Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by John Hancock Life Insurance Company (U.S.A.), the insurance company of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the insurance company holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the insurance company as of and for the year ended December 31, 2013, that the information provided to the Plan administrator by the insurance company is complete and accurate.

Zenetex, LLC 401(k) Plan

Notes to Financial Statements

1. **Description of the Plan** The following description of the Zenetex, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Zenetex, LLC (the "Company") who are at least 18 years old, except for nonresident aliens, union employees, and leased employees. The Plan was amended effective January 1, 2013 to exclude interns and on-call employees as well. Employees may enter the Plan on the first day of the month subsequent to satisfying the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute from one percent up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). The Plan provided for automatic enrollment. Prior to January 1, 2013, any newly eligible employee who had not affirmatively elected to contribute to the Plan or had not affirmatively declined to participate in the Plan was automatically enrolled in the Plan with a three percent withholding of pretax annual compensation. Effective January 1, 2013, the Plan was amended to remove automatic enrollment. The Plan allows for discretionary matching contributions. During 2013, the Company contributed 25 percent of the first six percent of compensation that a participant contributed to the Plan. Profit sharing amounts may be contributed at the discretion of the Company. Participants must complete at least 1,000 hours of service during the Plan year and be employed on the last day of the Plan year to receive an allocation of any discretionary profit sharing contribution. There were no such contributions for the Plan year ended December 31, 2013. The Plan provides for Company prevailing wage contributions on behalf of all Service Contract Act ("SCA") employees. The amount of the contribution shall be equal to the balance of the fringe benefit payment for each SCA participant based on the employment classification hourly contribution rate reduced by the amount of benefits provided by the Company. Contributions are subject to certain limitations.

Investment options: Participants may direct the investment of their account balance into various investment options offered by the Plan. The Plan currently offers 47 pooled separate accounts as investment options for participants. Participants may change their investment directions at any time, subject to such restrictions and procedures as established by the recordkeeper, Plan and Company.

Zenetex, LLC 401(k) Plan

Notes to Financial Statements

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's discretionary matching contributions, if any, as well as allocations of the Company's discretionary profit sharing contribution, if any and Plan earnings. Investment earnings and losses are allocated based upon the investment performance of each investment in the participant's account. Allocations of the Company's discretionary profit sharing contributions, if any, are based on the ratio of the participant's compensation to total compensation for the Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited accounts: At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$12,401 and \$2,464, respectively. These accounts will be used first to pay Plan expenses and then to reduce future Company contributions. During 2013, \$2,614 was used to pay Plan expenses. No forfeited nonvested accounts were used to reduce Company contributions.

Payment of benefits: Benefits are payable upon retirement at age 65, disability, death, or termination of employment. Hardship withdrawals and in-service withdrawals at age 59 1/2 are also permitted, subject to provisions described in the Plan document. Withdrawals from rollover contributions are permitted at any time. Benefits are payable in lump sum payments.

Vesting: Participants are vested immediately in their contributions and prevailing wage contributions plus actual earnings thereon. Vesting in the Company matching and profit sharing contributions is based on years of continuous service of at least 1,000 hours per year. A participant is 25 percent vested after one year of service is completed, and vests an additional 25 percent per year until full vesting after four years.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or longer as determined by the Plan administrator for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest. Principal and interest are paid through payroll deductions.

Administrative expenses: Certain expenses of maintaining the Plan are paid by the Company. Transaction expenses, such as loan and distribution administration fees are charged directly to the participant's account and are included in administrative expenses.

2. Significant accounting policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Investment contracts held by a defined contribution plan, either directly or as an underlying asset, are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The John Hancock Stable Value Fund investment of the Plan invests solely in the John Hancock Stable Value Fund Collective Investment Trust which contains underlying fully benefit-responsive investment contracts. At December 31, 2013, the John Hancock Stable Value Fund is reported at contract value, which approximates fair value. The Statement of Net Assets Available for Benefits as of December 31, 2012 presents the fair value of the John Hancock Stable Value Fund investment as well as the adjustment of the investment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of investments are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Prepaid contributions: Amounts received by the Plan prior to year end related to periods after year end have been recorded as prepaid contributions.

Payment of benefits: Benefits are recorded when paid.

Notes to Financial Statements

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Reclassifications: Certain 2012 balances have been reclassified to conform with the 2013 presentation.

Subsequent events: The Plan has evaluated subsequent events for disclosure in these financial statements through October 31, 2014, which is the date the financial statements were available to be issued.

4. **Fair value measurements** The Plan reports its assets at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The fair value of the units of pooled separate accounts is based on the net asset value ("NAV") on the last business day of the Plan year provided by the insurance company.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Zenetex, LLC 401(k) Plan

Notes to Financial Statements

The investment objective of the asset allocation accounts is to seek a high level of current income and growth of capital. The conservative accounts seek to preserve principal and provide for liquidity while maintaining a competitive rate of interest. Income accounts seek to maximize total return consisting of current income and capital appreciation. Growth and income accounts seek long term growth of capital and income. Growth and aggressive growth accounts seek long term growth and capital appreciation.

Investments in the pooled separate accounts can be redeemed immediately at the current net asset value to meet participant-initiated withdrawals. John Hancock may delay any participant-initiated withdrawal from the John Hancock Stable Value Fund for up to thirty days if immediate withdrawal would have an adverse impact on the fund. Up to twelve months advance written notice may be required prior to sponsor redemption of the John Hancock Stable Value Fund, determined by John Hancock. There are no other withdrawal limits, redemption frequency limits or redemption notice periods. There were no unfunded commitments for these investments as of December 31, 2013 and 2012.

There were no transfers between level 1, level 2, and level 3 investments during the year ended December 31, 2013.

|-----------------------------------|---|
| 5. Risks and uncertainties | The Plan provides for investments in various securities that are exposed to risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in future statements of net assets available for benefits. |
| 6. Plan termination | Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts. |

Notes to Financial Statements

- 7. Tax status** The Plan is a prototype plan of Duncan Financial Group LLC which received an opinion letter on March 1, 2009, in which the Internal Revenue Service ("IRS") stated that the form of the Plan document was acceptable under the applicable requirements of the Internal Revenue Code ("IRC"). Although, the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2010.

- 8. Party-in-interest transactions** Certain Plan investments are managed by affiliates of John Hancock Life Insurance Company (U.S.A.) ("John Hancock"). John Hancock is the insurance company as defined by the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid to John Hancock and the Plan's recordkeeper, Duncan Financial Group LLC, amounted to \$5,213 and \$15,269, respectively, for the year ended December 31, 2013.

- 9. Reconciliation to Form 5500** The following is a reconciliation of amounts in the financial statements to Form 5500 as of December 31, 2013 and 2012 and for the year ended December 31, 2013:
