of mutual funds and pooled separate accounts managed by Ascensus Trust Company and John Hancock Life Insurance Company. Ascensus Trust Company was the trustee as defined by the Plan from January 1, 2013 to September 12, 2013, and John Hancock Life Insurance Company is the custodian from September 13, 2013 to December 31, 2013 and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net investment gain from registered investment companies, as they are paid through revenue sharing, rather than a direct payment. The Companies pay directly any other fees related to the Plan's operations.

Note (6) Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Companies' contribution portion of their account.

Note (7) Tax Status

The Internal Revenue Service has determined and informed the Companies that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

The Plan accounts for any potential interest or penalties related to the possible future liabilities for unrecognized income tax benefits as other expense. The Plan is no longer subject to examination by tax authorities for federal, state or local income taxes for periods before 2010.

Note (8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note (9) Prohibited or Nonexempt Transactions

During 2013, the Companies failed to timely remit participant contributions and loan repayments of $161,989 to the Plan pursuant to 29 CFR 2510.3-102 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Under the regulation, amounts paid by a Plan participant or withheld by an employer from a participant's wages for contribution to the Plan are Plan assets on the earliest date they can reasonably be segregated from the Companies' general assets, but in no event later than the 15th business day of the month following the month in which the participant contributions are withheld or received by the Companies. As a result, the Companies have engaged in a nonexempt prohibited transaction under ERISA Section 406. The Companies have remitted the non-timely participant contributions and loan repayments, including lost participant earnings during 2013 and 2014.
