Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying statement of net assets available for benefits of SPS Technologies Waterford Company Pension Plan as of January 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of January 31, 2013 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note H, which was certified by Bank of New York Mellon, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended January 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Very truly yours,

Certified Public Accountants

NOTES TO FINANCIAL STATEMENTS

January 31, 2014

NOTE A - Description of Plan:

The following brief description of the SPS Technologies Waterford Company Pension Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

1. General - The Plan is a defined benefit pension plan covering substantially all employees of SPS Technologies Waterford Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
2. Pension Benefits - Participants vest in a pension benefit after 5 years of service and they are entitled to a full benefit equal to 30% of their average compensation after 10 years of service beginning at age 65. Employees with more than 5 but less than 10 years of service will receive a fraction thereof. The Plan permits a reduced early retirement benefit beginning at age 55 with at least 10 years of service. Participants may elect to receive their benefit in the form of a single life annuity or joint and survivor annuity. Effective December 31, 2009, all participant accrued benefits will be frozen as of that date.
3. Death Benefits - If an active employee dies, the Trustees shall distribute either a pre-retirement survivor income or a death benefit equal to 100 times the monthly retirement benefit the deceased participant would have received on his normal retirement date, but not both. The benefit will not exceed \$60,000.00. Effective December 31, 2009, the Plan no longer offers life insurance benefits.

NOTE B - Summary of Significant Accounting Policies:

The following are the significant accounting policies followed by the Plan:

1. Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting, and in accordance with accounting principles generally accepted in the United States of America (US GAAP).
2. Use of Estimates - The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.
3. Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for a discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

January 31, 2014

NOTE B - Summary of Accounting Policies (continued):

3. Investment Valuation and Income Recognition (continued)-

The Plan's interest in the Master Trust with the Bank of New York Mellon (Note F) is based on the beginning of the year value of the Plan's interest in the trusts plus actual contributions and allocated investment income or loss less actual distributions and allocated administrative expenses. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Milliman, Inc. and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and expected date of payment. The significant assumptions used in the valuations as of January 31, 2013 were as follows:

Discount rate	- 8% for FASB ASC 960
	- Pension Protection Act of 2006 (PPA) Funding Target
	- Segment 1 payments under 5 years 4.94%
	- Segment 2 payments between 5 and 20 years 6.15%
	- Segment 3 payments after 20 years 6.76%
	- Effective interest rate 6.44%
	- Pension Benefit Guaranty Corporation Variable Premium
	- Segment 1 payments under 5 years 1.00%
	- Segment 2 payments between 5 and 20 years 3.73%
	- Segment 3 payments after 20 years 4.89%

Post-retirement mortality - The RP-2000 Combined Healthy Mortality Table (adopted February 1, 2012) projected to 2020 by scale AA, applied post-retirement only.

- RP-2000 annuitant mortality tables for 2013 as prescribed by the IRS for calculating the Funding Target and PBGC variable premium.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

January 31, 2014

NOTE B - Summary of Accounting Policies (continued):

4. Actuarial Present Value of Accumulated Plan Benefits (continued)-

Retirement - Vested inactive participants are assumed to retire at age 62 if eligible for early retirement, otherwise at age 65.

Future retirees are assumed to elect a single life annuity.

Actuarial method - Unit Credit Actuarial Cost Method

Asset valuation - Market value of assets is used for measurements under FASB ASC Topic 960. For funding requirements, the Plan uses the 24-month average value of assets per IRS notice 2009-22 (adopted February 1, 2009).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Contributions to the Plan and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is reasonably possible that changes in these estimates and assumptions will occur in the near term and the effect of such changes could be material to the financial statements.

6. Payment of Benefits - Benefit payments to participants are recorded when paid.

7. Recent Accounting Pronouncements - In December 2011 and January 2013, the Financial Accounting Standards Board (FASB) issued guidance requiring expanded disclosures, including both gross and net information, for derivatives, repurchase and reverse repurchase agreements, and securities borrowing and securities lending transactions that are either offset in the reporting entity's financial statements or those that are subject to an enforceable master netting arrangement or similar agreement. The Plan adopted the new guidance respectively in 2013. The new guidance affects disclosures only and therefore had no impact on the statements of net assets and changes therein.

8. Date of Management's Review - Subsequent events were evaluated through November 11, 2014, which is the date the financial statements were available to be issued and determined that there are no further items for disclosure.

SPS TECHNOLOGIES WATERFORD COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

January 31, 2014

NOTE C - Funding Policy:

The Company's contributions are based on actuarial calculations as determined under the Unit Credit Actuarial Cost Method with amortization of past service cost over the period of time required to satisfy minimum funding requirements. The Company makes contributions no later than the date of filing its income tax return for each fiscal year. The Company is under no obligation to make contributions, which are not deductible for income tax purposes in the applicable fiscal year. There were no minimum funding requirements and no contributions made for either January 31, 2014 or 2013.

NOTE D - Plan Termination:

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, its net assets generally will not be available on a pro rata basis to provide participants' benefits. The net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
- c. All other vested benefits not insured by the PBGC.
- d. All nonvested benefits.
- e. If any assets remain after all accrued benefits have been provided for in full and all expenses have been paid, they will be returned to the Company.

NOTE E - Fair Value Measurements:

FASB ASC 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

SPS TECHNOLOGIES WATERFORD COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

January 31, 2014

NOTE E - Fair Value Measurements (continued):

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Investments classified within Level 3 whose fair value measurements consider several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

Valuation of investments in Master Trust with Bank of New York Mellon

The Master Trust asset allocation strategy is designed to balance the objectives of achieving the asset return assumption consistently over the long-term while minimizing the volatility of the funded status. Asset classes with differing expected rates of return, return volatility and correlations are utilized to control risk and provide diversification. The asset categories are described below, along with the valuation methodologies and investment level classifications. There have been no changes in the methodologies used at December 31, 2013 and 2012. (January 31 data was unavailable).

Public Equity Securities (Long/Hedged)

Long equity investments consist of publicly traded equity securities that are well diversified across managers, styles, sectors and countries. Hedged equity investments typically add short positions in equities or equity futures in order to generate absolute returns regardless of equity market direction. Public equity investments made directly through managed (separate) account structures and valued based upon closing prices reported in the active trading markets are classified as level 1. Equity investments made indirectly via liquid pooled funds valued at the net assets ("NAV") of the fund are classified as level 2 and are typically valued at the most recently published NAV of the fund, which may be derived from underlying investment values one quarter earlier, unless management believes an adjustment to NAV is warranted based on changes in observable inputs or an expectation that an investment will be sold at a value other than NAV.

SPS TECHNOLOGIES WATERFORD COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

January 31, 2014

NOTE E - Fair Value Measurements (continued):

Private Equity

Private equity investments consist of investments in limited partnerships or commingled vehicles with managers who purchase interests in non-public companies. These may be as venture capital, early stage, special situations or restructuring funds. Private equity funds typically have low liquidity, a 10 year or longer investment commitment, and valuation methodologies that require the use of significant unobservable inputs. Private equity investments are classified as level 3 and are typically valued at the most recently published NAV of the fund, unless management believes an adjustment is warranted as described above. For the years ended December 31, 2013 and December 31, 2012, no material adjustments were made to fund NAVs. As of December 31, 2013, unfunded capital commitments to private equity investments were approximately \$15 million (January 31 data was unavailable).

Absolute Return (Market Sectors/Arbitrage)

Absolute return strategies are investments with managers who seek specified levels of absolute returns with minimal correlation to market movements. Absolute return managers typically invest in futures, forwards or options on a variety of asset classes. Market sector strategies seek to capitalize on movements in commodity, currency, interest rate and/or other traditional markets while arbitrage strategies focus on credit, volatility or other alternative asset classes. Investments are typically made in limited partnerships and classified level 2 when funds offer regular liquidity at fund NAVs and reported values are based on significant observable inputs. All other investments are classified as level 3 and are typically valued at the most recently published NAV of the fund, unless management believes an adjustment is warranted as described above. As of December 31, 2013, unfunded capital commitments to absolute return investments were approximately \$3 million.

Royalty Investments

Royalty investments are made through investments in limited partnerships which purchase income-producing royalties derived from sales of pharmaceutical products. Valuation of the fund is determined from an independent appraisal process whereby significant observable inputs are used in determining the fund's NAV. Liquidity is typically arranged in the secondary market with trades occurring at the most recent published NAV. Royalty investments are classified as level 2 and are typically valued at the most recently published NAV of the fund, unless management believes an adjustment is warranted as described above.

Fixed Income (Investment/Non-Investment Grade)

Fixed income investments consist of public and private fixed income securities of U.S. and non-U.S. government and corporate issuers and fixed income mutual funds. Fixed income investments made directly through managed (separate) account structures and valued based upon closing prices reported in the active trading markets are classified as level 1. Fixed income investments made indirectly via liquid pooled funds valued at the NAV of the fund are classified as level 2. Fixed income investments with low liquidity and valuation methodologies that require the use of significant unobservable inputs are classified as level 3. As of December 31, 2013, unfunded capital commitments to fixed income investments were approximately \$24 million (January 31 data was unavailable).

SPS TECHNOLOGIES WATERFORD COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

January 31, 2014

NOTE E - Fair Value Measurements (continued):Cash/Other

Cash and other investments include highly liquid money market securities, demand deposits and other cash equivalents. Cash and other investments are classified as level 1.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE F - Interest in Precision Castparts Corp. Master Trust:

All of the Plan's investments are in the Master Trust with the Bank of New York Mellon, which was established for the investment of assets of the Plan and several other retirement plans sponsored by the Company. Each participating retirement plan has an undivided interest in the Master Trust. At January 31, 2014 and 2013, the Plan's interest in the net assets of the Master Trust was approximately 0.71% and 0.76%, respectively. Investment income relating to the Master Trust is allocated to the individual plans based upon average monthly balances invested by each plan. Administrative expenses are allocated based on actual Plan assets at the end of the prior quarter before they are paid.

Transfers Between Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2013 and 2012, there were no transfers between Levels 1 and 2.

NOTE G - Tax Status:

The Internal Revenue Service has determined and informed the Company, by letter dated March 23, 2011, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan, as amended, is designed and currently being operated in compliance with the applicable requirements of the IRC, thereby continuing to exempt the Plan from federal income taxes.

SPS TECHNOLOGIES WATERFORD COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

January 31, 2014

NOTE G - Tax Status (continued):

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of January 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE H - Information Certified by the Trustee:

The Bank of New York Mellon, the Trustee, holds all investments and executes all transactions on behalf of the Plan. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan administrator has obtained certifications from the Plan trustee that information regarding the fair value and cost of all investments, plus all investment interest and dividend income and net appreciation (depreciation) in fair value of investments and gains and losses, is complete and accurate at December 31, 2013 and 2012, and for the years then ended. In addition, certain investment information included in Note F is provided by or compiled from information certified by the Bank of New York Mellon.

NOTE I - Exempt Party-in-Interest Transactions:

Certain administrative expenses of the Plan are paid directly by the employer, SPS Technologies Waterford Company.

Certain Plan investments are managed by the Bank of New York Mellon. The Bank of New York Mellon is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid by the Plan for the investment management services were not significant for the years ended January 31, 2014 and 2013.

NOTE J - Plan Amendments:

Effective July 7, 2009, the accrued benefit under the Plan of any participant whose Plan-covered employment was involuntarily terminated at any time between February 1, 2004 and January 31, 2010 is restored (if previously forfeited due to the termination of employment) and fully vested as of January 31, 2009.

Effective July 7, 2009, no ongoing benefit accruals under the Plan will be made after March 31, 2009 for any Company employee for a period of time while the employee is a highly compensated or highly compensated former employee will become a participant or resume accruals on rehire by the Company or transfer to an otherwise Plan-covered employment position after March 31, 2009.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

January 31, 2014

NOTE J - Plan Amendments (continued):

Effective July 7, 2009, Years of Vesting Service earned after termination of employment with the Company by a highly compensated employee or highly compensated former employee will not be counted in determining "Average Monthly Compensation" (as that term is defined in the Plan) for purposes of determining such participant's "Accrued Benefit" (as that term is defined in the Plan) after July 7, 2009.

Effective July 16, 2010, the accrued benefit under the Plan of any participant whose Plan-covered employment was involuntarily terminated at any time between February 1, 2009 and January 31, 2010 is restored (if previously forfeited due to the termination of employment) and fully vested as of January 31, 2010.

Effective December 31, 2009, the Plan no longer offers ancillary life insurance benefits.

Effective December 31, 2009, no ongoing benefit accruals under the Plan will be made after December 31, 2009 for any Company employee, and no Company employee will become a participant or resume accruals on rehire by the Company or transfer to an otherwise Plan-covered employment position after December 31, 2009.

Effective December 31, 2009, participant's accrued benefit determined as of December 31, 2009 will be frozen. Years of vesting service earned after December 31, 2009 will not be counted in determining "Average Monthly Compensation" (as that term is defined in the Plan) for purposes of determining such participant's "Accrued Benefit" (as that term is defined in the Plan).

The Plan was amended in 2012 to satisfy the benefit limitations required under section 436 of the Internal Revenue Code.

On June 25, 2013, the shareholders of SPS Technologies Waterford Company approved a resolution to merge the Company with an affiliate, SPS International Investment Company, effective as of the close of business June 30, 2013.

SUMMARY OF THE PLAN

Name

SPS Technologies Waterford Company Pension Plan (formerly the Terry Machine Company Pension Plan)

Effective Date

February 1, 1974. Amended and restated effective February 1, 2009.

Type of Plan

Trusteed plan with a corporate trustee, administered by a committee appointed by the Company's Board of Directors.

Employees Eligible to Participate

All employees who are not covered by a collective bargaining agreement will be eligible to participate. Collectively bargained employees are excluded unless the bargaining agreement specifically provides for participation. An eligible employee will begin participation on February 1 or August 1 coincident with or next following completion of one Year of Eligibility Service and attainment of age 21. Effective December 31, 2009, no new entrants shall be eligible to participate in the Plan.

Normal Retirement Date

A participant's normal retirement date shall be the first day of the month on or after the later of his 65th birthday or the fifth anniversary of the date on which the participant commenced participation in the plan.

Normal Retirement Benefit

A participant's Normal Retirement Benefit is a monthly pension for the life of the participant equal to 30% of the participant's Average Monthly Compensation, reduced by 1/10 for each year credited service is less than ten years.

Credited service was frozen effective December 31, 2009.

Average Monthly Compensation is the total of a participant's annual compensation during the first five consecutive years out of the participant's last 10 years of vesting service prior to December 31, 2009, divided by 60. If a participant has less than 10 years of vesting service as of December 31, 2009, his Average Monthly Compensation is based on his compensation from his employment date to December 31, 2009, provided that no more than the first 60 months are considered. Compensation is total wages, subject to the annual 401(a)(17) compensation limits.

Optional Forms of Benefit

If a participant is married at the time of his retirement and does not elect otherwise, he will receive his monthly benefit in a form which will pay him a reduced monthly benefit for his life and, upon his death, pay his spouse 50% of that amount monthly for the remainder of the spouse's life. A married participant may optionally select a life annuity or a spousal annuity, which continues 75% or 100% of a reduced amount to the spouse after a participant's death. A non-married participant will receive a life annuity.

Earliest Retirement Date

The first day of any month on or after the date on which a member attains age 55 and completes 10 Years of Vesting Service.

Amount of Early Retirement Pension

Basic Retirement Benefit reduced by 1/2% for each month that early retirement precedes his normal retirement date.

Disability Pension

A participant who becomes totally disabled will be eligible to receive an immediate monthly benefit equal to the vested portion of his accrued benefit, actuarially reduced for early commencement.

Preretirement Death Benefits

If a participant dies while an active employee and before his normal retirement age, his beneficiary may receive a lump sum death benefit or, if vested and married, his spouse may receive a surviving spouse's benefit. The lump sum benefit is generally the lesser of \$60,000 or 100 times the deceased participant's accrued benefit as of the January 31 immediately preceding the participant's death. The surviving spouse's benefit is the benefit that would have been payable to the spouse had the deceased participant terminated on the day of his death, survived to the earliest retirement date, retired under the 50% contingent beneficiary option, and died immediately.

If a vested terminated participant dies prior to commencing benefits, his beneficiary may receive the present value of the participant's vested accrued benefit, or if married, his spouse may receive a surviving spouse's benefit, as described above.

Vesting

A participant will be vested in their accrued benefit upon the earliest of:

- a) Completion of 5 years of vesting service.
- b) Attainment of normal retirement age.

A year of vesting service is earned for each plan year in which the participant worked at least 1,000 hours.

The accrued benefit is the normal retirement benefit based on Average Monthly Compensation on the determination date and assuming service to normal retirement, multiplied by the ratio of credited service over expected credited service if service continued to normal retirement.

Plan Changes

There were no changes to the Plan that were known to have a material impact on the valuation.

ACTUARIAL ASSUMPTIONS AND METHODS

Discount Rates

As selected by PCC, the rates for calculating the PPA Funding Target are the February 2013 segment rates. As prescribed by MAP-21, in 2013 these rates must be between 85% and 115% of the 25-year average rates published by the IRS.

- PPA Funding Target
 - Segment 1 payments under 5 years 4.94%
 - Segment 2 payments between 5 and 20 years 6.15%
 - Segment 3 payments after 20 years 6.76%
 - Effective Interest Rate 6.44%

Mortality

For calculating the Funding Target, mortality follows the RP-2000 annuitant and non-annuitant mortality tables for 2013 as prescribed by the IRS. However, due to the nature of the pre-retirement death benefit, computationally no deaths are assumed prior to retirement.

Retirement

Vested inactive participants are assumed to retire at age 62 if eligible for early retirement, otherwise at age 65. Future retirees are assumed to elect a single life annuity.

Future Participation and Service

No future years of service for the purpose of accruing benefits are assumed to be earned after December 31, 2009.

Probability of Marriage

100% of non-retired participants were assumed married. Spouses were assumed to be the same age as participants.

Administrative Expenses

It is assumed that the Plan's non-investment expenses will total \$50,000 annually, payable at the beginning of the year (adopted February 1, 2012).

Actuarial Value of Assets

For funding requirements, the Plan uses the 24-month average value of assets per IRS Notice 2009-22 (adopted February 1, 2009).

Actuarial Cost Method

We calculate the actuarial present value of benefits accrued as of the beginning of the plan year. This cost method is typically referred to as the Unit Credit method.

Changes In Actuarial Assumptions

- The discount rates and mortality assumption were updated as required and as described above.
