INDEPENDENT AUDITORS' REPORT

To the Trustees and Participants of the
Employee Retirement Plan of
General Re Corporation and Its Affiliates
Stamford, Connecticut

We have audited the accompanying financial statements of the Employee Retirement Plan of General Re Corporation and Its Affiliates (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2011, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2012, and the changes therein for the year then ended and its financial status as of December 31, 2011, and the changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF PLAN

The following brief description of the Employee Retirement Plan of General Re Corporation and Its Affiliates (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined benefit pension plan covering the majority of the domestic employees of General Re Corporation, a wholly-owned subsidiary of Berkshire Hathaway Inc., and certain of its affiliates (the “Company”) who have completed one year of service and have reached age 21. Employees hired on or after September 4, 2003 are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

The Plan was amended and restated effective January 1, 2002 in order to comply with the requirements of the Economic Growth and Tax Relief Reconciliation Act of 2001.

Effective December 31, 2005, the benefits from the Plan were frozen. Since that date, employees do not earn any additional pension benefits under the Plan. Employees did not lose any benefits earned through December 31, 2005 and continue to earn credit for service after December 31, 2005 for early retirement eligibility but not for benefit accrual purposes. In addition, employees who were hired before September 4, 2003, with less than five years of service with the Company, became 100% vested in the Plan at December 31, 2005.

To replace the Plan, the Company makes additional contributions to employee accounts under the Employee Savings & Stock Ownership Plan of General Re Corporation (“ESOP”), a defined contribution plan.

Pension Benefits — Employees with five or more years of service are entitled to annual pension benefits beginning at the later of age 65 or the fifth anniversary of the date the employee first became eligible equal to 2% of their final average earnings for each of their first 25 years of credited service, plus 1% of their final average earnings for each year of credited service in excess of 25 years minus 2% of primary social security for each of their first 25 years of credited service. The Plan permits a reduced benefit for early retirement at ages 55 to 64. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. Vested benefits are insured by the Pension Benefit Guaranty Corporation (“PBGC”), a U.S. governmental agency (Note 8).

Funding — Contributions from the Company are actuarially computed under the entry age normal actuarial cost method by independent consulting actuaries. Contributions are designed to fund the Plan’s normal costs and amortization of any unfunded prior service cost on a current basis. Under this cost method, prior service costs are separately identified. The Company’s contributions comply with the funding requirements of ERISA; no contributions were required for the 2012 or 2011 Plan years.

Master Trust — Effective January 1, 1995, the Plan was amended and restated to establish a master trust, the General Re Group Employee Retirement Master Trust (the “Master Trust”), for the investment of assets of the Plan and for the retirement plan of United States Aviation Underwriters, Inc., a subsidiary of General Re Corporation. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Bankers Trust Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of changes in net assets available for plan benefits during the reporting period. These estimates include the actuarial present value of accumulated plan benefits and fair values of investments. Actual results could differ from those estimates.

Valuation of Investments — The Plan’s interest in the investments of the Master Trust is stated at fair value which is based on the beginning of the year value of the Plan’s interest plus actual contributions and allocated investment income (including realized and unrealized gains and losses) less actual distributions and allocated administrative expenses (Note 3).

The value of the Master Trust is based on the fair value of the underlying securities. Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan year. Investments traded in the over-the-counter market and listed securities for which no sale was reported on the last business day of the year are valued at the mean between the last reported bid and asked prices.

Purchases and sales of investments are recorded as of the trade date. Interest income is recorded as earned on an accrual basis. Dividend income is recorded on the ex-dividend date. The net appreciation (depreciation) in the fair value of investments as reported by the Master Trust consists of realized and unrealized gains and losses on investments (Note 4).

Risks and Uncertainties — The Plan, through its interest in the investments of the Master Trust, invests in various securities including U.S. Government securities, corporate debt instruments, mortgage-backed securities, and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefit payments — Benefit payments to participants are recorded upon distribution.

Expenses — Administrative expenses, primarily consulting fees, are paid by the Master Trust and allocated to the individual plans. Other administrative expenses are paid by the Company.

New Accounting Standards — The accounting standard initially adopted in 2012 is described below.

ASU No. 2011-04 — The financial statements reflect the prospective adoption of FASB Accounting Standards Update (“ASU”) No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, which amends ASC 820, as of the beginning of the year ended December 31, 2012 (see Note 3). ASU 2011-04 is effective for financial statements issued for fiscal years beginning after December 15, 2011 and expands certain disclosures about fair value measurement. The ASU requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. It provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The effect of the adoption of ASU 2011-04 had no impact on the Plan’s statement of net assets available for benefits and statement of changes in net assets available for benefits.

3. FAIR VALUE MEASUREMENTS

In accordance with ASC 820, the Master Trust classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Investments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques — Valuation technologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common Stocks — Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate Bonds — Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available.

U.S. Government Securities — Valued using pricing models maximizing the use of observable inputs for similar securities.

Cash Equivalents — Held primarily in short-term money market commingled funds, which are valued at cost plus accrued interest.

Mortgage-backed obligations — The fair value is based on whether the security is liquid and available quotes and trades in the market. Additionally, other factors considered are the structure, age, quality, burnout rate and other qualitative factors that can influence the price.

The following table sets forth by level within the fair value hierarchy a summary of the Master Trust's investments measured at fair value on a recurring basis at December 31, 2012 and 2011.

Master Trust Assets Fair Value Measurements at December 31, 2012				
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Common stocks	\$ 255,987,116	\$ -	\$ -	\$ 255,987,116

Mortgage-backed securities	-	26,461,254	-	26,461,254
Short-term investments	1,403,187	-	-	1,403,187
Total Pension Master Trust	<u>\$ 293,047,647</u>	<u>\$ 99,856,114</u>	<u>\$ -</u>	<u>\$ 392,903,761</u>

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels for the years ended December 31, 2012 and 2011.

4. INTEREST IN MASTER TRUST

At December 31, 2012 and 2011, the Plan's interest in the net assets of the Master Trust was approximately 90.1% and 88.6% respectively. The Plan has an undivided interest in the Master Trust. The Plan's interest in the net assets of the Master Trust is determined monthly based on aggregate contributions to the Plan plus investment income allocated to the Plan by the Master Trust less benefit payments and administrative expenses related to the Plan.

The net assets of the Master Trust at December 31, 2012 and 2011 are summarized as follows:

	December 31,	
	2012	2011
Cash:	\$ 4,047,675	\$ -
Investments at fair value:		
U.S. Government and agencies securities	48,392,869	57,484,117

Plan's interest in net assets of the Master Trust	<u>\$ 374,798,438</u>	<u>\$ 349,725,865</u>

The investment income for the Master Trust for the years ended December 31, 2012 and 2011, was as follows:

	Year Ended December 31,	
	2012	2011
Net appreciation (depreciation) in fair value of investments:		
U.S. Government and agencies securities	\$ 1,693,646	\$ 4,877,645
Corporate bonds and debentures	3,994,144	5,994,439
Mortgage-backed securities	944,581	112,161
Common stocks	24,459,775	(662,182)

Dividends	6,027,867	4,883,421
Total investment income	<u>\$ 43,075,036</u>	<u>\$ 21,002,989</u>

The Master Trust's investments, which represented 5% or more of the Master Trust's net assets as of December 31, 2012 and 2011, are as follows:

	2012	2011
Ishares S&P Midcap 400	\$ 27,570,870	\$ 27,343,081
SPDR S&P Midcap 400 EFT Trust	28,190,778	27,831,005

5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during 36 consecutive months of employment in which earnings were the highest.

The accumulated plan benefits for active employees are based on their estimated annual salary and service history as of the valuation date. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by independent consulting actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (as a result of decrements such as for death, withdrawal, disability, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2011 was:

Life expectancy of participants	RP-2000 Mortality Table
Average retirement age	62
Interest rate	6.50 %

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated July 12, 2012, that the Plan and related Master Trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). The plan administrator and the Plan’s tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or U.S. Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. EXEMPT PARTIES-IN-INTEREST TRANSACTIONS

The assets of the Master Trust are managed by General Re New England Asset Management, a wholly-owned subsidiary of the Company. The Company pays asset management fees on behalf of the Plan.

Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation, record keeping and financial reporting of the Plan. The Company pays these individuals’ salaries and also pays other administrative expenses on behalf of the Plan. Certain fees, to the extent not paid by the Company, are paid by the Plan.

These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory and administrative exemptions from the IRC and ERISA’s rules on prohibited transactions.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to amend or modify Plan provisions, discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Benefits which provide retirement for participants, vested former participants, spouses, dependent children, retired participants or joint and survivor annuitants who were receiving benefits or were eligible to receive benefits at least three years prior to termination of the Plan based on Plan provisions in effect five years prior to the date of the Plan's termination.
- b) Other vested benefits which are insured by the PBGC up to the applicable limitations as described below.
- c) All other vested benefits which are not insured by the PBGC.
- d) All other accrued benefits for participants who were not vested.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed by the PBGC at the level in effect on the date of the Plan's termination, subject to a statutory ceiling. For Plan terminations occurring during 2012, the ceiling, which is adjusted periodically, is \$4,653 per month for each participant.

The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

9. SUBSEQUENT EVENTS

Subsequent events were evaluated through September 4, 2013, the date the financial statements were available to be issued. The Plan did not have any subsequent events requiring disclosure in or adjustment to the financial statements.

Methods

Valuation date	First day of plan year
Funding target	<p>Present value of accrued benefits</p> <p>The IRC §430 regulations describe the required methodology for attributing benefits among Funding Target, current year Target Normal Cost, and future years' Target Normal Costs for disability benefits, Social Security benefits, death benefits and other ancillary benefits. For most such benefits, the required attribution methodology is clear. If the plan includes any benefits for which the attribution methodology was not clear, and the regulations required interpretation, consider describing the benefit and the attribution methodology used.</p>
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2011 plan year).
Benefits not valued	<p>Benefits that are described in the Plan Provisions section of this report that were not valued are the pre-retirement death benefit payable to dependent children and the minimum benefit for certain employees, for which no cost was assumed. It was also assumed that the cost of the elective pre-retirement death benefit for terminated vested employees would be offset by benefit reductions that are applied.</p> <p>Based on discussions with Gen Re, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs. Towers Watson has reviewed the plan provisions with Gen Re and, based on that review, is not aware of any significant benefits required to be valued that were not.</p>
Change in assumptions and methods since prior valuation	<p>The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of January 2011 to January 2012.</p> <p>The segment rates used to determine minimum funding requirements and benefit restrictions were revised by applying the corridors of MAP-21.</p> <p>The lump sum settlement rate was changed from 6.10 to 7.14%.</p>

Other Plan Provisions

Forms of payment	<p>Preretirement spouse/dependent children benefits are payable only as described above. The normal form of payment of retirement benefits is a reduced 50% joint and survivor annuity for married participants and a single life annuity for single participants. In lieu of the normal form of payment, a participant may elect a life annuity, 50%, 75%, 100% joint and survivor annuities or a level income annuity. Spousal consent is required for married participants. A lump sum option is also available at retirement.</p> <p>A vested participant who is terminating from active service, a surviving spouse or dependent child of a participant who died in active service prior to Normal Retirement Date, or a surviving joint annuitant may also elect a lump sum option if the actuarial equivalent value of the benefit is less than \$14,000. If the actuarial equivalent value of any benefit is less than \$5,000 the lump sum is automatically payable without the participant's or beneficiary's consent.</p> <p>The lump sum option is converted using the IRS 417(e) government mandated basis.</p> <p>The other optional forms are converted using the IRS prescribed 417(e) Unisex mortality table with an interest rate of 7%.</p>
Pension Increases	None
Plan participants' contributions	None
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Towers Watson is not aware of any future plan changes which are required to be reflected.

Changes in Benefits Valued Since Prior Year

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
