Notes to Financial Statements

December 31, 2013 and 2012

Note 1 - Description of plan:

The following description of the Gentiva Health Services Per Diem Employee 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan sponsor is Gentiva Health Services, Inc. and certain subsidiaries (the Company or Plan Administrator). The Plan is a defined contribution plan covering substantially all employees of the Company designated as "per diem" associate employees who have completed 250 hours of service in a calendar quarter or 1,000 hours of service in the first 12 months of service. Employees considered highly compensated, as defined by the Plan document, or employees covered by a collective bargaining agreement are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors (Board) is responsible for oversight of the Plan. The Benefit Plan Administration Committee (Benefit Committee) determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board.

Contributions

Prior to April 1, 2013, participants could contribute from 1% to 100% of pretax compensation (up to 100% on a pre-tax basis and up to 20% on an after-tax basis) or any combination thereof, as defined in the Plan document subject to Internal Revenue Code (IRC) limitations and the minimum or maximum percentages set forth in Schedule A of the Plan document. Effective April 1, 2013, the maximum contribution percentage was amended to 75%. Effective January 1, 2012, the Plan document was amended revising the definition of compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who have attained age 50 or older before the end of the Plan year are eligible to make catch-up contributions. The Company, based on the discretion of the Board or the Benefits Committee, can make supplemental Company contributions for the Plan year. There was no supplemental Company contribution made for the year ended December 31, 2013. During 2013, the Company made a Qualified Non-Elective Contribution in the amount of \$6,435 to correct a Plan operational error.

Upon enrollment in the Plan, a participant may direct employee and Company contributions in 1% increments to any of the Plan's investment options. Participants may change their investment options daily.

Note 1 - Description of plan - continued:

Participant accounts

Each participant's account is credited with the participant's contributions and an allocation of the Company's supplemental contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in both their employee and supplemental Company contributions plus actual earnings thereon.

Payment of benefits

A participant is entitled to receive a lump-sum amount equal to the vested value of his or her account upon attainment of age 59½, termination of service, retirement, disability, or death. Participants may withdraw after-tax and rollover contributions and earnings thereon at anytime. A participant may request a withdrawal from the Plan while still under the employment of the Company for reasons of financial hardship, but the withdrawal is limited to the amount of the participant's pre-tax contributions.

Notes receivable from participants

The Plan does not allow notes receivable from participants.

Administrative expenses

Certain expenses of maintaining the Plan, including audit fees, are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay, administrative costs in the future. Investment related expenses are included in net appreciation of fair value of investments.

Note 2 - Summary of significant accounting policies:

Basis of presentation

The Plan has adopted the Financial Accounting Standards Board (FASB) Codification (Codification). The Codification is the single source of authoritative generally accepted accounting principles in the United States of America (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities. All of the Codification's content carries the same level of authority.

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with U.S. GAAP.

Fully benefit-responsive investment contract

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents the cost plus contributions made under the contracts plus interest at the contract rates less withdrawals and administrative expenses. This specifically affects the presentation of the amounts related to the Plan's participation in the common collective trust fund. The statements of net assets available for benefits present the fair value of the investment in the common collective trust fund as well as the adjustment from fair value to contract value for the Plan's proportionate share of fully benefit-responsive investment contracts within the common collective trust fund. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee.

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition - continued

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification No. 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition - continued

The following is a description of the valuation methodology used for assets and liabilities measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

- Mutual funds are valued at the net asset value of shares held by the Plan at year-end by obtaining quoted prices on nationally recognized securities exchanges.
- Units of participation of the common collective trust fund are valued by the fund's trustee based on the fair values of the underlying assets of the fund at year-end. The fund invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity. The Benefits Committee has determined the common collective trust fund to be a Level 2 investment.

The methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Benefit payments

Benefit payments are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through September 17, 2014, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2013, have been incorporated into these financial statements.

Note 3 - Investments and information certified by the trustee:

Charles Schwab Bank (Schwab) is the trustee for the Plan. Schwab holds the Plan's investment assets and executes investment transactions. Other than the adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest income on notes receivable from participants, and interest and dividends for the year ended December 31, 2013, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Schwab.

Note 6 - Tax status:

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 1, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Company and Plan management believe that the Plan is currently designed and being operated in accordance with the applicable requirements of the IRC and therefore, is qualified and the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. No provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2010.
