GENTIVA HEALTH SERVICES RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Note 1 - Description of plan:

The following description of the Gentiva Health Services Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan sponsor is Gentiva Health Services Inc. and certain subsidiaries (the Company, Plan Sponsor or Plan Administrator). Effective January 1, 2012, the Company restated the Plan and merged the Odyssey 401(k) Plan (Odyssey) into the Plan. The Plan is a defined contribution plan covering substantially all employees of the Company who meet the following requirements: (a) non-clinical and not highly compensated, as defined under the Internal Revenue Code (IRC), (b) all clinical employees without regards to the highly compensated limit defined under the IRC, (c) does not participate in the Gentiva Health Services Per Diem Associate 401(k) Plan, (d) an employee whose services for the Company do not represent revenue received as a direct reimbursement for services performed by the employee, (e) not a union employee, and (f) not a leased employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors (Board) is responsible for oversight of the Plan. The Benefit Plan Administration Committee (Benefit Committee) determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board.

Contributions

Prior to April 1, 2013, participants could contribute from 1% to 100% of pretax compensation (up to 100% on a pre-tax basis and up to 20% on an after-tax basis) or any combination thereof, as defined in the Plan document subject to IRC limitations and the minimum or maximum percentages set forth in Schedule A of the Plan document. Effective April 1, 2013, the maximum contribution percentage was amended to 75%. Effective January 1, 2012, the Plan document was amended, revising the definition of compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who have attained age 50 or older before the end of the Plan year are eligible to make catch-up contributions. The Company may make discretionary matching and/or profit sharing contributions. For 2013, the Company made discretionary matching contributions of 50% of the first 5% of eligible compensation that participants contributed to the Plan. The Company did not fund discretionary profit sharing contributions for 2013.

Note 1 - Description of plan - continued:

Contributions - continued

Upon enrollment in the Plan, a participant may direct employee and Company contributions in 1% increments to any of the Plan's investment options. Participants may change their investment options daily.

Participant accounts

Each participant's account is credited with the participant's contributions, an allocation of the Company's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contributions and earnings thereon is based on years of continuous service.

Participants become vested in Company matching and profit sharing contributions in accordance with the following schedule:

<u>Completed Years of Service</u>	<u>Percentage Matching Contributions Vested</u>
1	0%
2	40%
3	60%
4	80%
5 or more	100%

Participants are immediately vested upon termination of the Plan, upon reaching the normal retirement age of 65, or upon disability or death while an employee of the Plan Sponsor. Forfeitures of terminated participants' non-vested accounts are used to reduce future Company contributions.

Notes to Financial Statements - Continued

December 31, 2013 and 2012

Note 1 - Description of plan - continued:

Payment of benefits

A participant is entitled to receive a lump-sum amount equal to the vested value of his or her account upon attainment of age 59 ½, termination of service, retirement, disability or death. A participant may request a withdrawal from the Plan while still under the employment of the Company for reasons of financial hardship, but the withdrawal is limited to the amount of the participant's pre-tax contributions and earnings thereon.

Notes receivable from participants

Participants may borrow from the Plan in any amount greater than \$1,000 up to 50% of the participant's vested account balance, not to exceed \$50,000. Note terms are for a period not exceeding five years unless for the purchase of a principal residence, in which case the note repayment period may be extended to a reasonable period of time. Notes are secured by the balance in the participant's account and bear interest at an agreed-upon percentage based on prevailing market rates. Principal and interest is paid ratably through payroll deductions. Participants are allowed two outstanding notes.

Administrative expenses

Certain expenses of maintaining the Plan, including audit fees, are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay, administrative costs in the future. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Forfeitures

The Plan provides that forfeitures will serve to reduce future Company contributions. Total forfeitures outstanding at December 31, 2013 and 2012, totaled \$69,805 and \$49,606, respectively. During the year ended December 31, 2013, forfeitures of \$543,798 were used to reduce Company contributions.

Note 2 - Summary of significant accounting policies:

Basis of presentation

The Plan has adopted the Financial Accounting Standards Board (FASB) Codification (Codification). The Codification is the single source of authoritative accounting principles generally accepted in the United States of America (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities. All of the Codification's content carries the same level of authority.

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with U.S. GAAP.

Fully benefit-responsive investment contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents the cost plus contributions made under the contracts plus interest at the contract rates less withdrawals and administrative expenses. This specifically affects the presentation of the amounts related to the Plan's participation in the common collective trust fund. The statements of net assets available for benefits present the fair value of the investment in the common collective trust fund as well as the adjustment from fair value to contract value for the Plan's proportionate share of fully benefit-responsive investment contracts within the common collective trust fund. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee.

Notes to Financial Statements - Continued

December 31, 2013 and 2012

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition - continued

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification No. 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

December 31, 2013 and 2012

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition - continued

The following is a description of the valuation methodology used for assets and liabilities measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

- Mutual funds (or shares of registered investment companies) are valued at the net asset value of shares held by the Plan at year-end by obtaining quoted prices on nationally recognized securities exchanges.
- Units of participation of the common collective trust funds are valued by the fund's trustee based on the fair values of the underlying assets of the fund at year-end. The fund invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity. The Benefits Committee has determined the common collective trust fund to be a level 2 investment.

The methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements - Continued

December 31, 2013 and 2012

Note 2 - Summary of significant accounting policies - continued:

Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Benefit payments

Benefit payments are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through September 17, 2014, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2013, have been incorporated into these financial statements.

Note 3 - Investments and information certified by the trustee:

Charles Schwab Bank (Schwab) is the trustee for the Plan. Schwab holds the Plan's investment assets and executes investment transactions. Other than the adjustment from fair value to contract value for fully benefit-responsive investment contracts, information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest income on notes receivable from participants, and interest and dividends for the year ended December 31, 2013, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Schwab.

The following is a summary of investments, at fair value, that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012:

	<u>2013</u>	<u>2012</u>

Note 4 - Related-party transactions:

Schwab performs services for the Plan, sells products to the Plan, and manages and maintains investments of the Plan for which fees are charged to the Plan. These types of transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules.

Note 5 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 - Tax status:

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 6, 2013, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. However, the Plan has been amended since receiving the determination letter. The Company and Plan management believe that the Plan, as amended, is currently designed and being operated in accordance with the applicable requirements of the IRC and therefore is qualified and the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. No provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed tax positions taken by the Plan, and has concluded that, as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.
