NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Contemporary Services Corporation (the "Company") 401(k) Profit Sharing Plan and Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of the Company who have attained 21 years of age. Employees are eligible to participate in the Plan after one year of service, provided they worked at least 1,000 hours during the prior twelve months. Plan entrance dates are January 1st and July 1st of each Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and was amended and restated effective January 1, 2011. The Plan was amended again on June 1, 2012 upon change in the trustee from Mid Atlantic Trust Company to State Street Bank and Trust Company.

Contributions: Each participant may contribute up to 90% of annual compensation, as defined by the Plan and subject to certain limitations. Catch-up contributions for certain eligible participants are also permitted. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes an amount equal to 100% of participant contributions for the first 3% of the participant's compensation, plus 50% of participant contributions between 3% and 5% of participant compensation to the matching contributions account of each participant. Additional discretionary profit-sharing contributions may be contributed to the Plan at the option of the Company's Board of Directors. The Company's allocation of discretionary contributions is based on each qualifying participant's compensation for the Plan year. No discretionary profit-sharing contributions were approved for 2013. Participants direct the investment of their contributions and their employer contributions, if any, into various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with the participant's contributions, individual account earnings or losses, the Company's matching contributions and an allocation of the Company's discretionary profit sharing contributions, if any. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Forfeitures: Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions.

Vesting: Participants are immediately vested in their contributions, plus actual earnings thereon. Participants are also immediately vested in the Company's matching contributions, plus actual earnings thereon. The Company's discretionary contributions and related investment earnings vest as follows:

Years of Service	Vesting Percentage
Less than 2 years	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Upon death or disability, participants are immediately vested in the Company's discretionary contributions.

(Continued)

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits: Upon termination of service due to death, disability or retirement, a participant may elect to receive the value of the vested interest in his or her account in the following forms: lump-sum or installment payments. Upon meeting certain eligibility requirements, participants may also elect to receive an in-service withdrawal.

Upon termination of employment, a participant may have the vested benefits disbursed through a lump sum cash distribution or transferred to another qualified plan. If the vested value of the participant's account exceeds $5,000, the participant may elect to keep the account in the Plan and maintain his or her account in any of the Plan's investment options.

Notes Receivable from Participants: Participants may borrow from their fund accounts up to a maximum of the lesser of $50,000 or 50% of their vested account balance. The notes are made on a uniform and non-discriminatory basis, are secured by the participant's account, bear a reasonable rate of interest, and have a defined repayment schedule. Principal and interest are paid through payroll deductions.

Administrative Expenses: Loan origination fees associated with notes receivable from participants and the Plan's recordkeeping fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, since contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a collective trust fund. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

(Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 – RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer discretionary contributions and earnings thereon.

NOTE 4 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by State Street Bank and Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 – INVESTMENTS

The following presents the fair values of investments that represent 5% or more of the Plan's net assets available for benefits as of December 31:

(Continued)

NOTE 5 – INVESTMENTS (Continued)

During 2013, the Plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $478,122.

NOTE 6 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Stable Value Fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (Level 2 inputs). The fund invests in separate account contracts and conventional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. The fund provides for daily redemptions, with no advance notice requirements, at reported net asset value per share.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. Amounts paid by the Plan to parties-in-interest for investment management and administrative services qualify as party-in-interest transactions. Notes receivable from participants held by the Plan are considered party-in-interest transactions.

NOTE 8 – INCOME TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.
